Here's one you might like to work?
Bob.
VK2SOB

On the 2nd of January 2007 the quiet Victorian country town of Elmore had a population explosion by a factor of 10 as it became host to around 13,000 Scouts and 8000 leaders and assistants attending the 21st Australian Scout Jamboree called AJ2007. The 12 day Jamboree being held at the Elmore field day grounds comes complete with it's own police station, hospital, fire station, FM radio station, multiple rock stages and of course hundreds of amazing activities for 13,000 energetic Scouts.

Taking prime location near the center of the Jamboree site is the Scout Radio and Electronic Service Unit's amateur radio station VI3JAM. Visually locatable from just about anywhere within the site (due to it's enormous antennas and masts), visiting Scouts have already kept VI3JAM active and on the air since early Tuesday morning. "The Jamboree has only just started and we have had so many contacts within Australia and overseas, it's just been fantastic. All the station equipment is working perfectly and the Scouts have just been having a ball" said station manager Hayden McManus VK3FRST

The 5X1RI operation has NOT been approved for DXCC
credit as of this morning, Jan 4, 2007.
In a reply to my email, Bill Moore, NC1L, told me this
operation had not yet been approved. He did say "I have been in
contact with the manager and we should have it resolved soon."
So wait until the official announcement is made by the DXCC
desk before submitting this card for credit.

NEW AMATEUR RADIO ORGANIZATION -

We are pleased to inform that the licensed radioamateurs of Mongolia had conference on 18th of November 2006 and established a new organization.
The name of new organization is Mongolian Amateur Radio Soceity (MARS).
MARS will officially represent Mongolia to the IARU and all Amateur Radio Societies.
MARS hopes that we can co-work together in the future.
Once, all licensed amateur radio operators of Mongolia have switched their membership from MRSF to MARS, we hope that we can change the name and keep IARU membership. MARS will continue to pay it's due to IARU and the QSL bureau will be working permanently in the future.
Also, MARS will be providing Mongolian Amateur Radio Awards to the World's amateur radio operators.

If there is a question please feel free to contact us.

Hi John,

just downloaded #701. I'm a bit confused. You say, QSL route for T30XX is
via JA8BMK, but QRZ.com says via JA8UWT.
Can you please confirm the correct route? Many thanks!

Hi John

I guess that you didn't get my earlier mail about Z21CA as I see that
the latest revision of the GOLIST is still showing the QSL route as via
myself.

I am not and never have been the QSL manager for Z21CA.

Please amend your records accordingly.

*Hi Andreas,
I have just received a confirmation back from JA8BMK.
He advises that altough he is the operator , the qsl manager
is JA8UWT.
I am changing my record to correct the manager.
Thanks for the note.

This is going to upset the contesters as many of the RTTY

From: "VK?LD" <vk0ld@...>

Hi All,

I am now back home in Perth after my stint at Patriot Hills working on the comms facilities. The camp now has a proper comms / meteorological cabin as opposed to setting things up in a tent every season (a BIG plus). It's even heated and double glazed (luxury!!!) Adam K2ARB has been doing a really great job as the Comms Operator under sometimes very difficult conditions and long working hours. He will be there until the camp closes for the year at the end of January, so still some chances to work him.

I also spent about 10 days at Vinson Base Camp, about 120 miles North West of Patriot Hills. I was hoping to activate from this location as CE9/VK0LD (Adam & I got the reciprocal licences in Santiago on the way in), but HF condx were unfortunately absolutely atrocious from this QTH. A 50 W Solar Powered VHF repeater was installed near the summit of Mt. Vinson though for anyone who is into VHF Auroral Propagation or Moonbouce HI ;O) !!

I don't have any information about the R7C crew, except to mention that operation from Patriot Hills & South Pole is likely to be very limited due to various operational & time constraints.

The main rig at Patriot Hills is now an Icom 746 into the Vee beam pointing more or less N-S and Adam's been pretty active as work & propagation conditions permit. Adam also has his own IC7000 with him (nice rig !!!!)

Unfortunately, we had the large solar flare in November which severely affected HF propagation in the deep South, nevertheless I managed a few CW contacts as VP8PJ from Patriot Hills. VP8PJ QSLs still being handled by Dominik DL5EBE.

Guys

I've just received this e-mail from James, 9J2CA for whom I act as QSL manager and who is one of only 2 (maybe 3) stations active from Zambia. I am sure we can all sympathise with his situation and frustration. I will be interested in any feedback or suggestions as to how James may be able to deal with the situation as it will be a great shame if he does decide to give up the hobby as a result of the bad behaviour of the minority.

"Sorry to have to complain AGAIN about very bad QRM from an Italian station (IT9KDB) which actually lead to him sending insults and abuse on top the station I was TRYING to copy (ZL1WN) the only ZL that I have TRIED to work on digi mode. (Olivia)

This mode gives virtually a 100% print, not unlike sending an e-mail, but without the expense of the Internet connection to send that e-mail, so there was no excuse for not being able to see that I was in the middle of a QSO and not wanting to have him repeatedly call me on top of the ZL. I was also sending the ZL's call several times to indicate the station being worked at the time.

I was getting very upset with this type of "rubbish" that is getting increasingly worse as the days go by and told this "fool" to QSY, get off the QRG, You are causing QRM, only have a full "blast" of Italian abuse, insults, the whole 9 yards on top of the final over that ZL1WN was trying to send; also no chance to work another weaker ZL that I think I heard under this nonsense that this station was causing.

I looked up the call on QRZ.COM and found an e-mail address (there is a picture of some kid playing with the radio equipment - probably reflects the mentality of the so-called operator) and sent of fairly "controlled" response/query to this character asking for explanation; just got back rubbish about not understanding English???

This is really getting too much now Phil and like most of the ZE's/Z2's that used to say the same thing some years ago; the reason why not many were not bothering with the "DX", that I'm finding the same thing now. This digi mode seems to have attracted the worst crowd as few of these EU's seem to understand English (they should be on VHF only) and use only the "macros" which have probably been set-up for them by someone who has the basic understanding. They only know that this macro is the first one to push, this macro is the second one to push and this is the sign-off one to push because if I were to "fire" a question at them, they are totally lost!!!

Getting on for time to work the ZS's only again - I went through a similar situation in 1985 and got fed up with this "big deal thing" to work DX and spent most of the time working ZS and local stations until coming up here to 9J - Land (except for the USA stations that were coming through on the Long Path and now not heard); pity! But this type of thing will discourage the few African stations from bothering with these DX stations all together - they will have to wait for the odd expat or AID worker that may be licensed to give them a QSO and a much sought after QSL card!!!

Sorry OM, but really, enough is enough; wish I had the money to be import some of the fantastic aircraft/boat modeling kits that I have seen on the Internet; hang up the keyboard/key/mic for 10 years or so!!"

It is an unpleasant fact, that Italy has more than it's fair share of bad operators.Combined with excellent
propagation to most parts of the world, it is easy to become a problem.

For James, it seems to me that working split would make sense. At least it will take some effort to find
out his QSX-frequency, which he may change for each qso !!

Encouraging Italy to stop dubbing English-language films would help, but I dont think we have enough
influence have that done ! hi

Working CW with QSX is another option. Then of course you get the problem from others who cannot behave
but keep calling and make QRM !

Life is not easy for a rare one !!

XT2C Diary
Ouagadougou, S unday Jan 7th, 17:30 utc

Hi all

Fist message from the XT2C crew - Hhotel Ok'inn in Ouagadougou.

Well arrived yesterday evening at 21:40, and late at the hotel after
midnight
because of a long time loss with the Custom services.

First night and first mosquitoes attacks. This morning we have settled
the first
part of the antennas. Three Spiderbeams , included one for Warc bands.
Mounting
the third one is quickier than for the first one... The 40 and 80m
antennas are
on service too.

The 160 meters will be settled to day monday and also will be the last beam.

Bernard F9IE begun on Sundayon 20m SSB, followed by Jean-Paul F8BJI on 17m
RTTY, then G?rard F2VX took the mike to give XT2 to the SSB'rs.
Since yesterday two other stations were active and now at night 4 are ;
one in
CW, one in SSB, one in RTTY and one in PSK.
The last station will be settled to day monday.
Temperature over 30 C all the day and we "enjoy" o lot of dust clouds, very
much.

More info to follow from Burkina.

They had an outstanding signal on 40m CW last night here. Peaking S9.
The SMOM station, by comparison, was S1 at best at the same time just
down the band.

The op seemed to be having problems, though. He'd frequently call CW
several times and also would frequently just disappear, to be calling CW
again several minutes later. Hopefully everything is going OK and they
aren't getting eaten alive by the mosquitoes.

I am pleased to announce that I have recently acquired a copy of the log
for the XU7ABC operation by G3XAQ between 3rd and 6th May 2001.

Anyone still needing a card can apply for one via the usual channels,
i.e. direct with adequate return postage and SAE, e-mail for a bureau
reply or via the RSGB bureau.

I worked 9I40Z on 10/15/20 RTTY October/17/2004 and having tried twice direct to JL1NKC to get a card. This is my only RTTY Q with Zambia.

Anyone managed to get a confirm via JL1NKC? He has a JA address but a Zambia e-mail address (apparently).

I have also e-mailed him to no avail.

Hi folks,
I spoke with the US distributor for RAC yesterday and the
apparent reason for the delay of the call book cd's from the
factory has been due to some production problems.
A shipping time was not given, so we are still in the waiting
mode.

5276. [GOLIST] NEWS RELEASE

From: K1XN

Hi folks,

As of this morning, I've probably got about 25% of the card requests in the mail. Many more to do, so please be patient. The timing of the stuff I need to manage the QSL sending came at a bit of an inopportune time for me with other commitments, but I'm hammering them out.

A few notes:

-There were a number of QSOs that DID NOT make it in the initial logs that are on line. I've recently received a final update, and am checking the 'not in logs' thoroughly against these new logs. Unfortunately, this is going to slow me up a bit, but I want to make sure you get credit for as many QSOs as I can match!

-A number of you requested QSLs for other stations I manage. I've been able to finish many of these before the YX0 cards arrived, so that hasn't slowed me down...but for those of those I missed, this will slow the request down substantially. Please do not re-submit, as this just adds confusion.

-I'll be putting up the logs in LOTW, but this will be after I get the direct cards mailed, for a number of reasons.

I'll update as I get down the pile further.

73, and Happy New Year

Most likely LA3XI, who unfortunately is not a member of our national society, so you have to send direct QSL

I.C.P.O. Bulletin (January 11 - 19, 2007)
Islands, Castles & Portable Operations.
Listing is by calendar date (day/month/year)
==========

11/01/2007: Karl, DK2WV is currently QRV as 3B8/DK2WV from Mauritius Island (AF-049) until January 20th. Activity is on all HF bands, with amplifier and dipole antenna, holiday style operation. QSL to home call via the bureau. [Tnx NG3K]

11/01/2007: Bone, PP5VX is currently from São Francisco do Sul (DIB SC-02 for the Brazilian Islands Award), Santa Catarina State North Group (SA-027) until December 31, 2010. He will be active on all bands and all modes. You can e-mail Bone for a sked at profsamy@.... QSL via the address at QRZ.com. [Tnx RSGB IOTA]

11/01/2007: Pavel/RA1OZ, Vlad/UA1OMP, Yuri/UA1OC, Boris/UA1ODM and Alex/UA1PAC will be active January 11-15th as RK1OZM/p from RDA district AR-10 (Mirny City - ZATO), Arkhangelskaya oblast (AR). They plan to operate on 80-20 metre CW, SSB and some digital modes with two stations. QSL via RK1OZM, direct or bureau. [Tnx 425 DX News]

11/01/2007: A group of operators from the Coastal Amateur Radio Association (www.whitehallrepeater.com) namely Steven/KG4WNL, Steve/KI4KRP, "Uncle Ted"/KG4RUM, Bill/KG4MQG, Ruben/KI4QFR and Bill/WA4GTC will be active on 7.273, 14.260, 18.128 and 21.373 MHz SSB as W4BWZ from Pine Island (not IOTA), Horry County, South Carolina from January 11-14th. QSL via KG4WNL (Steven English, PO BOX 677 Ravenel, S.C. 29470) with a SASE. [Tnx 425 DX News]

12/01/2007: Henry, LU4DXU, announced this past week that the Army Base "Almirante Brown" on Graham Land (AN-016, AA LU-02, WAP ARG-02) will be open between January 12th and March 10th. This very rare base is located 64.5South, 62.5West. No details were provided about a ham operator on base but more details are forthcoming. [Tnx OPDX]

12/01/2007: After having had fun on NA-219, Daniel/DL5YWM, will fly towards Lima, Peru, January 12th. During his spare time, he will be active as OA4/DL5YWM until January 31st. Activity will be on 160-10m CW and SSB. Daniel hopes to be able to activate some IOTA in Peru "So keep the fingers crossed"! QSL via DL5YWM. [Tnx Radioamateur.org]

13/01/2007: Look for Patrick, F8DYD/p, to activate the Mill of Angles sur l'Anglin (DMF 86-014), located in the City of Angles sur l'Anglin (CP 86260), canton of Saint Savin (DDCF 86-27), Department of Vienne (DDFM 86), Province of Poitou-Charentes (DPF 19) on January 13th. He also plans to activate the Castle of Angles sur l'Anglin (DFCF 86-002), which is located

in the same area. Activity will be on 80 and 40 metres, with the possibility of 10 metres (28386 kHz +/-). QSL via home call, direct or by the bureau. [Tnx F5NQL]

14/01/2007: Lennart, DL2BUE/p plans to activate Rauener Berge summit (SOTA DM/ND-007, 153m, 1 point), Northern Germany region, during the 10m DARC Contest (January 14th). Look for activity starting around 1000 UTC on 28.365 MHz SSB and 29.520 MHz FM. QSL via home call, direct or bureau. [Tnx SOTA U.K.]

14/01/2007: Roger, MW0IDX/p plans to activate Moel Siabod summit (SOTA GW/NW-010, 872m, 8 points, WW Loc. IO83AB), North Wales region on January 14th. Activity will start around 1200 UTC on 7.031, 10.117 and 14.061 MHz CW, also 145 MHz FM. QSL via home call, direct or bureau. [Tnx SOTA U.K.]

15/01/2007: Seth, J79XBI (SM0XBI), is flying to Dominica (NA-101) around January 15th and plans to test a new loop antenna designed especially for the low bands. QSL via SM0XBI, bureau preferred. [Tnx DXNL]

15/01/2007: Look for Ken, K4ZW, hopes to be signing JT1/K4ZW from Mongolia January 15-25th. Emphasis will be placed on the lowbands and in particular 160 metres. QSL via home call. [Tnx NG3K]

15/01/2007: A special permit to operate on 30 metres has been granted to the VU7RG expedition to the Lakshadweeps (January 15-25th). Due to the current poor conditions 30m will have high priority, since it will be one of the few bands to serve the most difficult regions, especially North America. VU7RG activity will be from Agatti, Bangaram and Kadmat Islands (AS-011). Bookmark and pay regular visits to www.vu7.in for further information and updates. SPECIAL NOTE: Dov, 4Z4DX/M0DOV, will be active from VU7RG on 160m, 80m and RTTY on 17m from January 18-25th. SKEDS ARE WELCOME BEFORE JANUARY 15th via: 4z4dx (at) iarc.org [Tnx 425 DX News]

15/01/2007: David, K3LP, is planning to be active from the Lakshadweep Islands (AS-011) as VU7/VU3RWO between January 15-25th. Activity will be mainly CW and SSB, with limited RTTY. He will use 2 SteppIR beams with 2 amplifiers. No other details were provided. Stay tuned! [Tnx OPDX]

16/01/2007: A special permit was granted by WPC (Indian Govt.) to operate from Minicoy Island (AS-106 - Asia #1 on Most Wanted IOTA List) which will be the fourth VU7RG Operation Site !!! The last operation from Minicoy Island took place decades ago and it was extremely difficult to obtain this additional permit. Once again NIAR and Bharathi VU2RBI made it possible again; first the special 30m permit and now Minicoy! You can expect 2-3 full equipped stations from Minicoy Island (SSB+CW), start date January 16th. For easy identification these Minicoy Stations will operate VU7RG / VU.... and will have assigned own bandslots, while Agatti, Bangaram and Kadmat Islands (AS-011) will use VU7RG. The www.vu7in web page will be updated with more details. [Tnx DL4KQ]

17/01/2007: Eric/F5LOW will be signing FM/HC/p from Saint Pierre, Martinique Island (NA-107, also count for WLOTA LH-1041) between January

17-26th. Holiday style operation in SSB and PSK, using Icom IC706 and vertical for all HF bands. QSL via home call, direct or by the bureau. [Tnx F5NQL]

18/01/2007: Sam/F6AML (TX6A) and Serge/F6AML, members of "F6KOP TEAM" will be active as 5H1Z from Zanzibar Island (AF-032, WLOTA LH-1080) between January 18-29th. Activity will be on 80-10 metre CW/SSB with 400 Watts and verticals. The call sign will be known later. Sam will pay special attention for west coast NA and JA (Asia) stations. QSL is OK via the bureau or direct with SAE + 1 IRC or with 1 USD for Europe or 2 USDs for the rest of the world. [Tnx F5NQL]

18/01/2007: Members of the ARRM plan to activate São Jorge lighthouse (DFP FMA-05 for the Portuguese Lighthouse Award, ARLHS MAD-008, WLOTA LH-0053, WW Loc. IM12LQ) located on the island of Madeira (AF-014) between January 18th and 23rd. Activity will be on all bands and modes. QSL via CS3MAD (ARRM, P.O. Box 4694, 9058 Funchal, Madeira Island). [Tnx F5NQL]

18/01/2007: Patrick, F6CMH, will be signing FM/F6CMH January 18-28th from the island of Martinique (NA-107, also count for WLOTA LH-1041). Activity will be on 20 and 15 metres, on the usual IOTA frequencies. QSL via home call. [Tnx RSGB IOTA]

19/01/2007: A group of members from Madeira Island Radioclub - ARRM, and DJ8VC and HB9CQL will be QRV as CT9F from the Ponta do Pargo lighthouse (DFP FMA-004 for the Portuguese Lighthouse Award, ARLHS MAD-005, WLOTA LH-0053), Ilha da Ilha da Madeira (AF-014, DIP MA-001 for the Portuguese Islands Award), January 19-21st. Operators include Hermann/CT3FN, Rudi/HB9CQL, Alfons/DJ8VC, Jose/CT3MD, Luis/CT3EE, Tiago/CT3KU, Jose/CT3DZ, Jose/CT3KY, Luis/CT3DL, Joe/CT3BD, Duarte/CT3EN, Miguel/CT3IA, and other associates from the Radio Club. Activity will be on 10-160m Phone, CW, RTTY and PSK. QSL via CS3MAD (ARRM, P.O. Box 4694, 9058 Funchal, Madeira Island). [Tnx CT3FN]

==========

LOOKING AHEAD

21/01/2007: Karl, DK2WV plans to be active as 5R8HG from Madagascar (AF-013, also count for WLOTA LH-2455) January 21-23rd. Working conditions will be HF with amplifier and dipole antenna, holiday style operation. QSL to home call via the bureau. [Tnx NG3K]

21/01/2007: Andrew, G7COD, will be operating from Embudu Island, Maldives (AS-013), for the second time as 8Q7AK from Sunday January 21st to February 2nd. The bands used will be 30/20/17/15 and 12 metres mostly SSB with a little CW. QSL cards direct to his home callsign G7COD. Alternatively, if you have access to the bureau, you can send them marked "via G7COD". Andy will return all QSL cards via the bureau; however, if you do not have access to a QSL Manager or the bureau, please inform him on your card, and instead he will send an eQSL. [Tnx Pete's-DX-Newsdesk]

23/01/2007: Martti/OH2BH and Juha/OH8NC will be QRV from Ponta Delgada, Sao Miguel Island (DIP AZ-002 for the Portuguese Islands Award), Azores Archipelago (EU-003, also count for WLOTA LH-2016) January 23-29th using

their portable call signs on 160 and 80 metres. Martti will be operating the CQ 160-Meter CW Contest (January 27-28th) as CU2A. QSLs via home calls and CU2A via OH2BH. [Tnx OH2BH]

27/01/2007: Nodir, EY8MM will ba active from Dushanbe, Tajikistan, for the CQ 160-Meter CW contest (January 27-28th) as a Single-Op/High-Power/+ Cluster entry. Priority to NA QSOs and New ones. See ey8mm.codan.ru/ for skeds. QSL via K1BV, direct or bureau. [Tnx NG3K]

01/02/2007: ISWL Member John, 9M6XRO / 9M6-6982 will be operating from an established shack between February 1-10th from Sihanoukville City, Cambodia using the callsign XU7XRO. He plans to operate on CW, SSB and possibly digimodes as well. Pete, XU7ADI (QSL SM5GMZ) and Steve XU7DXX (QSL 9M6DXX) are accompanying John, and will be operating under their own calls. John is looking forward to working some ISWL members and welcomes SWL reports. QSL route for XU7XRO is via QSL Manager, M5AAV, Graham Ridgeway, 6 Pilgrim Street, Nelson, Lancs, BB9 0JQ. Direct QSLs with return postage are preferred but Graham will also reply to cards received via the bureau. Interesting website at www.qth.com/dxshack/XU/XUtop.htm [Tnx Pete's-DX-Newsdesk]

SPECIAL EVENTS

19/01/2007: Operators Monique/F5MLE, John/F5VHQ and Jean Pierre/F5XL will participate in the "4th Antarctic Activity Week" (AAW), February 19-25th, as TM8WAP. This special requested call sign issued by French Authorities will be good from February 13-27th. The special (double folded) QSL will be available via F5XL, direct or by the bureau. The TM8WAP callsign will qualify for the WAP-ASEA and WAP-WACA Awards as WAP-80. [Tnx OPDX]

28/01/2007: To celebrate the Carl Linnaeus tercenterary, the Uppsala Radio Club (SK5DB) will activate the special call SC5L and a diploma for the occasion. The activity will run from January 28th through June 26th. A QSL will be sent automatically for uniqe first contacts (band/mode). QSLs are not needed for the diploma, but if you want to send a QSL to them, use the bureau. The club only needs a QSL for your first contact. More information and full rules will be found at www.sk5db.se OR www.qrz.com/detail/SC5L [Tnx SK5DB]

15/02/2007: The French EUCW Society and the Union Française des Télégraphistes (UFT) will be active during the Antarctic Activity Week (AAW) as TM5TAF from February 12-25th. The WAP reference issued is WAP-79. Operators will include Norbert/F6AXX, Patrick/F5MQW, Michel/ F6DKV, Pierre/F6FXS and Bernard/F5HEW. Activity will be on HF CW only. QSL via F6AXX, either direct (SAE+IRC/2007) or via the French REF-Bureau (Please only this bureau). [Tnx F5NQL]

15/02/2007: During and around the Antarctic Activity Week 2007, the Provins ARS (F6KOP) members will use the special call sign TM0TAF on all bands HF, VHF and UHF and all modes, CW/SSB and various digitals from February 15-28th. The WAP reference issued is WAP-43. QSL via F4TTR (QRZ.com and other CBA) either direct (SAE+IRC/2007) or via the French REF-Union bureau. [Tnx F5NQL]

01/03/2007: Special event station 8J7100F will be aired March 1 to May 31, 2007 to commemorate the 100th anniversary of Fukushima-city, Japan. Look for activity on all bands and modes. QSL via the JARL bureau. [Tnx JJ1WTL/AC6IM]

01/03/2007: Special event station 8N1MOMO will be aired March 1 to April 5, 2007 to celebrate the Koga-city Momo (or Peach) Festival. Look for activity on all bands and modes. QSL via the JARL bureau. [Tnx JJ1WTL/AC6IM]

28/04/2007: International Marconi Day will take place on Saturday 28 April this year. Although the event is not a contest, participants can qualify for award certificates by contacting special stations. These stations must operate on or close to a site where Guglielmo Marconi carried out experiments or where Marconi equipment was used prior to his death in 1937. If you would like to operate one of these special award stations, it is essential that you register the station by emailing webmaster@...

prior to the event with full details of the station. Further information can be found on the web at www.gb4imd.org.uk [Tnx RSGB News]

Information direct from Michael, DH8BM the holder of the call sign DR2007ANT.

Stefan, DC2SF has had the idea to participate in the 4th AAW and we will be very proud to be a part of this event. We have got this call sign for the whole year 2007 (the maximum for a callsign like this in Germany) and we will try to get a lot of QSOs in the activities around the Antarctic Activity Week.

Here is the goal -
Callsign: DR2007ANT (all special calls in Germany are like a regular club station)
Clubname: DARC-District of Wuerttemberg (P)
DOK: DW (from February 19-25th for AAW 2007)
Responsible (legal for the callsign): Michael Burgmaier, DH8BM, Heudorfer Str. 9, D-88521 Ertingen, Germany
Responsible (for the activity): Stefan Siebenhaller, DC2SF, Roemerhalde 31, D-89287 Bellenberg, Germany
QSL via buro preferred, direct no problem via DC2SF. QSLs will be printed in Spring 2007

Master-QTH for the AAW: Hochschule Ulm, JN58AK

DR2007ANT will also be active during the International Polar Year starting 1st March 2007. Master-QTH for the IPY: JN48RC (from the QTH of DH8BM).

Congrats to the German Hams for this great entry!
Thanks very much to Michel DH8BM & Stefan DC2SF and also to Augusto I2JJR/HB9TZA, one of the SRT (Strange Radio Team) for the support.

Tks Japan DX News.

S21XA - Bengladesh

11-Jan-2007 - 13:00z:

Finally we have the first batch of logs. At the time you are reading these lines they have more than 5000 in their logs.

*They have set-up the following antennas: C3 (10-12-15-17-20Mts), C3SS (10-12-15-17-20Mts), a vertical HF2V (40-80Mts), a Cushcraft dipole (12-17-30), an Alfa-Eco dipole (12-17Mts) and a 4 elements for 6Mts. As soon as posible they will add the 160Mts. kit for the HF2V and also a long wire for the same band. *

The CW station is running with only 100Watts, the linear amplifier is QRT.

They still have no internet access from the shack, they are sending the info from a ciber powered by fuel-engine, if they can enough time they will send some pictures.

Today at 00:00Z on 20Mts, they have worked a lot of NA-west coast stations, they will be listening there again tomorrow at the same time but alternating SSB/CW. Also at 23:00z on 40Mts.

They have no big problem working EU and JA despite the signals are weak, and ask a little bit of calm, they will be there until 16 of January and they have 2 stations 24hours on the air.

Hi all
Bernard/F9IE has taken over on CW. Very Huge and Huge pile ups.

For next night :

- 160 metres mode SSB from the other side of the h?tel.
- 30, 40 and 80m with the CW and FLEX stations.

For this evening:

. 40 metres and 30 metres RTTY (Dip?les)
. 20 metres phone from the SSB station, then after 2100 UTC, CW and
Phone.

Cross the fingers and wish the op's to rest in good shape.

We do all our best for the CW mode; A cw op is still missing because of
the illness.

This week end will be certainly very hard for all of us.
Please avoid to call us if you don't hear something from us.

Also to the "policemen" thank to keep quiet the frequencies where we answer.

We will pay attention to OC (ZL&VK) and JA also.

Our goal is to continue to hold this average of 6000 QSO per day. It's
hard but so funny.

Very Important:

After Bill/N2WB, before departure from France, to morrow is
G?rard/F2VX/XT2CA Birthday.

Even in the pile up if you contact G?rard say him "Happy Birthday" . He
will be 64 and always ready to go on dxpedition.

We thank also all of you for the kind words put on our website guestbook.

Hi All

From 31st January to 10th February there will be operation from
Cambodia.

The Ops will be:

Steve - 9M6DXX - who will use XU7DXX
John - 9M6XRO - who will use XU7XRO
and
Pete SM6GMZ - who will use XU7ADI

QSL routes are - for XU7ADI via SM6GMZ, and for XU7DXX and XU7XRO via
myself - M5AAV

Further details will be posted when known, but I think you will find
'DXX primarily on SSB and 'XRO on the key.

<Thanks Maurice>

Hi friends

HOT - In this moment :
FANNING ATOLL (OC-084), EASTERN KIRIBATI
KM9D, Mike, and KF4TUG, Jan, have set up their station on Fanning Atoll (aka Tabuaeran) and should begin operations today sometime after their sunrise. Their sunrise is around 1630Z. Mike will be on CW while Jan will do most of the SSB, both with the call T32MO. Look for them to be QRV on all bands (10-160 meters) possibly through next weekend. QSL via OM2SA, include LOTW.

5H1Z update directly from Serge/F6AML:

Serge," Sam"/F6AML (ex TX6A, 5H1C, TO7C a s o) member of the "F6KOP TEAM" will be active as 5H1Z from Zanzibar Island (AF-032, WLOTA LH-1080) between January 18-29th. Activity will be on 80-10 metre CW/SSB with 400 Watts and verticals.
Do know that this trip is a professional one. Serge will be based on Zanzibar but will have to move quite daily to Dar es Salam or to the Kenyan border.
He hopes to be active most on his favourites bands , 80, 40, 17 and 12m, and try to be so so on CW and SSB.
He will traffic on 12 and 17 at the end of the day and turn to 80 and 40 later.
The op's tiredness, will count also and may be a part of traffic or no.
Sam will try to pay some attention to West coast NA and JA stations.
QSL is OK via the French REF-Bureau (please only this bureau) or direct with SAE + 1 IRC or with 1 USD for Europe or 2 USDs for the rest of the world.

5T5DY
To day, Benoit, F8PDR, said to F5NQL that 5T5DY callsign has been used by pirates for a while in the past.

Thanks to Jean/5T0JL, Benoit has got an Official and regular licence under this callsign, for Feb 05 to 18, 2007. All the documentation is in hand and will be sent very soon tothe DXCC Desk.

Other DX stuffs and remainings. Thanks W3UR, NG3K, VA3RJ, I1HYW, 425dx, OPDX, DXNL, F5UJK, and many other.

The Argentin Army Base "Almirante Brown" on Graham Land (AN-016, AA LU-02, WAP ARG-02) will be open between January 12th and March 10th. This very rare base is located 64.5South, 62.5West. No details were provided about a ham operator on base but more details are forthcoming.

INDIA - VU7/

A special permit to operate on 30 metres has been granted to the VU7RG expedition to the Lakshadweeps (January 15-25th). Due to the current poor conditions 30m will have high priority, since it will be one of the few bands to serve the most difficult regions, especially North America.
VU7RG activity will be from Agatti, Bangaram and Kadmat Islands (AS-011).
Bookmark and pay regular visits to www.vu7.in for further information and updates.

SPECIAL NOTE: Dov, 4Z4DX/M0DOV, will be active from VU7RG on 160m,80m and RTTY on 17m from January 18-25th. SKEDS ARE WELCOME BEFORE JANUARY 15th via: 4z4dx (at) iarc.org

David, K3LP, is planning to be active from the Lakshadweep Islands (AS-011) as VU7/VU3RWO between January 15-25th. Activity will be mainly CW and SSB, with limited RTTY. He will use 2 SteppIR beams with 2 amplifiers. No other details were provided. Stay tuned!

A special permit was granted by WPC (Indian Govt.) to operate from Minicoy Island (AS-106 - Asia #1 on Most Wanted IOTA List) which will be the fourth VU7RG Operation Site !!!
The last operation from Minicoy Island took place decades ago and it was extremely difficult to obtain this additional permit.
Once again NIAR and Bharathi VU2RBI made it possible again;

You can expect 2-3 full equipped stations from Minicoy Island (SSB+CW), start date January 16th. For
easy identification these Minicoy Stations will operate VU7RG / VU.... and will have assigned own bandslots, while Agatti, Bangaram and Kadmat Islands (AS-011) will use VU7RG.
The www.vu7in web page will be updated with more details.

From the XT2C crew via Rafik, F5CQ's mailbox.

*Ouagadougou, Jan 13 , 15:00 UTC

Hi all,

Some health news from our ill op's : They are still a little tired, but they feel, day after day, better and better. The rest of the crew has found the most efficient drug : giving them a paddle, a keyboard or a mike and all their problems of illness are forgotten.*

To day (see statistics) at 14:00 UTC, we counted 6,852 QSO for the last 24h, and a total of 32,345 logged in 6 days. Where are we going to ?
**

*The CW average grows up a little bit. *

This evening, around 21h00 UTC, Franck/F4AJQ will be on 160 metres/SSB on 1850 kHz .
Three stations, one per mode CW/SSB/Digi will be on the air too, all night long.
**
Now we have a challenge to hold : 6000 QSO per day.
**

*We apologize for those whose haven't still be copied. The pile ups are very very huge and huge. *
Our ears are sometimes tired also.
**
**
*As part of the expeditionn know that there is a school partnership beetween the Norghin-A, primary school, in Ouagadougou, and the Pompignac (near Bordeaux) primary school, in France *
Before the DX pedition, was organized in Pompignac, the operation "a pen for Ouaga", which purpose was to collect pens and pencils, for the Norghin-A school bgirls and boys. This collection was given to G?rard/F2VX, in charge for him to remit this collection to the Headmistress of the Burkinab? Norghin-A school.
This ceremony will happen on next Monday, in presence of a "Ouagadougou partage" Not Gouv. Organization, delegate Officer. Then each class pupils will delegate one of them to go to the radio camp to visit the XT2C crew and the stations. A kid day style QSO, will be tried between the two schools, in Ouagadougou and Pompignac.
**
While this event, three stations will continue be on the air, one per mode.
**

We thank all of you for the messages posted on the guest book.
**
These are the news.

Ouagadougou, Jan 14 , 09:00 UTC
Hi friends,

A night full of difficulties
A terrible electric QRM suddently happened and jammed al the bands ; Add some tiredness, dropping down propagation, and to be complete a CW contest twas hese were the reason of th only 35000 QSO,s logged this morning.

This Sunday we could be more on SSB and numerics subbands until the end of the CW contest.

As of January 2007 VK1AA QSL Exchange Service is accepting for
processing and further forwarding all QSL cards for VK (Australian) station.

Q.E.S. forwards all incoming cards to members once per month and to
National VK bureaus
every 3 months.

Obviously, for an overseas sender, using Q.E.S is not only money and
time saving but it will
also guarantee fast delivery of your QSL card to Australian stations.

You are welcome to send all of your VK QSLs to

QSL Exchange Service
P O Box 900
Spit Junction 2088 NSW
Australia

Your patronage is appreciated. Please include your email address so we
can acknowledge
receipt and confirm that your cards have been forwarded to recipient.

Please feel free to forward this information to QSL mailing lists,
bureaus and managers.

From Philippe, 9Q5TB:

I and my friend and neighbor, Georges 9Q1EK, we conduct some encouraging tries on 160 meters. We have set up an Inverted L this Sunday.
The signals are not to much open over Africa, but we've heard a lot of Europeans. We aren't awaited to much, for nobody have answer us.
We will persevere, and in case of good results, a second antenna will be set up at home.
Those who can have access to Google Earth may point on :
4? 19'40.00'' S
15? 16'31.80'' E
On the left you can see George's house and on the right it's mine.

We share our traffic time because our stations are too close; we share also a great part of our antennas.

14-01-2007 - 17:00z:

*The conditions are terribly poor and they try to take advantage of all
the openings towards EU and NA since with JA there are better conditions.*

*Today they has been working EU mainly from 12:00z and tomorrow they
will repeat it.*

*About SA, this afternoon they has maded a lot of contacs and tomorrow
they will be QRV for him on 7005 at 20:30 z.*

*As far as 80 and 160Mts, the stations are operative but they have only
been able to make a QSO, with XU, in 160Mt, nor with JA.*

At 19:00z Fer will be on 1829Khz+/- qrm listening 1830-1835 for EU.

DAYTON HAMVENTION ACTIVITIES.....
* The SouthWest Ohio DX Association is pleased to sponsor the 22nd annual DX Dinner to be held in conjunction with the 2007 Dayton HamVention ?. The dinner will be Friday evening, May 18th, at the Crowne Plaza Hotel, located in Dayton City Center. This is the same venue as in years past. The program details are not final yet, but they will have a good one. As in the past, there will be some nice attendance prizes - last year the main prize was an Icom IC-756 Pro III! They have upgraded the menu this year. Tickets are 36.00 USDs per meal, payable in U.S. funds to SWODXA. (Sorry, they do not process PayPal or Credit Card payments.) Please advise if you want a vegetarian meal when you order. You may order tickets from Jay Slough, K4ZLE, at his CBA. SASE would be appreciated. They attempt to honor group seating requests when tickets are ordered together. There is not a bad seat in the house, but seating is definitely limited. Come join them for an evening of fun and fellowship. Further information may be obtained from Jay at:

From: "Larry Makoski W2LJ" <Makos327@...>

This Wednesday evening (Thursday morning UTC time) will be the NAQCC Sprint for January.

This month, the Sprint will be held on 80, 40 and 20 meters. This month, a special certificate will be given to the operator who gets the highest score while braving the elements out of doors. The Sprint will run from 8:30 to 10:30 PM EST, 7:30 to 9:30 PM CST, 6:30 to 8:30 PM MST and 5:30 to 7:30 PM PST or from 0130 to 0330 UTC on the morning of January 18th. The recommended frequencies are:

80M - 3555-3565 kHz (Be courteous to FISTS operating on 3558 kHz)
40M - 7039-7050 kHz (Avoid W1AW on 7047.5 kHz)
20M - 14059-14065 kHz.

The exchange is as follows:
RST - SPC (State Province or Country) - NAQCC Nr.
(non-Members send power level in place of NAQCC Nr., e.g. 5W, 1W, etc. Be sure to add the W.)

Remember to mention the type of antenna you have used when submitting your log as there will be two separate categories - simple wire antennas and gain antennas, such as yagis, quads and periodics.

Also, remember the bonus multipliers that you get for using either a straight key or bug during the event. All entries must be postmarked or email dated before 2400Z on January 24th, 2006.

For full details, please visit
http://www.arm-tek.net/~yoel/sprint200701.html

And to join the NAQCC (if you haven't already!) please go to
http://www.arm-tek.net/~yoel/joinup.html

ALSO !!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!

Please don't forget the ongoing NAQCC WAS Bear Hunt. This week we will have Lou W7JI handing out the great state of Kansas to all of you out there who need the Sunflower State for Worked All States. Full information can be found at: http://www.arm-tek.net/~yoel/wasproject.html

From: F5nql@...

16th January 2007 - 1400z

Since yesterday, things became more difficult due to QRM from the surrounding
VU7 pile-ups...
In order to minimize such effects, we decided to change our frequency plan.

Today, was the conclusion of the project "a pencil, a pen for Ouaga".
First, this morning, Gerard F2VX, Franck F5TVG, Bob N6OX, Bill N2WB and Alain
F5LMJ went to the Norghin-A primary school to distribute the educational stationery collected in France. Then, this afternoon from 03:00 to 05:00pm, a
dozen of pupils and 5 teachers visited us. They managed to contact their partner
school in France on 20m from the XT2C station. Then, they switched to Internet
for a long questions & answers conversation... This was a great time for everyone!
Two stations remained active during that time.

At 1400z, 44.193 QSO were in the log. For the coming days, our rate will definitely be impacted by the VU7 activity, but we remain motivated to reach the
50.000 QSO goal.
It is now even more important to respect operators instructions in order to maximize your chances to make a contact.

Tomorrow afternoon, starting around 1500z, one of the stations will be active in
SSTV.
A first try will be made on 21.230 and we will switch to 20m (around 14.230) if
conditions are not good.
Traffic will be handled via lists of callsigns taken in SSB prior to exchanging
pictures.

S21XA , the end.

16-01-2007 - 23:00z:

The expedition will end at 00:00z with more than 17000 QSOs logged. They are tired, have been seven hard days of 24 hours/day of non-stop operation. And, at the same time, they are happy since in spite of the bad propagation, they have been able to be ?new one? for a lot of operators and helped to fill bands/modes to the rest.

The team really wish to thanks all the people that has contact with S21XA, but soon will be time to come back to home.

Log online at : http://www.ea3bt.com/bangladesh/bangla-logs.php

QSL via EA3BT, Josep Gibert , C/ Col-legi, 1, 08800 Vilanova i la Geltr?, SPAIN , direct or bureau

I.C.P.O. Bulletin (January 18 - 26, 2007)
Islands, Castles & Portable Operations.
Listing is by calendar date (day/month/year)
==========

18/01/2007: Sam/F6AML (TX6A) and Serge/F6AML, members of "F6KOP TEAM" will be active as 5H1Z from Zanzibar Island (AF-032, WLOTA LH-1080) between January 18-29th. Activity will be on 80-10 metre CW/SSB with 400 Watts and verticals. The call sign will be known later. Sam will pay special attention for west coast NA and JA (Asia) stations. QSL is OK via the bureau or direct with SAE + 1 IRC or with 1 USD for Europe or 2 USDs for the rest of the world. [Tnx F5NQL]

18/01/2007: Members of the ARRM plan to activate São Jorge lighthouse (DFP FMA-05 for the Portuguese Lighthouse Award, ARLHS MAD-008, WLOTA LH-0053, WW Loc. IM12LQ) located on the island of Madeira (AF-014) between January 18th and 23rd. Activity will be on all bands and modes. QSL via CS3MAD (ARRM, P.O. Box 4694, 9058 Funchal, Madeira Island). [Tnx F5NQL]

18/01/2007: Patrick, F6CMH, will be signing FM/F6CMH January 18-28th from the island of Martinique (NA-107, also count for WLOTA LH-1041). Activity will be on 20 and 15 metres, on the usual IOTA frequencies. QSL via home call. [Tnx RSGB IOTA]

19/01/2007: A group of members from Madeira Island Radioclub - ARRM, and DJ8VC and HB9CQL will be QRV as CT9F from the Ponta do Pargo lighthouse (DFP FMA-004 for the Portuguese Lighthouse Award, ARLHS MAD-005, WLOTA LH-0053), Ilha da Ilha da Madeira (AF-014, DIP MA-001 for the Portuguese Islands Award), January 19-21st. Operators include Hermann/CT3FN, Rudi/HB9CQL, Alfons/DJ8VC, Jose/CT3MD, Luis/CT3EE, Tiago/CT3KU, Jose/CT3DZ, Jose/CT3KY, Luis/CT3DL, Joe/CT3BD, Duarte/CT3EN, Miguel/CT3IA, and other associates from the Radio Club. Activity will be on 10-160m Phone, CW, RTTY and PSK. QSL via CS3MAD (ARRM, P.O. Box 4694, 9058 Funchal, Madeira Island). [Tnx CT3FN]

20/01/2007: Jim, KA3UNQ/m plas to activate the Hooper Strait lighthouse (ARLHS USA-378) in St. Michaels, Maryland, on January 20th. He will be on the air from 1500 UTC until around 1900 UTC unless the NA QSO party (starting at 1800 UTC) causes too much hassle. If conditions are good and he gets forced off 20m, Jim will try 17m for a bit. Look for Jim above 3980 kHz with 3997 kHz as the prime frequency. 40m remains the same: 7235 kHz (+/-) as prime, 7270 kHz (+/-) secondary. Same story for 20: primary is between 14310 and 14330 kHz, secondary is the 14.260/14.270 kHz corridor. On 17m, look between 18115 and 18135 kHz. QSL via home call with an SASE to address posted on QRZ.com. DX can use an SAE w/green stamp, bureau is also OK. [Tnx ARLHS BeaconBot]

20/01/2007: If weather and other factors permit, Ann KB9YVT/m and Bob KA9JAC/m and will run the following counties in the State of Wisconsin on January 20th: Brown, Oconto, Marinette, Florence, Forrest Oneida, Price, Lincoln, Langlade, Menominee, Shawano, Waupaca, then back home in Outagamie. QSL via home calls. [Tnx County Hunter Web]

20/01/2007: Weather permitting, Jeff W9MSE/m will run the following counties in the State of Wisconsin on January 20th: Calumet, Sheboygan, Manitowoc, Kewaunee, Door, and Brown. Other counties based on time, bands, and needs. Activity will be CW on the usual county hunter frequencies. QSL via home call. [Tnx County Hunter Web]

21/01/2007: Karl, DK2WV plans to be active as 5R8HG from Madagascar (AF-013, also count for WLOTA LH-2455) January 21-23rd. Working conditions will be HF with amplifier and dipole antenna, holiday style operation. QSL to home call via the bureau. [Tnx NG3K]

21/01/2007: Andrew, G7COD, will be operating from Embudu Island, Maldives (AS-013), for the second time as 8Q7AK from Sunday January 21st to February 2nd. The bands used will be 30/20/17/15 and 12 metres mostly SSB with a little CW. Andrew will be transmitting at the following times every day on the designated frequencies +/- 10 kHz to allow for QRM - 0900 to 1000 UTC 18.133, 21.253 MHz; 1300 to 1515 UTC 14.183, 18.133, 21.253 MHz; and 1600 to 1700 UTC 10.123, 14.183 MHz. QSL cards direct to his home callsign G7COD. Alternatively, if you have access to the bureau, you can send them marked "via G7COD". Andy will return all QSL cards via the bureau; however, if you do not have access to a QSL Manager or the bureau, please inform him on your card, and instead he will send an eQSL. [Tnx Pete's-DX-Newsdesk]

22/01/2007: Jay, LY4Y (M3UNN) reports will be active January 22-29th from The Gambia as C56NN. He will operate from the QTH of Noz, C5DXC during daytime, and possibily from another location during some evenings and nights. Jay will try to put up a dipole for 160 metres. QSL via Jukna "Jay" Sarunas, 10 Johns Avenue, Haydock, St. Helens Merseyside WA11 0QB, United Kingdom. [Tnx 425 DX News]

23/01/2007: Martti/OH2BH and Juha/OH8NC will be QRV from Ponta Delgada, Sao Miguel Island (DIP AZ-002 for the Portuguese Islands Award), Azores Archipelago (EU-003, also count for WLOTA LH-2016) January 23-29th using their portable call signs on 160 and 80 metres. Martti will be operating the CQ 160-Meter CW Contest (January 27-28th) as CU2A. QSLs via home calls and CU2A via OH2BH. [Tnx OH2BH]

23/01/2007: Rich, K2WR, will be active from the isle of Jersey (EU-013, also count for WLOTA LH-0818) as MJ0AWR beginning January 23rd. His activity will include a Single-Op/High-Power entry in the CQ 160-Meter CW Contest as GJ2A. QSL via K2WR (also direct for non-USA to GJ3DVC). [Tnx OPDX]

24/01/2007: Bruce, KI7VR, will be signing KP2ZZ from the island of St. Croix, USVI (NA-106, also count for WLOTA LH-2477) between January 24th and February 6th. Look for activity on 160-10m, mostly CW, with emphasis on 80 and 160m each night. Daytime activity will be focused on 30, 20 and 17m CW for the first few days, then some SSB. QSL via G4OOC (QRZ.com). [Tnx RSGB

IOTA]

25/01/2007: Hrane, YT1AD, reports that he will be active as 3D2AD from Fiji (OC-016) between January 25-26th. Look for activity mainly on the low bands. QSL via YT1AD. [Tnx OPDX]

25/01/2007: Look for operators Victor/RV2FW, Andy/UA2FB and Vlad/UA2FF to be active from Morocco using the call signs CN2FW, CN2FB and CN2FF respectively, January 25th to 28th. Their main focus will be the CQ 160-Meter CW contest (January 27-28th) as a Multi-Op entry using the call sign CN2A. The QSL route for all calls is via DK4VW. [Tnx NG3K]

Please note the following bandplan for 8Q7AK operation from 21st January to 2nd February.
Andrew will be transmitting at the following times every day on the designated frequencies +/- 10 kHz to allow for QRM.
09:00 to 10:00 UTC 18.133, 21.253 MHz.
13:00 to 15:15 UTC 14.183, 18.133, 21.253 MHz.
16:00 to 17:00 UTC 10.123, 14.183 MHz. [Tnx Pete's-DX-Newsdesk]
==========
LOOKING AHEAD

9G - GHANA - Franco, IK2BTI will work in Ghana for the next few months. The license has been applied for and he hopes to become active in SSB and CW soon. [Tnx DXNL]

27/01/2007: Operators Dave/G3NKC, Peter/G4MJS and Martin/G4XUM will be active from the Isle of Man (EU-116, WLOTA LH-0449) as MD4K during the CQ 160-Meter CW contest (January 27-28th) as a Multi-Op entry. QSL via G3NKC. [Tnx NG3K]

02/02/2007: Look for Ralph, NM5RC to be active from Lana'i island (USi New!, Maui county), Hawaii (OC-019) on February 2nd. Activity will be on 20 metre SSB, with a minimal station, around 14.260 MHz. He expects to operate 6 hours with time outs to recharge the battery. The USi reference number will not be given over the air until the required activation contacts have been made. Ralph will appreciate all contacts and DX Summit postings. QSL cards to all contacts will be sent by the end of February. [Tnx USi]

10/02/2007: Ed, N2ED will be active on all bands/modes as V26G from the island of Antigua (NA-100, WLOTA LH-1118), February 10-21st. He will also participate in the ARRL DX CW Contest (February 17-18th) as a Single-Op entry. QSL via home call. [Tnx NG3K]

12/02/2007: Steve, AK0M and Sandy, KC0RD plan to operate as VP2V/homecall from the island of Anegada, British Virgin Islands (NA-023) from February 12-18th. Activity will be on 40, 30, 20, 17, 15, 12, 10 and 6 metres. Possibly some 80m operation if antenna situation permits such. Emphasis anticipated on 40m, 30m and 17m, also 12m if the band is open. Primarily CW. Some SSB possible. Digital modes are not planned for this trip. Operating locations will be mixed between portable locations including right out on the beach (QRP levels only but with saltwater antenna enhancement) and from

within their accomodations. This is a holiday-style trip and radio operation will be limited and on a sporadic basis. They do hope to get on the air at least 2-3 hours each day. Some limited amount of participation, perhaps 6-12 hours, is expected in the ARRL DX CW Contest (February 17-18th), likely in the QRP category. QSL via AK0M. SASE required for direct QSLs. Direct QSLs are usually answered within a few days after receipt. Bureau cards are accepted, but get processed as time permits and usually only about once a year. Logs will also be available on LOTW after the trip. Further information can be found at: pages.cfu.net/~sjs/vp2v/vp2v_feb_2007_main.html [Tnx AK0M]

17/02/2007: Look for Bill, ZL3NB to be active from the South island (OC-134) of New Zealand during the ARRL DX CW Contest (February 17-18th) as a Single-Op entry. He is keen on ahieving WAS via LoTW. QSL via LoTW or by the bureau. [Tnx NG3K]

19/02/2007: Well known DX-peditionner Lanny Phillips W5BOS will join the Antarctica Activity Week (AAW) using the call N5T/ANT from Texas, February 19-25th. WAP reference for N5T/ANT is WAP-91. QSL via W5BOS. [Tnx WAP]

19/02/2007: Operators Willy/OE3WWB, Reiner/OE3RPB, Karl/OE3KTA, Bert/OE3AIS, Karl/OE3KKA and Gus/OE3SGA will join the 4th AAW by signing their own callsigns/ANT. They wanted to apply for a club callsign but their regulation in Austria will only allow them to work from each operator's home station. The WAP reference number issued individually, is as follows: OE3WWB/ANT WAP-85; OE3KKA/ANT WAP-88; OE3RPB/ANT WAP-86; OE3AIS/ANT WAP-89; OE3KTA/ANT WAP-87; and OE3SGA/ANT WAP-90. They will be active mainly on SSB but also PSK and CW from February 19-25th. QSL via home calls. [Tnx OPDX]

02/04/2007: Operators Eric ON4LN (TZ2T), Ivo ON5CD (TZ1T), Stefaan ON4FG (TZ4T) and Bart ON3VK (TBA) will be QRV from Bamako (WW Loc. IK62AO), Mali, April 2-7th. They will activate some prefixes that were never issued before. Activity will be on 160m to 10m in SSB, CW and digital modes (RTTY, BPSK31, etc.) with at least 2 stations on the air simultaneously. Bands and mode will largely depend on the propagation. The aim is to activate the low and WARC bands, CW and digital modes as often as possible. QSL direct to ON4LN for all calls, or via bureau to home calls. Further information can be found on their web site at: mali2007.obox.be/ [Tnx ON4FG/TZ4T]

5313. News about the MMM on VHF project

Yahoo group: GOLIST (2007 — 2010)

Hi there,

It would be very nice to announce some news abt. M M M o n V H F
(some say the best European place for posting VHF-DX-informations)
http://www.dl8ebw.de/ACTUAL/Expeditionen/expeditionen.html
<http://www.dl8ebw.de/ACTUAL/Expeditionen/expeditionen.html>

We were able to find three VHFers to join our team around the
M M M o n V H F project: Bernd, DK3XT (will be back for our
project now!), Ansgar, DG2KBC and Erwin, DK5EW...

As the first months of the year are normaly a bit quiter because of
less ms-activity, there are always news around VHF-DX-peditions and
other up-coming events. We will also use the "quiter" time to add new
features, easier handling of updates and also info-blogs to make the
input more flexible...

The M M M o n V H F mailinglist at YAHOO:
http://groups.yahoo.com/group/MMM_on_VHF/
<http://groups.yahoo.com/group/MMM_on_VHF/> will be active as usual,
when there is a need to spread first hand informations about actual
VHF-events (as you may have seen at the great 1A-activity).

If you see, or hear, or work yourself an expedition, which is NOT
(or a WRONG infos) at our M M M o n V H F page,

PLEASE drop us a note: mmm_on_vhf@... <mailto:mmm_on_vhf%40gmx.de>

Have a pleasant DX-time on VHF!
Kind regards, behind the M M M o n V H F - team

Following facilities to inform about VHF-DX at M M M o n V H F:

* DX-NEWS
a board with all VHF-DX-Events we do get info about...

* FEEDBACK
a Form to send your DX-Announces ONLINE to us. No text work

is needed from you, no subscribtions, just a few lines about
your activities will suffice.

* LATEST NEWS
up to date infos about ongoing expeditions in detail and
DXC-Announces of 144 MHz-Expeditions or exiting events

* NEWSBOARD
a board with latest postings, miscellaneous, rumors...

* SPECIALS
events which were seen lately at the DXClusters

* METEOR-PREVIEW
a preview about the up-coming METEOR-Shower and VHF-activity

* REVIEW
a place where ACTIVITY LOGS, past MMM-infos as well as
QSL-Manager-infos will be spread around...

* VHF-DATABASE
infos about the latest issues of the VHF-DATABASE together with
a free of charge download link for MS.txt, CALLSIGN & CALL3.txt

* RSS-NEWS-FEED http://www.dl8ebw.de/feeds/feed.xml

5316. Dxpedition Announcement

Date: 2007-01-19 18:33:10 UTC
From: ka2aev@aol.com

My Friend Dale, N3BNA would like to make an effort for 80m and maybe 160m from Paraguay to work Asia....He has been unsuccessful in past trips...Have worked over 900 stations on 40m as ZP6/N3BNA, and many more as ZP0R and ZP6T. He has personally have never worked any JA stations on 80m or 160. He has even tried to ask JA stations while running other bands.

SO I'd like to put out the word that He'll be in ZP6 and maybe in ZP9 land from Jan 23-Feb 6....and also in HH7 from Feb 11- Feb 24....In Paraguay he will have a big station with power...In Haiti, will be low-profile station with 100 watts or less...so not much chance to work JA from HH7...Maybe on 40m or 80m.

Please QSL HH7/N3BNA Via KA2AEV
Please QSL ZP6/N3BNA Via KA2AEV
Please QSL ZP9/N3BNA Via KA2AEV

*Hi Mike,
Thanks for posting the DXpedition. This sure helps out
the Golisters, especially the ones needing the countries
visited.
I am giving you a 3 month GoWin subscription for you
to use and enjoy. You give my Golisters very useful info and
I want to repay in this small way. Thank you again Mike

THE FOLLOWING JUST ANNOUCNED ON THE ARRL WEBSITE:

"Codeless Amateur Radio Testing Regime Appears Set to Begin February 23
(Jan 19, 2007) -- The ARRL has learned that the FCC's Report and Order
(R&O) in the "Morse code proceeding," WT Docket 05-235, is scheduled to
appear in the Federal Register Wednesday, January 24. Assuming that
occurs, the new Part 97 rules deleting the requirement that Amateur
Radio license applicants pass a Morse code examination for any license
class would go into effect Friday, February 23, 2007. The League
cautions that this date is tentative, pending official confirmation and
publication."

Bahia Blanca DX Group and Mistongo DX Tandil Group will go on an
expedition together to activate TRINIDAD ISLAND (IOTA SA ? 021) on
Friday 2nd, Saturday 3rd, and Sunday 4th February, 2007.
TRINIDAD ISLAND is located in the Atlantic Ocean near Bahia Blanca, 3
hours navigating from Puerto Rosales, at 35km from Bahia Blanca.
The ship will set sail on Friday 2nd at 6 am and will arrive at the
island at middle morning. The group will immediately start moving all
the materials to the camping site where there are lots of bushes but no
trees, no houses and no fresh water.
The group will come back on Sunday at 7 pm.
It is planned to appear in SSB , CW and DIGIMODES (PSK, RTTY and SSTV)
from 80 to 10 metres (includes 12 and 17 mtr.) in operation mode if
propagation allows it.
The expedition will be identified with the special prefix LQ0D.
A special full colour QSL card will be printed, for its confirmation,
mailing will have to be sent to the GDXBB manager, Carlos (LU7DSY), PO
BOX 709, ZIP CODE 8000, BAHIA BLANCA, Argentina.
Argentinean stations will have to send a self directed envelope, with a
75-cent stamp.
Foreign stations will have to enclose 2 dollars or 2 IRC. Confirmation
will also be possible via bureau.

2007 VISALIA INTERNATIONAL DX CONVENTION. The 2007 International DX Convention will take place April 27th, 28th and 29th, 2007, at the Holiday Inn Hotel & Conference Center in Visalia, California. This is an ARRL sanctioned convention that is sponsored this year by the Northern California DX Club. It is expected to draw visitors from around the World and will feature programs from recent DXpeditions and contest operations.
The Convention theme this year is, ?Elmering New DXers is Job Number One!? Accordingly, a portion of the programming will be devoted to helping new DXers learn how to be noticed in a pile-up, snag a ?new one? and get that elusive QSL card.
Other Convention offerings will include: DX, Top Band and Contest Forums, technical talks, many door prizes, both Friday and Saturday evening "attitude adjustments", Saturday Barbecue Lunch, Saturday night banquet, Sunday morning ?power? breakfast, Vendors Exhibits and QSL card checking.
Current information and registration forms are available on the Convention web page which can be found at: http://www.dxconvention.org
Additional registration information can be obtained by contacting Convention Registration Chairman, Dick Letrich, W6KM via Email at: dlw6km@...
If you?re interested in DXing, the Visalia DX Convention is the place to be. We hope to see you there.

Hi friends

De F6AML/5H1Z

Very bad traffic conditions these last days - Solar noise permanently ,
57 to 58.

No listening op's instructions, make the traffic more and more difficult.

Next days I'll be QRV on 7MHz, at night, SSB mode, from 1800 utc to 2100
utc and early in CW from 0300 to 0430.

On 80 meters, the noise is always over S9 so traffic on this band is
impossible.

WX : temp. 30 C at 0600.

AFRI75 IRTS 75th Jubilee Dxpedition 2007
This is a DXpedition to Swaziland between 16th March and 25th March 2007
to celebrate the 75th Jubilee of the Irish Radio Transmitters Society.
The DXpedition will be QRV for St Patrick's Day and for CQ WPX.
Callsigns in use will be published as soon as available. The expedition
leader is IRTS vice president Paul Martin EI2CA.

Peter EI7CC
Aidan EI8CE
Paddy EI8BFB
David EI4DJ
Rory EI4DJB
Brendan EI3GV

Paul EI2CA (Expedition Director)

Skeds may be requested to any expedition member

Please note that this expedition is to celebrate the IRTS 75th
Anniversary. It is a fun event for those participating and we want to
get home in one piece. The planned numbers of QSOs will be commensurate
with the skill and experience of the team members and the time available
for radio operations given that it is also a vacation from work for some
of us. Our web page is available on the IRTS web site at

Hi to all,

just read in the german DARC mail, that there will be new additional
prefixes for Denmark
since 1st March 2007
Now we have OX for Greenland, OY for Faroer and OZ for Denmark. These will
still remain.
Since March there will even be:
OU, OV, 5P and 5Q for Denmark, OW for Faroer and XP for Greenland (we had
this already
e.g. XP1AB for the 2001 DX-pedition)

Greetings to all.
If you receive this email, please know it is because you are on my
advance info
email list for our Casual DX trip to Antarctica. It is provided in the
hope that
you'll be listen on 20M CW, SSB and PSK. Since our group has decreased
at the
last minute from 4 to 3 operators, don't expect to hear all modes at
once. This
is also a photo expedition and a family event too. We'll operate as much as
possible and as often as possible given the weather, general conditions for
landings, etc. For those interested in /MM we will be "home call/C6A/MM"
and
when in Antarctica "home call/KC4" On South Georgia and the Falklands
look for
VP8DJU, VP8DJV, VP8DKG.

If you wish to confirm receipt of this Advance Notice or have
"important" feed
back on our plans, please keep it short.

We will attempt to email you during the adventure to give more detailed
on air
times when and where possible.
DO NOT reply to those ship board emails ----They are VERY expensive.
Thanks and
hope to hear you soon.

*This note just came from my friend Ambran

*

*I wish to inform you that my friend from Japan, Kanzi Takemasa, JA4ENL, will be visiting The Sultanate of Brunei again. He will have a CW DXpedition here and start operating mostly CW as 'V85NL' as of 8 March until 12 March. He will operate on all bands including top band depending on the propagation.

QSL direct to JA4ENL will be prefered with SAE and US green stamps for handling. Any changes I will let you know later.

The band is getting better now and I am active on most days on all bands CW only. However there is good contact to State Side on 3.5 and 7 MHz from about 12:00 to 22:00 utc on most evenings. 14 MHz is ok around 08:00 utc from Hawaii and later to West Coast. I am just operating barefoot about 50 watts into gp vert and dp for top band.

For your information I am constructing behind my bungalow a small shack with a bedroom (for 3 to 4 persons), sitting room/radio room, shower and kitchenette for DXpedition, contest or just holidaying hams who wants to see Brunei and do DX at the same time for just a small daily rent including breakfast and airport transfers. Radio licenses and importation permits for transceivers and antennas can be arranged in advance at a small extra fee. I will let you know when the shack is ready for operation, hi. Bookings for the shack can be made direct to me on this e-mail address. I estimate it will be available about April. Thank you and hope to hear from you again, 73.

Hi folks,
Well, still no word from Germany about
my order for the RAC call book CD. I think
they have had enough time to produce and ship
this product to us. It was supposed to be
available to the US market by late November 2006.
It missed the mark.
I will start processing refund checks to all
of you who placed an order with me. I am sorry that
this situation has occurred and I can promise that
it will never happen again.
I will contact each of you individually (if your
email address is still current) to get
instruction about returning your money to you.
I am very sorry for this situation and hope that
I can make it up to you in the future.

John, for what it's worth, I tried to buy the current CD from HRO in Denver a couple weeks ago and they did not have them in stock either. Makes one wonder if the company is going or has gone down the tubes.

Thanks for the info Dick.
According to the US distributor, none of his orders
have been shipped from Germany. If this had been the
first time it happened I would not be upset, but this
has been happening for the last several releases. They
promise a ship date, I collect the money and then they
don't send them till 1 or 2 months later. This is not
the way I want my customers treated.
My customers are the best in the world and they deserve
much better service than this.
I will NOT sell RAC anymore.
As you know, my GoWin program supports all three
call book cds, so it is not limited to RAC alone. I have
had some programming done and a new version of GoWin will
be available in the next few days. This version will support
the internet Online subscription lookup service from QRZ and
BuckMaster. It will also display the DX country when the DX
call sign is entered. It will be GoWin version 2.10.
I am going to add it to the download page as soon as I get
it all worked out. That way each user can download the new version
when they goto download the weekly data file.
All for now.....

Hello, the CDs are available here in Germany since about 4 weeks.
I have one personally in use.
I would suggest you, John, to go in contact directly with the production company.
You can reach one of them via the mail address hkamper@...
His name is Heinz Kamper and he is "normally" coordinating everything.
BTW, I?ve forwarded a copy of your previous mail also to them.

5348. INFORMATION ABOUT RAC CALL BOOK

From: golist@gmail.com

*Hi folks
I just received a phone call from RAC in Germany.
The Gentleman was very apologetic about the situation
that I described earlier today. Fred, sent my email
to the Golist group to the RAC headquarters and that
prompted the phone call.
I was very pleased to chat with them and now have
a full knowledge of the events. To make it short,
they are sending my order out in the morning via FedEx
and I should have the order in the next 5 to 7 days.
For those that wish to wait a few day longer, I will
have the CD's. Those of you that would rather have a
refund, please email me ASAP. I will get the CD's in the
mail to each of you just as soon as they arrive.

MONTENEGRO - 4O3T QSL CARDS

The last problem QSLs were sorted out this past week and should reach hungry DXers latest by the 15th of February. Over the next ten months the direct QSLing phase will continue through sub-QSL managers and then by the end of 2007 the rest will be released for distribution via the worldwide bureau network.

It was also noted that an unknown volume of direct requests were lost in the postal system somewhere along the way.

You can obtain 4O3T QSLs direct as follows:

USA & Canada - John, N7CQQ
Japan & Asia - Martti, OH2BH
Europe and the rest of the world - Hans, PB2T

YT6A QSLs via YU1FW.

FSDXA St. Brandon DXpedition ? Bulletin No.3

* *

Two members of FSDXA recently visited Mauritius to set up logistics for the September operation from St.Brandon (see previous press releases). We are pleased to say that all the necessary permits and licences are in hand, and a suitable ship has been located to take the team members and something like 6 tonnes of equipment to the island. There is still a lot to be done, but we are all looking forward to putting another rare one on the air.

DX MAGAZINE MOST WANTED SURVEY

The latest DX Magazine ?Most Wanted? survey puts 3B6/7 at No.45 overall, but at a high 18th place on the US West Coast. Other rankings are: Europe 55th; Asia 47th; North America overall 40th; US Eastern 40th; US Central 63rd; US Mountain: 66th; Rest of World: 26th. Clearly this means we will make a particular effort to work US West Coast as well as ensuring we don?t forget those ?other? parts of the world (Africa, South America, VK/ZL, etc.).

COLVIN AWARD

FSDXA are delighted to announce that we have been selected to receive a Colvin award in respect of 3B7C. In notifying us of this award, Wayne Mills N7NG (while still at ARRL) said, ?We are confident that the Five Star group will fill a need by making this country available to many who might not be able to get into the log of a more focused operation. Certainly, your past performances, particularly D68C, presage this result. And here's another thought. With the removal of the code requirement for all licensing in the US, coupled with earlier changes around the World, 3B7C could be the first DXpedition to focus on those operators who are not as capable with Morse. Who can reject the new HF amateur who is trying to build on his desire to improve his CW capability? This is not a new phenomenon, but recent changes in licensing requirements certainly present an opportunity for major DXpeditions to spend (and promote spending) significant time, perhaps

near the end of the operation, catering to those whose CW capabilities are less than we might like. Such a campaign would be another ground-breaking effort by the FSDXA? Needless to say, the 3B7C team is only to happy to comply with this request, which is entirely in keeping with our philosophy of making new ones available to as wide a constituency of amateurs as possible. We will ensure, once we are on the island, that we publicise our operating schedules such that inexperienced CW operators can maximize their chances of a contact.

* *

SPONSORS

As well as the Colvin award, we are delighted to announce that NCDXF (Northern California DX Foundation) and the UK?s CDXC (Chiltern DX Club, the UK DX Foundation) have recently come on board with sponsorship. But further sponsorship is still required to make this very large scale operation possible. Details appeared in previous press releases or can be obtained from the author.

5359. [GOLIST] NEW VERSION 2.10 GOWIN

Yahoo group: GOLIST (2007 — 2010)
Date: 2007-02-01 14:59:03 UTC
From: golist@gmail.com
Topic: 5359 Message: 5359

Hi folks,
I have the new version of GOWIN ready to send out.
I have decided to send it via email using the existing
GOWIN message for new users.
I am still working on the country prefix file, but
I will keep updating that file via the weekly downloads.
As new prefixes come on line they will be added to the
prefix file. If you find any errors in the prefix display
in GOWIN, please send me the call sign and correct country
for that call sign.
This new version will also support the Online QRZ.COM
subscription lookup via the internet for those of you that
are subscribers. If BuckMaster has this service, it should
also work for it.
If I don't have your current email address on file, then
you need to send it to me. When emails bounce, I usually don't
resend the message. I DO NOT respond to the challenge spam filters.
Make sure that my domain names are in your white/friends list so
that messages from golist.net, golist@..., k1xn@...
pass your filters.
I hope you enjoy the new features.

I.C.P.O. Bulletin (Feb 01 - 08, 2007)
Islands, Castles & Portable Operations.
Listing is by calendar date (day/month/year)
==========

01/02/2007: Gildas, TU5KG has left for a new campaign in the southern lands. For 2007 he will be using new callsigns FT5XQ and FT5WM and also maritime mobile. He will be QRV as FT5XQ/MM until February 15th, then he will sign FT5WM/MM until March 15th. Gildas will be at Port aux Francais on March 14th. He will be QRV April 15th as FR/TU5KG from Reunion Island, before he returns to France in April. QSL via F4EFI, direct or by the bureau. [Tnx F4EFI]

01/02/2007: Joeke, PA0VDV reports he plans to active as PJ4/PA0VDV from the island of Bonaire (SA-006, WLOTA LH-1279), February 1-18th. QSL via home call, direct or bureau. [Tnx 425 DX News]

01/02/2007: ISWL Member John, 9M6XRO / 9M6-6982 will be operating from an established shack between February 1-10th from Sihanoukville, Cambodia using the callsign XU7XRO. He plans to operate on CW, SSB and possibly digimodes as well. Pete, XU7ADI (QSL SM5GMZ direct or bureau) and Steve XU7DXX (QSL 9M6DXX direct) are accompanying John, and will be operating under their own calls. John is looking forward to working some ISWL members and welcomes SWL reports. QSL route for XU7XRO is via QSL Manager, M5AAV, Graham Ridgeway, 6 Pilgrim Street, Nelson, Lancs, BB9 0JQ. Direct QSLs with return postage are preferred but Graham will also reply to cards received via the bureau. Interesting website at www.qth.com/dxshack/XU/XUtop.htm [Tnx Pete's-DX-Newsdesk]

02/02/2007: Joel, F5PAC will active again as 4S7PAG from Sri Lanka (AS-003, WLOTA LH-0762), February 2-22nd. Expect activity on 17 and 20 metres. He will operate from the main island with a side trip to AS-171 February 10-11th. QSL via F5PAC. [Tnx 425 DX News]

02/02/2007: Operators Mike/DB1JAW and Michael/DK5MH will be active from the northern part of the Sahara using the special call sign 7W0JAW and 7W0MH, respectively, between February 2-10th. Activity will be on 24 hours a day on 80-10 metres, mainly on SSB with a little bit of PSK31 and RTTY (maybe). The mainly activity will be on the following suggested frequencies: 14185, 14290, 18120, 18150, 24950 and 24980 kHz. All QSLs are to be sent direct only to DB1JAW (SAE is not required, return postage is appreciated): Mike Weiler, Stormstr.126, 47445 Moers, Germany. NO BUREAU QSLS ACCEPTED! [Tnx OPDX]

02/02/2007: A group of ten operators from the Bahia Blanca DX Group (http://www.grupodxbb.com.ar) and the Mistongo DX group (http://www.lu2ee.org.ar) will be active as LQ0D from Trinidad Island

(SA-021), February 2-4th. They plan to operate SSB, CW and PSK31 on 80-10 metres with four stations. QSL via LU7DSY. [Tnx 425 DX News]

02/02/2007: Look for Ralph, NM5RC/KH6 to be active from Lana'i island (USi HI-017, Maui county), Hawaii (OC-019) on February 2nd. Activity will be on 20 metre SSB, with a minimal station, around 14.260 MHz. He expects to operate 6 hours with time outs to recharge the battery. The USi reference number will not be given over the air until the required activation contacts have been made. Ralph will appreciate all contacts and DX Summit postings. QSL cards to all contacts will be sent by the end of February. [Tnx USi]

MONTENEGRO - 4O3T QSL CARDS

The last problem QSLs were sorted out this past week and should reach hungry DXers latest by the 15th of February. Over the next ten months the direct QSLing phase will continue through sub-QSL managers and then by the end of 2007 the rest will be released for distribution via the worldwide bureau network.

It was also noted that an unknown volume of direct requests were lost in the postal system somewhere along the way.

You can obtain 4O3T QSLs direct as follows:

Hi folks,
Looks like Murphy strikes again.
There has been some problems with the
new Gowin files being corrupted during
the sending via email.
Also the now appears that the program
is acting strange and is not giving the
correct country prefix is all instances.
I am looking into this and hope to
have a remedy soon.
If will put out a notice when it is ready
and make it available via download this time.
That seems to work every time without problems.
The Qsl manager info is working just fine
as I have not found a problem in those tests.
Sorry about the problem, but will get it
fixed.

Just got this from Dale, N3BNA

We do not have the papers yet, but things are looking positive for getting a license thanks to the help of HH2JR.

Dale, N3BNA and Ray, KC3VW plan to operate from southwestern Haiti, starting from Feb 12th or 13th until Feb 24. HH7/N3BNA will focus on CW and HH7/KC3VW will focus on SSB. N3BNA will try to participate in the ARRL -CW contest as a low power station. The purpose of this trip is a mission project to replace the base insulator of a 220 foot broadcast tower for a Christian broadcast station...:This is a huge undertaking, and amateur radio will be secondary but they will try very hard to get on.

Please QSL HH7/N3BNA Via KA2AEV

Hi folks,
Last week I sent to GoWin subscribers via email
the first update put out in a lng time. Well, it had
problems. The problems have been corrected and the
program is testing to be fine. SO
Version 2.11 of GoWin will be on the download page
this weekend. The new features are:
Now contains a country prefix file and will display
the country of the DX country.
Has the lookup feature for the subscription services
from QRZ and BUCKMASTER. When you are connected to
the internet and their services, it will display the
addresses from their online databases.
If these new features do not apply to you, you do
not have to download the upgrade. Your current GoWin
program will work just fine. If you did install the
upgrade last week, then please download the new version
as it fixes the bugs in version 2.10

Hi friends:

5T5DY news:
Benoit arrived very safe in 5T5 and begun to traffic yesterday evening.
His antennaes are well clear off at 20m above the ground .
On Feb 5 more than 400 QSO, but with some more discipline many more
could had been logged. Please listen the instructions and when a partial
call is questionned, don't reply if it isn't yours.
No problems with electricity supplying.
Be careful, on next Saturday, Benoit will not be on the air in the day,
for 5T5SN will pick him to visit Nouakchott and a great part of the reg.
Starting on Sunday, Benoit will be on the air also at night , to help JA
ans West US coast hams to get 5T5.

To day : temp was 36 C in the shack.

<http://www.dl8ebw.de/ACTUAL/Expeditionen/expeditionen.html>
and check the date of update (changes marked orange!)...

DX0JP
Its the last day of activity from the JA group on SPRATLEY.
2m and 6m EME antennas are still up and the group did make some nice
QSOs. They will be qrv as the timetable and from up moonrise on 2m...

3DA0
Hal, ZS6WB will go with Daniel, ZS6IR, to the Swaziland site from
22-25 February, taking the EME station up at that time and spending as
much time as possible on 2m during the stay. (22-25.febr.)

3DA0
AFRI75 - IRTS 75th Jubilee DXpedition 2007
will be held in 16-25. march and Hal and Daniel will also try to
be active in 2m EME from KG53 again than...

3B6
After a little hope (Matej, OK1TEH, reported about an voting for EME
at their webside), now I did receive a letter from a team-member that
there will be NO EME at these trip and only HF activity...

OJ0
in begin of july a group around the VHFer SM1TDE, will be qrv from
Market Reef/OJ0, IOTA EU-053 CW/SSB/digital 160-2m.

A2
Daniel, ZS6JR and Frosty, K5LBU will also be hosting a DXpedition to
Botswana (A2) from 5-20 July which includes the IARU HF Contest.
They request for people who wants to join that trip and run EME from
there during that time...

RK1B
Get info from OH5LID, member of RK1B, that there might be an ms-event
in june (arietids/z-perseids) - the target will be depending on the
MWS2007 result, which will be spread by DUBUS and MMMonVHF in march...

(tnx a lot for infos to JH0MHE, ZS6WB, SP9BQJ, SM1TDE, OH5LID
DL8HCZ/DUBUS and infos from the ON4KST-and N0UK-Chats and many others
on...)

If you see, or hear, or work yourself an expedition, which is NOT
(or a WRONG infos) at our MMMonVHF-page,

PLEASE drop us a note: info@... <mailto:info%40mmmonvhf.de>

Have a pleasant DX-time on VHF!

Hi folks,
I have mailed all the RAC orders I have this morning.
Be watching for it in your mail in the next few days.

I have 3 RAC WINTER 2007 CD'S left in stock. When these
are gone I will not have any more. The first 3 orders placed
on the Secure web order form will get these last remaining
copies. http://golist.net/

Hi folks,
I have a user that is using the new VISTA OS
from Microsoft. He is having problems in that he
can not download the EQF files from my web site.
His older computer is downloading just fine.
I am wondering if any of you have the new VISTA OS
and have had any download problems on my site or any
site.
Thanks

From: golist@gmail.com
Topic: 5378 Message: 5378

Hi David,
Yes, the 2.10 version has a problem (the qsl manager lookups are
all okay). I will have the new version 2.11 uploaded to the web site
after I get the weekly data files built. It will be ready this weekend.
I will make the usual announcement on the Golist reflector.

19/02/2007: Operators Carlo/IK1HJS, Flavio/IK1YDB and Federico/IW1QN will be QRV as II1ANT (WAP-32) during the 4th Antarctic Week (February 19-25th). QSL via IZ1GJK, direct or bureau. Further information can be found at www.qsl.net/iw1qn/ [Tnx WAP]

19/02/2007: Well known DX-peditionner Lanny Phillips W5BOS will join the Antarctica Activity Week (AAW) using the call N5T/ANT from Texas, February 19-25th. WAP reference for N5T/ANT is WAP-91. QSL via W5BOS. [Tnx WAP]

20/02/2007: Operators He Lei/BD1DRJ, Jack/BA4ALC and Vange/BD7KLO will be QRV February 20-24th as homecall/7 from Weizhou Island [Weizhou Dao] (AS-139, also count for WLOTA LH-0088). Activity will be on all HF bands, CW and SSB, using FT-857 with GP and ATU. QSL via home calls with the information listed on QRZ.com. [Tnx RSGB IOTA]

24/02/2007: Look for Bernard, F5LBG to be QRV each Saturday, Sunday and Monday (0700 to 1100 UTC) as F5LBG/QRP/p from the Tour de l'Horloge [The Clock Tower built in 1336] (DFCF 26-018 for the French Castles Award), in the city of Beaumont les Valence. This activity will be mostly in CW and a little SSB, QRP way 5 watts on 80 and 40m. Award references are - City of Beaumont les Valence - [Belli-Montis] (CP 26760, WW Loc. JN24LU), Canton of Portes les Valence (DDCF 26-34), Department of Drôme (DDFM 26) and Province of Rhône Alpes (DPF 22). QSL via F5LBG, direct or bureau. [Tnx F5NQL]

25/02/2007: Willi, DJ7RJ will be operating all HF bands, SSB, CW from Kos Island (EU-001, MIA MGD-016, also count for WLOTA LH-1730) as SV5/DJ7RJ between February 25th and March 18th. All QSL's to home call. [Tnx NG3K]

25/02/2007: Nick, VK1AA will be active as VK1AA/2 from Broughton Island (OC-212), February 25-28th. Look for activity on 40, 20 and 15 metre CW and SSB. QSL via PO BOX 900, Spit Junction 2088 NSW, Australia. [Tnx F5NQL]

03/03/2007: Look for Tom, W2SC to be signing 8P1A from the island of Barbados (NA-021) during the ARRL DX SSB Contest (March 3-4th) as a Single-Op/All-Band/High-Power enty. QSL via NN1N. [Tnx NG3K]

03/03/2007: The UA2 Contest Club will be signing RK2FWA from Kaliningrad during the ARRL DX SSB Contest, as a Multi-Multi entry. QSL via DK4VW, direct or by the bureau. [Tnx NG3K]

06/03/2007: Bob/AA1M, Mike/W1USN and Scott/W1SSR will be operating from the island of Aruba (SA-036, also count for WLOTA LH-0033), March 6-13th. Hopefully all HF bands SSB, PSK and CW. QSL to home calls. [Tnx NG3K]

15/03/2007: From March 15 to March 19, 2007, two WWYC teams will activate Liechtenstein and participate in the Russian DX Contest from there. Marko HB0/9A8MM will enter the contest in the M/S category while Matthias HB0/DK4YJ will participate as M/2. Independently from each other, both groups of young hams had the same idea and the same travel destination. The laughter was loud when they found out about the other activity weeks later. Unfortunately there is no M/M category in the Russian DX Contest, therefore both teams are sticking to their original plans. HB0 should be an easy mult this year! [Tnx UBA HF News]

11/05/2007: Operators Tomas/SM6XMY, Rolf/SM6IQD, Sten/SM6MIS, Janne/SM6YOF, Magnus/SM6WET, Rick/SM6U, Pierre/SA6AOA, Daniel/SA6ABU and Christer/SM7YLS will be QRV May 11-13th as 8S6KOS from Nord Koster Island (EU-043). They will have three main stations with amplifiers and good antennas. Main activity will be on 80, 40 and 20 metre SSB. If conditions permit we will add one station and activate other bands between 80-10m (including all WARC bands). QSL for this activation is via SM6YOU, Bureau (or LoTW/eQSL) preffered! Further details at sector7.nu/8s6kos/ [Tnx RSGB IOTA]

24/06/2007: Ric, DL2VFR will be QRV June 24 to July 1 as OZ/DL2VFR from Laeso Island (EU-088, NK-003 for the Danish Islands Award), maybe Hornfiskroen Island (EU-088, NK-005 for the Danish Islands Award). Activity will be on all HF bands, CW and SSB. QSL via home call, direct or bureau. [Tnx RSGB IOTA]

01/07/2007: Eric, SM1TDE reports that a DXpedition to Market Reef (EU-053, also count for WLOTA LH-0542) is planned for July 1-7th. There will be 3 to 4 operators that will be active on 160-2m CW, SSB and digital modes as OJ0/homecall. Further information will be available in due time. [Tnx NG3K]

10/07/2007: Stan/K0SDW and Roger/K0YY will be QRV July 10-22nd as homecall/p from Bridge Island (USi CO-012L, not IOTA, Grid Square DN60), Steamboat Lake, Routt County, Colorado. Look for activity on 80-6 metre CW,

SSB and RTTY. QSL via home call. [Tnx USi]

26/07/2007: Operators Colin/G3VCQ, Steve/M1ERS, Trevor/2E0TWS, Sharon/M3VCQ and others plan to be QRV July 26 to August 2 from the island of Arran (IOSA CL-01, SCOTIA CS-14), Clyde Islands (EU-123) using the call sign GS3RCM. They will also participate in the RSGB IOTA Contest (July 28-29th) using the call MM3M. The group also intends to activate the island of Pladda (IOSA CL-07, SCOTIA CS-12), Clyde Islands (EU-123) again if possible. QSL both calls via G3VCQ, direct or bureau. [Tnx RSGB IOTA]

28/07/2007: From July 28th to August 4th, look for Manu/F5NCU and Gérard/F6EHJ to be active under the special French call sign TM7BA, from Batz Island (EU-105, DIFM-018, DPLF PB-094, WLOTA LH-0680), French Brittany. Manu will be mainly on CW and Gérard on SSB. They will enter the IOTA contest. Pericontest activities will be on all bands HF, 80-10m CW and SSB (No digit activity). QSL via F5NCU, direct or via bureau. [Tnx F5NQL]

SPECIAL EVENTS

DQ50SAAR - In 1957, Saarland, located in the border triangle France, Luxembourg and Germany, became the 10th Land of the Federal Republic of Germany. The special call sign DQ50SAAR, including the special DOK "50SAAR", will be aired on several bands and modes throughout the year. All contacts will automatically be confirmed. Further information at www.darc.de/q/dq50saar/. [Tnx UBA HF News]

01/02/2007: Special event station 8J6HAM is currently active as of February 1 and will continue until March 4 for the 6th West Japan Hamfair. QSL via the JARL bureau. [Tnx JJ1WTL/AC6IM]

01/02/2007: KDDI, one of the Japanese telecommunication services companies, has assigned to make experimental cooperation with the Project BIG-DISH, composed of some forty Japanese moon bouncers, and JARL. They will use the antenna IBA-4, which is the 4th antenna of Ibaraki Satellite Communications Center, KDDI Corporation, for the experimental moon bounce operation on 144, 432, 1296 and possibly 5760 MHz bands. IBA-4 is a 32-metre Cassegrain dish made by Mitshubishi Electric Corporation in 1980's, and is located in the grid QM06. The IBA-4 is fully rotable and the elevation is possible up to 90

degrees for automatic moon tracking. The largest problem we have is that we cannot remove the subreflector, 2.9-m in diameter, about 9 metres in front of the main reflector. Therefore we have to use this subreflector in some way for the EME operation. Their EME operation license is still waiting for the four bands, 144, 432, 1296, and 5760 MHz. The 5760 MHz high power moon bounce transmission is still in discussion in the ministry. Other bands are sure to be licensed for the operation with 500 watts output. They will use the call sign 8N1EME. The intensive operating modes are CW, SSB, and JT65 specially on 144 and possiby on 432 also. Fundamentally, they think that random QSOs are most important, although, some scheduled QSOs may be considered for any special reason. Antennas in use will be vertical pol. on 144 and 432 MHz, the usual EME circular pol. on 1296, and 5760 MHz. The operation is planned during late February and early March at least, in 2007. QSL via JH6RTO (Seiji Fukushima, 1182 Hase, Bellflower 2506, Atsugi, Kanagawa 243-0036, Japan). Further information can be found at http://8n1eme.jp/ [Tnx JJ1WTL/AC6IM]

01/02/2007: Look for Charlie, ZL3CED (#9039) to be active throughout the month of February, using New Zealand FISTS Club station ZL6FF. Working ZL6FF is worth five points towards FISTS awards, including the FISTS Down Under Award. QSL via the information at QRZ.com. [Tnx OPDX]

12/02/2007: During and around the Antactic Activity Week Alain, F6BFH will be active as TM4ANT from February 12-25th, reference WAP-041. QSL via the French REF-Union bureau to F6BFH. [Tnx F5NQL]

15/02/2007: The French EUCW Society and the Union Française des Télégraphistes (UFT) will be active during the Antarctic Activity Week (AAW) as TM5TAF from February 12-25th. The WAP reference issued is WAP-79. Operators will include Norbert/F6AXX, Patrick/F5MQW, Michel/ F6DKV, Pierre/F6FXS and Bernard/F5HEW. Activity will be on HF CW only. QSL via F6AXX, either direct (SAE+IRC/2007) or via the French REF-Bureau (Please only this bureau). [Tnx F5NQL]

15/02/2007: During and around the Antarctic Activity Week 2007, the Provins ARS (F6KOP) members will use the special call sign TM0TAF on all bands HF, VHF and UHF and all modes, CW/SSB and various digitals from February 15-28th. The WAP reference issued is WAP-43. QSL via F4TTR (QRZ.com and other CBA) either direct (SAE+IRC/2007) or via the French REF-Union bureau. [Tnx F5NQL]

Be sure to check the U.S.A. special event station listing at www.arrl.org/contests/spev.html

U.S. COUNTIES - USA-CA

11/02/2007: Lloyd, NX4W/m will be heading home from the Texas mini on February 11th and will be running through the following counties. He will run 20m SSB, then 40m SSB and lastly 30m (10.139) PSK. (February 11) TEXAS - Tom Green, Concho, McCulloch, San Saba, Lampasas, Coryell, Bell, Milam, Robertson, Brazos. (February 12) Grimes, Walker, San Jacinto, Polk, Tyler, Jasper and Newton. LOUISIANA: Vernon, Rapides, Avoyelles, Point Coupee, West

Feliciana and East Feliciana. MISSISSIPPI: Wilkinson, Amite, Pike. (February 13) Walthall, Marion, Lamar, Forest, Perry, Greene and George. ALABAMA: Mobile and Baldwin. FLORIDA: Escambia (February 14) Santa Rosa, Okaloosa, Walton, Holmes, Washington, Jackson, Gadsden, Leon, Jefferson, Madison, Taylor, Lafayette, Columbia and Alachua. QSL via home call. [Tnx County Hunter Web]

14/02/2007: Jerry, K1SO/m will be QRV February 14, starting approximately 1400 UTC and will run various U.S. Counties, SSB only. Schedule as follows: North Carolina - Union, Anson, Richmond, Montgomery, Moore, Scotland, and Robeson. South Carolina (all on I-95) - Dillon, Florence, Clarendon, Dorchester, Colleton, Beaufort and Jasper. Georgia (all I-95 South) - Chatham, Liberty, McIntosh, Glynn (Stop in Glynn for the Night) but will travel over to Brantley, Ga, before calling it a day. Jerry will go on to Daytona, Florida, the next morning but will leave before the bands open. He will do 40 and then 20 SSB. QSL via home call. [Tnx County Hunter Web]

Announcing the 2007 DXpedition to Huang Yan Dao

Better Known as...Scarborough Reef

After three years of effort to obtain permission to land and operate from the most needed entity in the world, that needed authorization has been received. A multi-national team led by Bob W6RGG will operate from Scarborough Reef for ten days in late April 2007. Chen Ping BA1HAM and Paul BV4FH have been instrumental in bringing this operation to reality with ongoing support being provided by Tom N4XP, Don N1DG, San K5YY and Mike N6MZ.

A team is being assembled that will include members from Asia, Europe and the USA.

As with any DXpedition to a location such as this, transportation is very costly and will be the largest single expense. Success will depend on the contributions of the DX Community.

Please QRX for more information as it becomes available and the web site is activated.

Several have asked for more 160 operation by P49X. I'll be on 1811 ? on
Monday and Tuesday after 03Z, perhaps with another radio on 30 meters.
(That's Sunday and Monday nights North American time.)

As for the 17 and 12 meter WARC bands, email me with your interests and I'll
try to oblige between breaks on the beach.

I'll try to get the logs from this week uploaded to LOTW next week unless
work consumes me.

QSL via OE1EMS Direct with following QSL policy
Due to increased number of QSL cards with insufficient return postage
I'd like to advise fellows DX-ers that US$ 1 is not enough to send an
air mail letter to any destination outside Europe. To send your QSL
request direct please follow these instructions:
Ensure that the QSO information on your card are complete and correct.
Enclose a self-addressed envelope (SAE). US Stations please include name
of your country on the envelope. No address labels please!
Enclose return postage as follows:
non EU stations: 1 new style IRC, 2 US$ or 2 Euro . EU stations: 1 new
style IRC, 1US$ or 1 Euro.

UPDATE on the 2007 DXPEDITION TO SCARBOROUGH REEF

News Release Sunday, February 11, 2007:

The web site is now up and running <http://www.bs7h.com>.
It is still under construction and some portions are not yet active.
You will find a list of operators, map of the area and details on
contributing financially to the DXpedition.

This will be an expensive operation, mostly due to the transportation by
ship. Your financial help will be greatly appreciated.

Keep watching this web site for further updates.

Update on my 2007 YK trip

I will be arriving Damascus on 4/9 evening and should be QRV as YK1BA again from 4/10 till 4/27, returning home to Texas on 4/28. As usual, the purpose of the trip is not a DXpedition, so my operating will be spotty. However, I hope to be able to operate at least 3 - 4 hours a day.

With the current band conditions and my typical operating times, I suspect that I will spend most of my radio time on 30, 40, and 80 Meters. However, I will operate on whatever band (10 ? 80) and mode that have the best propagation at the time. Most probable operating times are between 20:00 - 23:00 UTC or between 02:00 - 05:00 UTC and possibly some occasional activities between 12:00 -14:00 UTC. I will be active on SSB, CW, and TTY.

QSL via N5FF

Please share with the DX community.

5387. INPUT FROM YOU ABOUT RAC CD

Hi folks,
The Winter 2007 RAC call book situation has really disturbed me.
I am now convinced that it was not due to any fault of the producer
of the call book. They never got my order. Once they learned of the
situation, the contacted me immediately by phone and then shipped
the order out the very next day. I received it within 7 days from
Germany. Rac did everything they could do to solve the problem.
I had decided NOT to sell RAC again, however, if I can deal
direct with RAC-Germany, then I feel that my orders will be processed
in a timely manner. I have asked RAC if it was possible to order from
them direct. Hopefully I will have more info very soon. I also suspect
that the cost would increase as I would have shipping charges to absorb
that are not now in the mix.
My question is: Are you, the customer, so upset by the past experience
that you are not interested in being a RAC customer in the future.
I would still not have control, but do feel that the service would be
as it should be. If you decide that I should remain a RAC dealer, then I
would also try and see if I might be able to send them call sign changes,
address/email changes and silent key information that you,the user, would
send to me. I don't mind providing this service if it is wanted by you and
of interest to RAC. RAC does need a better updating method to keep their
product current.
Please let me know what you think. I will base my final decision upon
your feed back.
Thank you.

No real problems here, either. I'd like to be able to continue to buy it.

John,

I was sorry to hear that you were no longer going to provide the service. I would give you a "YES" to continue to support the RAC CD's!

Thanks for asking!

I don't mind if the delivery to me is a little late and I like all the ideas
you have proposed. Maybe the Germans may have some suggestions on how to
save shipping costs from Germany to you (DHL maybe).

For my part I usually send out QSL's after the ARRL WWDX (SSB&CW). I look
at my contacts for the previous year's CQWWDX SSB & CW, the 2 ARRL DX
Contests, and the 2 WPX Contests searching for a band I might be missing.
By that time I usually have the latest RAC CD (in this case the
Spring/Summer 2007) installed for checking addresses and printing labels.

John my 2 cents worth would go with whatever you find the most cost effective and reliable. I use RAC for sending cards to Stateside addresses. I always your the DX look up feature on your website before throwing $ 3 bucks out the window sending a card for a new country or to any DX Station.
I agree with one of the other replys. It's hard to believe RAC hasn't gone to a digital download.

Hi folks,
The Winter 2007 RAC call book situation has really disturbed me.
I am now convinced that it was not due to any fault of the producer
of the call book. They never got my order. Once they learned of the
situation, the contacted me immediately by phone and then shipped
the order out the very next day. I received it within 7 days from
Germany. Rac did everything they could do to solve the problem.
I had decided NOT to sell RAC again, however, if I can deal
direct with RAC-Germany, then I feel that my orders will be processed
in a timely manner. I have asked RAC if it was possible to order from
them direct. Hopefully I will have more info very soon. I also suspect
that the cost would increase as I would have shipping charges to absorb
that are not now in the mix.
My question is: Are you, the customer, so upset by the past experience
that you are not interested in being a RAC customer in the future.
I would still not have control, but do feel that the service would be
as it should be. If you decide that I should remain a RAC dealer, then I
would also try and see if I might be able to send them call sign changes,
address/email changes and silent key information that you,the user, would
send to me. I don't mind providing this service if it is wanted by you and
of interest to RAC. RAC does need a better updating method to keep their
product current.
Please let me know what you think. I will base my final decision upon
your feed back.
Thank you.

Hi folks
You have spoken and I thank you for your input.
Although all of you have not been happy with the delays
in receiving the RAC cd this year and in the last few years,
your response was overwhelmingly in favor of my continuing
to provide you with the RAC cd.
Most all of you know that I offered the RAC to you at
a substantial discount because you support me by subscribing
to the GOLIST. This is one small way I have tried to say
"thank you" for supporting the Golist.
If I can still continue to provide the RAC cd to you at
a discount including the Free shipping, then I will continue
as a RAC dealer. I guess it is now up to the RAC folks in
Germany.
The next RAC issue is due out in May, around Dayton time.
Having just received the Winter version, I have thought not to
think about May orders. I was more in thinking about the next
November issue due out in December.
I will keep you advised of the situation and the final decision
in time for your to either keep your orders for RAC with the Golist,
or you finding other sources for your call book needs.
The GoWin Qsl Manager Program will continue to support the RAC
whether or not I am a dealer for RAC.
Until later.................

HI Folks, just relay a message received from Marc, K9PET.

Greetings to all. Today was first day on the ground from a few hours, AITCHO ISLAND (S. SHETLANDS). We set up SteppIR and could hear almost no one. We worked one LU2 and that was all. Tomorrow we will try 20M and 40M on the low end of CW and 14.200SSB from NEKO Harbor. We will be landing there approx. 17:00GMT so look for us abt 18:00-20:00 GMT. Band condx here are poor. Can't hear much from MM vertical or dipole. SteppIR was mostly quiet today too.

We worked Russians and some EU last night 24:00GMT.

Hpe to CU.

DXpedition to Swaziland (3DA0)

As part of the celebrations to mark the 75th Anniversary of the founding of the Irish Radio Transmitters Society, a number of members of the Society will activate Swaziland, 3DA0, from 16th to 25th March 2007. 17th March is St. Patrick's Day, the Irish national holiday, and the expedition will be especially active on many modes and bands on that day. The group will also take part in the CQ WPX SSB contest on 24th and 25th March.

Operation will be on all bands with particular attention given to the WARC bands, digital modes and the LF bands. It is also hoped to have some activity on EME, 2m and 6m.

Operators will be as follows:-

3DA0PM Paul EI2CA (expedition leader)

3DA0PB Peter EI7CC

3DA0AM Aidan EI8CE

3DA0DG David EI4DJ/GI4FUM

3DA0RH Rory EI4DJB

3DA0GV Brendan EI3GV

3DA0GI Pete GI4VIV

QSL Manager for all calls is EI7CC and cards may be sent direct or via bureau.

Please visit our web page at <http://www.irts.ie/cgi/afri75.cgi> which will be updated with information on a regular basis.

A log search facility will be updated on a daily basis.

The hills of the Roman Castles and a sumptuous 19th century villa only a few kilometers outside of Rome will be the scene of the 2007 4th International DX Convention organized by the Strange Radio Team, which will be held on next May 5th and 6th. On Saturday the 5th, from 3 PM to 8 PM the DX Conference will be held, followed by the 3rd Strange Radio Event 2006 Awards.

Sunday the 6th will be devoted to visiting the Eternal City, marvellous Rome! This year, differently from the previous editions, the convention will gain a greater international dimension, with the presence of illustrious, renowned foreign guests who will speak during the proceedings. The hotel features ample parking, a restaurant, bar, and a fully-equipped conference center. In addition, all the rooms are a harmonious blend of elegance and practicality, besides featuring every type of confort (each room is equipped with Internet connection).

Regarding hotel reservations: For a single room 85 euros; a double room 110 euros (55/person); a triple room 125 euros (42/person) and for a quadruple room 140 euros (35/person). For the Gala Dinner on Saturday evening 35 euros, Sunday luncheon 30 euros. Reservations must be made by April 20th, 2007 at the very latest, by way of E-mail containing the required personal data (Family name, First name, Call sign, Telephone number) to the following address: srt@...

You will be contacted as soon as possible by the organizers who will provide you with the details concerning the location of the event. It is of the utmost importance that the rooms and meals be reserved well in advance of deadline in order to enable us to organize as efficiently as possible. You are requested to reserve even if only attending the Convention, so that we might be able to provide for sufficient space.

Monitor Frequency: 145.750 Mhz -600 khz & 145.425 Mhz simplex .

Further to yesterday's note, we have discovered that VP2MWH is a re-issued call from 2006, which could cause confusion with the QSL-ing process. Consequently, we will use the callsign of VP2MTE.

We will to be active from the island of Montserrat between February 21st and 28th 2007 with activity primarily on CW with some RTTY and PSK31 on all bands 160-10 meters. Propagation permitting, we plan to have two stations on the air for as many hours every day as is possible. Our main objective is to work as many European, North American and ROTW stations on as many bands as possible. QSL via G3SWH, either direct with SAE and adequate return postage or via E-mail for a bureau reply or via the bureau. My E-mail address is: phil@..."

Fab (IK4VYX) announces a new 32 bit version of DXTelnet, ready for Vista.

New generation operating systems will stop supporting 16 bit programmes;
that's why DXTelnet (formerly 16 bits, now 32) was entirely rewritten.

New version requires a new registration code; old 16 bit registration
codes will not work.

IK4VYX announced great discounts for users who are already registered
with 16 bit version of DXTelnet and decide to upgrade to 32.

For more info please email Fab (IK4VYX) at dxtelnetREMOVE@...

The new DXTelnet version can be downloaded from here:

19/02/2007: Paolo, IK2QPR will be active as IU2ANT (WAP-52) during the 4th AAW (February 19-25th). QSL via IK2QPR. [Tnx OPDX]

19/02/2007: Well known DX-peditionner Lanny Phillips W5BOS will join the Antarctica Activity Week (AAW) using the call N5T/ANT from Texas, February 19-25th. WAP reference for N5T/ANT is WAP-91. QSL via W5BOS. [Tnx WAP]

19/02/2007: Operators Willy/OE3WWB, Reiner/OE3RPB, Karl/OE3KTA, Bert/OE3AIS, Karl/OE3KKA and Gus/OE3SGA will join the 4th AAW by signing their own callsigns/ANT. They wanted to apply for a club callsign but their regulation in Austria will only allow them to work from each operator's home station. The WAP reference number issued individually, is as follows: OE3WWB/ANT WAP-85; OE3KKA/ANT WAP-88; OE3RPB/ANT WAP-86; OE3AIS/ANT WAP-89; OE3KTA/ANT WAP-87; and OE3SGA/ANT WAP-90. They will be active mainly on SSB but also PSK and CW from February 19-25th. QSL via home calls. [Tnx OPDX]

23/02/2007: Look for UE3YAR to be aired February 23-25th to celebrate the Russian Army Day for the AFARU (Armed Forces Amateur Radio Union) activity programme. QSL via RV3YR. [Tnx 425 DX News]

Fishing for radio contacts is very poor. I bet it will be said that Feb '07 is the bottom of the solar cycle. So the "rules of engagement" have been changed while we are here on the Peninsula. If we experience no/poor reception and hear virtually nothing from our two ship board antennas(dipole and vertical), we will not set up on shore as we did today on Booth Island on LeMaire Channel. Our hope to operate from Petermann Is. got scrubbed due to fog and wx. Sven, we tried you today at the sked time, but nothing.

Wx is is very good and at times one needs only a sweater, but when the sun stays behind the clouds it gets cold quickly.

Our best radio success is late afternoon (our time) and into the evening. After dinner abt 9:30 or 10PM 30 and 40 meters seems to work on CW only. Can't hear any SSB except for some SA locals. We will keep in touch with more details and cheers to all

I.C.P.O. (Islands, Castles & Portable Operations)
UPDATE -
==========

16/02/2007: Operators David/K3LP (Lead), Krassy/K1LZ, Kam/N3KS, Dima/N2OW and Chip/N2YO will be QRV as FS5KA during the ARRL DX CW Contest from the island of St. Martin (NA-105 DIFO FS-001, WLOTA LH-0711). Before and after the contest they will be active as FS/homecall. QSL FS5KA via QRZ.com and QSL others via their home call. [Tnx NG3K]

16/02/2007: Pete, SM5GMZ reports that he is back in Phnom Penh after a week long XU7-operation with Steve, G4JVG and John, G3OOK. Terrible conditions and stone dead bands. Still, we managed to break around 12,000 QSOs.
For your info -
* On March 13th, Pete will start operation from Easy Malaysia. With a strong belief in low bands and CW. He will be active for about eight days as 9M6/SM5GMZ.
* On March 22, Pete will go to 9M8 and during the weekend. He will work the WPX Phone Contest together with Steve, G4JVG.
* April 27 is the next date to promote. Pete will go to 6W/Senegal to operate for another 12 days. Will do all modes and bands, but will especially look for QSOs on 80/160M. The call will be 6V7-something. [Tnx NG3K]

17/02/2007: Salvatore, IK1AWV plans to be QRV February 17th (weather dependent) as IK1AWV/p from Torre Sant'Elmo di Diano Marina (DCI reference IM-142 for the Italian Castles Award), Region of Liguria, Province of Imperia (IM). Look for activity on 40 and 20 metre SSB, starting around 0800 UTC. QSL to everyone direct or via bureau. QSL request or confirmation not required. [Tnx F5NQL]

03/03/2007: The German Lufthansa ARS, will be active from Egypt, using the special Egyptian callsign SU8DLH (Deutsche LuftHansa) between March 3-12th. Activity will be on all HF bands, CW, SSB, and digital modes. Further information about the QSL manager to be announced soon. [Tnx F5NQL]

16/03/2007: The WRTC2006 Japan Team member's Fukuda/JK2VOV and Nose/JA2BNN will be active from the island of Guam (OC-026, also count for WLOTA LH-0064) for Russian DX contest. (In this contest each entrant may QSO all the others, not only Russians hams). Fukuda participates as KH2/JK2VOC and Nose as KH2/JA2BNN, each Single-Op. They will be QRV March 16-19th and before the contest they hope to be active on the WARC bands. QSL via home calls. [Tnx F5NQL]

22/03/2007: Dick, W7ZR will be operating as 5C5Z from Morroco for CQWW WPX SSB (March 24-25th) as a Single-Op/Single-Band (20m) entry. He will be doing CW and RTTY before the contest as CN2ZR. QSL to W7ZR. [Tnx NG3K]

With effect from 2nd April 2007, UK postal rates will rise across the board by slightly more than 10%.

Whereas it has been the situation for some time that US $1 has been insufficient to pay for the minimum return postage to countries outside Europe, this new increase will mean that US $1 is no longer sufficient to pay for the minimum return postage to countries *WITHIN* Europe.

There is no surface mail service offered by the Royal Mail to countries within Europe. However, they do offer a surface mail service to countries outside Europe. However, and at today's exchange rate, the new postage cost is barely met by US $1 and with the continuing decline in the dollar/pound sterling exchange rate, is unlikely to remain so.

The good news is that the new, 2009 expiry IRCs are still exchangeable for the minimum return postage to all parts of the world. However, very few seem to be using them at present.

Please bear the above in mind when sending QSL requests which may not be able to be processed and returned before 2nd April 2007. In particular, the cards for the VP2MTE operation are unlikely to be received from the printers by this date.

Please do not send currency other than US dollars or properly stamped, 2009 expiry IRCs. If you must use mint stamps, please supply them loose (not stuck onto the envelope).

Any QSL requests received without adequate return postage will be answered via the RSGB bureau.

Due to a misunderstanding between me and the printer, Tony, LZ1JZ,

(my fault) I have not yet received the 9Q1TB cards - please be patient!

I'm up to date with mailing of 9Q1EK cards, more than 230 letters mailed

as of today. Georges is now back from his vacation, busy with work but on

the bands as much as he can..

For Europeans: We don't have ?euro? postage here, it's the same 11 SEK

if mailed to USA or to Finland. 1 USD is NOT enough as our postage to ALL

foreign countries is the same, and we do NOT have economy mail, all mail

go as "priority mail" = "air mail". (USD 1 = SEK 7)

Log-search on www.logsearch.de but there are ?busted calls?, and if you

have any questions please send me an e-mail.

5419. WINTER 2007 RAC CALL BOOK

From: golist@gmail.com

Hi folks,
From what I am hearing and reading, it looks
like Golisters were the only ones in the states
to get the Winter2007 RAC CD's. I am very glad that
the orders were finally filled.
I have not had any response to my emails about
dealing direct with the manufacturer, so my continuing
as a RAC dealer is looking doubtful. When my emails go
unanswered, this usually indicates my orders will not
be filled in a timely manner. You and I have had this
situation for the last 2 or 3 years and I will not
do it again in the future.
I will keep you advised, but if I do not get answers
to my questions very shortly from RAC, then I will drop
it. I will not try and pick up any of the others as you
can buy them at the same cost as I can, so I would be
unable to save you any money.
More on this subject later.....

06/04/2007: John/M0XIG and John/G4POF will air special event station GB2BST being held at Bramshaw in the New Forest between April 6-9th and commemorates the fact that it is 200 years since the shutter telegraph first operated at this site. During the Napoleonic wars the Bramshaw Shutter Telegraph was one of a number that operated as a communication link for the Admiralty between London and Plymouth. There was already a system in place between London and Portsmouth and in 1805 this line was started to connect with Plymouth. The exact date of when the work as completed isn't known, but is believed to be soon after 4th May 1806, as there is a report on this date stating the line was almost ready. The original site of the Telegraph Station is believed to be very close to Hope Cottage on Telegraph Hill. Telegraph Hill is one of the highest points of the forest and is a fine open site with excellent views to the west. There is more information on the shutter telegraph at the Royal Signals Museum in Blandford. The Grid Locator for this station is IO90DW, ITU Zone:27 and CQ Zone:14. QSL via M0XIG, direct (please enclose a SASE or return postage costs in the form of IRC or

green stamp) or by the bureau. [Tnx www.qrz.com/gb2bst]

GACW KEY DAY
World wide activity day for GACW members and no members also.

The GACW KD is not a competition or contest but an event to encourage all amateur radio to bring out his old manual and no electronic keys and make as many QSOs as they can with other participants.

Date: Starting last February saturday each year. 1800Z 24/Feb/2007 to 0600Z 25/Feb/2007 - 12 hours period.

Time: 1800 Saturday till 0600 UTC Sunday.

Frequencies: Near but always over 3530 - 7030 - 14030 - 21030 and 28030 kHz.

WARC: The QSOs in the WARC bands are allowed but there is no specific recommendation on frequencies to use.

Mode: A1A - CW, straight key, bugs, maniflex, sedeswipers, and no-electronic key only.

CALL: CQ KD - CQ GACW KD, etc.

Exchange: Greetings and RST plus your GACW #. Non GACW members send KD.

If you made more than 10 QSOs you are invited to vote for 3 different stations with a special very good sending. SWL are invited to send his log and vote too.

The "GACW KEY DAY" will be awarded to the 5 most voted stations.

Logs. Simple list using log book format, etc.

Deadline: Not later than the 31st of March.

Logs can be sent via e-mail as text-file to: guillev@... , and also "CC" to: gacw@...-ip.org

SILENT KEYS

With great sadness we took notice that Wolfram Hess, DL1RXA, a well known DXer passed away at the age of 67 after a stroke on Friday, Feb 9th, 2007. For many years Wolfram has been the voice of the DARC DX broadcast (DK0DX),

of the DX show of former Radio Berlin International (RBI) and he was also a specialist in creating excellent forecasts of solar and radio weather with very high accuracy. We will never forget you Wolfram! [Tnx DXNL]

Gianni Rizzi, I7RIZ (ex-I8RIZ), was one of the big Italian DXers and IOTA hunters with a total DXCC count of 351. He put away the microphone forever on Feb 13, 2007. [Tnx DXNL]

ARRL Section Manager Election Results Announced -

One new ARRL Section Manager has been elected, while eight incumbent SMs have retained their seats. New terms for all successful candidates begin April 1. Contested elections took place in two ARRL sections, and ballots were counted and verified February 20 by Membership and Volunteer Programs staff members at ARRL Headquarters.

In Kentucky, Jim Brooks, KY4Z, of Cox's Creek outpolled former SM Bill Uschan, K4MIS, 426 to 105. Brooks will succeed John Meyers, NB4K, who has been Kentucky's SM since 2001. Meyers did not run for re-election. Brooks, a ham for 20 years, says he wants to build on Meyers' achievements.

Brooks has served in various leadership positions in his local club. Since 2004, he has been the ARRL Kentucky Section Public Information Coordinator. He is trained in ARES, enjoys working DX, serves as an ARRL Volunteer Examiner and is a registered instructor.

In North Texas, incumbent SM Tom Blackwell, N5GAR, received 816 votes to 761 for challenger Doug Loughmiller, W5BL, to win a second term.

Seven other incumbent ARRL Section Managers faced no opposition in the current election cycle and were returned to office for new, two-year terms. They are: Tom Fagan, WB7NXH, Arizona; David Norris, K5UZ, Arkansas; Jim Lasley, N0JL, Iowa; Malcolm Keown, W5XX, Mississippi; Doug Dunn, K7YD, Montana; Carl Gardenias, WU6D, Orange, and Dwayne Allen, WY7FD, of Wyoming. I couldn't remember the T part of RST's so I gave him a 596.
Later after looking at my old chart, I'd say it should have actually been a 594.
But he was still very easy to copy.

Hi,

Just a quick reminder that my upcoming trip to C6 begins this Saturday (Feb. 24th) and runs through Saturday March 3rd. I will be on New Providence Island (NA-001) with Tom, N2YTF signing as W2IRT/C6A and N2YTF/C6A respectively. We hope to be QRV on 17, 20, 30, 40 and hopefully 80, using CW, SSB and RTTY, with a focus on Europe. I will try to hand out a few Q's to stateside hams from C6 on Friday night in the ARRL SSB 'test, but I'll be flying back to NJ during the day on Saturday and will be QRV from home beginning Sat. evening.

QSLs for both ops go to W2IRT (direct, buro and LoTW). Additionally, as it turns out, Steve, K0SED/C6ASE will be operating from the same complex on Cable Beach and I've volunteered to handle and QSLs for Steve for the week's operation.

Cheers,

Peter,
W2IRT

I have a few QSL cards I am getting ready to mail off, 10 to be exact and two are going to US managers. What I was wondering since it appears the RAC addresses are usually 2 or 3 years behind should I use QRZ.com to get the most accurate address? That is what I usually do, but it appears they are down because I haven't been able to connect all day.

Thanks,

AZORES FOR JAPAN AND THE U.S.

(Tuesday, February 27, 2007)

CU2CE, CU2DX and OH2BH will activate CU2A on all bands in the
ARRL DX Contest this coming weekend in the multi-single category.

Martti, OH2BH is already on the island, concentrating on giving
JAs a shot on the low bands : 1825 kHz at 2100 - 2300 UTC listening down,
and 7003 kHz at 0700 - 0900 UTC listening up long path. With a lot of
echo, 49 JAs made it through this morning.

Bob I checked on Pathfinder for J28DN. The results are below. I needed a card from Namibia for DXCC. After sending 2 or 3 cards direct and via the Buro and not getting a reply and hearing the station operating I was forced to send it Registered International Mail. This time it was round trip in less than 7 days. It cost me each time for IRC & GS but I needed the QSO's. If you're talking about Frank, V51AS: The Daily DX recently reported an address in Germany that people can use to send Frank cards (it sounds like a mail drop). I don't have the information handy, though.

In the month of March, 1x1 special event callsigns will be on the air celebrating 100 years of Oklahoma Statehood. Every N, K and W 5 land 1x1 callsign and several other call area 1x1 calls with OKLAHOMA suffixes will be active during parts of the month but especially during the 2007 Oklahoma QSO Party March 10 and 11 when all 77 counties will be on the air. Other 1x1 calls will also be active. Spell OKLAHOMA during the QSO Party by working 1x1 calls and become eligible for a special award designed for the Oklahoma Amateur Radio Centennial Event. A commemorative QSL card has been designed to confirm QSOs during both events. A pair of "Don't miss events", Oklahoma stations in the 2007 Oklahoma QSO Party and Centennial Event are ready to help improve your pileup busting skills. Even Registered Mail would not make it to Frank's Namibia address. He warns there could be a several month delay in his getting mail from the German drop, but at least there should be a better chance that he will eventually get it.

SILENT KEYS

ARRL Honorary Vice President, Past Director Ed Metzger, W9PRN, SK

ARRL Honorary Vice President and Past Central Division Director Edmond A. "Ed" Metzger, W9PRN, of Springfield, Illinois, died February 26. He was 93. An ARRL Charter Life Member, Metzger spent more than half his life serving the League in a variety of capacities. ARRL CEO David Sumner, K1ZZ, said he believes the highlight of Metzger's five decades of service to the ARRL was his chairmanship of the Administration and Finance Committee.

"Ed's professional expertise, love of Amateur Radio and the ARRL, and plain common sense combined to enable him to make a unique contribution in that role," Sumner commented.

Licensed in 1941, Metzger began his lengthy League service in 1957, when he became Illinois Section Communications Manager (now Section Manager), a post he held until 1980. From 1965 until 1981, he also served as ARRL Central Division Vice Director. He became Central Division Director in 1981. That same year, the ARRL Board of Directors elected Metzger as an ARRL Foundation Director, and he subsequently served as the Foundation's president from 1993 until 2001, when Dick Isely, W9GIG, succeeded him as Director. The ARRL

Board of Directors in 2001 named Metzger an ARRL Honorary Vice President. He also was ARRL Foundation President Emeritus.

Metzger was a member of the Sangamon Valley Radio Club and the Quarter Century Wireless Association, and he was a regular at the annual W9DXCC gathering in Chicago.

A graduate of Springfield Junior College, Metzger also attended Lincoln College of Law in Springfield. He was comptroller for Kerasotes Theatres for more than 50 years.

Survivors include two sons -- Ed, NL7LJ, and William, and three daughters -- Margaret, Molly and Lisa. [Tnx W1AW]

It distresses me greatly to report the passing of Phil Goetz, N6ZZ on February 27, 2007. Phil suffered a brain hemorrhage in Ruidoso, NM on Monday while playing racket ball, a game which he regularly played. He was rushed to Presbyterian Hospital in Albuquerque but could not be revived.

I only knew Phil for about 5 years. I'm sure this email list barely touches the number of people he must have known in the hobby. Please notify others who come to mind. I personally contacted David Sumner, K1ZZ by phone this morning to give him the news.

Phil was in the midst of outfitting a new contest station, having recently completed building a new house in Alto, NM. His quick fist, Top 10 ranked contesting proficiency, and witty quips will be sorely missed. [Tnx W0ZW]

QSL cards for V51AS: Frank Steinhaeuser, Schlossstr. 68a, D-82140 Olching, Germany is the new address of V51AS (as reported earlier). Frank states that this route is also valid for older QSOs before March 2007. [Tnx DXNL]

VP8DJU & VP8DKG are in the Falklands (WAP GBR-25) . They did operate from there yesterday ... and I lost them (hi). They will be on today again...let's hope.
GL Gianni I1HYW
Our 2 1/2 day passage from S. Georgia was often rough with 3 and 4 meter swells, a contrary westerly wind of up to 50 kits. So for many including me
we got caught up on sleep. I developed a upper respiratory thing and with codeine cough meds and the heavy seas, my head went wild. So today the Dr. gave me other stuff and I'm making a recovery.

Today (March 1) was all day in Stanley where we had previously contacted Bob
VP8LP from S. Georgia. I arranged for Bob to come aboard the ship and in the afternoon we spend two hours at his qth on his FT1000MP, 200W into his 3
el SteppIR yagi. It was wonderful. The pileup was amazing on 15M and 12M SSB and CW. We worked many stations throughout EU, SA and NA including Stan
SQ8AQD in Poland who had been trying so hard to set up a sked. Also worked some old friends in EA. It was just the best day on the air since we've been travel and our great thanks to Bob for his hospitality.

Tomorrow (March 2) it will be West Point Island 1100Z -1500Z& New Island 1800Z-2100Z. Since the AM has never been good for us I suspect we won't even give it a try until the afternoon.

Thanks to all who played with us today. It sure was nice to have a beam to get good signals from the states. CU. We can't believe this outstanding trip is coming to a close. Our memories and nearly 4000 photos will have to
bring us back.
Regards, Marc K9PET

Hi folks,
Thought you folks should be alerted to this:

Microsoft WGA Returns to Windows XP
Over the past couple of weeks Microsoft has attempted to slip in a modified version of its WGA Notifications anti-piracy functionality. All of my several Windows XP machines, which have the Automatic Updates feature throttled back to notify only about pending updates, have tried once again to install WGA Notifications ? even though I've previously declined this patch, and have properly indicated to Automatic Updates not to offer me this software again. For Microsoft, though, this is apparently a whole new thing that wipes the slate clean. They have a major new update of WGA Notifications. So they're apparently allowed to sneak this in again? Right. That wasn't a self-serving decision.

Microsoft's Knowledgebase article for the update doesn't tell you what's new in this latest release. It's just an undocumented update of WGA Notifications. (For more info, read this description of the Windows Genuine Advantage Notifications application.)

You don't think that if you do not install this update that Microsoft will set a switch that will prevent you from getting future updates of anything? Meaning the updates will look to see if you have the WGA and if you don't then there aren't updates available.

John - Try This: Go to My Computer, C, Windows, In Win Mel the
MS Dowload File, is in the Offline Apps Folder. Try to find the MS
Automatic Download File - it should be in a Windows Folder. Mine
is in the folder that Windows is in and has the same logo that my
downloaded Shockwave, and Automatic Anti-Virus Update DLL
file is in. By running Properties on the file, you should be easily able
to delete it, then when you open your browser, MS cannot do an
automatic update - you can go to the MS site and select the update
files you want. Yes, I changed the MS Automatic Update program
in the Control Panel and checked the block ''No Automatic Updates",
but it doesn't stop those "quickies" when you open your web
browser. GL/73, Larry

John,

Maybe I'm missing something but what is the issue with Microsoft confirming that you have a legitimate licensed copy of Windows on your computer? Seems to me preventing software piracy is a good thing. Is there some other issue?

Dave,
The problem I have with it is the method of delivery and the
fact that the legitimacy test does not recognized all the legitimate
copies of the XP OS. Educational copies which Microsoft issues will
not pass these tests and upgrades are denied.
When you buy my software, it belongs to you. I hope that you do
not give it to others but I can't stop you. When I upgrade my software
it is available to you without question and I expect other software
to do the same. Of course, this is why Microsoft has earned billions
and I owe millions. :-)

For one thing, it has a history of inappropriately labeling genuine software as pirated, when it isn't, and locking down people's systems! This is well documented in the computer magazine forums. That's the reason M$ has had to do the update in the 1st place. Has happened with XP but is even more problematic with Vista, or so I've read.

06/04/2007: John/M0XIG and John/G4POF will air special event station GB2BST being held at Bramshaw in the New Forest between April 6-9th and commemorates the fact that it is 200 years since the shutter telegraph first operated at this site. During the Napoleonic wars the Bramshaw Shutter Telegraph was one of a number that operated as a communication link for the Admiralty between London and Plymouth. There was already a system in place between London and Portsmouth and in 1805 this line was started to connect with Plymouth. The exact date of when the work as completed isn't known, but is believed to be soon after 4th May 1806, as there is a report on this date stating the line was almost ready. The original site of the Telegraph Station is believed to be very close to Hope Cottage on Telegraph Hill. Telegraph Hill is one of the highest points of the forest and is a fine open site with excellent views to the west. There is more information on the shutter telegraph at the Royal Signals Museum in Blandford. The Grid Locator for this station is IO90DW, ITU Zone:27 and CQ Zone:14. QSL via M0XIG, direct (please enclose a SASE or return postage costs in the form of IRC or green stamp) or by the bureau. [Tnx www.qrz.com/gb2bst]

28/04/2007: The Scarborough Special Events Group will kick off their 2007 season of special event stations with GB2EXP over the weekend of April 28-29th, to commemorate the adoption of the HMS Explorer. Scarborough's officially adopted Navy ship is RFA Wave Ruler, but this vessel has been deployed as support ship to the warships fighting the war against drugs in the Caribbean for the past 12 months and is likely to remain there for the foreseeable future. The Royal Navy have approached Scarborough Council suggesting that the town adopt a second vessel, HMS Explorer. This is a small "Archer" Class P2000 Coastal Training Craft based in Hull. The recommendation has been approved. HF activity will be around 7055 or 3725 kHz SSB, and 7025 or 3525 kHz CW. The group will send a QSL card via the RSGB QSL Bureau, for every QSO made. Direct QSL requests can be sent via G4SSH (Mr Roy Clayton, SSEG QSL Manager, 9 Green Island, Irton, Scarborough, North Yorkshire YO12 4RN, England) [Tnx GB2RS]

09/06/2007: Museum Ships Weekend, 0000z June 9th to 2359z June 10th, sponsored by The Battleship New Jersey Amateur Radio Station. Full information can be found at users.tellurian.com/freddie/nj2bb/ship-event.html [Tnx NJ2BB]

09/06/2007: GB2CAT June 9-10th "Thundercats" - Scarborough has been chosen to host the 2007 World Thundercat Racing Championships. Normally held in South Africa or Australia, this will be the first time that the final has been held in the northern hemisphere. Thundercats are small speedboats with a crew of two. Regional heats to qualify for the final have been held worldwide. The 400 metre course will be marked out in the South Bay Scarborough. Racing will commence on Tuesday 2nd June with the final on Saturday 9th June. HF activity will be around 7055 or 3725 KHz SSB, and 7025 or 3525 KHz CW. QSL via the RSGB bureau. [Tnx SSEG]

18/08/2007: The Scarborough Special Events Group will be active as GB2SCA for the "International Lighthouse Weekend" (August 18-19th), from the lamp room in the Scarborough Lighthouse (ARLHS ENG-121). HF activity will be around 7055 or 3725 kHz SSB, and 7025 or 3525 kHz CW. QSL via the RSGB bureau. [Tnx SSEG]

01/09/2007: The Scarborough Special Events Group will be active September 15-16th as GB2QE to commemorate the 40th anniversary of the launch of the "QE 2". The ocean liner "Queen Elizabeth 2" is scheduled to sail into Scarborough's South Bay on the morning of Sunday 16th September 2007 as part of a round-Britain cruise to commemorate the 40th anniversary of her launch. HF activity will be around 7055 or 3725 kHz SSB, and 7025 or 3525 kHz CW. A special QSL card will be sent through the bureau for all contacts made. [Tnx SSEG]

Amateur Radio activity shut down in Iraq (Mar 13, 2007)
Iraq Amateur Radio Society (IARS) President Diya Sayah, YI1DZ, has informed ARRL that all Amateur Radio activity in Iraq has been suspended until the security situation there improves. He says the suspension affects both Iraqi citizens as well as any foreigners -- including military personnel and contractors -- who have been on the air from Iraq. The request to halt all ham radio activity and the issuance of licenses in Iraq originated with a letter from the Iraqi Ministry of Defense to Iraqi Prime Minister Nouri al-Maliki as part of a new security plan, Sayah said. He received subsequent confirmation via the Ministry of Higher Education and Scientific Research to shut down ham radio activity, although he allows for a possible misunderstanding on the part of government officials as to the nature and purpose of Amateur Radio. Falconsat-3 launch successful

Reports have been received that the Atlas launch carrying Falconsat-3 into orbit was successful on March 8, 2007.
Drew, KO4MA wrote, "We had a great view of the launch tonight. The Atlas is dimmer than the Shuttle or Delta launches, but a nice crimson color.
"We talked about the launch on the Florida AMSAT net at 1930, and had several guys outside for both the 88 degree pass of AO-51 at 2030 and watching the launch at 2210 while discussing it on the local repeater system."
CelesTrak now has KEPS available at:
http://www.celestrak.com/NORAD/elements/tle-new.txt
Likely candidates this early into the mission include 2007-006D, 2007-006E and 2007-006F.
When Falconsat-3 completes its primary mission an amateur radio payload is planned to be activated. More details on this feature will become available at that time. [Tnx Southgate ARC]

This is to inform you that from 23 March until 12 April 2007 I will be in Republic of Moldova as ER/RW3AH. This is my 3d QRO DX expedition to Moldova. Special attention will be paid to lower 160/80m bands and as usual - 20 m SSB/CW towards USA for novice class HAM's in SSB Mode above 14.260 KHz. For Russian amateurs SSB around 14.150-14.180 KHz.

Also possible RW3GW Valery will joint me as well as a second operator with call sign ER0/R7C or ER0/NA1SA from 8 until 12 April 2007.

I'm a bit confused. The first paragraph says from 23 March until 12 April, but the last says "from 8 until 12 April 2007". So is the expedition from 23 March with a possible second operator showing starting the 8 April or is all of it starting 8 April?

What is the best way to get a QSL from Cuba......I am getting real close to DXCC on 160M...

Are Greenbacks allowed?

Is IRC a better choice?

Any other options.

Sounds like from 23 March until 12 April 2007 there will be an operation
in Republic of Moldova as ER/RW3AH.

Then later RW3GW Valery will join him as a second operator
with call sign ER0/R7C or ER0/NA1SA from 8 until 12 April 2007.

Just a week or two ago CM6RCR made my day. It certainly was with an IRC or two.

Still, unless a foreign manager is involved, QSLing with Cuba is a lottery.

06/04/2007: John/M0XIG and John/G4POF will air special event station GB2BST being held at Bramshaw in the New Forest between April 6-9th and commemorates the fact that it is 200 years since the shutter telegraph first operated at this site. During the Napoleonic wars the Bramshaw Shutter Telegraph was one of a number that operated as a communication link for the Admiralty between London and Plymouth. There was already a system in place between London and Portsmouth and in 1805 this line was started to connect with Plymouth. The exact date of when the work as completed isn't known, but is believed to be soon after 4th May 1806, as there is a report on this date stating the line was almost ready. The original site of the Telegraph Station is believed to be very close to Hope Cottage on Telegraph Hill. Telegraph Hill is one of the highest points of the forest and is a fine open site with excellent views to the west. There is more information on the shutter telegraph at the Royal Signals Museum in Blandford. The Grid Locator for this station is IO90DW, ITU Zone:27 and CQ Zone:14. QSL via M0XIG, direct (please enclose a SASE or return postage costs in the form of IRC or green stamp) or by the bureau. [Tnx www.qrz.com/gb2bst]

U.S. COUNTIES (USA-CA)

24/03/2007: Larry, W0QE/m will activate the following U.S. Counties between March 24-30th, SSB and CW - March 24: CO - Broomfield, Weld and Larimer (may skip since I ran these recently). WY - Laramie. NE - Kimball, Banner, Scotts Bluff, Sioux, Box Butte and Dawes, SD - Fall River, Custer, Pennington and Lawrence. March 25: SD - Fall River. WY - Crook. MT - Carter, Powder River, Custer, Rosebud/Garfield(c/l), Custer(?), Rosebud, Treasure, Rosebud(?) and Musselshell. March 26: MT - Musselshell, Golden Valley, Wheatland, Meagher, Judith Basin, Cascade, Teton, Pondera, Glacier and Flathead. March 27: MT - Flathead and Lincoln. ID - Boundary and Bonner. MT - Sanders, Lake, Missoula and Ravalli. March 28: MT - Ravalli. ID - Lemhi, Custer, Butte, Bonneville, Jefferson(?) and Madison(?). March 29: ID - Bonneville. WY - Lincoln, Sublette(?), Teton, Park and Hot Springs. March 30: Hot Springs, Fremont, Carbon and Albany. CO - Larimer, Weld and Broomfield. He will run all counties on SSB(20/40m) and CW(30m/40m/20m) if possible and in the order shown if he is able to. Larry will run 40m CW on 7.0385 and if RTTY QRM +/- a few KHz. He will not probably hear anyone on 7.185 in the mornings so I will try to announce a 40m SSB freq. while on 20m SSB. Larry is good for 3 stars and MG. QSL via home call. [Tnx County Hunter Web]

27/03/2007: Jerry, W0GXQ/m will activate the following U.S. Counties between March 27th and April 4th, CW only - March 27: MN - Becker, Clay. ND-Cass, Richland. April 4: IA - Plymouth, Sioux, Lyon. MN-Rock, Pipestone, Lyon, Yellow Medicine, Chippewa, Swift, Pope, Douglas, Otter Tail and Wadena. Order of run: 40/30/20 when possible. On 40m he will start on 7038.5 and he will announce a QSY frequency if there is QRM for anyone. If this happens, a spot will be appreciated. QSL via home call. PSE NO ECC. [Tnx County Hunter Web]

31/03/2007: Bill, K2NJ/m will activate the following U.S. Counties on March 31st, SSB and CW: NJ - Hunterdon, Mercer, Burlington, Camden, Gloucester, Salem, Cumberland and Cape May. DE - Sussex and Kent. MD - Caroline, Queen Anne, Talbot, Anne Arundel, Baltimore, Howard, Carroll, Frederick, Washington, Allegany and Garrett. WV - Preston and Monongalia. PA - Bedford, Somerset, Fayette, Greene, Washington, Allegheny, Butler, Beaver, Lawrence,

Mercer, Crawford, Erie, Warren, Forrest, Elk, McKean, Potter, Tioga, Bradford, Wyoming, Susquehanna, Lackawanna and Monroe. NJ - Warren, Sussex, Morris and Hunterdon. Bill is good for 3 stars and MG. He will try to start out on 40m SSB, then go 40/30/20 CW and if still energy and voice will do 20 SSB. If 40m SSB is busy, I will then start on 20m SSB and end on 40m SSB. But the CW will always 40-30-20 in that order. QSL via home call. [Tnx County Hunter Web]

Subject: Changes in DXCC, WAS and VUCC Card Checking Program
rules:

Effective immediately, DXCC announces the following changes to the DXCC Card Checking program:

The 10-year rule is now removed. Card checkers can now check cards for current entities only, dating back to November 15, 1945. Card checkers still cannot verify 160 meter cards or deleted entities.

In addition, DXCC card checkers can also check applications, if they agree to do so, for:

The Worked All States Award (WAS) (See www.arrl.org/awards/was); and

The VHF/UHF Century Club Award (VUCC) (See www.arrl.org/awards/vucc)

Contact Bill Moore, NC1L (dxcc@...) with questions

Hi folks,
I am still amazed at the number of requests for
information, free trials and orders that are sent to
me with email addresses that do not work or are challenged.
When I request information or buy something that requires
my email address, I make sure that the email address is a valid
one and not a "cute" doctored one. If I use a spam filter, then
I make sure that this program has the domain name of the person,
company from which I am seeking help, info or products. But of
course, when I ask for this stuff, I really want it.

06/04/2007: John/M0XIG and John/G4POF will air special event station GB2BST being held at Bramshaw in the New Forest between April 6-9th and commemorates the fact that it is 200 years since the shutter telegraph first operated at this site. During the Napoleonic wars the Bramshaw Shutter Telegraph was one of a number that operated as a communication link for the Admiralty between London and Plymouth. There was already a system in place between London and Portsmouth and in 1805 this line was started to connect with Plymouth. The exact date of when the work as completed isn't known, but is believed to be soon after 4th May 1806, as there is a report on this date stating the line was almost ready. The original site of the Telegraph Station is believed to be very close to Hope Cottage on Telegraph Hill. Telegraph Hill is one of the highest points of the forest and is a fine open site with excellent views to the west. There is more information on the shutter telegraph at the Royal Signals Museum in Blandford. The Grid Locator for this station is IO90DW, ITU Zone:27 and CQ Zone:14. QSL via M0XIG, direct (please enclose a SASE or return postage costs in the form of IRC or green stamp) or by the bureau. [Tnx www.qrz.com/gb2bst]

06/04/2007: Special event call sign GB2FIC will be aired April 6th to May 3rd from the Bridge Wireless Office, HMS Belfast (GB2RN) to commemorate the 25th anniversary of the Falkland Islands Conflict and to remember those who lost their lives. QSL via the RSGB bureau only. A special QSL card will be printed to confirm all contacts. [Tnx RNARS]

Be sure to check the U.S.A. special event station listing at www.arrl.org/contests/spev.html

JOTA - AROUND THE WORLD IN 50 HOURS -

The Jamboree On The Air (JOTA) is an annual event in which about 500,000 Scouts and Guides all over the world make contacts with each other by means of amateur radio. This year's JOTA will have a theme: travel around the globe in 50 hours. The 50th JOTA will run from 19 October 22:00 h local time to 21 October 24:00 h local time. An official start will be given by the World Scout Bureau radio station in Geneva on 19 October at 21:00 h GMT with a transmission in the 20 and 80 m band and on Echolink. For full details see: www.scout.org/en/information_events/events/jota/50th_jota_2007 [Tnx UBA HF News]

INTERNATIONAL MARCONI DAY -

International Marconi Day will take place on Saturday 28 April this year. Although the event is not a contest, participants can qualify for award certificates by contacting special stations. These stations must operate on or close to a site where Guglielmo Marconi carried out experiments or where Marconi equipment was used prior to his death in 1937. Full details of the stations may be found at www.gb4imd.org.uk/ [Tnx UBA HF News]

Not sure what link you're trying to use, Peter, but try this one:

Does anyone have the QSL route for this station? I worked him on February 18 on 160M.

I tried sending a card via IN3QBR (PO Box 25 in Rovereto TN, Italy) and the card was returned with "AL
MITTENTE DESTINATARIO SCONOSCIUTO" on the envelope (can someone translate this for me?)

Thanks and 73....I am getting close to DXCC on 160M so every card means a lot!

This will include activations of multiple lighthouses from one central location and/or single light operations. His tentative schedule is as follows - Saturday, April 7: Aquidneck Island (NA-031, RI-006S, Newport county), Rhode Island; Goat Island (NA-032, USi RI-003S, Newport county) and lighthouse (ARLHS USA-548, WW Loc. FN41HM), Rose Island (USi RI-004, Newport county) and lighthouse (ARLHS USA-703), Gull Rocks lighthouse (ARLHS USA-362), Lightship Brenton Reef (ARLHS USA-1129), Brenton Reef Light Tower (ARLHS USA-082) and Ida Lewis Rock/Lime Rock lighthouse (ARLHS USA-398). Sunday, April 8: Conanicut Island (NA-031, USi RI-007S, Newport county), Rhode Island; Beavertail lighthouse (ARLHS USA-043, WW Loc. FN41HK), Whale Rock lighthouse (ARLHS USA-883 [Historic]), Dutch Island lighthouse (ARLHS USA-250) and Plum Beach lighthouse (ARLHS USA-604). Monday, April 9: Bristol Ferry lighthouse (ARLHS USA-087), Hog Island Shoal lighthouse (ARLHS USA-373, WW Loc. FN41IP), Prudence Island (NA-031, USi RI-008S, Newport county) and lighthouse (ARLHS USA-675, WW Loc. FN41IO) ((Maybe!)) and Sakonnet Point LH/USA-718, WW Loc. FN41JK) ((If time permits)). Jim will try to be on the air each day prior to 1400z, starting out on 40m, then progressing up to 20m, then 17m, SSB only. QSL information: Send an SASE to Jim Elliot, 1722 Underwood Road, Gambrills, MD 21054-1828 USA. For multiple contacts, send all QSO information on one card or a separate sheet of paper with the SASE. If you do manage multiple contacts, you might want to send a business size envelope to accommodate all the cards you will be getting back. [Tnx KA3UNQ]

07/04/2007: A group of operators from Antwerp will be active as PA/ON4OSA from Schouwen-Duiveland (EU-146, ARLHS NET-029), April 7-14th. QSL via ON4OSA (QRZ.com). [Tnx 425 DX News]

07/04/2007: Pavel, RZ3FR will be active April 7th as RZ3FR/3 from District TV-08 (Kashin City), Tverskaya oblast (TV). QSL via home call, direct or bureau. [Tnx RX3RC]

07/04/2007: Look for John, DJ6JH to be QRV holiday style as TA4/DJ6JH from Turkey, April 7-13th. He plans to be mainly active in RTTY and PSK31 on 20-10m. QSL via home call. [Tnx NG3K]

07/04/2007: If you have any interest in a contact or QSL from some of the Texas lighthouses: Barry, WA5DTK, will be operating from multiple lighthouses and range lights on the Texas Gulf Coast (Galveston-Corpus Christi) including participation in the ARLHS Spring Lights QSO Party. 14.270, 7.260, 21.370, 3.970-90, 14.035, 7.035, 146.58 (FM simplex). He is expected to arrive in Damascus during the evening of April 9th and should be active between April 10-27th, before returning home to Texas on the 28th. Saad informs OPDX, "As usual, the purpose of the trip is not a DXpedition, so my operating will be spotty. However, I hope to be able to operate at least 3-4 hours a day. With the current band conditions and my typical operating times, I suspect that I will spend most of my radio time on 30, 40, and 80 metres. However, I will operate on whatever band (80-10m) and mode that have the best propagation at the time. Most probable operating times are between 2000-2300z or between 0200-0500 UTC, and possibly some occasional activities between 1200-1400z. I will be active on SSB, CW, and RTTY." QSL via N5FF. [Tnx OPDX]

08/04/2007: Matthias, DL1JMS/p plans to activate Kleiner Winterberg (SOTA DM/SA-011, 836m, 8 points, WW Loc. JO51HS), Saxonia-Anhalt region. Activity will start around 1000z on 7.115-ssb and 144-ssb. QSL via home call. [Tnx SOTA U.K.]

08/04/2007: Weather dependent, Laurent, F8BBL/p plans to activate Forêt de Vieillecourt (SOTA F/SO-001, 475m, 1 point, WW Loc. JN05MN), Sud Ouest region. Activity will start around 0830z on 7.032-cw, 10.118-cw and 14.060-cw. QSL via home call. [Tnx SOTA U.K.]

08/04/2007: Fons/ON4AWT and Win/ON8VD will be QRV April 8-13th as PA/homecall from Schouwen Duiveland (EU-146). Look for activity on SSB, CW and digital modes on all HF bands, SSB on VHF. QSL via home calls, bureau preferred. [Tnx RSGB IOTA]

10/04/2007: Operators Ela/DL1TM and Tor/DJ4MG will be active as OZ/homecall from Island of Vendsyssel-Thy, Nordjylland Island (EU-171, NJ-001 for the Danish Islands Award), Denmark, April 10-26th. Activity will be on 160/80/40/20/17/15 metres and VHF 2m SSB. Their favored operating time and frequencies are: During the Central Europe's daytimes on 40m and 20m on SSB, but 20m mostly somewhere around 14260 kHz. QSL via home callsign (QRZ.com addresses). [Tnx OPDX]

06/04/2007: John/M0XIG and John/G4POF will air special event station GB2BST being held at Bramshaw in the New Forest between April 6-9th and commemorates the fact that it is 200 years since the shutter telegraph first operated at this site. During the Napoleonic wars the Bramshaw Shutter Telegraph was one of a number that operated as a communication link for the Admiralty between London and Plymouth. There was already a system in place between London and Portsmouth and in 1805 this line was started to connect with Plymouth. The exact date of when the work as completed isn't known, but is believed to be soon after 4th May 1806, as there is a report on this date stating the line was almost ready. The original site of the Telegraph Station is believed to be very close to Hope Cottage on Telegraph Hill. Telegraph Hill is one of the highest points of the forest and is a fine open site with excellent views to the west. There is more information on the shutter telegraph at the Royal Signals Museum in Blandford. The Grid Locator for this station is IO90DW, ITU Zone:27 and CQ Zone:14. QSL via M0XIG, direct (please enclose a SASE or return postage costs in the form of IRC or green stamp) or by the bureau. [Tnx www.qrz.com/gb2bst]

06/04/2007: Special event call sign GB2FIC will be aired April 6th to May 3rd from the Bridge Wireless Office, HMS Belfast (GB2RN) to commemorate the 25th anniversary of the Falkland Islands Conflict and to remember those who lost their lives. QSL via the RSGB bureau only. A special QSL card will be printed to confirm all contacts. [Tnx RNARS]

06/04/2007: To commemorate the 95th anniversary of the sinking of Titanic, ham radio operators worldwide will be running special event stations. The

COBRAS - GI2BX / GI-21131 are hosting the Belfast side of the Titanic celebrations on the air with GB2MGY on April 14th and 15th. Several COBRAS members are also ISWL members so listen for the different operators, as you may pick up a few extra Monitor Award Points. [Tnx ISWL]

07/04/2007: The Flight Refuelling ARS (FRARS) is operating special event station GB2FRA from April 7th to May 4th to mark its 25th anniversary. Activity will be on HF, VHF and UHF using CW, SSB and FM. QSL via operator's instructions. [Tnx GB2RS]

5521. VISUAL-VHF-DATABASE at MMMOnVHF

Yahoo group: GOLIST (2007 — 2010)
Date: 2007-04-05 18:21:21 UTC
From: MMMonVHF
Topic: 5521 Message: 5521

Dear VHF friends, 5th of April 2007

first of all let me send some easter-greetings and thank you very much for the warm welcome and nice comments about our new VHF-Portal Make More Miles on VHF (http://www.mmmonvhf.de/) in past weeks.

As we have said from the beginning, MMMonVHF will be a living project and we would like to develop much more features in the future...

So today we are really proud to post, that the wellknown VHF-DATABASE will now be available as a:

V I S U A L - V H F - D A T A B A S E

Please do come to www.mmmonvhf.de and use the button "VHF-DATABASE" and you be able to check the entries from more than 50000 VHF friends. Up to now you were "only" able only to find all infos like DXCC, SQUARE, activities and so on, but now you are able to find the QTH direct at a world-Square-map. Click on the Icon (MAP) and you be able to use the:

V I S U A L - V H F - D A T A B A S E

At this part, many thanks to Alex, VE3NEA, for leaving us the possibility to use his MAPS from his great DX-ATLAS software!

http://www.dxatlas.com/

If you are using the VHF-DATABASE the first time, maybe you shall download a short "how-to" for the use of this feature (first page, lower end) - you will find infos how to use it and also how to UPDATE the DATABASE, because the VHF-DATABASE can be maintained by the USER itself since we get it online at www.MMMonVHF.de YOU ARE ABLE TO UPLOAD YOUR ENTRY ON YOUR OWN NOW ONLINE!

Since over 20 years the VHF-DATABASE is now available. These BASEs shall give an overview about active stations and you are able to get files to implement it into several HAM-programs (eg.WSJT, VQ-LOG, OHTest, TUCNAK, VIEWER,DXClusters...) or read it by simple editor. Also this year we will be able again to spread around the latest DATABASE files of the MS / EME / WSJT-DATABASE (CALL3.txt - CALLSIGN.txt und MS2x0.txt). Next posting of above files will be in MAY 2007 - the VHF-DATABASE issue 2.40 (with more than 50000 calls for use in VQLog and in the DXclusters will be spread again in sept/oct 2007 - so please hurry up and update your entries!

More infos, links and downloads around all the DATABASEs, as well around MMM on VHF, the best european VHF-announce service, you are able to find at the following internet-homepages:

http://www.mmmonvhf.de/
http://www.dl8ebw.de/ACTUAL/actual.html
http://www.dl8ebw.de/DATABASE/database.html

Now we do Wish you gl with my new VISUAL-VHF-DATABASE and the lot of
new features within MMMonVHF in advance of the new MS and ES saison and
we do hope to hear from you time to time on VHF-UHF-SHF ...

Philippe, 9Q1TB said to Maurice, F5NQL

Hi Maurice
We absolutely confirm that 9Q5MO is a licence which has no validity.
To day in RDC ther's no more valid licences as ours ie 9Q1D, 9Q1EK,
9Q1TB and 9Q1NT.

The former 9Q5 licences which where delivered and valide for the whole
Zaire are not conform with the updated rules.
If there is a licence we guess that corruption was at the beginning of
its delivery.
To day, the 9Q5 prefix is valid in the oriantal province of Kisangani.
I'll give more information further. I owns the list of all the forler
callsigne ever deliverde in RDC since 1960; I'll watch for 9Q5MO; If
that callsign was valid, there's no changement , only the four upper
licences for Ghis, Gus, George and I, are the only regular and valid to
day according the actual RDC rules.

14/04/2007: To commemorate the 95th anniversary of the sinking of Titanic, ham radio operators worldwide will be running special event stations. The COBRAS - GI2BX / GI-21131 are hosting the Belfast side of the Titanic celebrations on the air with GB2MGY on April 14th and 15th. Several COBRAS members are also ISWL members so listen for the different operators, as you may pick up a few extra Monitor Award Points. As previously reported, the original plan was to operate from Blackhead lighthouse. This has now been shelved. They will instead be operating from the SS Nomadic, which is

currently moored beside the Odyssey. QSL Manager is GI4GOS - see QRZ.com for details. The SS Nomadic was built at the same time as the Titanic and is currently being restored in Belfast. [Tnx Pete's DX Newsdesk]

14/04/2007: The French authorities have issued two special call signs, which will be used as follows, on this Heritage Day, from 1200z April 14th, to 1200z April 15th: TM1FFB which will transmit from the former radio maritime station Boulogne Radio 'FFB'; and TM2FFL which will transmit from the former historical radiomaritime station St. Lys Radio 'FFL'. I.C.P.O. (Islands, Castles & Portable Operations)
UPDATE -
==========

13/04/2007: Alfio, IT9EJW reports that he does not have good news from the V63 team. Nando V63RE will return home urgently due to his Mother having serious health problems, Claudio V63WN will return home also. Therefore, Mike V63J will continue the travel alone in order to activate Woleai Atoll (OC-132) and will be on air from the April 12th for 2 days. [Tnx F5NQL]

14/04/2007: François/F5JNE and Claude F5MCC will sign F5JNE/p from the Castle Gaillard (DFCF 89-290) on April 14th. The castle is located in the City of Sainte Magnance (CP 89290), Canton of Guillon (DDCF 89-17), Department Yonne (DDFM 89), Province of Burgundy (DPF 05). As usual starting around 0600z, 80m then 40m, CW and SSB. QSL via F5JNE, bureau preferred and SWL cards are welcome. [Tnx F5NQL]

14/04/2007: The Wey Valley Amateur Radio Group (www.weyvalleyarg.org.uk/) in Godalming will use the special call GB95MGY from April 14-16th. This operation reminds us of the Titanic radio operator Jack Phillips, who was born in Godalming and saved more than 700 lives with his SOS calls. The QSLs are handled by G3IAF, via the RSGB bureau or direct. [Tnx ZL2AOH]

15/04/2007: Dom, M1KTA will sign HB0/M1KTA/p/QRP from Vaduz, near Triesenberg, Liechtenstein, on Aril 15th and 16th. 160 to 10m., but emphasis on 30 and 40m, CW and SSB. QSL HC. [Tnx F5NQL]

16/04/2007: Hotang, YC0IEM/4 will be QRV April 16-22nd from Bangka Island (OC-144). Look for activity on the HF bands, CW and SSB. QSL via IZ8CCW. [Tnx F5NQL]

2007 MICHIGAN QSO PARTY -

It's that time of year again and you are invited to join in on the fun and participate in the 2007 Michigan QSO Party. It's less than 2 weeks away! This year’s MiQP will be held on Saturday, April 21st.

The MiQP has always been a lot of fun, but this year there are a couple of added incentives that can only make a great event even better. In addition to the traditional plaques and certificates, the following will be offered.

Big MAC 50th Anniversary:
This year is the 50th anniversary of the Mackinac Bridge, which links Michigan's lower and upper peninsulas. This year a certificate will be awarded to any entry which can spell the word MACKINAC using the first letter of the suffixes of Michigan stations worked. For example, K8MQP counts as an "M", W8C counts as a "C", etc. with each QSO counting as one letter instance. Qualification for the award will be automatically verified

during the log checking process for all entries. In addition to the regular call signs that you might hear in a typical MiQP, this year there will be many special event 3 letter call signs on the air.

MiQP Rookie of The Year:
Also, this year in an effort to get some new Michigan blood involved in the event, there will be a "MiQP Rookie of The Year" plaque that will be awarded to the highest finishing Michigan single-op (fixed station or mobile) entry who has never participated in a MiQP before.

As you can see from the rules listed below, this is only a 12 hour event. Please consider getting on the air for the whole thing, or any portion of the 12 hour period. Any QSO's that you can pass out will be greatly appreciated. We hope that you can get on the air and have some fun on April 21st. Please see www.miqp.org for more details!

MiQP Rules:

Date/Time: Michigan QSO Party, sponsored by the Mad River Radio Club, from 1600Z April 21st until 0400Z April 22nd. Stations may operate the full 12 hours. (12 noon to 12 midnight local Michigan time on April 21st).

Modes and Categories: Phone and CW on 80/40/20/15/10 meters. Single-op, multi-op, and mobile categories. Single-op entries are categorized by output power, QRP (5W or less), Low Power (100W or less), and High Power (greater than 100W).

Multipliers: Work stations once per band and mode. Work other states and Michigan Stations. MI to MI QSO's are allowed. Work portables and mobiles again as they change county, state, or province.

Exchange: Exchange QSO number and location (county for MI stations, state/province or "DX" for others).

Scoring: One point per phone QSO, two points per CW QSO. Count multipliers once per mode. Multipliers are MI counties for all entries, plus states & provinces for MI entries only. Final score is total QSO points times total multipliers.

Freqs: Suggested frequencies: CW-3545, 7045, 14045, 21045, 28045; Phone-3800, 7200, 14250, 21300, 28450.

Log Submittal: Mail logs no later than 30 days after the contest to: Mad River Radio Club, c/o Dave Pruett, 2727 Harris Road, Ypsilanti, MI 48198 or via e-mail to logs@...

More Information: For complete rules, along with free logging software, log and summary sheets, see www.miqp.org [Tnx NU8Z]

5533. THE CONFUSION ABOUT KH2F OPERATION

Hi folks,
A very confusing operation was working the bands this
weekend. KH2F was working from Guam, but is this license
is assigned to a MA address.
I sent a note to Bill Moore at the DXCC desk to ask if
there would be a problem receiving credit for Guam in this
case. Here is his reply:

John:

Confusing is only mildly putting it. We do have several DXCC?s with
these types of prefix differences but we seem to handle them OK, as long
as we know where they are.

Regards

Just because the address of the licensee is MA doesn't mean he isn't (wasn't) in KH2.

Remember AH1A? If you did a lookup it came out with a licensee address somewhere in New England, I think, possibly also MA. However, I was assured that the callsign was only used by operators on the DXpedition to Howland.

The big questions is:

If I send my $1.85 IRC's with my QSL's without the 15 cent stamps on them,
can the DX stations use them?

Reply Coupons (IRCs) will increase to $2.00 from $1.85.

The "Bejing 2" IRCs are redeemable until (I think) 2009. The only thing that's changing is the end-buyer cost determined by the US post office. It will have no affect on IRCs already (or about to be) in circulation. So they won't require extra postage.

Think of IRC's like the new USA Forever stamps. Once you purchase them they are good forever (except the new IRC's do have an expiration date of 12/31/2009) for exchange of the then current postage.

EUCW - QRS week.

The European CW Association, EUCW and the FISTS (UK, USA, D&U and Far
East), sponsor the QRS CW Week, from April 23 to 27th.
It isn't a contest , but a good bargain to encourage the newcommers to
traffic in CW mode .
The speed is in a QSO is always that of the low speed op, but never
excess 14wpm.

Send email requests to kb6uf -at-hughes.net [Tnx County Hunter Web]

20/04/2007: Dennis N6PDB/m, and Susan WA6OCV/m will activate some of the most needed counties in central California on April 20th, SSB only. Planned counties are: Santa Cruz, San Benito, Santa Clara, Merced, Madera, Mariposa, Tuolumne, Calaveras, Amador, El Dorado, Alpine, Placer, Nevada, Sierra, Plumas and Trinity. They will then head home via hyw 5, 80, 680. Contra Costa will also be done. [Tnx County Hunter Web]

21/04/2007: Jim, K8IR/m will be operating the Michigan QSO Party from 1600z April 21 to 0400z April 22. He will be running the upper peninsula counties in the opposite direction of W8MRM (see below), and will start in the two counties below the Mackinac Bridge. The planned route is Emmet, Cheboygan, Mackinac, Chippewa, Luce, Schoolcraft, Alger, Marquette, Alger (again), Delta, Menominee, Dickinson, Iron, Gogebic, Ontonagon, Houghton, Baraga, Houghton (again) and Keweenaw. QSL via home call. [Tnx County Hunter Web]

21/04/2007: Jim, K8MR will be active during the Michigan QSO Party (April 21-22nd) as K8K mobile. He plans to run the following counties: Huron, Tuscola, Bay, Saginaw, Midland, Isabella, Clare, Gladwin, Arenac, Iosco, Ogemaw, Crawford, Roscommon, Kalkaska, Missaukee, Wexford, Osceola, Lake, Newago, Mecosta, Montcalm, Gratiot, Clinton, Shiawassee, Ingham and Livingston. There could be a few minor changes at the last minute if needed to cover all the Michigan counties in MiQP. QSL via K8MR. [Tnx County Hunter Web]

21/04/2007: Todd, N9NE/m will also be active in the Michigan QSO Party (April 21-22), as a single operator mobile entrant. He will run the

following counties in sequence: Iron, Gogebic, Ontonagon, Houghton, Baraga, Marquette, Dickinson, Menominee and Delta. CW mainly, but will QSY to SSB on 20 and 40M if requested. Todd anticipates using 80M from the start for local and regional contacts, as this band was very productive from the mobile in the recent Wisconsin QSO Party. QSL via home call. [Tnx County Hunter Web]

21/04/2007: Members of the Motor City Radio Club are planning on activating all counties in Michigan's upper peninsula for the Michigan QSO Party. They will be using the club's call sign W8MRM. Their planned route will take them through the following counties: Keweenaw, Houghton, Baraga, Houghton (again), Ontonagon, Gogebic, Iron, Dickson, Menominee, Delta, Alger, Marquette, Alger (again), Schoolcraft, Luce, Chippewa and Mackinac. QSL via W8MRM (QRZ.com). [Tnx County Hunter Web]

JT1Y has been active since 14 April with two HF stations. The first
one is operated by IK1PMR and IZ1GLO (K2LEO) on 160-10
metres CW
and RTTY (skeds via www.ik1pmr.com/feedback/); their
typical
schedule includes the following:
00.00-01.00 UTC 10104 or 14083 RTTY
01.00-03.00 UTC 14001 or 14083 RTTY
08.00-09.45 UTC 18070 or 18102 RTTY for EU/JA
09.45-10.00 UTC checking 12m for JA (24900 CW)
10.00-13.00 UTC 14001 CW or 14083 RTTY (worked a
few USA
stations)
13.00-14.00 UTC 20m or 30m CW/RTTY
14.00-17.00 UTC 10104 CW or 10142 RTTY
17.00-18.30 UTC 10104 + checking 7004 and 3504
The second station is operated by I0SNY, I5NOC, I8YGZ and
JT1KAA
club members on 40-6 metres SSB and CW; they can be found on
14195
kHz around 00.00-02.00 UTC looking for North America.

I've just finished designing a web site where punters
can view QSL cards, search the logs of most and request
bureau QSLs for all of the 85 callsigns that I currently
manage.

The URL is <www.g3swh.org.uk> and pride of place is a photo

ARRL Bulletin 12 ARLB012
>From ARRL Headquarters
Newington CT April 23, 2007
To all radio amateurs

SB QST ARL ARLB012
ARLB012 FCC poised to lower vanity call sign fee

The FCC has proposed reducing the regulatory fee to obtain or retain an Amateur Radio vanity call sign by more than 40 percent starting later this year. In a Notice of Proposed Rule Making (NPRM) released April 18, "Assessment and Collection of Regulatory Fees for Fiscal Year 2007," in MD Docket 07-81, the Commission is proposing to cut the fee from its current $20.80 to $11.70. If ultimately adopted, that would mark the lowest fee in the history of the current vanity call sign program. The FCC proposed to collect nearly $290.3 million in FY 2007 regulatory fees.

"These fees are mandated by Congress and are collected to recover the regulatory costs associated with the Commission's enforcement, policy and rulemaking, user information, and international activities," the FCC said. "Consistent with our established practice, we intend to collect these regulatory fees in the August-September 2007 time frame in order to collect the required amount by the end of the fiscal year." Comments on MD Docket 07-81 are due May 3. Reply comments are due May 11.

The vanity call sign fee has fluctuated over the 11 years of the current vanity call sign program, from a low of $12 to a high of $50. The FCC says it anticipates some 14,700 Amateur Radio vanity call sign "payment units" or applications during the next fiscal year.

The vanity call sign regulatory fee is payable not only when applying for a new vanity call sign but upon renewing a vanity call sign for a new term. The first vanity call sign licenses issued under the current Amateur Radio vanity call sign program that began in 1996 came up for renewal last year.

Those holding vanity call signs issued prior to 1996 are exempt from having to pay the vanity call sign regulatory fee at renewal, however. That's because Congress did not authorize the FCC to collect regulatory fees until 1993. Such "heritage" vanity call sign holders do not appear as vanity licensees in the FCC Amateur Radio database.

Amateur Radio licensees may file for renewal only within 90 days of their license expiration date. All radio amateurs must have an FCC Registration Number (FRN) before filing any application with the Commission. Applicants can obtain an FRN by going to the FCC Universal Licensing System (ULS) at, http://wireless.fcc.gov/uls/, and clicking on the "New Users Register" link. You must supply your Social Security Number to obtain an FRN.

FSDXA St. Brandon DXpedition ? Bulletin No.4

Plans for the September FSDXA DXpedition to St.Brandon are progressing well. A suitable boat has been chartered to take the team and its 6 tonnes of equipment to the island, the licence has been received, and all permits are in place for our stay on the island.

The team will be operating from Isle du Sud, the southern end of what is shown on the charts as Cocos Island (not to be confused with Cocos Island in TI9 or the Cocos-keeling Islands VK9!). Lighthouse on the Air enthusiasts might be interested to note that Cocos Is. has a beacon for WLOTA-Ref. LH 1017. This will be an all-time new one for lighthouse collectors - assuming the light is accessible from Isle du Sud.

TEAM CHANGES

Some of the previously-announced members have, unfortunately, had to drop out of the expedition. These include G3VMW, G4KIU, SM5AQD, WF5T and W3WL. However, we are delighted to announce that they will be replaced by Bob MD0CCE (also known as N2BB), Pete SM5GMZ (recently QRV from 6W), Gordon G3USR and Clive GM3POI (well-known as a low band expert living in the Orkney Islands).

3B7C BROCHURE

We now have a four-page full-colour brochure setting out more information about our expedition. This can be downloaded in both high and low definition PDF format from our website (www.3b7c.com which is now up and running).

FSDXA AWARDED CALCUTTA KEY

At their Meeting on Saturday 16th March the RSGB Board unanimously agreed that the Five Star DXers Association be awarded the "Calcutta Key" for the association's outstanding service to International Friendship.

FSDXA APPROACH TO DXPEDITIONING

Having now QSLd nearly 100,000 3B9C QSOs we calculate we achieved an average busted call rate of 0.5%. We believe this to be a good figure although we shall try to improve on it at 3B7C. Learn about the techniques we use. Get "DXpeditioning Behind the Scenes" from Nevada Communications. Now available for a special price of ?12.95. www.nevada.co.uk (Amateur Radio/Books)

PRESS RELEASE

April 25, 2007

The 2007 Dxpedition to Scarborough Reef is pleased to announce they have departed on their ship for Scarborough Reef at 06:00 UTC 25 April. The trip is approximately 60 hours and upon arrival they will immediately build their stations and erect antennas.

This is the culmination of 5 years of planning and preparation. The International Team led by W6RGG includes 9V1YC, BA1HAM, BA1RB, BA4RF, BA4RC, BA7NQ, BV6HJ, DU1EV, DU1BA, ND2T,AA4NN, K4UJ,N6MZ,K9AJ, OH2BH, I8NHJ, and DL3MBG.

They are backed up by a support staff including N4XP, N1DG, K5YY, BV4FH and DU1JMG to insure that they are safe and informed of events happening off island.

We wish to thank the Chinese Sport Radio Association, the Philippine Amateur Radio Association, the American Radio Relay League, NCDXF and INDEXA who were instrumental in their support.

Scarborough Reef has unique and dangerous attributes and as such we will not have online logs or pilots. All efforts are on keeping our team safe so they can provide a new one to as many hams as possible.

Good luck in the pileups,

N4XP and N1DG for the 2007 Scarborough Reef Expedition.

SPECIAL EVENTS

27/04/2007: Special event call sign 8N0M100A will be aired between April 29th and October 31st to celebrate the 100th anniversary of Matsumoto-city. QSL via the JARL bureau. [Tnx JJ1WTL/AC6IM]

27/04/2007: A team of ten operators from the Boland Amateur Radio Club will be visiting "The Hell", also known as Gamkaskloof or Gamka's Valley, situated in the Swartberg Mountains of the Southern Cape in the area between 33.28 S 21.15 E [KF06nr] and 33.33 S 21.42 E [KF06rq]. They will be using a special call sign, ZS1HELL. The team will consist of Rassie/ZS1YT, Karl/ZS1KC, Bennie/ZR1JHD, Graham/ZS1GVB, Conradt/ZR1CE, Derrek/ZS1DUP, Douglas/ZS1GUD, Johan/ZS1GP, Mac/ZS1XX and Olivier/ZS1OLI. The special station, with the call sign ZS1HELL, will be active from Friday, April 27th until Monday, April 30th. The station will be active on 160, 80, 40 and 20 metres. Although the station will be active on some DX frequencies, their main aim will be to achieve a Worked All ZS Award and a Top Band certificate. The electronic QSL system on the SARL Web page will be used as well as standard QSL cards. The direct QSL address is: PO Box 273, Strand, 7140, South Africa. For more information on "The Hell", visit the following Web page at: www.diehel.com [Tnx OPDX]

28/04/2007: International Marconi Day will take place on Saturday 28 April this year. Although the event is not a contest, participants can qualify for award certificates by contacting special stations. These stations must operate on or close to a site where Guglielmo Marconi carried out

experiments or where Marconi equipment was used prior to his death in 1937. If you would like to operate one of these special award stations, it is essential that you register the station by emailing webmaster@... prior to the event with full details of the station. Further information can be found on the web at www.gb4imd.org.uk [Tnx RSGB News]

28/04/2007: The Hornsby and Districts Amateur Radio Club will be running the only IMD station in Australia using VK2IMD on all HF bands. ADDED INFO: This international event is operated by stations in locations that have a link to Marconi. In the case of VK2IMD, operations are located close to Wahroongah, in the northern suburbs of Sydney, NSW, where Ernest Fisk of AWA received the first direct radio message from Britain to Australia in 1918. This was a telegram from the Australian Prime Minister Billy Hughes (who had just returned to Britain, having toured the World War I battlefields in France). It was sent by Marconi's station in Carnarvon, Wales. Visit the following Web pages for more info: General info - www.gb4imd.org.uk/ and List of IMD stations - www.gb4imd.org.uk/awardstns.htm [Tnx OPDX]

28/04/2007: OE3XQC, the club station of the Documentary Archives Radio Communications in Vienna (www.qsl.at and dokufunk.org/), will be one of the official stations participating in this year's International Marconi Day (April 28th). QSL direct to OE1WHC. With more than 6,000,000 cards, the Research and Documentation Center for the History of Radio Communications and the Electronic Media (www.qsl.at/) boasts the largest QSL collection in the world. [Tnx 425 DX News]

28/04/2007: The Scarborough Special Events Group will kick off their 2007 season of special event stations with GB2EXP over the weekend of April 28-29th, to commemorate the adoption of the HMS Explorer. Scarborough's officially adopted Navy ship is RFA Wave Ruler, but this vessel has been deployed as support ship to the warships fighting the war against drugs in the Caribbean for the past 12 months and is likely to remain there for the foreseeable future. The Royal Navy have approached Scarborough Council suggesting that the town adopt a second vessel, HMS Explorer. This is a small "Archer" Class P2000 Coastal Training Craft based in Hull. The recommendation has been approved. HF activity will be around 7055 or 3725 kHz SSB, and 7025 or 3525 kHz CW. The group will send a QSL card via the RSGB QSL Bureau, for every QSO made. Direct QSL requests can be sent via G4SSH (Mr Roy Clayton, SSEG QSL Manager, 9 Green Island, Irton, Scarborough, North Yorkshire YO12 4RN, England) [Tnx GB2RS]

28/04/2007: ARI Frascati will participate in the International Marconi Day (April 28th) as IY0ORP from the Geophysical Observatory at Rocca di Papa (Rome). QSL via I0DJV. [Tnx 425 DX News]

28/04/2007: Look for Marconi memorial station IY0TC to be active from Il Pirgo (not IOTA, IIA RM-001) on April 25th and from Civitavecchia on the 28th for the International Marconi Day. QSL via I0KHP. [Tnx 425 DX News]

01/05/2007: Special event station 8J8JTG will be aired between May and June, 2007, to celebrate the 2007 Joho Tsushin Gekkan (or Information Telecommunication Month). QSL via the JARL bureau. [Tnx JJ1WTL/AC6IM]

01/05/2007: On 5 June 1257 Krakow received city rights under the Magdeburg Law. To commemorate that event, special stations SN750C and SN750BK will be active from May 1st to July 31st. QSL via SP9PKZ. Further information on the event and the relevant award can be found at:

PRESS RELEASE
April 25, 2007

The 2007 Dxpedition to Scarborough Reef is pleased to announce they have departed on their ship for Scarborough Reef at 06:00 UTC 25 April. The trip is approximately 60 hours and upon arrival they will immediately build their stations and erect antennas.

This is the culmination of 5 years of planning and preparation. The International Team led by W6RGG includes 9V1YC, BA1HAM, BA1RB, BA4RF, BA4RC, BA7NQ, BV6HJ, DU1EV, DU1BA, ND2T,AA4NN, K4UJ,N6MZ,K9AJ, OH2BH, I8NHJ, and DL3MBG.

They are backed up by a support staff including N4XP, N1DG, K5YY, BV4FH and DU1JMG to insure that they are safe and informed of events happening off

island.

We wish to thank the Chinese Sport Radio Association, the Philippine Amateur Radio Association, the American Radio Relay League, NCDXF and INDEXA who were instrumental in their support.

Scarborough Reef has unique and dangerous attributes and as such we will not have online logs or pilots. All efforts are on keeping our team safe so they can provide a new one to as many hams as possible.

Good luck in the pileups,

N4XP and N1DG for the 2007 Scarborough Reef Expedition. [Tnx OPDX]

PRESS RELEASE

April 26, 2007

At 0240Z 27 April the team was located approximately 240 nautical miles north west of Scarborough Reef and making less than the expected progress because of extremely rough seas. The sea has been rough since departure from Hong Kong and the team is staying as quiet and still as possible in an effort to reduce exhaustion. Current estimated arrival to BS7 is their Sunday morning local time.

Because of the rough conditions, there has been NO MARITIME MOBILE operation.

Hi to all,

I'm still waiting for VU7LD QSLs (hrd some VU7LD/VUx...) and send my
requests to
Joe (W3HNK: Joseph L Arcure, JR., 115 Buck Run Road, Lincoln University PA

with SAE and 3 USD).
As I haven't seen any reported QSLs for a while, I wonder if all QSLs are
send out.
I don't want to be impatient and I know that Joe is a reliable manager. But
may be my
letter got lost. So anyone of you who has a clue?

14:00 UTC 29 April

The BS7H team worked throughout the day in setting up the stations and managed to get one station operational as darkness fell. The first QSO was made at 13:47 UTC.

The dangerous environment prohibits any work in darkness and they were unable to fully provision the one station that is operating.

As a result, the cw station now on 14024 does not have enough gas to last the evening so when you hear them qrt do not panic.

At daybreak they will resupply the station as well as complete adding the other stations.

We expect the team to be fully operation with all stations by darkness tomorrow.

This update is as of 0300Z 29 April - Local time at Scarborough Reef was 1100 hours in the morning. The team has made entry into the lagoon area and are starting to build the operating positions. They are proceeding as quickly as possible under the conditions that are present. The weather is now perfect and for the time being should not hinder work activities as the day moves on. The team plans to provide an update to us sometime during the day as to progress on station work. We will forward that information as soon as it is received. An update from James Brooks received at 0300 local our time this morning where he attempted to provide us insight on the overall situation and ended it with: "It's just that hard"

It is now day 3 on Scarborough with operations going for 48 hours.

All 4 operating positions are built and the team has gone from survival in route, to survival while building, to survival while in QSO mode.

Everyone on the team has cuts from the coral. The closest access to any of the rocks is over coral and no one has been spared coral scrapes and cuts. Add to that over 100 degree heat and sunburn and you have a dangerous environment for all.

During the day each shift is 6 hours in heat and a dry wind under a small umbrella. If you are lucky enough you get to operate at night. You are left on a rock for 13 hours barely 4 feet above the water in pitch black sitting in a folding chair, no where to walk and stretch and getting a constant salt spray. You can't see the other rocks nor the ship and if something goes wrong there is no chance of rescue.

The steppIR verticals and one Yagi are up. Two stations will stay on 20 mtrs while the other two will search 15, 17, 30 and 40 for openings.

So as you sit there in your comfy shack complaining on the cluster and sending us emails about your lack of a QSO and the do's and don'ts'', think what our team is going through to bring you "the chance of a QSO".

What a nit-wit and poor operator. I'm in Rhode Island and they were blasting in on 20 CW and SSB at about 1100Z this morning, working mostly 1, 2, 3, 4 stations. 59+20 easily. This lid needs to get himself a receiver, or an antenna, or take a class on working DX.

Yea, condx are not at all favorable, and they can't control propagation.

So, how are all the whiners going to feel if there's a major accident or loss of life? Just to give some a new country. It's my last one.....so, BIG deal, it's not EVEN a real country, it's a ROCK that gets a daily bathing.

Quit complaining and listen for your best shot.

Hello!

This email is to invite all contesters to have a go in
the ARI International DX Contest 2007 that will take
place on May 5/6.

It's a world wide type competition and the allowed
operating modes will be SSB, CW and RTTY.
ARI DX Contest is fully supported by WriteLog for
Windows, SuperDuper by EI5DI, TRLog by N6TR, N1MM
Contest Logger, RTTY by WF1B, RCKLog by DL4RCK,
OH2GI Ham System, GenLog32 by W3KM, UA1AAF,
WinTest, QARTest, and many other softwares.
Take a visit to ARI DX Contest webpages and download
a FREE program at the following URL: <www.qsl.net/contest_ari>.

NOTE: If you will use UA1AAF software, please, look for
the last available release.

NOTE: The E-mail address to submit your log
is: <aricontest@...> .

We hope you will give the ARI DX a try in the incoming
first full weekend of May and then send your logs to
<aricontest@...>. We are able to convert any
kind of file's format, but Cabrillo or others ASCII
files are preferred and welcome. The full ARI DX
rules are shown below.

73s and see you in contest

I will be QRV as A52SW from Thimpu May 17-22. 80-6 meters CW/SSB and,
possibly, PSK, as well as 10-meter FM. I plan to make numerous trips
to Bhutan over the next several years as A52SW so should be many
opportunities for those who need this one.

QSL manager for A52SW will be K2AU.

SPECIAL EVENTS

01/05/2007: The Yankee Clipper Contest Club celebrates it's 30th year of competing in the unlimited club category from the Northeastern US. Now having close to a membership count of nearly 400, the club has steadily been growing since its inception (1977), the club offers the following on-the-air fun event for both their own members as well as our fellow contesters worldwide. For the balance of 2007, commencing immediately, YCCC members will be signing their calls with the suffix /30, indicating the 30 year anniversary, used to positively promote the YCCC on the air. A special certificate will be provided after confirming contacts with at least 10 members. This confirmation and request for the special certificate can be done via e-mail at yccc30 -at- gmail.com . Please send a list of contacts and indicate the date, time, frequency, call sign of member along with your mailing address so we might send you the certificate. QSL cards may be used to confirm

these contacts as well and by sending them to Dave, W1CTN who will administer the program. There is no charge for the award. A complete list of YCCC members can be found at www.yccc.org/ then click on "Members Only" and follow the directions to enter the site (open to all). Look up "roster" for the complete list of members active within the YCCC. YCCC members will use the /30 suffix all through the rest of 2007. Requests for the certificate should be submitted no later than February, 1, 2008. QSL's may be sent to David Arruzza, W1CTN, 32 Benz Street, Ansonia, CT 06401. [Tnx K1BV]

Hello Guys,

Five ORARI members: Pri, YB0ECT; Dudy, YB0DPO; Jo, YC0LOW, Andry YB1TX and Ray, YD0NQW will be participating in CQWW CW Contest 2007 in May 26-27th from Ayer Island in Jakarta Bay, on 40m, 80m and 160m bands, category Single Operator. IOTA reference for Ayer Island is OC-177 which is very seldom activated for IOTA chaser. For this, they will also try to transmit in RTTY and PSK31 modes on high bands. They will be using home-callsigns with additional specific designator "/0", example: YB0ECT/0. Please send QSL cards to Orari Bureau and/or direct, not via QSL Managers.

Thank you.

Hi folks,
I just made an update to the online Golist
database. I received many new and updated confirmations
for several qsl managers.
Thanks to all the managers who are responding to
my verification requests. This information is really
an asset to the database and its users.

5598. U.S. POSTAGE INCREASES

Folks,
I know each of you is aware of the postage rate
increase that will go into effect May 14th.
The continuing postal increases both here in the
US and else where in th world but a burden on our
hobby of collecting qsl cards for awards or memories.
Log Book of The World is a viable way to get qso
credits for the awards sponsored and support by the
ARRL. The eQsl project also provides awards and are
verified by logs sent to their database. This method
also eliminates the postage factor. Electronic transmission
of Qsl cards works just fine for many of us that like
to have this type of confirmation and allows us to review
at our pleasure the cards and memories attahed.
For alot of us, the paper Qsl is still "KING" and we
must have them to display and fondle. The post card size
Qsl will always be in use and in some cases may have
collectors value.
I have hopes that all Qsl managers will one day submit
the logs of the stations they manage to LOTW or some other
permanent database, so that contacts may always be confirmed
and the records protected from loss, thieft or destruction.
We must not let the DXpeditions go Unfunded as this will lead
to the demise of Amateur Radio. If it were not for DXing and
contesting, we would not have HF radio today. We must keep these
programs funded and supported by our activity and improved
operating and responsible practices on the air.
Until other accepted forms of storage are devised, lets
encourage all DXers and Contesters to submit all logs to
LOTW and/or eQsl for all to use.
I think the postage situation around the world will put
the Bureau system as we now have it in jeopardy, thus making
it much harder to send/receive the Qsl Cards wanted/needed for
most awards offered today.

HI Folks,

Thanks to Frank IZ7AUH who did provide a location to fit it, the POLAR SHIP BOOK is now available too download at:
http://www.cq-dx.eu/DOWNLOAD/Polar-Ships-Book.zip

Download the file (17.3 Mb) and unzip it.

You will get the 175 pages book of Polar Ship, a tremendous job done by Alberto Mattei IT9MRM.

Hundreds of pictures, technical and historical information about ships which did sail and still sailing the Antarctic waters are waiting you to enjoy it.

John: I agree with much of what you say here. The problem with LOTW and eQSL is that virtually all international clubs that issue awards want a GCR which means you need the QSL cards. If you don't chase most non-ARRL awards, LOTW archiving is of OK.

Still haven't sorted out the cost of using the burro
after this weeks postage increase, but it appears that
the surface mail is going away, or getting very
expensive. MBags surface seem to be gone.

This will significantly add to the cost of qsling via
the bureau. Be interesting to see the new ARRL rates
if they raise, and the impact of bureau mailing.

As for LOTW/e-QSL, I think one big issue here is the
multiple data bases, and uploads. That, plus some
awards still require paper. It would be very
beneficial to have a universally accepted
database...I'd recommend LOTW..and have them provide
feeds (fee based, perhaps) to other award
organizations.

My $0.02..back to the QSL pile

5603. NEW TOOLS AT MMMonVHF

MMMonVHF the new VHF-DX-Portal still under devolopement!

As you possible have seen past weeks, we did implement new
tools nearly every one or two weeks like:
NEW FEATURES at NEWS - http://www.mmmonvhf.de/latest.php
VISUAL DATABASE - http://www.mmmonvhf.de/vdb.php
144 MHz MWS-List - http://www.mmmonvhf.de/upload-mws/emws.php

and since yesterday also a 144MHz Beacon Map -EUROPE-

You will find that MAP at the Tropo section
http://www.mmmonvhf.de/tr.php and its a visualization of
the great Beacon Database of Stefan, LA0BY.

The MAP will show the status of activity as well as the beam
direction of the european 144 MHz beacons.
If you click at a specific beacon you will get infos from
this beacon and as well a pull down menue lower the MAP will open
and show the last DXC-spots (if some available).
Updates of beacons please transfer to Stefan, LA0BY ...

Again we have to report that the best view will be with
MOZILLA/FIREFOX (in IE sometimes there will be no map
background ;-( )...

PLEASE help to update your NEWS and DATABASE inputs!
The next OUTPUT of MS-DATABASE (eg CALL3.txt) will be spread
out in end of these month...

Have a good and successfull weekend, kind regards,

Hi !
Good news for all thoses who are waiting for VK0JLX qsl card
(Davis base).

The french polar team with subcriptions of the Antarctic Challenge
decided to provide to VK2JLX 1000 full coloured qsl cards.

VK2JLX Paul,promised us to reply at reception of the qsl cards.
This cards could be printed in 2 weeks and should arrive to destination
in about one month.

For sure we invite all of you to take part in the Antarctic challenge.

I use FDS Printing in the UK. High quality digital printing.
www.fdsQSL.com. He will customize any way you want the card to look.

John,

I've used JZ1LJ, Tony Stefanov, for several years and he has also done QSL cards for many friends. None have had any complaints. His prices are reasonable and his service is good. Check him out at http://www.lz1jz.com/. He'll beat just about anybody in quality and price.

Hi folks,
I am interested in the Qsl card printers you use.
Who do you recommend for Qsl cards based on price; quality
color and customer service and shipping.
Thank you

One of the Eastern European printers who has been mentioned on this list favorably, printed cards for me. They were poor and I asked him to reprint them (and told him what was wrong with the first batch in detail and gave color standards so he could be sure it wasn't repeated). He reprinted way off again. My original batch of cards came from Canada and was VERY good. I can probably find the name of the Canadian printer if you wish, but I think the reason I didn't use them for the reprints was there were not doing that any more.

WoW!!!
A person can sure get confused with all the
choices that have been mentioned. Looks like
everyone is producing a good quality card.

This has been very interesting and informative.
Thanks to all that have and will continue to
respond to my question.

5621. UPDATE for VHF-DATABASE ONLINE

Yahoo group: GOLIST (2007 — 2010)
Date: 2007-05-17 14:11:58 UTC
From: MMMonVHF
Topic: 5621 Message: 5621

Hallo dear VHF-[MS+EME]-DATABASE USERs,

first of all let me thank you very much for the great use of our
VHF-DATABASEs after the last refresh in october 2006.
Its a pleasure for us to help a bit to increase the vhf-activity...

Maybe you have seen that the DATABASE are now available ONLINE at:
http://www.mmmonvhf.de/dbase.php
and you are able to mainten/update your infos yourself. A visual tool
http://www.mmmonvhf.de/vdb.php
will be as well available as also the excerp of these VHF-DATABASE.

These excerp calls "MS-DATABASE" and will be spread out free of charge!
There are inbetween 3 kinds of output - 2 of them you are able to use
direct in WSJT (CALLSIGN.TXT (old WSJT) and CALL3.TXT (latest version).
The format of those files was agreed past year from K1JT, Joe, and also
from other program editors like GM4JJJ (for MOONSKED) or W7GJ (for
TRACKER) as well as DG0KW (for VIEWER)...

In europe we have a big net of input and update possibilities
(in VHF/EME/MS chatrooms like ON4KST or at DL8EBW, DK5YA, EA6VQ and
other popular VHF-homepages and many more). The Updates and so all
DATAS... In about 2-3 weeks we will post issue ms235, which will include
CALLSIGN.TXT and CALL3.TXT with all hundreds updates since ms230.
You will find all infos: http://www.dl8ebw.de/DATABASE/database.html

Again - please do not hesistate to UPDATE today!

If you are using EME (with or without WSJT) or if you are active on
any VHF band, please mark it our your online-form...

OR please do fill in the following sample:

Call : Rufzeichen : AB1CDE
DXCC/WAE : Land : AB
LOC-WW : Lokator : JO55AF
PR-Adress : PR-BBS : DB0CDE
PR-Cluster: DX-Cluster : DB0CDE-9

NOF/LPM/MS-RIG : 155 3000lpm MSDSP
NOF/SSB : SSB-QRG : 355
Update : Update : 05/07

and send it back to us direct. These DATAs above will be public within my next VHF-DATABASE. There are no adresses, neither telefon-numbers getting online, do to privacy-reasons!

Kind regards and hear you soon on the VHF-bands!

May 16, 2007 -

ITU okays Montenegro, Serbia call sign prefix agreement (May 16, 2007) -- Although it became a country -- and a DXCC entity -- in its own right last June, Montenegro has not had an Amateur Radio call sign block to call its own until this month. According to The Daily DX, the International Telecommunications Union (ITU) did not want to give Montenegro an entirely new prefix, so it required the states of Montenegro and Serbia to agree upon one or two prefixes from the five (4N, 4O, YT, YU and YZ) assigned to the former Serbia-Montenegro. An agreement was reached May 11, and the ITU now lists 4O (that's "four Oscar") as Montenegro's. This means Montenegro stations may use 4O0 through 4O9, while Serbia stations will continue to use YT and YU prefixes for all call districts, 0 through 9. The ITU has taken back the former 4N and YZ prefixes for future reassignment. The ITU reportedly wants the two nations to complete the transition to new call sign blocks as soon

as possible. The Daily DX Editor Bernie McClenny, W3UR, recommends that DXers update their logging software carefully to reflect the changes. See www.arrl.org/?artid=7461 [ARRL]

Hi Everyone,

Just a note to say that the FISTS Down Under club call (VK2FDU) will be on the air these next two weeks starting NOW. Experience of late shows that the bands and times for us down under are:

to Europe 30m 0530Z-0700Z 20m 0500Z-0700Z
to USA 40m 1100Z and later
Local VK on 40 and 80 as appropriate.

Please listen out for the call on the usual freqs and on the bottom ends of
30m and 40m as I quite often find whilst writing up my logs and QSL cards that I work many a FISTS member at the bottom end of these bands but miss exchanging FISTS numbers.

The club call sign will be VK2FDU/3 as it will be operated in VK3 (the state of Victoria) whilst it is a VK2 (state of NSW) call sign. Very confusing but these days I doubt there are many (if any) persons in The Australian Federal Regulatory body who can read CW. But we will do it correctly.

Look forward to catching up with a few members

5626. [GOLIST] NEWS RELEASE

Yahoo group: GOLIST (2007 — 2010)
Date: 2007-05-18 11:57:39 UTC
From: K1XN
Topic: 4125 Message: 5626

Folks,

I have received quite a number of QSO not in logs, I forgot my QSO detail, my dog/significant other/kid/etc trashed my log, etc questions in the last week, so let me help with some ground rules:

I'm not in a position to answer whether you are in or not in the log at the moment. Rather than ask via email, I'd ask you to kindly put the inquiry in a NOTE with your QSL to me. I'll research the log as I work your QSL request, and respond accordingly. If you are NOT IN THE WEB log, don't give up, put down EVERY QSO you believe you had, and I'll do the rest. If the web log shows 20SSB, put down EVERY qso you think you had on 20 SSB, not just the first. Don't be embarassed with dupes, rather, give me all the QSOs you've had, I'll see the dupes anyway, but if you are not in the log the first time, it will save me a lot of time researching. Remember, every researched call takes time from processing other cards. If it's a busted call, I'll use well-established judgement in issuing the card, and may ask you to help confirm that the person's whose call appears did NOT make a QSO

If you DO NOT HAVE ANY detail besides what is in the web log online, it's impossible for me to give you credit for the card. I need to have SOME supporting detail on your QSO. Give me your best guess from memory, who you heard work BS7H just before or after. Chances are one of your friends was in the hunt at the same time, and can help. Remember, it will be a lot easier to remember it now than a month from now. And, I'm not in a position to issue a QSL to you 'just because' the web log says you're there. Not the way it works.

Don't fret the 39 cent stamp or the 84 cent stamp you sent before the postage increase. I'll cover it.

If i do not respond to your email, please don't take it personally. Please follow the guidelines here. I tend to not answer the emails when they ask the questions above, as each email is roughly equivalent to the time it takes to answer 2-3 QSLs...and i tend to choose to answer the cards first.

I'll let you know when the cards start going out via this forum.

As an aside, if you have a problem with how I do QSLs, how long it takes to get a card from me, etc, please take it up with me directly. I don't appreciate reading it third hand via a reflector, etc. Frankly, if you are kind enough to send me a note, I'll be glad to help research it. In many cases, I may be able to help you understand why the process take so long for your QSL, as I keep pretty good records of those calls that take time, and for what reasons that is the case.

Hi Friends

Maurice, F5NQL, the currently QSL manager for all F5MJV's operations
(FO5RN, FO0/F8UFT, and so on, except FM5JV) is receiving cards for
so-called QSO's made on last Feb 27 2007 and which were spotted as follow :

N4JF 7009.0 FK/FO5RN 1334 27 Feb 2007
UA3QDX 7009.0 FK/FO5RN Simplex 1339 27 Feb 2007
LA3MHA 7000.0 FK/FO5RN QSL info pls?? 1517 27 Feb 2007

Would you notice that Vincent is back to Metropolitan France since July
2005, where he got again his metropolitan French callsign F5MJV.

Even when Vincent was FO5RN, he never go to New Caledonia.
The whole period as FO5RN was July 1st 2004 to July 10th 2005.

Wasp your time and money.

Hi Jim

Yes it's confirmed by Rafik, F5CQ that the QSL cards senders asking to me for FK/FO5RN have read a bad callsign in the pile-up. The true callsign was effectively FK/FO5RK

I'll return via the bureau the three bureau-cards and directly that received by post to day.

Thanks for the information; you can spread also my answer.

Alaska USA (KL7): IOTA NA-206: Marvin Baur, KL1YY; Bob Wertz, NF7E; and Art Phillips, NN7A will operate from Ushagat Island, Alaska (IOTA NA-206) from July 12-17, 2007. They will have two stations using 100 watt transceivers with vertical, wire, and kite antennas. Operation will be cw by NN7A/NL7 and ssb by KL1YY and NF7E/KL7 on 160-10 m with ssb on 20 m and 15 m IOTA frequencies as conditions permit. No digital or vhf operation is planned.

There are no existing facilities on Ushagat, so operation will be from a camp set up by the operators using battery and generator power. Email and log checking will not be possible during the operation.

QSL via buro or direct via home calls:

Folks,
I have a set of Drake twins that do not have
the cables with them. Do any of you have these
rigs and could tell me what the cables are made
of and their length? I think they are made of
coax, but not sure. The manual do not give any
information about the cables except they were
supplied with the rigs.
Any help appreciated.

FRANCE -
On June 24th, from 0600z to 1600z will happen the French Mills Day. 80 to 10m except WARC bands, SSB and CW. VHF only on 2m. More information on Andre/F5PEZ, National French Mills Award and contest manager at:
http://dmf.diplome.free.fr/articles.php?lng=fr&pg=164 [Tnx F5NQL]

From Manos G. Darkadakis, SV1IW -
I would like to bring to your attention again about the illegal operation from an ex G0ETX station (probably not British) as 1B1AB on the HF bands. As we all know the country with name "Northern Cyprus" does not exist under the UN and this so called part of Cuprys has been occupied for years after taken by invading forces. I would appreciate if you could inform hf operators in your countries that this is an illegal operation and although 1B1AB claims that complains by many of us are bringing "politics" into ham radio, it is him that is doing so expecting us to approve his operation without terms. I am afraid that he is doing so on purpose. As a habitant of Cyprus we already advised him to ask the legal government of Cyprus to provide a license to transmit by using the legal country prefix of 5B4. [Tnx F5NQL]

5641. New MS-DATABASE issue 2.35 - 05/2007 ready to download

Yahoo group: GOLIST (2007 — 2010)
Date: 2007-05-25 19:16:58 UTC
From: MMMonVHF
Topic: 5641 Message: 5641

Hallo dear VHF-friends,

maybe you have seen past weeks the infos around the new VHF-DX-Portal
MMMonVHF. Meantime we was able to integrate the VHF-DATABASE from
DL8EBW and DK3XT. Nowadays you are able to update the BASE online your
self as well to use a visualisation tool - have a look at:

http://www.mmmonvhf.de/dbase.php

The MS-DATABASE will be an exerp of the above shown VHF-DATABASE and
up to now we was spreading it out free of charge all 6 month. In future
we are planning to have a daily up to date download port at MMMonVHF.

There are THREE different kinds of up to date and free downloadable
packages for you today:

ms235.zip > ms235.txt (abt.400KB) abt.6000 calls/info
ms235_WSJT_CALLSIGN.zip > CALLSIGN.TXT abt.5000 calls/info
ms235_WSJT_CALL3.zip > CALL3.TXT abt.5200 calls/info

METEORSCATTER - DATABASE (ms235.zip)
ms235.txt will be the known up to date TEXT-file for Meteorscatter
friends who wants to find partners and search for some call in
ordenary TEXT structure, or use the METEORSCATTER-VIEWER from
DG0KW, Klaus (download for free:
http://www.user.fh-stralsund.de/~dl0hst/vhf-ms-db-viewer.htm).
These DATABASE also include MS-Expedition- and /P Calls from
the "good old days".

MS/WSJT(issue < 4.9.0) - DATABASE (ms235_WSJT_CALLSIGN.zip)
CALLSIGN.TXT will be the METEORSCATTER DATABASE for Meteorscatter
friends who still use an older version of WSJT program from K1JT,
issued earlier than version 4.9.0. You shall be able to unzip it
direct to your WSJT folder and get the CALLS and LOCATOR into the
fields of the WSJT program based on my DATABASE. On several request
there are nearly NO expeditioncalls from past month at this file.

MS/EME/WSJT(issue > 4.9.0) - DATABASE (ms235_WSJT_CALL3.zip)
CALL3.TXT will be the DATABASE for EME and Meteorscatter friends who
use the WSJT program from K1JT, Joe, issued later than version 4.9.0.
or programs like MOONSKED (by GM4JJJ) or TRACKER (by W7GJ) or others.
It will contain an EME-FLAG at active EMErs to help these programs in
some decisions... There are also some expedition and /P calls since
01/2007 as well as some calls of next months at this file...

You will be able to find several links and places for free download
and here are some examples:

http://www.dl8ebw.de/DATABASE/database.html
http://www.mmmonvhf.de/ms.php

INFORMATION:
The above named three DATABASEs CAN NOT BE built into a DX-cluster NEITHER into a logbook- or contest program! For these actions you do need my complete VHF-DATABASE-USER file (for any need, please contact DL8EBW via e-mail)! All infos, links and downloads around all the DATABASEs aswell as more VHF Infos like Make More Miles ON VHF, you are able to find on the internet-homepage:

http://www.mmmonvhf.de/

Wish you gl with these new DATABASEs and hope to hear from you time to time on VHF.

kind regards, sincerely

"I recently received my supply of VU7RG/VU7MY QSL cards from the QSL printer in Europe.

My QSL team from the South Jersey DX Association will meet next weekend to process the "Region 2" cards. Most cards will go into the mail on the same day, expected to be June 11th or 12th.

The exception is for those who requested BOTH VU7RG and VU7MY (or perhaps any other call that I handle) in the same envelope. Those will be processed later since it involves a separate confirmation process here.

As for the extra postage needed due to the recent increase, I have a good batch of 2 cent stamps here. I want to thank the couple of folks who mailed me some sheets of 2-cent stamps to add to my postage box! That was a very nice gesture. Thanks!" N2OO BOB

10/06/2007: Andy, RN3AKK will be active June 10-17th as RN3AKK/3 from the Monastery of Optina Pustyn, located in RDA District KG-16 (Kozel'sky), Kaluzhskaya (Kaluga) oblast (KG). In the 19th century Optina Pustyn, a male monastery located by the right bank of the Zhizdra River, near Kozelsk, was a very important spiritual center of the Russian Orthodox Church. There is no documentation as to when the Optina Pustyn monastery was established but legend has it that a former outlaw by the name of Opta, founded the monastery in the 15th century. It was here that he took the monastic vows, changing his name to Makarii, and asked forgiveness for his sins. The Russian words Optina Pustyn means, "living together"

because before 1504 nuns were allowed residence in the cloister. The first piece of evidence was found in the 17th century during Tsar Mikhail Feodorovich's reign. At this point it was a small wooden structure with a few monastic cells, one church and less then twenty monks. QSL via home call, direct or bureau. [Tnx RX3RC & RN3AKK]

15/06/2007: Dmitry, RV3ATS will be active June 15-July 24th as RV3ATS/6 from RDA Districts KR-43, KR-10, KR-58, AD-06 and KB-10. QSL via home call, direct or bureau. [Tnx RX3RC]

On the Clipperton DX Club's 30th anniversary of FO0XB, the goal of our dxpedition is to make 100,000+ QSO's worldwide. Organization and management provided by John Kennon, N7CQQ, David Anderson, K4SV. Further information to follow at: clipperton2008.org/ [Tnx NG3K]

One of the more famous and long-lived post box numbers in DXing has changed. Effective immediately, all mail send to the Yasme Foundation should go to:

The Yasme Foundation
P.O. Box 20578
Castro Valley, CA
USA 94546

The current mailing address shown on the Yasme Web site (Yasme.org) is now correct. Mail sent to the old box number, Box 2025, will be forwarded for approximately six months, so if you have sent mail recently, it will be delivered with no difficulty. For a period last summer, the USPO was not forwarding mail properly, and some mail was returned. This is no longer the case.
Thanks,
Wayne Mills, N7NG, President
The Yasme Foundation

I.C.P.O. (Islands, Castles & Portable Operations)
UPDATE -
==========
Team of operators is on Mauritius now.

They charter the catamaran and the boat is loaded with equipment and ready to set sails tomorrow (Friday 1 June) for Agalega.

They received callsign 3B8SP

During the voyage they are planning to operate /MM using their home callsigns.

Today they purchased two 3,6 KVA diesel generators and fuel to last for entire operation. Before purchase they tested the generators to make sure no QRN exist.

They also purchased the sleeping and operating tents. They order 120 angle iron stakes for holding the antenna masts and antenna related equipment.

Afternoon they went to catamaran where they meet with advisor to minister of tourism and outside contacts. Also they meet with member of Mauritius Ministry of Tourism. There was also press and TV reporters.

They were also talking to Director General for Islands about their stay on Agalega Island.

Everybody were wery supportive in their expedition.

There was also event of naming that catamaran as Josephina.

For additional information please visit 3B6SP DX'pedition web page: www.godx.eu

This is very costly operation and they all ready exceeded the budget and they are looking for generous donations.

Please feel free to spread this information to other DX news, DX community and other news groups. [Tnx VA3PL (North America pilot station)]

Hi folks,
The Carotid artery surgery that was scheduled last month has been
rescheduled for Tuesday June 5th. I expect to be back in
the office a couple of days after the surgery. This may make the
weekly updates just a few days late, but I will catch up.
Hopefully I can make the Friday/Saturday release schedule.
Thanks for understanding.

The correct call is 3B6SP.

The first update I sent out was from VA3PL that had a "typo" which I did not catch. It was after 11p.m. and I was tired, hi. AD1C caught the typo, but he has excellent vision and easily spots these errors. We are lucky to have him around to catch our mistakes.

Sorry about the surgery John. I had my left Carotid artery done on a Thursday and was in the hospital for less than 24 hours. I was back to work on Monday. I had my right one done on another Thursday two weeks later and again with the same results. Two weeks after that I had my Aortic Aneurysm fixed and was back to work in two weeks.

Other than looking like a toad frog (some swelling under the neck) it went rather well for me and I'm sure it will for you also.

Good Luck Ed AB4IQ

Ps it must be that Paris Tn. Connection. Hi.

Tks Pete's DX Desk

Dear Fellow Hams,

It is a pleasure to advise all of you that the DANUBE RIVER DAY
activity will be organized this year too.

A special event station HG7DANUBE will be active over the activity
period June 01-30, 2007.

Some rules are modified according to last year's experience.

Please visit http://ha2mn.dsgnet.hu for detailed information.

The Organizers would highly appreciate if you could propagate the
event on your local and international news channels.

See you in the activity!

My talents are very limited and none reside in the area
of computer graphic design or even in creativity.
If you can help me out, I sure do need it.
I want to use these logos on my programs and on documents
sent to clubs and hamfests. Logos that will represent my
company and products well.
Thanks in advance for anyone's help with this.

NASA has given the go-ahead for the launch of the space shuttle
Atlantis Friday, June 8. The STS-117 mission will carry US astronaut
Clay Anderson, KD5PLA, to the International Space Station to succeed
Suni Williams, KD5PLB, as ISS Expedition 15 Flight Engineer.

Anderson will join Expedition 15 Commander Fyodor Yurchikhin, RN3FI,
and Flight Engineer Dr Oleg Kotov. Williams will return to Earth
aboard the Atlantis. She arrived on the ISS last December and has
been among the most active ISS crew members on Amateur Radio.

NASA originally planned the astro-swap for the STS-118 shuttle
mission, now targeted for an August launch. Atlantis Commander Rick
Sturckow and his six crewmates will spend 11 days in space and take
part in three spacewalks.

Work planned for this mission will increase the ISS's power
capability in preparation for the arrival of new science modules
from the European and Japanese space agencies.

Joining Sturckow and Anderson on STS-117 will be pilot Lee
Archambault and mission specialists Patrick Forrester, Steven

NASA a donné son accord pour le lancement de la navette Atlantis pour le vendredi 8 juin.
La Mission STS-117 emmènera l'astronaute US Clay Anderson, KD5PLA, vers l'ISS, pour remplacer
Suni Williams, KD5PLB, un Ing"enieur spatialm arrivé avec la 15ème mission.

Anderson rejoindra le commandant de la 15ème mission Fyodor Yurchikhin, RN3FI, et l'ingénieur de vol, le Dr Oleg Kotov. Ensuite Williams reviendra sur terre à bord d'Atlantis.
Elle était arrivée sur l'ISS en décembre dernier; elle fut sans doute l'une des plus actives des passagers de l'ISS à pratiquer le radioamateurisme.

NASA avait prévu à l'origine de permuter les missions 17 et 18, cette dernière est prévue maintenant pour août prochain.
Le commandant de l' Atlantis, Rick Sturckow ert ses six collègues, passeront 11 jours dans l'espace et prendront part à six sorties dans l'espace.

Le travail de cette mission consistera à augmenter les capacités de l'ISS, en vue de l'arrivée prochaine de nouveaux modules scientifiques fournis par les agences spatiales européenne et japonaise.
Work planned for this mission will increase the ISS's power

Sturckow et Anderson seront accompagnée pour cette STS-117 par le pilote Lee

Hi contesters.

On June 9/10Th the GACW WWSA CW Contest will be held again this year. We
from SA hope many of our friend from all over the world join the fun.

As many of you may know the GACW took over the organization of this contest
a couple of years ago. The GACW has a long tradition organizing Ham Radio
Contest, publishing results and sending trophies and certificates ON TIME
year after year.

The plaque program has grown up from just a few to 20 plaques as of today.

http://gacw.no-ip.org

We count on your participation, no matter how many Qs you plan to make, it
will be really great hearing you fire your CQs in this contest!!!!!

The well known D DX C Website, involved in DX traffic and the WAP pages has
some problems.
See Gianni's I1HYW information:

Hello Maurice,
TNX.
The problem is that actually www.ddxc.net is crashed and the web master
IZ8BRI cannot do the normal maintenance as is getting married and for a long
time he will not be available!
I have registred a new portal under my name and as soon as it will be open I
will start to build a new web site at www.waponline.it .
Thanks for your information anyway

Hello world,

We have in hand our call signs for Botswana this July.

We will be on all bands from 160 through 6 meters on CW and SSB starting
the 5th or 6th of July till the 20th of July.

Will also have 6/2 and 70cm EME going. Hal will do the Digi modes and I will
see if one of the CW guys will do some CW.

So pass the word for the 6 meters part. We will have a M2 6 meter beam up on
top of one of the towers which will be about 60 feet high. Will have at lest
300-400 watts or more.

Hal who does most of the EME is a retired American that lives in South
Africa and I have covered most of his expenses so if any of the EME
folks would
like to give some support for him you can send it to me. He does not
know that
I have done this for him.

CU on the air.

In the 19th century Optina Pustyn, a male monastery located by the right bank of the Zhizdra River, near Kozelsk, was a very important spiritual center of the Russian Orthodox Church. There is no documentation as to when the Optina Pustyn monastery was established but legend has it that a former outlaw by the name of Opta, founded the monastery in the 15th century. It was here that he took the monastic vows, changing his name to Makarii, and asked forgiveness for his sins. The Russian words Optina Pustyn means, "living together" because before 1504 nuns were allowed residence in the cloister. The first piece of evidence was found in the 17th century during Tsar Mikhail Feodorovich's reign. At this point it was a small wooden structure with a few monastic cells, one church and less then twenty monks. QSL via home call, direct or bureau. [Tnx RX3RC & RN3AKK]

QSL NEWS -

DH150HZ (with the special DOK HZ1857) is a special event call sign to celebrate the 150th birthday of Heinrich Hertz, which began February 22, 2007. The QSL manager DL5KUA writes that the decision how many QSLs have to be printed is not made before this autumn and the shipment is going to start not much earlier than in the beginning of 2008. However all QSO information is uploaded to the LotW regularly. Other special event calls active from Germany are DK150HZ (Karlsruhe, DOK HZ1885), DR150HZ (Bonn, DOK HZ1894) and DB150HZ (Berlin, DOK HZ1878). The licences are valid until Jan 1, 2008. [Tnx DXNL]

The Polish 3B6SP DXpedition team heading to Agalega Island is having boat problems. ZS1Y, Volker, reports the catamaran has lost one engine and a sail. The second engine is apparently not doing well.
If Volker understood correctly the team is now heading to St. Brandon (3B7). As of press time they were operating as SP9MRO/MM on 18127.
They were also on as SP9MGM/MM. It is unclear at this time if there will be any operation. Let's hope and pray they make it to land safely, wherever that may be!

Our source in Mauritius tells us they hired a crappy boat. [Tnx IZ8EDJ]

A big thanks to all those who took time to work VK2FDU over the last two weeks. As an added bonus, this call will continue to be active until 2359z June 16th. As conditions are looking better than they were a week ago, you should hear this call around the bands. Some suggestions are: 0300Z-0600z 30m and 20m into UK(LP) and USA(SP), 1100z onwards 40m into the USA. [Tnx F5NQL]

KH3/W7KFI - JOHNSTON ATOLL/ PACIFIC TOUR -
Susan, W7KFI/mm has left Hawaii May 29th and is heading for Johnston Atoll (KH3, OC-023). She reports that will a week to get there, couple days to set up antennas and then ON THE AIR.
Current plans are for FO Australs, Marquesas, Tahiti, ZK1 North Cook Islands, KH8 American Samoa, 5V Western Samoa, ZK3 Tokelau, FW Wallis/Futuna, 3D2 Rotuma, VK9M Mellish Reef?, H40 Temotu, VK9Z Willis Island, P29 Papua New Guina, 9M8 Borneo, V8 Brunei, VU4 Adaman Islands, HS Thailand, H4 Solomon Islands, T30 Kiribati, YJ Espirito Santo (Vanatu), FK New Caldonia, T2 Tuvalu, H44 Solomon Islands, 9M2 Indonesia, V6 Truk Lagoon, Marshall Islands, and finally N. Gilbert Islands. Plus as many IOTA locations as possible. [Tnx W7KFI]

COCOS ISLAND TI9 - DXPEDITION 2008!
After the big success of TI9M... we start again! The next DX-pedition to TI9 will depart in February of 2008!

GACW WWSA CW CONTEST -
On June 9/10Th the GACW WWSA CW Contest will be held again this year. We from SA hope many of our friend from all over the world join the fun.

As many of you may know the GACW took over the organization of this contest a couple of years ago. The GACW has a long tradition organizing Ham Radio Contest, publishing results and sending trophies and certificates ON TIME year after year.

The plaque program has grown up from just a few to 20 plaques as of today.

All information and rules at: http://gacw.no-ip.org

We count on your participation, no matter how many Qs you plan to make, it will be really great hearing you fire your CQs in this contest!!!!! [Tnx LU5DX]

30/06/2007: Look for the special call sign PB6KNRM to be active June 30th from the Noordwijk Lighthouse (ARLHS NET-019, WW Loc. JO22FF), located in Zuid-Holland Province, on the North Sea coast. Also, on this day, the KNRM-lifesavingboat will be delivered at KNRM-post Noordwijk. QSL via PA7DA. Notes: Old records indicate that a light was in use at Noordwijk in 1444 to help fishermen. Other lights have succeeded it since then. The current lighthouse, built in 1921-22, was declared a national monument in 1980. It was reportedly under restoration in 2004. LOTW upload for donors

Today the BS7H team uploaded to the ARRL LOTW website a partial log containing QSOs for those DXers who supported BS7H with donations sent either via the website credit card procedure or thorough the mail in form off the website.

This was a special "Thank You" to those who made the effort to support our operation. The cutoff date of this log is as of today's website donation listing.

The there will be additional periodic uploads of the log to LOTW as QSLing proceeds and a full upload will be done as soon as the bulk of the direct QSLs are answered.

Direct cards are expected to start going out in early July.

The 2007 DXpedition to Scarborough Reef again wishes to thank those who helped make this happen. We could not have done it without your support.

Amateur Radio Newsline Report 1556 - June 8, 2007

The following is a QST. A Manassas Virginia ham proves RF ingress can seriously hamper BPL, South Africa's ham community takes a stand on BPL, and the FCC takes another step toward an enhanced Emergency Alert System. All this and more on Amateur Radio Newsline report number 1556 coming your way right now.

**
THE BPL FIGHT: MANASSAS VA HAM PROVES BPL INGRESS AT PROBLEM EVEN AT QRP

A simple test conducted by a ham radio operator in Manassas, Virginia, has provided proof positive that even flea-power Q-R-P ham radio operations can shut down Broadband Over Powerline Internet access operation. Amateur Radio Newsline's Don Carlson, KQ6FM, reports:

--
The revelation comes on the website of George Tarnovsky, K4GVT. On it, Tarnovsky shows the results of tests made using only 40 watts and QRP at 2 watts on the 80 through 10 meter bands.

The gear used in his test was an Icom 706 transceiver, with Outbacker Perth antenna on his car parked curb side. The vehicle was approximately 70 feet from his house, and more than 100 feet from the BPL power pole interface. Inside the home a laptop with BPL interface repeatedly downloading a 40 Megabyte file.

--
Tarnovsky: "Well, what we found is that when we were within reasonably close proximity -- I would say within 100 feet or so of any of the BPL installations -- when we transmitted on E-CARS on 7.225 that we actually had an affect on them. The way ewe knew that we had an affect was that as soon as you released the microphone (PTT), rather than hearing the typical BPL noise, you knew the system was backed up with data and consequently became very aggressive and just blanked (the band). If you looked at a spectrum display of it -- it just covered the entire spectrum. Its almost as though all the stops were off. In other words the band stops were off. Just rip and get the data out and that's exactly what it did."

--
What K4GVT found was that on all bands the connection suffered at least a major slowdown when he transmitted at the 40 watt level. On 80 through 15 meters the 40 watts caused the download to stop altogether and requiring it to be restarted. But the biggest surprise was on 40 meters where 2 watts of R-F rendered the BPL connection numb. He says that the 2 watts at 7 MHz caused the BPL data transfer to stop.

--
Tarnovsky: " With the original G1 installation, 2 watts would have an affect on it. Since then they have made some changes in their firmware to the G1. The G2 has agile notching so they can go in and they can notch it (the spectrum), but being agile they can also remove them and that's the problem that we are facing here."

--
Tarnovsky notes that regardless of what carriers a BPL provider might notch out of a system, the system operator cannot filter its input. As such, R-F ingress to the BPL system is wide open, and susceptible to all near field RF from 2 to 29 MHz. Even one that only 2 watts and more than 100 feet away.

For the Amateur Radio Newsline, I'm Don Carlson, KQ6FM, in Reno.

More on the BPL ingress experiment by K4GVT including a band by band results chart is on his website. Its in cyberspace at www.k4gvt.com/bpl/bplweakness.html (ARNewsline, QRZ.com)

THE BPL FIGHT: LATEST SOUTH AFRICA REPORT SNOTES INTERFERENCE POTENTIAL

South Africa's ham community has confirmed what so many others know already. That Broadband Over Powerline Internet access is a major source of interference to High Frequency communications

During a recent net, South African Radio League President Graham Hartlett, presented an update on the society's position of powerline telecommunication in South Africa. The latest tests have confirmed that BPL has an inherent interference potential and that this must be taken care of in new type approval specification for powerline data communications systems.

Hartlett noted that telecommunications regulator ICASA has recognized that it will need to strengthen its interference complaint handling capability and has asked the EMC working group to develop type approval specifications and how to deal with interference should it occur. These specifications would be an interim measure and in no way pre-empt international specifications. Once international standards have been agreed, the interim specifications would be revised and brought into line. (WIA News)

**
THE BPL FIGHT: ARRL SAYS FCC MUST SHUT DOWN AMBIENT

Still with BPL news, word that the ARRL has again demanded that the FCC shut down Ambient Corporation's broadband over power line pilot project in Briarcliff Manor, New York.

In a May 31 letter to FCC Spectrum Enforcement Division Chief Kathryn S. Berthot, ARRL General Counsel Christopher D. Imlay, W3KD, says that it's long past time that the Commission enforce its own rules, and again objected to the Commission's inexplicable inaction in the face of evidence the system is noncompliant.

On May 21 the FCC called on the BPL equipment maker and system operator to demonstrate it's complying with all terms of the Part 5 Experimental license authorizing the system, or face possible enforcement action.

Imlay's letter pointed out that the FCC's May 21 letter made no mention of Condition #1 of Ambient's Part 5 Experimental license. That condition requires that if any interference occurs, the holder of the authorization will be subject to immediate shutdown. (ARRL)

**
RESCUE RADIO: FCC MOVES TOWARD AN UPGRADED EAS

The FCC has adopted a Second Report and Order and Further Notice of Proposed Rulemaking that strengthens the nation's EAS or Emergency Alert System. The Commission's Order promotes the development of fully digital Next Generation technologies and delivery systems that will better serve the American public.

According to the CGC Communicator, the Order requires EAS participants to accept messages using a messaging system called Common Alerting Protocol. CAP as it will be known is the groundwork for whats being called the Next Generation EAS delivery systems. This protocol will need to be in place no later than 180 days after FEMA makes a key announcement.

The Further Notice of Proposed Rule Making is the second part of the decision. It seeks comment on whether participants should be required to deliver EAS alerts originated by local, county, tribal, or other state governmental entities. More on the Report and Order is on-line at http://hraunfoss.fcc.gov/edocs_public/attachmatch/DOC-273458A1.pdf (CGC)

HAM RADIO IN SPACE: RAFT DE-ORBITS

The US Naval Academy's RAFT ham radio satellite has reached the end of its orbital life. Data compiled from stations monitoring its 145.825 MHz downlink indicates that RAFT de-orbit occurred between 02:00 and 03:00 UTC on May 30th. Its final beacon was heard at 01:45 UTC that day. (ANS)

TELECOMMUNICATIONS LAW: BROADCASTERS WIN APPEAL ON INDENCY AND PROFANITY RULES

A federal appeals court has overturned an indecency ruling against the Fox Broadcasting and has broadly questioned whether the Federal Communications Commission has any right to police the airwaves for offensive language. Mark Abramowicz, NT3V, has more:

--
In a 2 to 1 decision on June 4th, , the U.S. Court of Appeals for the 2nd Circuit in New York ruled that the FCC went too far in issuing a 2006 decision against Fox for separate incidents in 2002 and 2003 after two personalities each uttered an expletive on live television.

In 2004, the agency reversed years of policy and effectively branded even "fleeting," or one-time, use of an expletive off-limits on broadcast television and radio In its ruling the court found that that the FCC had not adequately, or constitutionally, explained why it changed its mind on the fleeting use of profanity and ordered the agency to retool its regulations.

Because the Fox incidents occurred before the FCC's 2004 ruling on fleeting profanity, the agency did not fine the network, though it did rule that the broadcasts were indecent. Fox appealed the FCC ruling to the 2nd Circuit, saying the new rule set a dangerous precedent for clamping down on free speech.

According to the Washington Post, the decision is likely to be looked on as a rebuke to the FCC and a victory for television networks, which in recent years have pushed back against the regulatory agency's crackdown on indecency. It could also bolster the broadcasters argument that parents need better tools such as channel-blocking technology rather than more government regulation to police the viewing habits of their children.

FCC Chairman Kevin Martin said that he was disappointed in the court's ruling. He added that FCC attorneys were reviewing the agency's options and might appeal the decision to the Supreme Court. Lawyers who specialize in the First Amendment issues told the Washington Post that such an appeal could easily become a test case to determine whether the federal government still has the right and responsibility to police the public airwaves.

For the Amateur Radio Newsline, I'm Mark Abramowicz, NT3V, in Philadelphia.

--
What affect this ruling might have on indecency and profanity issues in other FCC administered services is unknown. (ARNewsline from published news reports)

RESCUE RADIO: TSA VOLUNTEER TRAINS NEW HAMS

30 Transportation Safety Administration volunteers have been trained to use emergency high frequency radio equipment during disasters. The 30 have also qualified for Amateur Radio operator licenses.

According to news reports, TSA employees participating in the May 9th training traveled to Pensacola, Florida for the session. Volunteers came from as far away as Louisiana, Alabama, Mississippi, Arizona and New York State.

Spokesman Steve Earnest said that Pensacola is fortunate that it has a Transportation Safety Officer who is also a highly experienced Amateur Radio operator, trainer and examiner.

Earnset says that this radio amateurs volunteer efforts have given the agency tremendous in-house capability. One he says would have been expensive for the agency to replicate using contractors. More is on-line at /www.tsa.gov/press/happenings/amateur_radio_operators.shtm (TSA Release)

**
RESCUE RADIO: TENNESSEE RED CROSS CHAPTER GIFTED RADIO GEAR

Within the next 18 months, the Treis-County Tennessee Chapter of the American Red Cross should have a new emergency communications station. One with improved capabilities ready to use in the event of a disaster.

According to the Tullahoma News Guardian, the emergency communications station is being made possible by a donation by the wife of the late Bill Bearden, a former Red Cross volunteer and ham radio operator. Mrs. Bearden has donated two antennas and numerous pieces of Amateur Radio equipment that is being refurbished. One of the antennas will be installed on a new tower at the local Red Cross headquarters where the station will be installed.

Chapter Executive Director Alice Cano thanked Mrs. Bearden and noted that the new station would better enable the Red Cross to stay in touch with drivers of emergency response vehicles. She also noted that Bryan Marlowe, KE4LPL, a member of the Red Cross chapter's information technology team, Jimmy Floyd, NQ4U and other radio amateurs make up the Treis County chapter's disaster communications committee. (Tullahoma News)

RESCUE RADIO: ATV AT SANTA BARBARA EM COMMS DRILL

Fifteen Califoornia Amateur Radio Emergency Service volunteers equipped with slow-scan television assisted with a voluntary wildfire evacuation drill on Saturday morning, April 28th. An exercise involving residents of over 900 homes near the city of Santa Barbara.

During the event, five ARES teams were stationed at key intersections where winding, narrow roads merged into the main street out of a mountain community. The amateurs sent slow scan photos in a pre-arranged rotation, with the camera number appearing in the picture. Each number corresponding to the assigned intersection so officials could easily identify the location on large area maps.

Receiving stations were set up at the City's Emergency Operating Center. According to Santa Barbara City Fire Battalion Chief John Ahlman, the amateur television pictures were the only continuous, real-time information his department received from the field.

This is not the first time ham radio has been a part of Santa Barbara emergency communications drills. Fire officials were so impressed with the information provided by the ARES slow-scan TV at a smaller drill two years ago, that they invited the ham radio group back to participate in this one as well. ENFORCEMENT: BEHRINGER FINED $1,000,000 FOR UNAUTHORIZED GEAR SALES
Electronics supplier Behringer USA, Inc. has been dinged with a proposed one million dollar fine by the FCC. This, for marketing 50 models of unauthorized radio frequency equipment in the United States without prior consent from the regulatory agency.
The gear in question is described as digital audio music devices. This says the FCC was a willful and repeated violation of Section 302(b) of the Communications Act of 1934, and Section 2.803(a) of the Commission's Rules. (FCC)

**
REGULATORY NEWS: ARRL VEC TYPO LEADS TO LICENSE CLASS CORRECTION

The FCC has rescinded an Extra class upgrade accidentally granted to W5VXJ of Phoenix, Arizona, who had only filed for a General class upgrade. And it's doing so with the implied consent of the radio amateur involved. Bill Pasternak, WA6ITF, has the details:

--
The story goes this way. On February 2, 2006, the Commission received from the ARRL VEC an electronic data file that contained an application requesting modification of John R. Ure, W5VXJ''s license to upgrade his operating privileges from Technician Plus Class to Amateur Extra Class. The license was modified to authorize Amateur Extra Class operator privileges on February 2, 2006.

On April 19, 2006, the ARRL VEC requested that the Commission rescind this modification. This, on the grounds that the earlier data file it submitted contained a typographical error and that the requested upgrade was intended to modify the operator privileges for Amateur Radio Service Station W5VXJ to General Class operator privileges.

Based on the new information, the FCC contacted Ure and proposed to modify the license to change the license class from Amateur Extra Class to General Class.

For the Amateur Radio Newsline, I'm Bill Pasternak, WA6ITF, in Los Angeles.

--
W5VXJ did not protest the proposed modification of his license within the requisite thirty-day time frame s the FCC says that Ure is deemed to have consented to the modification. (FCC)

**
TELECOMMUNICATIONS LAW: SPOOFING CAN GET YOU 5 IN JAIL

Spoof and you could go to jail. So says one house of Congress. Jim Davis, W2JKD, has more:

--
The House of Representatives has voted to make phone "spoofing," the use of fake caller ID information to defraud people, a felony subject. The bill makes it a federal crime to use false caller ID information with the intent to defraud or to deceive the recipient about the identity of the caller. A conviction brings a 5 year prison sentence and forfeiture of any gains from the offense, or of the software or technology use to commit the crime. Exemptions are made for the activities of law enforcement and intelligence agencies.

--
The bill now goes to the Senate for action and debate. (Technology Today)

HAM HAPPENINGS: "AMATEUR RADIO TODAY" IS #1 HAM VIDEO ON YOUTUBE

"Amateur Radio Today" the ARRL video produced by Dave Bell, W6AQ, Bill Baker, W1BKR, Bill Pasternak, WA6ITF and the late Alan Kaul, W6RCL -- and written by W6RCL-- has today become the most watched ham radio video on www.YouTube.com

As this is written, there are three postings of "Amateur Radio Today" of this show on YouTube. The one posted by "Tomintexas" has to date garnered some 24,423 people screening it. Another by a user named mranticocialguy has been screened 3,727 time and the third by user VA3CSS that has been viewed 1859 times. Adding all three postings together, "Amateur Radio Today" has been viewed on YouTube a total close to 30,000 times.

In second place in the most viewed ham radio YouTube videos is "The Ham Band" singing "Come and Join Us On The Airwaves." The video featuring Andrew John Huddelston, Oh-Zed-1-X-J and his wife Lissa Ladefoged on a 100 foot high tower has so far racked up an impressive 20,676 views.

Third place goes to the on-line programmer 88 SLIDE whose "Ham Radio Field Day" video has garnered 6785 views. It uses footage shot around Los Angeles and Orange County California on Field Day weekend, 2006.

While none of these shows have set any YouTube viewing records their numbers are still very respectable for a special interest such as Amateur Radio. (ARNewsline)

COMMUNICATIONS TECHNOLOGY: DAB STANDARD BEING CHANGED

A major change is coming to a digital broadcast radio near you. Jeramy Boot, G4NJH, is in Nottingham in the U-K with the latest on DAB standards and the future of digital receiver design:

--
Current DAB radios may be unable to receive anything in a few years time, according to Pure Digital.

This is due to the introduction of DAB Plus, which uses the new AAC Plus audio coding. The new DAB standard is incompatible with existing DAB receivers, and will render them obsolete. The new coding system is twice as efficient as the MP2 system currently in use, meaning that the number of channels per multiplex could double.

Manufacturers are expected to quietly switch to producing dual standard receivers before any changeover occurs.

Im Jeramy Boot, G4NJH.

--
The switchover only affects terrestrial DAB radio and not satellite delivered services such as Sirrius or XM. (GB2RS)

WORLDBEAT - GERMANY: THE DL 100 AWARD

In news from around the world, German hams are on the air throughout June with a special celebration. This with members of the radio clubs of Norddeich and Hage commemorating the 100th anniversary of the well known coast station Norddeich Radio. Operations are planned for 160 through 10 meters on various modes. The special callsign, DL100DAN is being used and a special D A N 100 award will be available. More information can be found at http://norddeich-radio.de/ (OPDX)

WORLDBEAT - JAPAN: JARL TO CELEBRATE INTERNATIONAL QRP DAY

The Japan Amateur Radio League's QRP Club will be running five special event stations, 8J1P, 8J3P, 8J4P, 8J5P and 8J6P on June 17th to celebrate the International QRP Day. International QRP Day was designated by the IARU Region 1 Conference held in April 1984 in Italy to stimulate QRP operation worldwide. It was reaffirmed by the IARU Region 3 Conference in New Zealand in December of 1985 (JARL)

WORLDBEAT - UK: GB3RAL PROPOSED 40 AND 60 MHz BEACONS ON THEIR WAY

In VHF news, work from the United Kingdom that the new GB3RAL 40.05 and 60.05MHz beacons are due to receive government clearance in mid-June but both have already cleared their key Primary User stages. Assuming that regulatory clearance is also obtained the sponsors will go forward to for final clearance and approval sometime this summer.

If approved, it brings ham radio in the UK closer to the prospect of a unique 40, 50, 60 and 70 MHz co-located beacon system at the Rutherford Appleton Labs location near Oxford. While not in amateur bands, the 40 and 60 MHz beacons should prove to be extremely useful propagation study markers both in the UK and world wide. (GB2RS)

ON THE AIR: CELEBRATING IN INDY WITH HAM RADIO

Back in the United States, Indianapolis, Indiana has been a hotbed of special event stations during May and it continues in June. Fire up that new HF rig and get ready to copy. Jack Parker W8ISH has this report from the Circle City.

--
If you have your HF rig fired up and your antenna pointed toward Indianapolis you many score some great contacts in the next few weeks. Beginning Friday evening June 8th the Indianapolis Radio Club will begin making contacts from the site of the USS Indianapolis Memorial. The USS Indianapolis was sunk during World War Two after delivering atomic bomb components that were later used in the attack on Hiroshima. Listen for the W9IND call sign during the 44 hour event or check the Indianapolis Radio Club web page for more information.

The pace continues to quicken as the United States Grand Prix rolls into town on Fathers Day weekend, June 17th. Special event station W9IMS will be on the air, taking check-ins, during that weekend . This world class special event station operates during each one of the major races at the Indianapolis Motor Speedway. If you don't catch W9IMS during the Formula One race you have another opportunity to snag a special QSL card during the Brickyard 400 NASCAR race the weekend of July 29th.

And last but not least, many central Indiana clubs report gearing up for Field Day 2007 on June 23rd and 24th. Maybe we'll catch you on the HF bands.

Reporting for Amateur Radio Newsline this is Jack Parker W8ISH.

The USS Indianapolis Memorial station will join nearly 70 other special event stations around the world as part of the Museum Ships Weekend. (W8ISH)

THAT FINAL ITEM: THE LONG SAIL

And finally this week the story of a voyage by sea and the role played by Amateur Radio. Rob Mt Barker, VK5MM, of the W-I-A News has the details:

--
"Sometimes we could hear them, but they couldn't hear us. But we knew they were out there."

They were the words of John Hackney of Orono, who joined the crew of a Trans-Atlantic sailing expedition in the British Virgin Islands.

A father and son crew from Bangor, along with an assortment of additional mates, completed the last leg of a journey that took them from Bangor to ports throughout Europe and back again over the course of two seasons of
sailing.

Dan Cassidy, 58, and his son David, 23, left Bangor in May 2006 to start the voyage that would cover nearly 18,000 miles and take them to 10 different countries. And Amateur Radio went along for the ride.

In a smaller boat, rotating watches have to keep an eye out for other, larger vessels and an ear out for the weather forecasts. For those communications, they relied on a Ham radio contact with an inland operator who monitors weather conditions for mariners.

The Ham radio also allowed Fleana's crew to send e-mails, which sometimes were more reliable than voice communications. Those e-mails were a godsend for family members.

"We were getting some information," said Deena Cassidy, Dan's wife.

"We knew things were going well, so I didn't really worry."

Good day. I'm Robb, VK5MM

As we go to air, the voyage continues. (WIA News)

Radio Newsline'sT only official website located at www.arnewsline.org. You can also write to us or support us at Amateur Radio Newsline, P.O. Box 660937, Arcadia, California 91066.

Before we go, the results of our on-line poll that asked the question of what are your upgrade plans now that Morse is no longer required. Well 38.8% of those who responded said they planned to upgade while only 15.8% said they will stay with the license they now have. And a whopping 45.8% clicked the box that said that they wished everyone would stop talking about the Morse exam going away. We tend to agree.

The new poll now on line regards your ham radio reading habits. It asks what is your favorite major U.S. ham radio magazine. You vote at www.arnewsline.org.

For now, with Bill Pasternak, WA6ITF, at the editors desk, I'm Jim Damron, N8TMW, and I'm Jeff Clark, K8JAC, saying 73 and we thank you for listening.

BS7H ---> Direct cards are expected to start going out in early July.
In the
meanwhile, on 9 June the team uploaded to the ARRL LOTW website a
partial log
containing QSOs for those DXers who supported BS7H with donations sent
either
via the website credit card procedure or thorough the mail in form
off the
website. This log reflects the website donation listing as of 9 June.
This is
a special "Thank You" to those who made the effort to support the
operation.
There will be additional periodic uploads of the log to LOTW as
QSLing
proceeds and a full upload will be done as soon as the bulk of the
direct
QSLs are answered. [TNX N1DG]

5697. [GOLIST] GOLIST NEEDS LOGO AND DESKTOP ICON

From: golist@gmail.com
Topic: 5697 Message: 5697

Hi folks,
The GOLIST needs a professional looking logo and desktop icon to
replace the old amateurish ones I made.
The logo will be used on mail sent to DX clubs and groups to
accompany prize donations for hamfests. It will also be used in my
only sources of advertisements with QRZ-DX and DX Magazine.
The icon will be used to replace the icon on the weekly updates,
and new programs and on your computer desktop.
I know there are many of you that have advanced computer graphic
skills. This might be a neat project for you.
For the winning logo/icon design, I will extend your current
subscription
for 52 weeks. If you are not yet a GOLIST subscriber, I will subscribe you
to 52 weeks of GOWEB, the web lookup service.
I really hope that you will help me out with new good looking logo/icon.
I really need to dump the ole Redneck ones I made.
Thanks to all.

USPS postage rates and DXCC

Apr 26, 2007 13:56 ET
Bill Moore, NC1L

Effective May 14, 2007 postage rates will increase and this will affect DXCC postage charges.

The registered mail fee will increase to: $9.50 (plus first class or airmail fees).

The certified mail fee will increase to: $2.65 (plus first class or airmail fees).

All applications currently pending in the DXCC system will be affected by this, however, if you do not have enough to cover the new fees, they will be charged, but DXCC will not hold any items for lack of sufficient postage. When you receive your return please check your credit slip to see if there is any remaining amount due to DXCC. (If you paid by credit card no remaining amount due will occur).

The USPS fee increase will not affect the ARRL Outgoing QSL Service, however, when applying funds to your Incoming QSL Service please be sure to make the necessary adjustment.

This looks like a public announcement of a fraud upon the United States of America. Here is a non-citizen/non-resident illegally using an USA address to falsely apply for a U.S. Call sign. Especially in Guam and Saipan where most Extra class preferred 2X1 calls are held by foreigners who may only go there one weekend every couple of years to work a contest or in the case of DU ops applying for a U.S. call NEVER actually leave their own country.

The FCC allows foreigners to be tested in their own country by their own countrymen who are VE's but have never stepped foot on U.S. soil to receive a U.S. Extra Class call. At some of these so called VE sessions no test is given, only applications filled and money collected. I know, I was asked to be a VE at one of these sessions and reported the matter to the FCC but nothing changed.

Go to the RAC CD and take a look at how many KH0 and KH2 2X1 calls are held by people with Filipino or Japanese sounding names sharing the same PO Boxes or Mail Box Etc, PMB (private mail box) or Mailex type address. They rent these boxes long enough to receive their license from the FCC then allow them to expire or have a friend on the island to pick up their mail. Some have friends in the USA that allow their address to be used in this illegal activity. Good luck on ever expecting to get a QSL card using any of these addresses.

Hello Guys

I have some info , hope it will interest you , IOTA hunters :
My appologize if that news have been published before , i just did a search over and over and could'nt believe that it was not announced yet at the OPDX or 425DXnews bulletins , or did i missed it ? huh ?

a Group of operators will be active from Mediterranean Sea Coast East Group IOTA AF-104/P between 23-28 June 2007 , from Cavallo Island .
They will be signed probably as 7X2RO/P .
They will be QRV with 3 stations , spiderbeam and wire dipoles .
QSL via OM3CGN .

as i am typing this , i tried to contact Afif /7X2RO and Ivan /OM3CGN , but without success , they are probably too busy , althought i got some interesting update :

The Callsign will be probably 7U5CI from Cavallo Island and Operators will be : OM3CGN , OM1KW ,7X2RO ,7X2HF ,7X2GF ,7X2FB , 7X0RY and 7X0MT .

My source for the Update is a French F8REF DX Bulletin :
http://www.nnseek.com/e/fr.rec.radio.amateur/
The 4th Msg from the end of the page .

I Did'nt saw any Official info on OPDX or 425Dx News yet , my first source was a Japponnese Blog and the GM3ITN Website , hope you all log them !
This is not a rumour since Nob /JE2QYZ info me that he got an email from Ivan /OM3CGN as for the operation and it will be !

Hope that is a Goody info.... :-D

5707. [GOLIST] NEWS RELEASE

Yahoo group: GOLIST (2007 — 2010)
Date: 2007-06-20 21:57:19 UTC
From: K1XN
Topic: 4125 Message: 5707

Hi folks,
Some Qsl Managers have reported problems with certain envelopes coming to them with postage due. This is because of new regulations on envelopes.
Here is the USPS scoop on this.

1. Letter-size mail is:

a. Not less than 5 inches long, 3-1/2 inches high, and 0.007-inch thick.

b. Not more than 11-1/2 inches long, or more than 6-1/8 inches high, or more than 1/4-inch thick.

c. Not more than 3.5 ounces.

d. Rectangular, with four square corners and parallel opposite sides. Letter-size, card-type mailpieces made of cardstock may have finished corners that do not exceed a radius of 0.125 inch (1/8 inch). See Exhibit 1.1d.
Exhibit 1.1d Maximum Corner Radius for Letter-Size, Card-Type Mailpieces
Illustration depicting the maximum corner radius (not to exceed 0.125 inch) for letter-size, card-type mailpieces.Click on graphic to view at 100%, then place mailpiece against template to test accuracy. (click for larger image)
1.2 Nonmachinable Criteria

2. A letter-size piece is nonmachinable (see 6.4) if it has one or more of the following characteristics (see 601.1.4 to determine the length, height, top, and bottom of a mailpiece):

a. Has an aspect ratio (length divided by height) of less than 1.3 or more than 2.5.

b. Is polybagged, polywrapped, or enclosed in any plastic material.

c. Has clasps, strings, buttons, or similar closure devices.

d. Contains items such as pens, pencils, or loose keys or coins that cause the thickness of the mailpiece to be uneven (see 601.11.18, Odd-Shaped Items in Paper Envelopes).

e. Is too rigid (does not bend easily when subjected to a transport belt tension of 40 pounds around an 11-inch diameter turn).

f. For pieces more than 4-1/4 inches high or 6 inches long, the thickness is less than 0.009 inch.

g. Has a delivery address parallel to the shorter dimension of the mailpiece.

h. Is a self-mailer with a folded edge perpendicular to the address if the piece is not folded and secured according to 201.3.13.1.

i. Booklet-type pieces with the bound edge (spine) along the shorter dimension of the piece or at the top, unless prepared according to 201.3.13.2.

RAC Canada Day Contest -

For the first time in the history of Radio Amateurs of Canada, plans are underway for the RAC ARES/NTS to be on the air simultaneously in every Section of the RAC Field Organization using their respective official RAC call sign. This "first" will take place during the annual RAC Canada Day Contest on July 1, 2007, and RAC Field Services members are invited to participate. For further information see the May/June issue of The Canadian Amateur magazine or contact your Section Manager. Information and rules for the Canada Day Contest can be found at: www.rac.ca/service/infocont.htm

The annual IARU HF World Championship 07 dates -

The annual IARU HF World Championship is held on the second full weekend of July. This year it will be held during the 24-hour period from 1200 UTC Saturday, 14 July to 1200 UTC Sunday, 15 July. Rules are at: www.iaru.org/contest.html

Because this is unusually late in the month for the event to occur, there has been some confusion about the dates. The CORRECT dates are 14-15 July. Any references to 7-8July are INCORRECT.

3 Cases about QSL cards that I would like clarification cards, let me know if I have this right --

1. Due to the "0.007-inch thick" rule, should we use 41 or 58 cents postage for US QSL managers if the envelope contains:

1 QSL card
SASE folded in half

2. Now for foreign QSL managers we use 90 cents. We are adding an IRC or GS. Should we also put the extra 17 cents "nonmachineable surcharge" due to it being too thick?

3. What about for the Bureau. Some people are confused about the 6x9 envelopes. When you send a 6x9 envelope to the Bureau with several inside that definitely is too thick so we will have to add the 17 cent surcharge. Also make sure to put in enough postage (or money) to your Bureau manager so he can send the cards back to you (including the surcharge).

Subject: [GOLIST] NEWS RELEASE

Hi folks,
Some Qsl Managers have reported problems with certain envelopes coming to them with postage due. This is because of new regulations on envelopes.
Here is the USPS scoop on this.

1. Letter-size mail is:

a. Not less than 5 inches long, 3-1/2 inches high, and 0.007-inch thick.

b. Not more than 11-1/2 inches long, or more than 6-1/8 inches high, or more than 1/4-inch thick.

c. Not more than 3.5 ounces.

d. Rectangular, with four square corners and parallel opposite sides. Letter-size, card-type mailpieces made of cardstock may have finished corners that do not exceed a radius of 0.125 inch (1/8 inch). See

Exhibit 1.1d.
Exhibit 1.1d Maximum Corner Radius for Letter-Size, Card-Type Mailpieces
Illustration depicting the maximum corner radius (not to exceed 0.125 inch) for letter-size, card-type mailpieces.Click on graphic to view at 100%, then place mailpiece against template to test accuracy. (click for larger image)
1.2 Nonmachinable Criteria

2. A letter-size piece is nonmachinable (see 6.4) if it has one or more of the following characteristics (see 601.1.4 to determine the length, height, top, and bottom of a mailpiece):

a. Has an aspect ratio (length divided by height) of less than 1.3 or more than 2.5.

b. Is polybagged, polywrapped, or enclosed in any plastic material.

c. Has clasps, strings, buttons, or similar closure devices.

d. Contains items such as pens, pencils, or loose keys or coins that cause the thickness of the mailpiece to be uneven (see 601.11.18, Odd-Shaped Items in Paper Envelopes).

e. Is too rigid (does not bend easily when subjected to a transport belt tension of 40 pounds around an 11-inch diameter turn).

f. For pieces more than 4-1/4 inches high or 6 inches long, the thickness is less than 0.009 inch.

g. Has a delivery address parallel to the shorter dimension of the mailpiece.

h. Is a self-mailer with a folded edge perpendicular to the address if the piece is not folded and secured according to 201.3.13.1.

i. Booklet-type pieces with the bound edge (spine) along the shorter dimension of the piece or at the top, unless prepared according to 201.3.13.2.

Stuart,

Yes, KH0N is a highly desired Extra Class call. Since US Prefixes for calls outside the continental US contain 2 letters and a number (KH6, KL7, KP4, etc) a 2 by 1 call is very desirable.

My major complaint are foreigners who may NEVER set foot on US soil obtaining a US Extra Class ham license without taking any sort of test or exam by just having his friends or classmates who are VE's sign off on his application. Then they use a club or friend's USA PO Box or other address as their USA address for the FCC to mail the license. I have seen the VE paperwork passed around at lunches or brought to a person's home to be signed off by a VE who never witnessed any sort of testing or may have never met the applicant. These people are issued an US Extra Class call that may never be heard on the air because in some countries (my experience is with the Philippines) it is very difficult to obtain a visa to enter the US. I do know of one case where the person in question obtained a KH0 call in this manner. His KH0 call remained dormant for years. Then he got married to a school teacher who was recruited to teach in the U.S. Once the wife obtained her working permit and arrived in the U.S. the husband submitted a change of address to the FCC using the wife's U.S. address. Then after a period of time she was allowed to petition the husband to join her here. So now this person holds a U.S. 5th call area call and is on the air in the U.S. without ever being tested.

Thanks for your comments Paul. As I mentioned in another email I kept Jim, AH2D, informed on all the illegal going ons I observed in the Philippines. Jim did complain to the FCC but nothing ever came of it.

To quote from your post: "I agree with you 100%. I can go to Hawaii, take the US tests up to Extra class and I'll get issued a KH6xxx call that the computer
spits out. I then can apply for a vanity call and get something like
KH7X (were it available) and have a P.O. Box number anywhere in the
US (doesn't have to be Hawaii) that someone will check every now and
then." But please also allow me to add this: If you didn't go to Hawaii but instead another country outside the USA you could get the U.S. Extra Class license WITHOUT ever being tested. Your paperwork is just signed off and submitted, no exam is ever given.

Along the same lines, because of their former commonwealth status, Filipinos were allowed to join the U.S. Armed Forces, mainly the Navy. They would apply and be tested at the former U.S. Bases in the Philippines, now closed. Many stayed for 20 years, served faithfully, became U.S. citizens, then retired and moved back to the Philippines for their retirement. Surprisingly, many of these retirees drawing their military pensions lived to be 100, 110, even 120 years old. Yes, they would die in their 70 or 80's but their families would continue to receive and cash their pension checks for years and years after their death. From time to time the U.S. Embassy may go to the person's home (if they could find it in the case of PO Boxes) and certify the 120 yr old person receiving the pension checks was still alive. It was up to the person's family to notify the US Navy when the retiree dies, but why should they? They could continue to receive the pension check for years and years and what could the U.S. Gov't do to get the money back? They were dealing with non U.S. citizens in a foreign country, there was no chance of getting the money back.

Al, you have spent a great deal of time, yours and mine, to give examples of lawlessness and the inequities it causes. Is there something else you are trying to say?

hi there,
just to let you know that condx on SV5 were the worst ever,
after failing to get anywhere near the pond, and on most bands
not even get any replies, tho best dx was India.....I was really
dissapointed.................and it was so dam hot....0700 was nigh 31c
Q for you is when i goto 3V8 in November I am taking ants for 40m
and 80m what part of these two bands will be suitable for you guys
and approx times as well

Subject: Re: [Dx-qsl] KH0N

> YOU DO NOT KNOW THE RULES AND YOU HAVE NO IDEA WHAT YOU ARE
> TALKING ABOUT !!

Ray:

Please allow me to present my perspective on this matter. These are the facts as I see them:

1. KH0D is a U.S. call sign designated for persons living on Saipan Island, a U.S. Territory. You must have lived there to hold a KH0 call. Even American citizens living someplace other than Saipan cannot legally apply for a KH0 call.

2. Mr. KUNIHIKO FURUMI resides in YAWATA, JAPAN, and holds the JA call JA6CNL. I can find no proof that he has a residence on Saipan Island

3. Most of the desired KH2 and KH0 2 by 1 Extra Call signs are held by Japanese and Filipino citizens who do not reside on Guam or Saipan. Some have NEVER stepped foot on the islands (KH0N is an exception, he does contest from there).

4. Most of these people holding these calls were tested under the VE system in their own countries by their countrymen. I can personally attest that in some situations no actual testing was performed. Only money collected and the paperwork submitted using these PO Boxes as U.S. addresses.

5. If you are not residing in the U.S. or one of it's territories you should not be eligible for a U.S. call sign. If you want to contest from U.S. soil then sign portable, ex: KH0/JA6CNL, as U.S. citizens must do when operating from the Philippines.

6. I personally have operated from the Philippines and several European countries using my own call/the visited countries

prefix. I even operated from RSGB Hdqtrs in this manner.

7. You are allowing Mr. Furumi to use your S.C. USA address to hold on to his KH0 call. You make it very clear that this is only a mail drop for FCC purposes when you post a statement that you do not want people sending QSL cards for Mr. Furumi to your home address. Does Mr. Furumi rent a room from you in S.C.? Does he reside in S.C.?

8. What is next? Will you submit a voter's registration application in Mr. Furumi's name using your address so he can vote in our elections?

9. What if Mr. Furumi moves to New York City and purchases an automobile? He finds the registration fees, NY City auto tax, and insurance for NYC residents to be very expensive. Will you allow him to use your S.C. address to register his car and cheat NY out of their fees? And will you allow him to use your S.C. address to purchase his auto insurance at a much cheaper rate than NYC? The insurance industry considers this to be fraud.

Using the RAC CD search engine many interesting situations can be found. Do a F8 and enter a PO Box number such as POB 141 (enter the number 141). Then add it to the SEARCH LIST and hit ALT A. Then enter the zip code 96950 to the SEARCH LIST. You will find 15 call signs assigned to that PO Box. 25 calls are assigned to PO Box 10003 in Zip 96950. 5 calls are assigned to POB 527. 16 are assigned to POB 10005. I could go on and on but you can research the RAC CD yourself if you like.

Ten JA hams use PO Box 6333 in Hawaii, zip 96743. One JA Ham has four separate U.S. calls assigned to that PO Box. There are many more examples if anyone cares to search.

Hi

Primarly dedicated to our Veterans who landed at Utah Beach on June 1944, 6th and to all of the other who have some interest on the event, you can have now a look at the Utah Beach Web cam, located in the UTAH BEACH landing Museum.

http://www.normandiememoire.com/webcam/utah/webcam.htm

You may need to download MPEG4SHM(Audio)Control software, by D-Link corp to enjoy it.

Tnx Jean Yves, F8LDX.

De Claude, F5OGE.

Between July 13th to 29th, look for Claude, F5OGE to be active as CN2GE or CN2GE/m, from Morocco.
His CN trip begins in Tangiers and after is going through Rabbat, Marakech, Benni Mellal, Fes, Tetouane and again Tangiers.

Claude will be active both CW and SSB, mainly on 7 and 14 Mhz, early in the morning and lately in the evenings, (Morrocan time)
During the day he will sign sometimes CN2GE/m

On the way to Morocco, (July 10th&11th) and when coming back home (July 29th & 30th), he will sign HC/m and EA/F5OGE/m.

QSL when return to F5OGE, either direct or via the bureau.

Hi Fellows
Antarctic Challenge.

After deep examination of Gough isl status
We decided to declare SANAP weather station (Gough isl) as valid for
the Antarctic Challenge.

Indeed , SANAP weather station is managed by the African southern polar
institute .

Geographics coordinates (40.2 S par 9.5 W) are also a good motivation
to implement Gough isl within the challenge.

Add this "new one" is in a way to improve the challenge , and to keep it
coherent.

K7BV will operate from Caye Caulker off the Belize coast July 7-17, 2007.
The
focus of the trip is 6 meters but there will be plenty of HF activity when 6
meters is not open. A full-time 6 meter station with power and a 7 element
beam
will CQ in breakable beacon mode 24/7 on 50.106. A second rig will be used
on HF
for 6 meter opening coordination and HF pileup fun. Call sign not yet
assigned.

From the Navy Amateur Radio Society of UK web site:
HMS Ganges Association will celebrate the Centenary of Wireless
Telegraphists - 2007 - in the Royal Navy at a reunion to be held at the Savoy Hotel,

Bournemouth over the weekend of Friday 26th to Monday 29th October 2007. In Royal Navy terms or 'Jackspeak' - and known to sailors as a 'Friday While'.
Many thousands of Boy & Junior Telegraphists, later known as RO's, were trained at HMS Ganges (RNTE Shotley, near Harwich) from 1907 until the establishments closure in 1976. Young 16 year old trained Telegraphists then went to sea and/or on to more advanced training at HMS Mercury (Leydene, Hants) the RN's School of Communication. This role is now centred at HMS Collingwood, Fareham, Hants.
In support of this event and over the weekend we intend to feature:-

1.A large display of antique naval radio equipment dating from the turn of the century.
(by courtesy of the Royal Navy Communications Museum - Curator Lt.Cdr Bill Legg RN)

2.A visit to the Royal Army Signals Museum - Blandford, Dorset.

3.A formal - black tie - Dinner.

4.Finally culminating with a replication - on Sunday 28th October from 15:00 - of Marconi's
first transmission across the water from Bournemouth to Alum Bay on the Isle of Wight.
This will be done using Ofcom's Special Events Callsign - GB100WT - and will be
received on the Isle of Wight by the Brickfield Amateur Radio Society.

Participating will be members of Portland Amateur Radio Society (PARC), Royal Naval Amateur Radio Society (RNARS), Brickfield Amateur Radio Society (BARS) plus others.

Cayman - ZF2:

I will be operating from Grand Cayman (NA-016) as ZF2DK from July 22 through
July 29, 2007. This is a "vacation style" operation, so I'll be on when I'm
not doing something else. I will be able to operate on all bands from 6m to
40m, but I expect that I'll likely spend most of the time on 20m, conditions
permitting. However, I'll see what bands are open when I'm there, and operate
accordingly. I do plan to try a little 6m if the band is open. I will
primarily be operating SSB (I'd love to try CW but my skills are really not up to
it) and I may operate a little PSK as well. Most likely, I'll be hanging out
around the IOTA frequencies (7.060 [listening up for NA], 14.260, 18.128,
21.260, 24.950, 28.460)
QSL either direct (SASE or SAE + 1 GS) to my home call. Logs will be
uploaded to LoTW (possibly even during the operation; I believe that the place where
we're staying has Internet access).
If there are any particular bands that you need, please let me know and I'll
try to accommodate. (zf2dk@...)
Any updates will be here, my website, or at my blog at

Bonsoir les amis

Antarctic Challenge.

Après examen approfondi de la situation de l'île Gough, nous avons décidé que la station météo SANAP, sise sur cette île sera valable pour l'Antarctic Challenge.

Cette station est une émanation du African southern polar institute .

Ses coordonnées : (40.2 S par 9.5 W) sont un bon motif pour rechercher Gough un peru plus pour le challenge.

L'association du HMS Ganges, célèbrera le centenaire des Télégraphistes sans fil de la Royal Navy en 2007, depuis l'hôtel Savoy , du 26 au 29 octobre 2007.
En langage Royal Navy, le 'Jackspeak' - ce sera le 'Friday While'.
Fe nombreux enfants et adolescents télégrapphistes, les RO's, furent formés au HMS Ganges (RNTE Shotley, près de Harwich) de 1907 à la fermeture de l'établissement en 1976. Les jeunes télégraphistes partaient ensuite en mer dès 16 ans, et/ou partaient ensuite se perfectionner au HMS Mercury (Leydene, Hants) l'Ecole Navale de Télécommunications.
Ce rôle est maintenant dévolu au HMS Collingwood, Fareham, Hants.
Les manifestations comprendront :

1.Une importante exposition de matériel radio naval ancien, certains datant du début du XXème siècle, grace au Musée des Télécommunications de la Royal Navy, dirigé par le Lt.Cdr Bill Legg RN.

2. Des visites du Musée des Royal Army Signals Museum - Blandford, Dorset.

3.Un diner de gala.

4.Une reconstitution le samedi 28 à partir de 1500, de la première transmission de Marconi, azu dessus de la mer, entre Bournemouth et Alum Bay sur l'île de Wight.

L'Ofcom a délivré l'indicatif spécial : GB100WT - et la responsabilité en aété confiée sur lîle de Wight à la Brickfield Amateur Radio Society.

Participeront également çà l"évènement , les Portland Amateur Radio Society (PARC), Royal Naval Amateur Radio Society (RNARS), Brickfield Amateur Radio Society (BARS) et d'autres à s'inscrire.

30/06/2007: Operators RN1CW, UA1AIR, UA1CBW and UA1CIO will be QRV June 30th to July 1st from the Stirsudden Islands (Not IOTA, RRA RR-01-18, RDA LO-24) on all bands, CW and SSB. They will use the call sign UE1CDX and also homecall/p. QSL via operator's instructions. [Tnx RN1CW]

30/06/2007: Look for Richard, VA7MJR/p to activate Entrance Island (BC-176 for the Canadian Islands Award) and lighthouse (ARLHS CAN-171, TWLHD WLH VE-055, WLOTA LH-1908, WW Loc. CN89CF) from June 30th to approximately July 15th. He will be on all the HF bands, but because of his work schedule Richard cannot give any definate times as to when he will be on the air. He will be QRV close to the Island frequencies. QSL via home call. [Tnx VA7MJR]

30/06/2007: The Cofresi Radio Club, WP4NRT will be active for the WLOTA Contest (June 30-July 1st) from the Los Morillos lighthouse [also known as Cabo Rojo lighthouse] (ARLHS PUR-002, TWLHD WLH KP4-004, WLOTA LH-2802, WW Loc. FK67JW), located in the city of Cabo Rojo, Puerto Rico (NA-099). They will be QRV 80-10 metres, using SSB and digital modes. QSL via WP4NRX. [Tnx F5NQL]

01/07/2007: Eric, SM1TDE reports that a DXpedition to Market Reef (EU-053, also count for WLOTA LH-0542) is planned for July 1-7th. There will be 3 to 4 operators that will be active on 160-2m CW, SSB and digital modes as OJ0/homecall. Eric OJ0/SM1TDE. Further information will be available in due time. [Tnx NG3K]

02/07/2007: Simone, IZ4DYQ will be active July 2-13th as IA5/IZ4DYQ from Elba Island (EU-028, IIA LI-001, MIA MI-022, WLOTA LH-0609). He plans to operate mainly SSB on 20 and 40 metres. QSL via home call, bureau preferred. [Tnx 425 DX News]

02/07/2007: Steve/K9ZW, George/W9EVT and the Washington Island DX Club/WI9DX will activate Washington Island (USi WI-001L, Door county, State of Wisconsin), located in Lake Michigan, from July 2-7th. This activity will be holiday style, mostly SSB. QSL via USi eQSL, callbook address or by the bureau. [Tnx USi]

02/07/2007: Vasiliy, RW4NW will operate as UE1RFF/1 from Dolgiy Island (EU-086, RRA RR-03-07) and Bol'shoy Zelenets Island (EU-086) between July 2-21st. QSL via UA1RJ. [Tnx 425 DX News]

02/07/2007: Theo, SV1EJD, will be active from the island of Crete (EU-015, MIA MGC-005, WLOTA LH-1400) as SV9/SV1EJD between July 3-17th. Activity is planned for 10-80m SSB and RTTY. QSL via IZ8CCW, direct or bureau. [Tnx F5NQL]

05/07/2007: Frosty, K5LBU has in hand the call signs for Botswana this July. They will be on all bands from 160 through 6 metres using CW and SSB starting the 5th or 6th of July to July 20th. Activity is also planned for 6/2 and 70cm EME. The whole team consists of: Dan/ZS6JR (A25DW), Frosty/K5LBU (A25CF), Wayne/W5KDJ (A25KDJ), Jay/W5SL (A25SL), John/GM3OOK (A25OOK), Lee/WA8QFE (A25LT), Jan/ZS6OB (A25OB), Hal/ZS6WB (A25HL) and Dick/ZS6BUN (A25BUN). Hal will do the Digi modes and Frosty will see if one of the CW guys will do some CW. The M2 6 meter beam will be mounted up on top of one of the towers which will be about 60 feet high, using 300-400 watts or more. Hal who does most of the EME is a retired American that lives in South Africa and Frosty has covered most of his expenses so if any of the EME folks would like to give some support for him you can send it to me. He does not know that I have done this for him. [Tnx K5LBU]

05/07/2007: A Swedish expedition to Market Reef (EU-053) is planned to take place July 5-9th. Three or four operators will be active as OJ0/homecall on 160-2 metres CW, SSB and digital modes. Further information to follow. [Tnx 425 DX News]

Hi Jim,
This is correct for this week. I am releasing a upgrade
version of GoWin and this was the easiest way to do it.
When you double left click the setup.exe it will self install
the latest version 2.14 into the Golist folder overwriting the
current program files. It also has the latest weekly data file
in it. You may still need to download the DX Alert as I don't think
it is in this package.
Next week all will be back to normal. :-)

It was found that a problem with the country displayed for
those affected by the FCC allowing KH6,KH2 etc to be used
for state side assignments. It is a real hassle!!

Hi folks,
The Golist web site seems to be down. I am unable
to get it to respond. I have left a message for the
web master and hopefully it will be in operation some
time tonight.
Sorry for the down time.

I.C.P.O. Bulletin (July 05 - 13, 2007)
Islands, Castles & Portable Operations.
Listing is by calendar date (day/month/year)
==========

05/07/2007: Frosty, K5LBU has in hand the call signs for Botswana this July. They will be on all bands from 160 through 6 metres using CW and SSB starting the 5th or 6th of July to July 20th. Activity is also planned for 6/2 and 70cm EME. The whole team consists of: Dan/ZS6JR (A25DW), Frosty/K5LBU (A25CF), Wayne/W5KDJ (A25KDJ), Jay/W5SL (A25SL), John/GM3OOK (A25OOK), Lee/WA8QFE (A25LT), Jan/ZS6OB (A25OB), Hal/ZS6WB (A25HL) and Dick/ZS6BUN (A25BUN). Hal will do the Digi modes and Frosty will see if one of the CW guys will do some CW. The M2 6 metre beam will be mounted up on top of one of the towers which will be about 60 feet high, using 300-400 watts or more. Hal who does most of the EME is a retired American that lives in South Africa and Frosty has covered most of his expenses so if any of the EME folks would like to give some support for him you can send it to me. He does not know that I have done this for him. [Tnx K5LBU]

05/07/2007: Peter/SM0BSO, Stellan/SM0LQB, Jan/SM5XGJ and Lars/OH0RJ will be active from Market Reef (EU-053) as /OJ0 between July 5th and 9th. They will be active on 160-2 metres using CW, SSB and RTTY. QSL via SM1TDE. [Tnx 4X42238]

05/07/2007: Chris, VK3FY will be in the Philippines July 5-9th and plans to operate as VK3FY/DU1 (OC-042) and VK3FY/DU8 (OC-130). He might also be active as VK3FY/DU8 from OC-235, if he can find the time and a boat to take him there. [Tnx 425 DX News]

06/07/2007: Al, JA9APS will be operating from the Maldives (AS-013) as 8Q7NK between July 6-9th. This is a family vacation, not a DXpedition. Al hopes to operate on 40-6m, SSB, CW and RTTY using a TS-570S and R8 vertical. QSL via home call (QRZ.com). [Tnx NG3K]

06/07/2007: Pierre, HB9QQ will be active from Liechtenstein as HB0/HB9QQ from July 6-9th. He will try to be active on HF/6m/2m as well WSJT (for meteorscatter). QTH will be the Sareiserjoch in Malbun Lichtenstein at about 2015m asl. NO EME activty planned. QSL via home call. [Tnx F5NQL]

07/07/2007: Vincent, F4BKV (EPC member #1207) is currently in Tunisia and has managed to get an authorisation to activate the radioclub 3V8SM using PSK31. He will be active July 7th from 1300 to 1800 UTC. Vincent will also teach the local operators about PSK31 and leave them the software to run it. QSL via 3V8SM (QRZ.com). [Tnx MM0DFV]

07/07/2007: David, OK1FJD will operate on the HF bands and 6 metres as 4O6DJ from Montenegro, July 7-14th. QSL via OK6DJ. [Tnx 425 DX News]

07/07/2007: François/F5JNE and Claude/F5MCC, will be active July 7th as F5JNE/p from the Castle of Bréviandes (DFCF 10-023) canton of Lusigny sur Barse (DDCF 10-12), city of Fresnoy le Château (CP 10270), Department Aube (DDFM 10) and province Champagne-Ardennes (DPF 08). As usual, starting around 0600 UTC on 80 and 40 metre CW and SSB. QSL via the bureau is preferred and SWL cards are welcome. [Tnx F5NQL]

07/07/2007: Jacky, F5OGC/p will be QRV July 7th from the Castle of Blancharderie (DFCF 72-052) located on the commune of Sargé Les Le Mans, Department Sarthe (DDFM 72), Province of Pays-de-Loire (DPF 17). Activity will start on 80m then QSY to 40m. QSL via home call, direct or bureau. [Tnx F5OGC]

07/07/2007: Look for J-François, F8BMN/p to be active, weather permitting, July 7th, weather permitting, from the Castle (DFCF 59-102) and Mill of Beaurieux (DMF 59-049), located in Beaurieux (CP 59740), canton of Soire le Chateau (DDCF 59-59), Department Nord (DDFM 59), Province of Nord Pas de Calais (DPF 16). Activity will be on 80 metre (if possible) and 40 metre SSB. QSL via home call, direct or bureau. [Tnx F8BMN]

07/07/2007: Manos/5B4AFQ, Kostas/5B4AIR, Andreas/5B8AP and Marios/5B8BE will be active as P3CA from Cape Akamas Lighthouse (ARLHS CYP-001, TWLHD WLH 5B-002, WLOTA LH-0051), Cyprus (AS-004, MIA MCI-002), July 7-8th. They plan to operate SSB, CW and FM on the HF bands, 6 and 2 metres and APRS on 144.800 MHz, and to and to take part in the Aegean VHF Contest. [Tnx 425 DX News]

07/07/2007: On July 7th, look for Alpignano ARI District (TO) members Franz/I1XXM, Ottavio/IK1PML, Paolo/IK1RQQ, Paolo/IZ1LBD, Danilo/IZ1HVD, Davide/IW1DQS and possibly others to be QRV as IQ1DR/p from some valid references for the diploma of the Castles and Italian Lakes that are found over 2600 metres asl. They will activate the Batteria Monte Mottas a Pragelato (DCI TO-239) and Trinceramento dell'Assietta di Sauze d'Oulx (DCI TO-292) for the Italian Castles Award, plus Lago dell'Assietta di Sauze D'Oulx (I1-284 for the Italian Lakes Award). Activity will be on HF and VHF using CW and SSB. QSL via IW1DQS, direct or by the ARI QSL bureau. [Tnx IW1DQS]

07/07/2007: Dennis, K7BV will operate from Caye Caulker (V3, NA-073, WW Loc. EK57XR) off the Belize coast July 7-17th. The focus of the trip is 6 metres but there will be plenty of HF activity when 6 metres is not open. A full-time 6 metre station with power and a 7 element beam will CQ in breakable beacon mode 24/7 on 50.106 MHz. A second rig will be used on HF for 6 metre opening coordination and HF pileup fun. Call sign not yet assigned. QSL direct to Mick, W1JJ via QRZ.com address. Further information at: www.qth.com/k7bv/v3/ [Tnx N4GN]

09/07/2007: James, M1DST will be active holiday style from the Maldives (AS-013) as 8Q7JP from July 9-16th. Activity is planned for 80m, 40m, 20m, 15m and 10m SSB. He might attempt some slow CW too if he is brave enough. James says - "It is my honeymoon so I have to respect that. My other half is licenced too so she understands the fun". QSL via home call. [Tnx RSGB IOTA]

09/07/2007: Carsten/DL6LAU, Jan/DJ8NK, Joachim/DL8OBQ and Salvatore/DH7SA will be QRV July 9-16th from the island of Curacao (SA-006, WLOTA LH-0942) as PJ2/homecall. They will also participate in the IARU HF Contest (July 14-15th) as PJ2HQ, a Multi-Multi entry. QSL via home calls. QSL PJ2HQ via N9AG or LoTW. [Tnx CCC]

10/07/2007: Operators Alan/G0RCI, Gordon/G3USR and other members of the Grantham ARS will be active from Eilean an Tighe (House Island), Shiant Islands (EU-112, IOSA OH-18, SCOTIA DI-24), July 10-13th. They will have 2 stations, all bands 80 to 6 metres, SSB only, using the call signs GC0GRC/p and GS0GRC/p. QSL is 100% via the bureau. [Tnx RSGB IOTA]

10/07/2007: Gordon, G3USF, is off to the Shiant Isles (EU-112, IOSA OH-18, SCOTIA DI-24, WW Loc. IO67TV) with others from the Grantham ARS and expects to be active as GM3USR from late Tuesday, July 10th until early Friday, July 13th. They will use 50 MHz gear w/100W + 3 or 5

element beam as well as the usual HF antennas. Information and updates will be available via the RSGB IOTA Web site under EU-112. QSL via G3USR (QRZ.com). [Tnx OPDX]

10/07/2007: Stan/K0SDW and Roger/K0YY will be QRV July 10-22nd as homecall/p from Bridge Island (USi CO-012L, not IOTA, Grid Square DN60), Steamboat Lake, Routt County, Colorado. Look for activity on 80-6 metre CW, SSB and RTTY. QSL via home call. [Tnx USi]

5744. New tools at the VHF-DX-Portal Make More Miles on VHF

Yahoo group: GOLIST (2007 — 2010)
Date: 2007-07-06 01:24:58 UTC
From: MMMonVHF
Topic: 5744 Message: 5744

Dear VHF friends,

we would like to inform you today about the latest
developement and our new tools in MMMoNVHF via VHF Reflector
parallel to our Make More Miles on VHF-Newsletter

http://www.mmmonvhf.de/nletter/newsletter.php

Since last info a lot of time has gone and we did develope a lot
of usefull tools to be always up to date at these VHF-DX-Portal.

As you know the aim of MMMonVHF will be, to provide easy access
about NEWS around VHF for VHF-Enthusiasts. Informations about
"Who", "Were", "When" and "How" activities will be employed,
and will be easily available for everybody and will be for free
and without registration! Below you'll find an overview of the
latest new integrated Tools which are available at

http://www.mmmonvhf.de/

NEW ONLINE INPUT for YOUR EXPEDITIONS and ACTIVITIES

Please pass us now also online your NEWS and ACTIVITIES!
Since these week you are able to pass us all your NEWS, EXPEDITIONS
and ACTIVITIES also ONLINE! Please go to the NEWS page and do use
the Button "New News Entry" to fill in your informations to the form.
These will be tranfered to the guys who maintanence the "NEWS" and
be online after a quick check (only to avoid SPAM and will be help
to get "formated" as usual)...

"VHF/UHF BEACON-PROJECT"

We would like to thank Stefan, LA0BY, who passed us the maintenance
and visualisation of his VHF/UHF-BEACON-TABLES from up 1st july 2007
in the hands of MMMonVHF.
Stefan has done a great job past years and he would like now to
concentrate his rare time for the hobby to an other topic... DANKE
STEFAN!
The original software and data collection was done long time
ago by Bernd, DF2ZC...
On our side Erwin, DK5EW, will be the people behind the work around the
BEACON-Project. Erwin will try to be as up to date as possible. Of
course your help, comments and updates are very appreciated. Right now
you are able to find the VHF-BEACON-TABLES as a downloadable XLS file
at the TROPO-page of MMM and as well a BETA test with GOOGLE MAPS
visualisation...

NEW VISUALISATIONS at NEWS (Live Map -EUROPE-)

Not only the BEACON area is now also in BETA-test for using GOOGLE-Maps.
Ansgar, DG2KBC, also programed the "Live Map -EUROPE-" at the NEWS page
with GM (GOOGLE-Map). Have also fun with these new tool...

144 MHz e M[ost] W[anted] S[quares] Europe

You are able now to upload your MWS-files "ONLINE" without the
need of any emailing or any deadline missings ;-)
Your change of wanted squares will direct affect the output map
to all dx-peditiondrs! Everybody is able to see the demand on a SQR!

(FUTURE Project - next 2-3 month!) MMMonVHF do search the best:

144 MHz EXPEDITION of the YEAR 2007

We are looking for the best and efficient 144 MHz expedition all
over the World. No matter if it was worked on ES, MS, EME, Tropo,
only it had to be qrv on 144 MHz! The survey will be ONLINE.
That means, nobody is in the need to send in emails!
All EXPEDITIONS which were held in 2007 and did found the way into
the REVIEW-Page at MMMonVHF, will be participate as EXPEDITIONDR!
Details will follow soon....

and much more... Be surprised!

The information system "MMMonVHF" is a living and ongoing Project.
We have tried to show what has happened, and how fast it has grown
over the past months. Please send us your ideas, suggestions and
critics,
and we'll try to improve existing features, or incorporate new ones.
Contrary to some other info platforms there is no need to register in
order to access the web page. Only if you would like to receive the
"Newsletter" from MMM, its required to get your mail adress (like the
former YAHOO mailing list). Subscribition of the Newsletter can be
easily performed through MENU and the NEWSLETTER button....

Now it only remains us to wish you much fun with MMMonVHF, and much
information exchange!

The MMMonVHF-Team (info"at"mmmonvhf.de)

Tony,
It will be under the 707-a UPDATE . I did not change
the page for this single download. Just use the regular
Avaliable download files for GoWin. The download will
have a zip file instead of an exe file.
unzip the file and click on the setup.exe file and it
will do the rest.

5754. [GOLIST] DX TELNET DISPLAY PROBLEM

GOLIST, QSL MANAGER DATABASE

For those of you that use DX TELNET to monitor the internet
DX Clusters. Some of the DX clusters are changing their cluster
Software. The new software CC Cluster software has a screen
width feature that may need to be set for DX Telnet to display
properly.
If you connect to a cluster and the display is chopping the
first one or two characters of the Remarks field, you will need
to set the width setting. To do this just type this command and
send it to the cluster.
SET/WIDTH 75
This should solve the display problem. No other problems
have been noticed using clusters with the new software. If other
problems are found, I will alert you to them and try and find a
fix for the situation.

I have noticed a display problem with WIN EQF on the F9 screen when
using the CC Clusters. No problem when connected to AR or DXSpider clusters.
I have disabled all my filter setting in the CC cluster and still no
help. Something in the CC Cluster software is causing EQF to fail when
trying to populate the F9 screen.
I have made Tom are of the situation and sending him info on the tests
I am doing with the results. Hopefully a cause/effect and then the solution
will be found soon.

- BREAKING NEWS -

12 July 2007 - Italian amateur radio 70-MHz experimental campaign:

Upon request of Luca Ferrara IK0YYY, the Italian Ministry of Communications, in coordination with the Ministry of Defense, is willing to kindly authorize an amateur radio experimental campaign on the 70-MHz band (4 meters) up to December 31, 2007. Activities will however only be possible after the authorization has actually been signed. Such campaign is being carried out under the technical coordination of Piero Tognolatti I0KPT, Full Professor of the Electromagnetic Fields Group and Director of the Electrical Engineering and Information Theory Department of the University of l'Aquila.

The technical parameters are:
Modes: all (SSB, CW, AM, FM, RTTY, digital modes, etc.)
Frequencies:
70.100 MHz; 12.5 kHz
70.200 MHz; 12.5 kHz
70.300 MHz; 12.5 kHz
Maximum RF power: 25W EIRP
Operational area: the whole Italian territory except for a 30 km strip from the Austria, France and Switzerland borders.
Antenna types: omnidirectional and directional

The experimental campaign, whose results will be published after its conclusion, is open to all Italian radioamateurs.

A beacon transmitting on frequency 70.088 MHz (mark) with FSK modulation (500-Hz upward shift) is shortly going to be installed. This is at the very low edge of the authorized band.

We wish to express our warm thanks to the Italian Ministry of Communications (Ing. F. Troisi and Dr. A. Cascio) and to the Italian Ministry of Defense, who, despite the administrative and operational hurdles, have once more given the Italian radioamateurs a clear sign of esteem and credibility. Sincere thanks are also given to the Università of L'Aquila (Prof. P. Tognolatti) for its exquisite and effective cooperation.

Luca Ferrara IK0YYY - Antonio Vernucci I0JX [Tnx I7SWX]

Hi John,

Maybe (well, probably) I missed something when I was out of town in Albuquerque last week. What was the problem with the F9 key/bug? I see that when I am in Win-EQF and connected to a cluster and hit the F9 key, the recent spots do not appear in the window. Is that the problem?

GOLIST, QSL MANAGER DATABASE

Tom, N3EQF, thinks he has found and fixed the problem
with the display of DX spots in the F9 screen.
I am testing the modification today and tomorrow and if
it continues to works as it is now, I will give it my blessing.
Tom then will release the new version with the fix in the
following days.
It is looking good right now.

Hi Dick,
Yes, that is the issue. It is not a WIN EQF problem, but Tom is trying
to fix EQF so it will correct the condition and display in the F8 screen.
Many of the clusters are changing to CC software and this software has
a different character alignment than the AR cluster software. So the data
sent to EQF is different in spacing and EQF does not read it and does not
copy it to F9.
Tom has it fixed for two nodes,but I found this morning not all the
CC Nodes
software is the same, so a problem still exists. We are working on it
and hope to
have a fix very soon.

I.C.P.O. Bulletin (July 19 - 27, 2007)
Islands, Castles & Portable Operations.
Listing is by calendar date (day/month/year)
==========

19/07/2007: Caudio, IN3DEI/W1ADX will operate holiday style as 9A/W1ADX from a few Dalmatian islands (Dugi Otok, Molat, Pasman, Ugljan) in the EU-170 IOTA group from July 19th to August 7th. QSL via IN3DEI. [Tnx 425 DX News]

19/07/2007: Champ, E21EIC, will again be active as E21EIC/8 from Southern Thailand between July 19th and August 10th. QSL via home call. [Tnx OPDX]

19/07/2007: Rolf, DL6ZFG will be operating from various locations on his way to the LY-Hamfest. He plans to work from Poland (SP1, SP2 and SP4) and also from Lithuania, between July 19-30th. Rolf will use an ICOM 706MK2G, Ant. Verticals, 40m-dipole, using SSB, CW and digital modes. QSL via home call. [Tnx DL6ZFG]

20/07/2007: Operators Cezar/VE3LYC and Ken/G3OCA will attempt to activate East Pen Island (NA-231PR, CIsA NT-New), Nunivut, for the first time. Cezar will use the call sign VE3LYC/VY0, while Ken will sign VY0/G3OCA. Ken is a well experienced island activator, but this will be Cezar's first. East Pen Island is the only island approved for this IOTA group and the breeding place of polar bears, which brings interesting challenges to the team. They are prepared to have two stations on the air operating CW and SSB from 40-10 metres. QSL via VE3LYC, either direct or by the bureau (G/GI/GM/GW stations can QSL via G3OCA). [Tnx OPDX]

21/07/2007: Laci/HA6NL, and his friends Gyuszi/HA2VR, Zsolti/HA6PS, Sanyi/HA7JJS, Laci/HA7PL will be active as 9A6NL and 9A/own calls from Pasman Island (EU-170, ACIA IC-348, CIA-34, IOCA CI-085, MIA MC-291, WW Loc. JN73QW), July 21-31th. Activity will be on all HF bands + 6 metres using CW and SSB, maybe some digital modes are expected as well. All of them will work on the IOTA Contest with different calls, in different categories. QSL via home calls, (9A6NL via HA6NL) by the HA QSL Bureau or direct to their QRZ.com addresses. [Tnx HA0HW]

21/07/2007: Xavier, ON4XA and Bea, ON4BEA/YO2MBO will operate as F/ON4XA and F/ON4BEA from France. QSLs via home calls. [Tnx 425 DX News]

21/07/2007: Look for Bruno, F4FIU/p to be QRV July 21st from the Mill of Bois Joli (DMF 59-052), located in Felleries City (CP 59740), canton of Avesnes sur Helpe Nord (DDCF 59-03), Department Nord (DDFM 59), Province of Nord Pas de Calais (DPF 16). He will be active on 80 and 40m SSB. QSL via home call, direct or bureau. [Tnx F8BMN]

21/07/2007: Frank/F4FHM Frank and Stephane/F4FHT will be active July 21st as F6KTN/p from the Castle of Bachant (DFCF 59-106), Department Nord (DDFM 59), Province of Nord Pas de Calais (DPF 16). They plan to be QRV on 80 and 40 metres. QSL via operator's instructions. [Tnx F8BMN]

21/07/2007: Members of the Wakefield & District Radio Society will be activating Holy Island Lindisfarne (EU-120) from Saturday, July 21st to Sunday, July 22nd, 24 hours special dispensation from the National Trust only. The call signs will be GB1HI and GB5HI. Contacts will also count for Holy Island Guille Lighthouse (Ref.no. ARLHS ENG-224, TWLHD WLH G-011 and Admiralty number A2816.5). The Worked All Britain (WAB) reference is NU-23 Northumberland. The IARU Locator is IO95CQ. QSLs for ALL contacts are via Charles, M3ZYZ, direct (QRZ.com) or by the bureau. E-mail bureau requests are welcome (see QRZ.com). [Tnx OPDX]

22/07/2007: David, IW1DQS/p will be QRV July 22nd from the reference for the diploma of the Italian Abbeys PM-0689. Activity will be on 40 metres only. QSL via home call, bureau preferred. [Tnx IW1DQS]

22/07/2007: The Craven Radio Amateur Group MX0BCQ are planning to activate SOTA summit NP-029 SHARPHAW which is located at IO83XX and WAB SD95 YSN on Sunday the 22nd July 2007. They hope to be operational from around 1030 UTC. This activation is totally WX dependent as you can expect this Summer! Activity is planned for 40-10m and 6m, 2m, 70cm and 23 Cms. QSL via operator's instructions. [Tnx Pete's-DX-Newsdesk]

22/07/2007: Look for Iain, M0VPE to be signing TK/M0VPE from the island of Corsica (EU-014, DIFM TK-001, MIA MCO-001, also count for WLOTA LH-1390) from July 22nd to August 5th. Activity will be mainly on 20, 15 and 10 metre SSB, with an entry in the RSGB IOTA Contest (July 28-29th). QSL via home call. [Tnx RSGB IOTA]

22/07/2007: Jon, WB8YJF is about ready to go on his yearly trip to Ocracoke Island (NA-067, USi NC-001S, Hyde county), NC, from July 22-29th. His activity will be on CW/SSB on 80-10 metres. Jon will also be in the RSGB IOTA Contest (July 28-29th). He has a nice full color QSL card of an arial view of the island. QSL direct (Jon Severt, 5586 Babbitt Rd., New Albany, OH 43054) or bureau. [Tnx OPDX]

22/07/2007: David, K2DBK, will be operating from Grand Cayman Island (NA-016, WLOTA LH-1042) from July 22-29th, as ZF2DK. This is a vacation style operation; operating during his spare time. David will be able to operate on all bands from 40-6 metres, but he expects to spend most of his time on 20m, conditions permitting. QSL either direct (SASE or SAE + 1 GS please) or via the bureau to his home call. He plans to upload the logs to LoTW. Updated information will be available at his web site (k2dbk.com) or on QRZ.com. [Tnx OPDX]

23/07/2007: Mike/W7ASF and Rich/N7TCO will be active as W7ASF/KL7 from Thorne Bay, Prince of Wales Island (NA-041, USi AK-001S, 1st Southeastern County), Alaska, between July 23nd to 31st, RSGB IOTA Contest included. They will be operating SSB only on 80, 40, 20, and 15m, around the IOTA frequencies. If anyone should want a nice certificate in addition to a QSL, one will be available at 2USD. QSL via W7ASF, direct or bureau. [Tnx USi]

24/07/2007: Operators Nobby/G0VJG, Simon/M3CVN, Dave/G4BUO, Richard/G7GLW, Chris/G0FDZ and Justin/G4TSH will be active as G3RCV/p, July 24 to August 2nd, from St. Marys Island, Isles of Scilly (EU-011). Activity will be on all HF bands and modes, plus VHF and data. They will also participate in the RSGB IOTA Contest (July 28-29th) using the call sign M8C. QSL both calls via G4DFI (QRZ.com). Further information can be found at www.g0vjg.piczo.com/ [Tnx RSGB IOTA]

24/07/2007: Anatoly/UT3IB, Mike/UT9IO and Alex/UX2IQ will operate as homecall/p from Zmeiniy Island (EU-182, UIA BS-07), July 24-30th. They will participate in the IOTA Contest as UX2IQ (QSL via home call, direct or bureau); before and after the contest they will

operate CW and SSB on the WARC bands. [Tnx 425 DX News]

24/07/2007: Laci, HA0NAR as J48NAR and also SV8/HA0NAR from Thasos Island (EU-174, MIA MG-124, WLOTA LH-4186), July 24-31st. Acitivity will be on 80-6 metres using SSB, CW, maybe on 6 m FM, with 100 watts on monoband verticals on fishing and Spider poles. J48NAR will take place in the RSGB IOTA Contest as well. QSL via HA0NAR direct or via HA bureau. [Tnx HA0HW]

25/07/2007: Jim, MM0BQI will be QRV the last week in July and the first in August from Tanera Mor (IOSA SC-10, SCOTIA CN-32), Summer Isles (EU-092) using the call GB5SI. Activity will be on all bands 80-10m using CW, SSB and RTTY. He will also participate in the RSGB Contest (July 28-29th) as MM0Q. QSL via home call, direct or bureau. [Tnx MM0BQI]

25/07/2007: Gregg/VE3ZZ and Noel/VE2BR will operate from Prince Edward Island (NA-029, CIsA PE-001) July 25-30th using the VY2TT superstation. During the IOTA contest (July 28-29th) they will operate as VY2Z (QSL to VE3ZZ), and outside the contest they will be active as VE3ZZ/VY2 and VE2BR/VY2 (QSL to home calls, direct or bureau). [Tnx 425 DX News]

25/07/2007: The OM0C Contest Crew is pleased to announce another IOTA DXpedition to Isola di Ventotene (EU-045, IIA LT-011, MIA MI-118, WLOTA LH-1403, Grid JN60). An international team of 8 operators will be active again from the island Ventotene (Ponzine Islands) from July 25th to 30th on 80m-2m with IB0/homecall and with the IB0/OM0C in the RSGB IOTA contest. They will be QRV 6m and 2m tropo, maybe WSJT on 2m...but for sure not EME! QSL via operator's information. [Tnx F5NQL]

25/07/2007: Operators Jan/OZ5JR, Klaus/OZ7KDJ and Erik/OZ9V will be active July 25-30th as homecall/p from Anholt Island (EU-088, NK-001 for the Danish Islands Award), including an entry in the RSGB IOTA Contest (July 28-29th), using the call sign OZ8MW/p. Activity will be on 80-10 metres. QSL via home calls. [Tnx RSGB IOTA]

26/07/2007: Look for BO0K to be active from KinMen Island [Quemoy Island] (AS-102), July 26-30. The team plans to be QRV on 80, 40, 20, 15 and 10 metres using CW and SSB. QSL via BV2KI. [Tnx IOTW]

26/07/2007: Andy, DA0T/p, will be QRV July 26-29th from Neuwerk Island (EU-127, N-12 for the German Islands Award, WLOTA LH-2311), IOTA contest included. Look for activity on all HF bands. QSL via home call (Andreas Kuelper, Curslacker Deich 362, D-21039 Hamburg, Germany). [Tnx RSGB IOTA]

26/07/2007: Operators Jean-Jacques/ON7EQ, Roland/ON5QK and Sébastien/ON3EQ will be QRV July 26-29th as F/OT3T from the Île-de-Batz (EU-105, DIFM MA-018) for the RSGB IOTA Contest (July 28-29th). Outside of the contest they will activate the Île-de-Batz lighthouse (DPLF 094, ARLHS FRA-071, WLOTA LH-0680). Activity will be on all bands, SSB only. QSL via ON7EQ, direct or by the bureau. [Tnx RSGB IOTA]

GOLIST, QSL MANAGER DATABASE

Hi folks,
I received a phone call from the US distributor for RAC call book.
He now has the Summer 2007 issue in stock.
I will NOT be stocking the CD's, but have added them back to my
order form. I can sell them at the Golist discounted price and have them
drop shipped to you from the distributor. You can also buy direct from
the distributor from his web site at http://callbook.com/
If you are interested in this item, please use the Golist order form
on my web site http://golist.net/

This is to advise readers of problems the ARRL Third Call Area
Incoming QSL Bureau has in delivering cards to the managers or former
managers of some DX stations or DXpeditions.

The following notes are only with respect to situations where the
cards are not accepted. We are aware of other situations where cards
are accepted from our bureau by the managers, but where we don't
believe they are actually answered. If you sent a card via bureau
more than two years ago and you don't have a reply yet, we would
advise going direct.

The following cases are those where the QSL volume is significant.

9Y4/N3BNA The manager is KA2AEV. Cards are forwarded to KA2AEV via
the W2 QSL
Bureau.

4L0ABC K3PD is no longer the Manager. Cards are returned
to senders via their respective bureaus. QRZ.ru
continues to list K3PD as Manager. If anyone knows
how to get this reference changed, we would appreciate
their doing so.

4L0G K3PD is no longer the Manager. Cards are forwarded
to UA9LP via the Russian Bureau.

4L0HQ K3PD is no longer the Manager. Cards are forwarded
to UA9LP via the Russian Bureau.

4L2M K3PD is no longer the Manager. Cards are forwarded
to UA9LP via the Russian Bureau.

4L4BBC K3PD is no longer the Manager. Cards are returned
to senders via their respective bureaus. QRZ.ru
continues to list K3PD as Manager. If anyone knows
how to get this reference changed, we would appreciate
their doing so.

6V6U Thus far we have failed to get K3IPK to provide us with
the means for shipping him his cards. We hand-delivered
a bunch of his cards to his club in October when we gave a
presentation there. We have thus far not been able
to get him to tell us what he wants us to do with his
cards. We are holding plenty of them at this time.
We do not destroy cards. If we do not hear from him

eventually they will be returned to senders through
their respective bureaus.

6W6/K3IPK Thus far we have failed to get K3IPK to provide us with
the means for shipping him his cards. We hand-delivered
a bunch of his cards to his club in October when we gave a
presentation there. We have thus far not been able
to get him to tell us what he wants us to do with his
cards. We are holding plenty of them at this time.

their respective bureaus.

FM1HN K3PD is no longer the Manager. Cards are returned
to senders via their respective bureaus.

FM1II K3PD is no longer the Manager. Cards are returned
to senders via their respective bureaus.

HH7/N3BNA The manager is KA2AEV. Cards are forwarded to KA2AEV via
the W2 QSL
Bureau.

KL7J KL7J has asked his manager N3SL not to answer bureau cards.
Cards are returned to the senders via their respective bureaus.

P29NB K3BYV is NOT the manager. Cards are returned to
senders via their respective bureaus.

PS2T We have discussed with Manager W3HC his policy of not
accepting bureau cards, and he refuses to change that
policy. We have asked station owner PY5EG to consider
changing managers, but that has not happened yet. Cards
are returned to senders via their respective bureaus.

V26B The manager is KA2AEV. Cards are forwarded to KA2AEV via the
W2 QSL
Bureau.

ZP6/N3BNA The manager is KA2AEV. Cards are forwarded to KA2AEV via
the W2 QSL
Bureau.

ZP9/N3BNA The manager is KA2AEV. Cards are forwarded to KA2AEV via
the W2 QSL
Bureau.

ZW5B We have discussed with Manager W3HC his policy of not
accepting bureau cards, and he refuses to change that
policy. We have asked station owner PY5EG to consider
changing managers, but that has not happened yet. Cards
are returned to senders via their respective bureaus.

5772. NA-231: Operation ABORTED

I.C.P.O. (Islands, Castles & Portable Operations)
UPDATE -
==========
NA-231: Operation ABORTED -

Hi Guys,

I am heartbroken to announce that our attempt to activate East Pen Is. had to be aborted. Ken and I have arrived in Ft. Severn, northern Ontario, based on a long series of telephone and email communications with the local community here, who at no point in time provided an indication that this operation should be cancelled. For the past four days we have been on a roller-coaster, with the local community going back and forth between being ready to provide assistance and withdrawing it.

On Thursday, Jul 19, after intense negotiations, a team of four experienced guides/hunters was proposed and gathered by the local counsel. Although this increased substantially the cost of our expedition, we agreed to it, having travelled so far. Late evening, however, two of the guides dropped out, which left no opportunity for other sufficiently skilled guides to take their place.

It has to be said that numerous local people have reported recently an unusual number of polar bears on the shore for this time of the year - polar bears are supposed to come to short sometimes after mid-August. Last August aerial survey of East Pen Is. reported 40 polar bears there. Locals belive that with such an intense recent activity their number is larger this year.

Besides this danger, colonies of walruses have been reported both on the shore and on the island, these animals having cubs right now and therefore being extremely protective - constituting thus a serious danger in crossing to the island in a small boat.

In view of the above, it was clearly impossible to continue with our attempt.

73,
Cezar (VE3LYC) and Ken (G3OCA)

GOLIST, QSL MANAGER DATABASE

*3B7C ? Isle du Sud, St.Brandon, QRV 7^th to **24^th September 2007*

Since our last bulletin Neville G3NUG and Don G3BJ have taken a vacation in Mauritius and used the opportunity to confirm the various logistical arrangements for our September operation from St.Brandon. Don also visited Isle du Sud (our operating location) to make a detailed site survey. Everything is looking good, and the contracts are in place both for the ship which will take us to the island and for accommodation and logistics on the island (which, on this occasion, will be somewhat less than Five Star but perfectly adequate). The good news is that we will have the island to ourselves and there is lots of space for our antennas including a range of receiving antennas ? photos from the survey appear on the website (see below).

Our container of gear has now been shipped and will arrive in Mauritius on 12 August. Six large diesel generators (5kVA each) have also been shipped ahead as the modest generator already on Isle du Sud would be inadequate for the large-scale operation we have planned.

6m

6m enthusiasts will be aware that 6m operation is not normally allowed from Mauritius and its outlying islands. However, we have been able to gain a short-term permit, limited to three fixed frequencies: 50090 (CW), 50102 (CW), 50145 (USB) and are grateful to the 3B8 licensing authorities for this concession. We are hoping for some good trans-equatorial propagation on the band ? from 3B9 three years ago we were able to work on a daily basis into Japan, Central Asia and Southern Europe.

WEB SITE

Our web site *(www.3b7c.com <http://www.3b7c.com/>)* continues to be updated on a regular basis. There are photographs of the island and of the container being loaded. There is also a table of DXpedition records, by band and mode, so that we have something to aim for! We are also preparing some propagation charts for each of the major areas of the world so that you can find the best time to work us on each band. And there?s a full list of sponsors, to whom we are very grateful. But more are always welcome, details on the website and in previous bulletins on how to become a sponsor.

Our QSling approach is also detailed on the website and you may wish to check this out before we fire up. We will, of course, be fully supportive of LoTW, as with our previous expeditions, for those who are

looking for DXCC credits. Remember that if you are a sponsor, you will receive priority treatment for QSL cards.

Also on the web site you will find details of how to pre-order the DVD that we will be making of the 3B7C operation.

* *

TEAM CHANGES

Just one to mention since the last bulletin which is that we are delighted to have Bob N6OX join the team.

We still have a vacancy for one team member to bring our total team to 20. We are seeking a team player and an outstanding operator who is ideally known to one of the current 3B7C team members. A 6m specialist would be particularly welcome. The cost is ?1,800 to ?2,000 ($3,600 to $4,000) depending on the package chosen. This is exclusive of airfares to and from Mauritius. All team members have committed to be available for the whole of September 2007.

BAND-SLOTS GAME

We are developing a band-slots game. Each time a new part of the log is uploaded, a routine will be run to identify the top 30 stations in terms of band/mode slots worked to date. CW, RTTY, PSK, SSB and FM count separately on each band. The results will be shown on the website. We're not running the Nevada Trophies this time. There will be no prizes ? this is just for fun!

Sisco,
I have not received any announcement from DXCC about
either of those two operations. They may be approved, but
I have not received any offical announcement about them.

Sable Island DXpedition 2009 -

Our group is in the early planning stages of a DXpedition to Sable Island (NA-063, NS-004 for the Canadian Islands Award, WLOTA LH-0758), CY0ZZ. Further information is available on our web site: http://www.sabledx.com/

We are currently seeking sponsors to help us cover the large cost of chartering the Britain Norman Islander aircraft which must be used to land on the beach at Sable Island. The cost of this charter alone will be nearly $10,000.

The team consists of Team: Duane/WV2B, Rick/AI5P, Dick/VE1AI and Scott/KA3QLF. We are not currently seeking any more operators.

A minimum of 3 stations is planned for the DXpedition - SSB, CW, RTTY/Aux. We are planning for directional antennas on 30-10 Meters, and Verticals on 40/80/160. A dedicated 6 Meter station is a possibility. We will have at least one Acom amplifier. More details will be available closer to the DXpedition. [Tnx Sable Island Team]

Hi folks,
Well, it appears that "Murphy" is at work once again.
I was just checking and the web server and email server
that hosts the Golist and EQF Software appear to be down.
If they don't recover automatically, then they will be
down for the rest of the week and through the weekend.
The web master is in South America visiting family and
friends.
I hope the servers recover, but not betting on it!!!
I can do a work around for subscription upgrades, but
new orders will be a problem. Everything will have to be done
via email.
Be sure to send any message to me via golist@..., as
this address bypasses the domain server.
Sorry for the problems.

GOLIST, QSL MANAGER DATABASE

FW0MO - WALLIS & FUTUNA
Mike & Jan have been active on several bands. Yesterday they were reported on 17, 15 and 12 CW between 2330 and 0100Z.

JOHNSTON ISLAND-KH3
Susan, W7KFI is working her way toward Johnston from Hawaii. It will probably be around August 10th or so before she will get there, depending on weather, etc. Just keep listening. Remember that she likes CW.

Two activities for this weekend:

N2OB will be activated by members of the O2ld Barney ARC (www.obarc.org) from the Barnegat Lighthouse (aka Old Barney) in Barnegat Light NJ (ARLHS USA-039) on Saturday August 4th. IOTA NA-111 Long Beach Island NJ. USI NJ001S. They will be QRV on 20 and 40 meter SSB from about 1300 UTC through 2100 UTC. QSL via N2OB.

ARRL UHF CONTEST is this weekend as well. It can be fun if you are equipped for the UHF bands.

Until next time, enjoy the chase and HAVE FUN!

73,
Carl, N4AA

SPECIAL EVENTS

The ISWL Club Callsigns in use during August 2007 will be:
GX4BJC /A operated from Towcester, in Northamptonshire, by Phil G4DMS (WAB SP65 NHM).
MX1SWL /A operated from Skegby, Nottinghamshire, by Merv G0UJD (WAB SK56 NOT).
All QSL information is on www.iswl.org.uk ?or via eQSL.cc NO LOTW! [Tnx Pete's-DX-Newsdesk]

02/08/2007: ON60HRT is the special event callsign aired by the radioclub HRT throughout 2007 to celebrate 60 years UBA. The club station is QRV on HF to EHF from Olen (JO21kd). Club VHF/UHF standby frequencies: 145.475 / 433.475. A special QSL card is available for working/reporting ON60HRT. Please QSL via the bureau to ON4HRT or ON7IG. [Tnx UBA HF News]

03/08/2007: For the second time, Don, AB5BG will honor the memory of Col. Greg Boyington and the Black Sheep Squadron VMF 214 of WWII from 3rd August from 16h00 up to 5th August 23h59. He is planning to be active on 40, 20 (14,260 +/- 10 kHz), 15, 10m. He will be sending out a certificate for all contacts made. [Tnx UBA HF News]

04/08/2007: In 1898, Gugliemo Marconi received the first commercial opportunity for his newly invented wireless telegraph apparatus and established a wireless link for shipping between Ballycastle and Rathlin Island. In 1907, Marconi's dream of fixed point-to-point wireless telegraph stations linking Europe and North America became a reality. The stations were located at Derrygimla near Clifden, and at Glace Bay, Nova Scotia. To commemorate these significant events, Hal, W8HC will operate as GI/W8HC/p from Ballycastle August 4-5th (he will be also taking part in the annual Marconi Festival at Ballycastle with the Marconi Radio Group's MN0MRG special event station). On August 6th Hal will go and operate from East Lighthouse (ARLS NTI-011, TWLHD WLH GI-001, WW Loc. IO65WH) on Rathlin Island (EU-122). On August 9-10 he will be active as EI/W8HC/p from the Derrygimla site, and possibly from nearby Letterfrack, site of an ancillary receive station built in 1912. Logs will be uploaded to LoTW and special QSLs from each of these historic Marconi locations will be printed and sent via GlobalQSL (www.globalqsl.com). In addition, a specially designed certificate will be issued to those stations making contact with both GI and EI

operations from either Ballycastle or Rathlin and Derrygimla or Letterfrack. In keeping with the historic connection, all QSOs from these locations will be CW only. [Tnx 425 DX News]

04/08/2007: ARI Ancona will operate special station IY6GM from Monte Cappuccini (WAIL MA-003, ARLHS ITA-104) between August 5th and 19th. The activity will celebrate the 103rd anniversary of the experiments carried out by Guglielmo Marconi from that place. QSL via QSL via I6GFX, direct or bureau. [Tnx 425 DX News]

04/08/2007: Look for special event station N0T (November-Zero-Tango) to be active between August 4-12th, during the Oregon/California Trail Association National Convention. Activity is planned for as many HF bands as possible depending on propagation. Operations on 30 and 20 metrrs CW will be hit hard! They will also pay attention to the General portion of the Phone and CW bands. They would like to work many DX stations to impress the the many folks who will be attending the convention, so please spread the word. QSL via K0BLT with an SASE for an attractive QSL. [Tnx OPDX]

06/08/2007: Special radio station UE4CGT will be aired August 6-7th in commemoration of 46 years since the landing day of cosmonaut German Stepanovich Titov, onboard a Vostok-2. the station will operate directly from the place of landing (RDA SA-35). QSL via UA4CDV, direct or bureau. [Tnx RX3RC]

GOLIST, QSL MANAGER DATABASE

I will be going to Miquelon, FP (NA-032), along with my friend Bob, K9MDO and we will be using the callsigns FP/W9ILY and FP/K9MDO. Operations will begin on Thursday, September 13 (or possibly the evening of Wednesday, September 12) and continue through Tuesday, September 18 and we will be operating from the famous MAXOTEL that has been used by several previous DXpeditions.

Bands: We are planning on using all bands 10-80 meters.

Modes: We will be concentrating on SSB (primarily FP/K9MDO) and RTTY/PSK (primarily FP/W9ILY)

Equipment: We will both be using TS-570D(G) rigs, 100 watts and no amps, and plan to use the antennas that were donated by previous DXpeditions. Due to the strict weight restrictions of Air St. Pierre, we believe that 100 watts with good verticals at the sea will provide good, workable signals. I hope we are correct!

QSL Routes:
FP/W9ILY QSL direct or Bureau. Contacts will be uploaded to LoTW ASAP following the DXpedition.
FP/K9MDO QSL via W9NJB direct or Bureau.

This will be a "laid-back" type of DXpedition to both give us and the DX community the maximum enjoyment. Thus, we do not envision a 24-hour operation, especially with only two operators.

Hello Dick

I guess you already knows what RDA means....if not , RDA -means
Russian Districts Award Program.
If you are asking what is "Rare" ?

look at the Most Wanted RDA list at :
http://rdaward.org/mw.htm

Then check the RK1B/0 website and see what RDA they will operate ,
according to the list , some of them are counting as the most rare
ones...
KT-02 36 4.71%
KT-07 23 3.01%
I would call Rare ones to those that are less then 10 % i think...
Good luck and have a nice weekend and DX hunt !

I was wondering if anybody has any ideas about R1MVW and how long that one takes to get confirmed if you go directly to the manager of DK4VW.

Also I have worked a number of ER stations that have ER1DAF listed as QSL manager. Anybody had any dealings with that station?

How about ER3HW? I'm having a heck of a time getting ER confirmed.

5808. 2007 Great Lakes Division Convention

2007 ARRL Great Lakes Division Convention
"Ham Radio Alive and Well in Northern Ohio"

Something special is taking place late September. For the first time (so they say) the American Radio Relay League (ARRL) will be holding their Great Lakes Division Convention (GLD) on September 22nd in Independence, Ohio. The GLD Convention is usually held every two years in different cities, so this year it is in the Cleveland area (the day before the Cleveland Hamfest). So, what goes on at a convention? Sponors, many informative Seminars, Hospitality Room, Award presentations, Dinner Banquet with a guest speaker, Prizes, Special Ceremonial of "The Royal Order of the Wouff Hong" and a great time with plently of camaraderie with other hams.
It all starts Friday evening (September 21st) at the Sheraton Independence Hotel with early registration and a Hospitality Room provided by the Cuyahoga Amateur Radio Society (CARS), Lake Erie Amateur Radio Association (LEARA) and the Northern Ohio DX Association (NODXA).
On Saturday morning there will be continued registration, sponsor tables, and the hospitality room will open at 9:00 a.m. The hospitality room will host card checking and free refreshments both Friday evening and Saturday morning.
Opening ceremonies begin at 11:30 a.m. The first seminar will start at noon with Bob Heil/K9EID and Chip Margelli/K7JA in a joined two room session. Bob?s, K9EID, pioneering work in the Amateur Radio world has led to significant improvements in audio quality throughout the industry. His company, Heil Sound, is the leading manufacturer of microphones and boom-sets for the world of Ham Radio. Chip, K7JA, has been active in DXing for over 42 years. You may have seen him on the Tonight Show with Jan Leno competing with (and defeating) the U.S. Champion cell-phone text messenger in a message-completion speed contest.
The room wil then be divided into two rooms. One room will go into an intense DX session, and the other will cover 3 different amateur radio interests seminars.
1:00-1:10 P.M.: Tedd/KB8NW (NODXA President and Editor of the OPDX) will open and moderate DX seminars. Guest speakers will include (times may vary):

1:10-1:45 P.M.: Bernie McClenny/W3UR Editor of "The Daily DX and Weekly DX" and QST?s "How?s DX?" column. He will give a talk on the "History of DX from the beginning to today".

1:45-2:10 P.M.: Don Karvonen/K8MFO, Ohio?s number one DXer who is in the top ten of the ARRL?s DXCC Challenge, is expected to give talk about 6 meter DXing.

2:10-2:40 P.M.: John Papay/K8YSE, one of the KH8SI operators, will talk about activating Swains Islands as a brand new DXCC entity.

2:40-3:25 P.M.: Bob Allphin/K4UEE, recently appointed DXAC Chairman, will talk about the DXAC and his recent VU7RG activity.

3:30-3:55 P.M.: DX seminars will end with a question and answer panel consisting of KB8NW, K8YSE, K4UEE, K8MFO, K4ZLE, W3UR and possibility others.

Other seminars (second room) taking place:
1:00-1:55 P.M.: ARRL EmComm speaker from Headquarters will discuss emergency communications and the National Emergency Response Planning Report. Speaker will be newly appointed Dennis Dura, K2DCD. He is their new ARRL Emergency Preparedness & Response Manager. Visit the ARRL Web site and read more about Dennis, K2DCD, at: http://www.arrl.org/news/stories/2007/07/31/101/?nc=1
2:00-2:55 P.M.: ARDF by Bob Frey/WA6EZV and Dick Arnett/WB4SUV. Lots of great equipment will be demonstrated and on display. Photos and information from International Competitions will also be available.
3:00-3:55 P.M.: Jim Sanford/WB4GCS Amsat?s Eagle Satellite Project Manager will discuss new developments and talk about what the new Eagle high orbit satellite will mean for everyone.

4:00 P.M.: Seminar rooms will once again be joined and will close with Tim Duffy/K3LR, an expert on Antennas/Contesting. He will talk about his K3LR Multi-Multi Contest Station. Many of you may have seen his station while traveling on I-80 when in Pennsylvania near the Ohio line.

6:00 P.M.: Great Lakes Division Director Jim Weaver/K8JE will present the Great Lakes Division Awards on the 2nd floor in the Independence Room. Please consider nominating a fellow ham for one of these awards by visiting: http://www.2007gldc.org

The banquet will start at 7:00 P.M. where the President of the ARRL, Joel Harrison/W5ZN will be the keynote speaker. Following the banquet the top secret Wouff Hong ceremony will begin for any interested ARRL Member.

Please support this great event by attending. Sponsors have helped make ticket prices lower than usual. Advanced sale tickets are available for purchase online at www.2007gldc.org along with complete information and any late news or changes.

MARKET REEF, OJ0B and OJ0MI

The Nordic team of OH0RJ, OH2BH, OH2PM, SM0W and SM6U will try landing on Market Reef Saturday, August 11, around 1600 UTC with two stations and may appear on the air on that night as OJ0B. They will do CW and SSB until Thursday, August 16. QSL via OH2BH.

On August 16, OH2HAN, OH2MZB and OH2LU will be swapping the operating duties, weather permitting, and will air OJ0MI focusing on RTTY but also the weekend's (August 18/19) lighthouse activity. QSL via OH2HAN.

CW at .025 kHz and on SSB 3790, 7040, 14190, 18140, 21290 kHz. Over the lighthouse weekend 14250-14260 kHz will be used.

They will run the latest FT2000 radios and SteppIR antennas.

The Finnish Lighthouse Society has been active repairing the lighthouse for this summer and you may wish to follow their activities which include daily reporting and interesting general details.

http://www.lighthousesociety.fi/eng/

If you are a stamp collector or wish to receive your QSL card with unique Market Reef stamps you may send SASE with 7 Euros (10 USD) as your donation to the Finnish Lighthouse Society through respective QSL managers.

If you wish to tour the Reef in the spirit of adventure, you may follow in the footsteps of the 2005 OJ0B activity:

GOLIST, QSL MANAGER DATABASE

Chris Lorek, G4HCL, has authorised me to inform everyone that he plans to be active from Sana, Yemen, once again as 7O/G4HCL from Monday 13 August until early on Wednesday 15 August. Chris has written permission and official authority to operate on all HF amateur bands under supervised conditions, but warns that it may or may not be possible to obtain the specific documentation that satisfies DXCC requirements. WFWL! This is NOT A DXpedition but a business trip, and operation will therefore only be when possible and is only likely to be for short periods at a time. Chris will be using 1kW to a professional biconical monopole communications antenna. Activity will be SSB only, and probably only on 20m (look between 14170 and 14260kHz). QSL information for this operation is direct only to G4HCL, PO Box 400, Eastleigh SO53 4ZF, UK.

If Chris is able to get on the air for extended periods, this should certainly liven up the bands a little as a prelude to our operation!

73,
Steve, 9M6DXX

GOWIN, QSL MANAGER SEARCH PROGRAM

(Aug 8, 2007) ? The ITU has granted a request from the Ministry of Communications and Transport of Bosnia and Herzegovina (BiH <http://www.mkt.gov.ba/eng/index.php>) to replace T9A-T9Z with E7A-E7Z. According to IARU Secretary David Sumner, K1ZZ, ?While it probably will take some time for the BiH administration to implement this change, it should put to an end the use of call signs outside the ITU-allocated call sign block by stations in parts of BiH.? The new prefix will be implemented ?probably later this year,? Sumner said.

QSL status R1ANF:

Hi Mark,

I have been informed by UA6HPR (nw UA6GG) about 3 weeks ago that R1ANF/p QSL
cards were printed and have been mailed to RK1PWA. I have no info from Nick
now if he received the package with the cards or
not. Usually, in arctic summer which is very short at the Kara Sea coast,
Nick is spending most of the time with fishing.
Give him a relax, because cold arctic winter will come back in early
September ... I am sure that by then he will start sending out the QSL requests for t

his operation. So again, cards are printed and have
been mailed to RK1PWA. Pse QRX!

Hallo Meteorscatter fans,

if you gonna be active in the comming PERSEIDs-MS-Shower you might have a
look for the PEAK-Times and which expeditions are qrv, at the "PERSEIDs

Chris Lorek, G4HCL, has authorised me to inform everyone that he plans to be
active from Sana, Yemen, once again as 7O/G4HCL from Monday 13 August until
early on Wednesday 15 August. Chris has written
permission and official authority to operate on all HF amateur bands under
supervised conditions, but warns that it may or may not be possible to obtain
the specific documentation that satisfies DXCC
requirements. WFWL! This is NOT A DXpedition but a business trip, and
operation will therefore only be when possible and is only likely to be for short
periods at a time. Chris will be using 1kW to a
professional biconical monopole communications antenna. Activity will be SSB
only, and probably only on 20m (look between 14170 and 14260kHz).
QSL information for this operation is direct only to G4HCL, PO Box 400,
Eastleigh SO53 4ZF, UK.

If Chris is able to get on the air for extended periods, this should
certainly liven up the bands a little as a prelude to our operation!

QSL R1ANF

Hi Mark,

UA6HPR (maintenant UA6GG) m'a indiqué il y a environ trois semaines que les
QSL de R1ANF/p sont imprimées et expédiées à RK1PWA.
Pas d'autres informations de Nick à ce jour.
L'été étant très court sur la côte de la mer de Kara, je pense qu'il passe
la plupart de son temps à la pêche, afin de se remettre en forme avant le
retour de l'hiver, prévu début septembre.
Je suis sr qu'il commencera alors à répondre à ce moment là.

Chris Lorek, G4HCL, m'a autorisé à ommuniquer à la communauté amateur, qu'il
a l'intention d'être actif, depuis Sana, Yemen, une fpis de plus avec
l'indicatif 7O/G4HCL du 13 au 16 août. Il a ls permissions crites pour opérer en HF
sur les bandes amateur, sous conditions restrictives, mais il redoute encore
de ne pouvoir obtenir la documntation spéifique, destinée à valider
l'opération au DXCC.

Ce n'est pas une expédition, c'est un voyage d'afaires, aussi le trafic
risque d'être réduit .
Il trafiquera en SSB uniquement, et sans doute sur 20m, avec 1 Kw dans une
antenne bi conique, professionnelle.

QSL directe exclusivement à : G4HCL,
PO Box 400, Eastleigh SO53 4ZF, UK.

Si Chris peut trafiquer plus longtemps cela réveillera sans doute la bande.

GOLIST, QSL MANAGER DATABASE

Dear friends of the ice,

I would like to inform you that the DP0GVN QSL cards for the current operation by Mirko, DG9BHQ, are in print now and will be delivered to me shortly. I expect tp start sending out cards by next week.

Just a few words on the status of the R1ANL cards - I am still working on converting the handwritten log into my PC to generate a digital log. All contacts made until the 21.01.1998 have been entered so far and I am making a good progress. The R1ANL cards will be printed once the major DP0GVN package has been sent out.

Hi friends

The French special callsign TM8CDX has been once again issued to the Clipperton DX Club , between September 8th to 22nd, for the 29th Convention of the famous International DX Club.

The 2007 CDXC Convention will be held on Sept 22nd at Puyloubier, South of France, Bouches du Rhône department, WWGrid JN23tm.

Among the activities scheduled ther'll be a SOTA one by Laurent, F8BBL and Alain, F6ENO and André F5AKL, using this TM8CDX call sign and the Union Francaise des Telegraphistes 's F8UFT, in portable from the Pic des Mouches, 1011m asl, WWgrid JN23tm, Ref SOTA F/CR-142. Frequencies 7.032 CW, 10.118 CW, 14.060 CW, 7.068 SSB .
QRP 5w and dipôle

Watch the clusters for other TM8CDX activities, on HF bands and may be VHF 2m.

As usually all the contacts will be confirmed via the French REF-Union bureau. Those who choose the direct way send their cards (SAE+postage) to Rafik, F5CQ.

Previous TM8CDX traffic results availables at :

_http://www.cdxc.org/dxp/tm8cdx2006/TM8CDX_Bilan/tm8cdx_bilan-f.htm_ (http://www.cdxc.org/dxp/tm8cdx2006/TM8CDX_Bilan/tm8cdx_bilan-f.htm)

Please note the Wyoming QSO missing to claim the WAS award.

Info from OY:

As of tonight the 1296 transmitter of OY6BEC has been re-installed on Sornfelli. It has been qrt due to inteference to a local radar but the problem is no longer an issue.
To my best knowledge the data are as follows:

OY6BEC 1296,885 IP62oa 700 masl 100 Werp Douple quad 135 deg. OY9JD.

It may need some time to settle on the right frequency? May need readjusting?

The 50 MHz beacon is now repaired and OY1CT will bring it back at the end of august.

Hello again all FISTS,

I am pleased to announce the 2007 version of the C2C. This year we will hold the event on Saturday September 29th for 24 hours beginning at 1700Z. That's 10am Pacific, 11am Mountain, 12pm Central and 1pm Eastern. The rules are the same for individual fists members but there are changes in the scoring for clubs. Please review the rules at _http://www.fists.http://www.f_ (http://www.fists.org/c2c.html) In a
nutshell, clubs will no longer work other clubs. Remember, this is an event to benefit fists members in obtaining 3 point qsos and it is toward that goal that the rules have been changed. Besides, the club scoring was just too confusing. Please do take a few minutes to review the club scoring and I think you'll agree that they make more sense and will ultimately benefit the members.

I have given a lot of thought to another issue. In the past, we have encouraged clubs to register with the C2C manager (me) so that a roster of clubs could be viewed at the C2C web site. #1, it doesn't appear that we will have an official web site this year and #2, it got to be more work than it was worth. Clubs on the air will be obvious by their calling "CQ C2C". Just show up on the air and pound brass as fast as you can!

Please submit your logs within 30 days to me, preferably in text as an attachment to an e-mail. Please do not send a paper log if you send an e-mail log. Be sure to include the following information. Date, time, band, callsign and exchange received in space delimited format. Cabrillo would be even better as it is the defacto log protocol in most contests. The winners will be announced sometime in late winter or early spring.

Hope to hear many of you on the air in late September.

TM7A QSL final

Finally, the TM7A QSL managing is fixed as follow :

2003, May 29th, Banc d'Arguin, IOTA EU-159, a CDXC dxpedition, via F8BBL

2007 (Feb 24 to March 09, included French Championship SSB) via Ref-Union bureau , attention 26th division manager Evelyne, F5RPB or direct to F5PSC.

From DXNL

DXCC and Contest publication logs conflicts:

PUBLISHING LOGS AND LOSING DXCC CREDIT...
The magazine "CQ" published all logs of the last CQWW DX Contests at: http://www.cqww.com/cwlogs.htm and http://www.cqww.com/ssblogs.htm In the future DXers have to be aware that it is possible to lose DXCC credit for QSOs made during those contests. Rule 5 in section III of the DXCC rules writes that publishing logs "...creates a question as to the integrity of the claimed QSOs ... and may be considered sufficient reason to deny ARRL award credit for contacts with any station for which such presentations have been made." Falk,DK7YY, who is a field-checker of the ARRL sent a query to the DXCC Desk and the DXCC manager Bill Moore,NC1L, answered that he cannot make any statement questioning this rule. With other words: If a DXpedition submits its CQWW log, it can be assumed that its DXCC approval is denied as well. Country and band chasers will cease their contest participation and may focus on chasing the DX before and after the contest weekends!

DXCC et publication de CR:
Perte de crédits DXCC obtenus dans les concours organisés par le CQ magazine.
Le magazine "CQ" a mis en ligne tous les logs reçus, au format cabrillo, pour les concours WWW DX CW et SSB 2006 à : http://www.cqww.com/cwlogs.htm et _http://www.cqww.com/ssblogs.htm_ (http://www.cqww.com/ssblogs.htm) ;
A l'avenir les DX'ers doivent savoir qu'ils pourront perdre certains crédits au DXCC, obtenus dans ces concours.
L'article 5 du Règlement du DXCC précise dans sa section III que la mise en ligne et toute autre forme de publication des comptes rendus de concours, pose question quant à la réalité des QSO, et peut constituer une raison suffisante pour refuser la présentation des justificatifs les concernant.
Falk,DK7YY, contrôleur pour le DXCC,a envoyé une demande au Bureau du DXCC.

La réponse de Bill Moore, ne peut être strictement précise; tout dépendra de la soumission et de la publication ou non des logs de concours par l'expédition.
Autrement dit, si une expédition soumet son log concours et s'il est publié, il est vraisemblable que le QSO seront refusés au DXCC.
Les chasseurs de DXCC et DXCC par bande vont donc cesser de participer aux concours et se polariser maintenant sur les périodes pré et post concours.

OJ0B - MARKET REEF DXPEDITION STUCK IN STORM

The planned departure is delayed because the OJ0B gang cannot be picked off the reef. Please follow the team's progress via the sm0w blog at:

http://www.sm0w.com (http://www.sm0w.com)

Some 11.000 QSOs are handed out so far, and the operators will continue until it is safe to collect the group from the reef. The transfer RTTY team is also waiting in Aland Islands, OH0.

Everything is OK and the team remains in good spirits. A lot of U.S. contacts were made on 80M last night, and we continue checking the low bands. One FT1000 got burnt due to close proximity of the low-band antenns.

26th - 29th October 2007

From the RNARS:

H M S G A N G E S A S S O C I A T I O N

HMS Ganges Association will celebrate the Centenary of Wireless Telegraphists - 2007 - in the Royal Navy at a reunion to be held at the Savoy Hotel, Bournemouth over the weekend of Friday 26th to Monday 29th October 2007. In Royal Navy terms or 'Jackspeak' - and known to sailors as a 'Friday While'.

Many thousands of Boy & Junior Telegraphists, later known as RO's, were trained at HMS Ganges (RNTE Shotley, near Harwich) from 1907 until the establishments closure in 1976. Young 16 year old trained Telegraphists then went to sea and/or on to more advanced training at HMS Mercury (Leydene, Hants) the RN's School of Communication. This role is now centred at HMS Collingwood, Fareham, Hants.

Replication - on Sunday 28th October from 15:00 - of Marconi's first transmission across the water from Bournemouth to Alum Bay on the Isle of Wight.
This will be done using Ofcom's Special Events Callsign - GB100WT - and will be
received on the Isle of Wight by the Brickfield Amateur Radio Society.

Participating will be members of Portland Amateur Radio Society (PARC), Royal Naval Amateur Radio Society (RNARS), Brickfield Amateur Radio Society (BARS) plus others.

le retour a été différé car l'équipe ne peut être récupérée sur le rocher.

Vous pouvez suivre les péripéties de l'expédition OJ0B sur :

http://www.sm0w.com (http://www.sm0w.com)

Quelque 11 000 QSO sont déja enregistrés, et les opérateurs vont continuer jusqu'à ce que la météo permette de les rapatrier.
L'équipe RTTY est également attendue à Aland , OH0.

Tout va bien et l'équipe fonctionne sereinement.
La nuit dernière nombreux QSO OJ0/W sur 80m, et nous continuons à surveiller les bandes basses.
Seul bémol, un des FT1000 est parti en fumée, sans doute car trop près des antennes bandes basses.

Hi to all,
from the german DARC-bulletin "Deutschland-Rundspruch 33/2007" 15th August 2007:

The ITU has given new prefixes to Bosnia-Hercegovina (T9).
The new prefix block will be E7A to E7Z. Change happened at 7th. August 2007. T9A to T9Z had
been given back to the ITU. Changing the amateur calls will be in the next weeks.

Here the original statement in german language.
Neue ITU-Rufzeichenreihe fuer Bosnien-Herzegowina

Die ITU hat Bosnien-Herzegowina die neue Rufzeichenreihe E7A bis E7Z zugewiesen. Diese Regelung trat am 7. August 2007 in Kraft. Die bisher gueltige Rufzeichenreihe T9A bis T9Z wurde an die ITU zurueckgegeben. Die Rufzeichenumstellung erfolgt in den kommenden Wochen.

Take care, vy 73

01/09/2007: Members of Radio Club Henares (EA4RCH) will be active from September 1-16th with special call signs during the EuroBasket 2007. Look for AN0EB, AN4EB, AN5EB, AN6EB and AN7EB on all bands and modes. The call sign AN0EB will only be active on the days that the Royal HouseHold is present during any game. QSL via EA4RCH, direct or by the bureau. A different QSL will be printed for each callsign. A special "HAM EUROBASKET 2007 AWARD" will be available to all stations or SWLs that work 4 different stations. More details are available at: www.radioclubhenares.org/ [UBA HF News]

01/09/2007: The Scarborough Special Events Group will be active September 15-16th as GB2QE to commemorate the 40th anniversary of the launch of the "QE 2&". The ocean liner "Queen Elizabeth 2" is scheduled to sail into Scarborough's South Bay on the morning of Sunday 16th September 2007 as part of a round-Britain cruise to commemorate the 40th anniversary of her launch. HF activity will be around 7055 or 3725 KHz SSB, and 7025 or 3525 KHz CW. A special QSL card will be sent through the bureau for all contacts made. [SSEG]

07/09/2007: The World cup of Rugby proceeds this year in France and, on this occasion, the Ref.-Union agreed to promote activity CMR (Coupe du Monde de Rugby) within the framework of this sporting event. A special call will be activated in each city where the matches will be held - TM0RWC (Saint-Denis): on 7, 8, 13, 14, 20, 21 of Sept and 6, 7, 12, 13, 14, 18, 19 and 20 of October; TM1RWC (Paris): on 8, 9 ,10, 18, 19, 20, of September, September 27 to October 1st and 18, 19 and 20 of October; TM2RWC (Bordeaux): on 8, 9, 10, 14, 15, 16 of September and September 24 to October 1st; TM3RWC (Lens): on 7, 8, 10 of September and from September 17th to 29th; TM4RWC (Lyon): between September 7th and 20th; TM5RWC (Marseille): on 7, 8, 9, 11, 12, 21 and 22 of September, from September 30th to October 2nd and from October 5th to 9th; TM6RWC (Montpellier): from September 11th to 17th and 21 to 24th, from September 30th to October 2nd; TM7RWC (Nantes): from September 8th to 11th and 20th to 29th; TM8RWC (Saint-Etienne): from September 8th to 12th and from September 25th to October 3rd; TM9RWC (Toulouse): from September 11th to 17th and 23rd to 29th. Each special call will be activated throughout the CMR from 0000z September 7th to 2400z October 20th. To obtain the QSL, follow the instructions of each operator of the participating cities, to get the QSL Manager. A diploma is also available for stations that contact the most TMxRWC stations. Full information at: arala.44.free.fr/cmr.php [UBA HF News]

08/09/2007: Crew members of the UBA section CRD (Radio Club Durnal) will be active as OT2B from Terra Nova on the citadel of Namur (reference NM-039 for the Belgian Castle Award - BCA), September 8th and 9th on all HF bands: SSB, Digital modes and CW and perhaps on VHF bands. Visit the following link to get all information, photos and videos (www.roue-libre.be/article.php3?id_article=117). ==========
OJ0B - MARKET REEF DXPEDITION STUCK IN STORM

The planned departure is delayed because the OJ0B gang cannot be picked off the reef. Please follow the team's progress via the sm0w blog at: www.sm0w.com/

Some 11.000 QSOs are handed out so far, and the operators will continue until it is safe to collect the group from the reef. The transfer RTTY team is also waiting in Aland Islands, OH0.

Everything is OK and the team remains in good spirits. A lot of U.S. contacts were made on 80M last night, and we continue checking the low bands. One FT1000 got burnt due to close proximity of the low-band antenns.

Martti, OH2BH for the OJ9B team.

Hallo dear MMMonVHF friends,

please do welcome the latest VHF-DX-NEWS in short form via the NEWSLETTER
of "Make More Miles on VHF" the VHF-DX-Portal.

For more details, please be so kind and refer at the "NEWS"-page
http://www.mmmonvhf.de/latest.php
and check for the latest updates
(last 24 hours lines blinks / up to 3 days lines marked orange):

****
Latest incomming NEWS for the NEWSLETTER - MMMonVHF The VHF-DX-Portal
****

MMMonVHF did receive Info from Ray, GM4CXM which we would like to
publish as it was sended to us:

Technology has moved on and with it the increase in electronic devices.
One noticeable aspect of KST feedback for schedules is...sri, 380 qrm,
try 382 etc etc. This is super for stations in communication via KST but
in the case of an expedition who are not active on KST or the internet,
it is not a good experience. Personally, during the Perseids and now
with JP21 it is impossible to make contact with some expeditions unless
they were to move qrg. I realise many expeditions plan well for their
operation and this includes notification of a frequency but with so many
"ears" on the band, a simple QSY would not surprise anyone. By there
very nature, a expedition will be located where there is little or no
electronic qrm but for everyone else it will be either a clear frequency
or not.
I would recommend publicity be given to expedition operators who are not
able to provide feedback via the internet to chose at least two qrg's
rather than one. 00.00-12.00z one qrg, 12.00-24.00 another qrg.
It would be easy to announce/publish! 73 Ray GM4CXM

One answer on these topic of course can be the MMM DXBlog for further
expeditions - quick possibilities to announce a QSY or a new QRG to all
USERS . . . (see SP8RHP expedition) - TNX Ray for the input!

S.R.Event the 1st Italian Special Call - I wish to inform you that some Italian SRT Members have made a request to Ministery for Special Call "SRT" during the S.R.Event 2007 in October. The Special call "SRT" will be active in all the bands. Greetings Oreste, IZ8EDJ / HB9EFS. The call signlist was updated . . .

***

The high-altitude-balloon ILMARI will fly again on sunday morning 2.9.2007. Ilmari carries a 2m in/70cm out linear transponder, 70cm CW telemetry and FM APRS beacon, 1252MHz ATV transmitter and 80m CW telemetry beacon. See all frequencies and up/downlink calculations at ILMARI Page . . .

****
MMMonVHF The VHF-DX-Portal , hope Infos was exiting and all ok ...
****

PLEASE do remember: The MMM-Team is only trying to spot/announce the expedition infos - we are not responceable what happens during the time or the expedition itself, or when the expedition do NOT get QRV! As well we will NOT spread out any "hidden infos" or "unreachable links" or links into "hidden systems" at MMM (see also our POLICY...). Some people will NOT accept the MMM-POLICY and so we are sorry not be able to spread their infos anymore ...

Tnx a lot for all the news and infos these time to: GM4CXM, SP8RHP, WA5WCP, DJ8MS, YU7EF, IZ8EDJ, OH2LAK, DK4KW and as well IOTA/SOTA-RSGB, RSGB/GB2RS-News, EA6VQ-News, SM7AED's 50 MHz notes, 425-DX-News, F5NQL-News, NG3K-News, VA3RJ-News, VHF-DX-RU, OZ6OM Daily DX, REF-Bulletin and infos we did find at the ON4KST-, EA-V-U-SHF- and N0UK-Chats and other Net-sources...

If you do see, or hear, or work yourself an expedition, which is NOT (or with WRONG infos) at our MMMonVHF-page, PLEASE drop us a comment use "CONTACT" at the webpage or via mail: info@...

Have a pleasant DX on VHF and see you during comming openings...

Also check the info at QRZ.com for YW5AS. [DE0MST]

28/08/2007: Look for Tomas, VK2CCC (LY1F), to be active as 3D2MT between August 28th and September 4th. Activity will be on 80-17 metres, mainly CW and an entry in the All Asia DX Contest. QSL via the LoTW or via LY1F. Visit his Web page at: www.qrz.lt/ly1df [OPDX]

31/08/2007: Geza, HA4XG will be on family holidays to Greece between August 31st and September 14th. First they will be on Corfu (Kerkyra) Island (EU-052, MIA MG-055, WLOTA LH-4132, WW Loc. JM99WR) from August 31st to September 6th. Geza will be operating on HF+6m+2m as J48XG and SV8/HA4XG. He wants to seek the best position on 2m, so he can possibly work from his car. He will participate in the IARU VHF Contest (September 1-2nd) and will also work some MS. From September 7th to 14th they will move to Amaliapoli (WW Loc. KM19KE) in Thessalia, near Volos. The call signs will be J44XG and SV4/HA4XG on HF+6m+2m. There are good possibilities to plant many antennas on the flat roof. In morning and evening (local) time we can catch him on CW and 2m MS (363 1st random only). The rig are IC-746 DunaX verticals, preamp on 2m, and 10 el. DK7ZB Yagi. QSL via Hungarian QSL bureau or direct to his QRZ.COM address. [HA0HW]

31/08/2007: Nobi, JA1JCF will be going to Horn Island (OC-138) in Queensland, Australia, August 31st to September 2nd. The call sign will be VK4JCF. QSL via the JARL bureau or direct. Cards should not be sent to the VK bureau. This activation is not very certain. There may be unknown local difficulties at the planned QTH. Operating time will be limited because of sightseeing. CW mode on 30/20/17m bands will be used, if he is QRV. [JA1JCF]

09/09/2007: Look for Ruda/OK1HWS, Honza/OK1JK, Jiri/OK1JST and Vlasta/OK1UXH to be signing 9A/homecall from Porer Island (EU-110, ACIA IC-46, CIA-35, IOCA CI-090, MIA MC-313, WLOTA LH-0240) from September 9-14th. They plan to be QRV on 80, 40, 30, 20, 17, 15 and 10 metres, using SSB, CW, RTTY and PSK. QSL all calls via OK1JST. [F5NQL]

22/09/2007: The section NOK takes part during the weekend of September 22 and 23 in the commemoration of the release of the Polar Bears, suffered 63 years now. The amateur radio operators will be active, especially on 40m, using the special call ON63POL. QSL via ON3CYV. [UBA HF News]

24/09/2007: Members of BAFARA (Belgian Air Force Amateur Radio Association) will be QRV from September 24-30th with the special call ON 47 FOUGA on all bands all modes, to commemorate the last flight of the Fouga Magister in Belgium and its 47 years of service. The last flight will take place September 26th. A special QSL card will be printed for this event. QSL via ON6KN or via the bureau. If you send direct, send an SAE with enough return postage. [ON6KN]

24/09/2007: Operators AA7JV, VK2NU and HA7RY will be active September 24th to October 4th as VK9WWI from Willis Island (OC-007). They will be active on all HF bands, with emphasis on 160m and 80m at night. Other bands during the daylight. No modes indicated. QSL via operator's instructions. [F5NQL]

26/09/2007: Sigi, DL7DF and Crew will be signing 9U0A from Burundi, East Africa, between September 26th (evening local time) to October 9th (noon local time). Operators mentioned are Manfred/DK1BT, Wolf/DL4WK, Sigi/DL7DF and XYL Sabine, Jan/DL7UFN, Frank/DL7UFR and Leszek/SP3DOI. They will be active in all modes and on all bands, with special emphasis on the low bands and digital modes. An online log will be available and updated during the DXpedition. Pilot for this DXpedition is Bernd, DF3CB. The QSL route is via DL7DF either direct (Sigi Presch DL7DF, Wilhelmsmuehlenweg 123, D-12621 Berlin, Germany) or via the German QSL bureau DARC to DL7DF. Further information can be found at: www.dl7df.com/9u/index.html [NG3K]

07/10/2007: Look for Helmut, OE1MHL to be active October 7-12th as IC8/OE1MHL from the island of Ischia (EU-031, IIA NA-001, MIA MI-042, WLOTA LH-0689). He will be operating holiday style on all bands, from 0500 - 0900 UTC and from 1700 - 2000 UTC. QSL via home call. [RSGB IOTA]

23/10/2007: Operators Frank/WA2VYA, Ken/K2WB, Tony/W2WAS and Jack/N2VW will be signing VP5/homecalls from Provo Island (NA-002) between October 23-30th, CQ WW DX SSB Contest included (October 27-28th) using the call sign VP5T. Before and after the contest they will be QRV on the WARC bands, mainly CW. QSL via the operators home call. QSL VP5T via N2VW direct or bureau. [NG3K]

27/10/2007: Operators Donovan/ZS2DL, Rhy/ZS6DXB and Daniel/ZS6JR will be active from Swaziland as 3DA0WW during the CQ WW DX SSB Contest (October 27-28th) as a Multi-2 entry. QSL via ZS6DXB. Further info can be found at www.zs6dxb.bravehost.com/ and also on QRZ.com. [NG3K]

01/06/2008: Just to inform that it's still in an early stage of planning but a team has been assembled! The Isle of Rockall (EU-189) will be an Island On The Air for a couple of days in June, 2008. Colin/MM0NDX started with the idea just recently! For more details and info, check the website at: eu189.bravehost.com/ . At the moment the Team consist of Niko/DD1MAT, Christian/EC3ADC, George/EC2ADN and Colin/MM0NDX. Any more takers? :-) [4X4-2238]

From: Tom Wylie
Topic: 5864 Message: 5864

Ronald PA3EWP, Flo F5CWU and Tom GM4FDM will mount an
expedition to Brunei Darussalam between the 4th and 18th
November 2007.

They will leave London on 3 November returning from Brunei
on 19th November.

Callsigns will be PA3EWP --- V8FWP ---QSL via PA7FM
F5CWU ---- V8FWU ---QSL via F5CWU
GM4FDM --- V8FDM ---QSL via GM4FDM.

Operation will take place on all bands from 160m - 10m
conditions permitting. Operations will take place on CW,
SSB and RTTY.

Special attention will be given to the low frequency bands
160m - 30m. Special attention will be given to Western
Europe and the USA. We shall be using at least one beam
antenna along with verticals and dipoles. All operators
have much experience of Expedition operation.

Depending on internet availability we shall try to maintain
on line logs at a web-site yet to be established. The web
master will be Dennis PA7FM - http://www.pa7fm.nl/

Hi Jim,
Don't be alarmed, it is just a "power" thing.
The older you get the more you have to check to
see if you still have the power!!! If you don't
have the power over anything, it means you are
still married or have a ticket to the great beyond. :-D
Try it now Jim, I found the problem and fixed it.

GOWIN, QSL MANAGER SEARCH PROGRAM

Hello friends

I had a fine QSO with our friend Mike Foikin RW1AI this evening aboard the Akademik Fedorov at 80N 136E. He mentioned that he will be QRV as R35NP from the North Pole-35 ice drifting station on or about September 15th. He CW signal was 599 on 14018 at 0200Z.

Also, I am happy to report that all direct QSLs received for last season's operation as CE8/K2ARB from Punta Arenas and KC4/K2ARB and VP8DKF from Patriot Hills were answered yesterday. Bureau cards are being answered via the bureau.

Revillagigedo, XF4

XE1YK, Carlos, The President of Mexico's FMRE, has announced the dates for
an XF4, Revillagigedo, expedition to celebrate the 75th anniversary of FMRE.
It is a full month long, November 15 - December 15. Paperwork for the
permission will be initiated this week with the callsigns 6E4LM and XF4YK requested.

The operators will focus on 160M and 6M, where they feel XF4 is most needed, but will be on the other HF bands as well, with a goal of 25,000 QSOs. They plan a simple antenna and hundred-watt radio.

Salut les amis
Je viens d'avoir un QSO sympa avec Mike Foikin RW1AI, ce soir. Il est à bord Akademik Fedorov à 80N 136E.
Il m'a indiqué qu'il serait R35NP depuis la station dérivante North Pôle35, le ou vers le 15 septembre.
Je l'ai contacté en CW sur 14018 à 0200Z.

J'informe également que toutes les cartes QSL directes pour (CE8/K2ARB) , KC4/K2ARB et VP8DKF depuis Patriot Hills ont eu leur réponse envoyée hier. Les cartes bureau sont en cours.

Ciao!

Just short info for all you guys. I might be on the air as OF10TA, yes OF as prefix.. From Luonnonmaa isl. EU096. HF, 6m and maybe 2m.
If on 2m then also on FSK.
But other bands on SSB only.
Dates will be 1-2.09.2007.

QSL via OH1MN.

But as it will be a field day, all this depends on WX condx.
Hope it will be nice and good.

Keep an eye on the clusters, see you there!

Update from Osten SM5DQC?

I have been thinking (it happens?) and I am going to upload the 9Q1EK and 9Q1TB logs to LoTW. I will also continue to upload new logs I receive for those two stations as I receive the updates, which is usually about once a week. There is a reason for not uploading earlier: I have worked almost all the DX there is to work, and as my XYL for 40 years passed away in cancer October 28th 2002 I wanted to have something to keep me occupied.

IF you don?t find your call in the LoTW, please e-mail me as it can very well be a ?busted call? which often happens due to the QRN in Kinshasa. All the best to all of you and my apologies to those on LoTW who have already spent money for the cards - should you however want paper QSL?s I will of course continue with those.

I have also uploaded the logs for my own calls ZK1EQL (2002) and CU2/SM7EQL (2005). Osten also reports that he has some paper logs for 8Q7CH and ZF2QL which are hard to read, and just MAYBE one day he will be able to upload them as well? No promises here though.

Bill,

For the purpose of bringing the announcement in the ADXO bulletin, I wish to
inform you, that I have received my license to operate from Bhutan during
the month of May 2008.

My license to operate as A52TL is valid for the duration of visit to Bhutan
ending May 30th.2008.
I shall take off from Copenhagen mid April to Nepal (Kathmandu) and go from
there to Bhutan arriving May 2, 2008
attending some of the inauguration ceremonies of the new King of Bhutan.

I shall be QRV in the CW mode mainly (almost exclusively) on most bands
including 160 , 80 and 40 meters.

I will notify ARRL and aim at setting up an account with LoTW for
alternative QSL-ing.Otherwise QSL through my homecall.

Hello Folks,

This weekend, 1st September, is the 'Broad Island Gathering' at Ballycarry, in Northern Ireland.

This has become an annual 'Special Event' for the COBRAS, using " GB5BIG ".

My fellow COBRAS members will be setting up the station in their new club caravan and assembling the antennas on Friday night. So you may also hear a few test calls that evening. The station will hopefully be open to the public from 10:00am on Saturday morning.

The COBRAS Club " GI2BX " is affiliated to the ISWL, so if worked or heard, this callsign will count for the ISWL's Monitor award.

If you are in GI'land this coming weekend?, why not drop into this show and take your family with you. A warm welcome awaits you

I.C.P.O. Bulletin (August 30 - September 07, 2007)
Islands, Castles & Portable Operations.
Listing is by calendar date (day/month/year)
==========

30/08/2007: Team RK3ZWB will be active August 30th as RK3ZWB/p from RDA District BO-21 (Novooskol'sky), Belgorodskaya oblast (BO). QSL via home call, direct or bureau. [RX3RC]

31/08/2007: Geza, HA4XG will be on family holidays to Greece between August 31st and September 14th. First they will be on Corfu (Kerkyra) Island (EU-052, MIA MG-055, WLOTA LH-4132, WW Loc. JM99WR) from August 31st to September 6th. Geza will be operating on HF+6m+2m as J48XG and SV8/HA4XG. He wants to seek the best position on 2m, so he can possibly work from his car. He will participate in the IARU VHF Contest (September 1-2nd) and will also work some MS. From September 7th to 14th they will move to Amaliapoli (WW Loc. KM19KE) in Thessalia, near Volos. The call signs will be J44XG and SV4/HA4XG on HF+6m+2m. There are good possibilities to plant many antennas on the flat roof. In morning and evening (local) time we can catch him on CW and 2m MS (363 1st random only). The rig are IC-746 DunaX verticals, preamp on 2m, and 10 el. DK7ZB Yagi. QSL via Hungarian QSL bureau or direct to his QRZ.COM address. [HA0HW]

31/08/2007: Nobi, JA1JCF will be going to Horn Island (OC-138) in Queensland, Australia, August 31st to September 2nd. The call sign will be VK4JCF. QSL via the JARL bureau or direct. Cards should not be sent to the VK bureau. This activation is not very certain. There may be unknown local difficulties at the planned QTH. Operating time will be limited because of sightseeing. CW mode on 30/20/17m bands will be used, if he is QRV. [JA1JCF]

31/08/2007: Steve, VE2TKH (VO2ZT) will be in Labrador City from August 31th to September 4th 2007 for Zone 2 activation with the call VO2ZT. QSL card is via VE2TKH, direct or bureau. Mainly CW operation with some SSB possible depending of propagation conditions. Steve will be operating from the VO2WL Club Station with TH7 Yagi, 40 M yagi, 30, 17 and 80 dipoles. Rig IC 756 with ACOM 1010 800 watt amplifier. [NG3K]

01/09/2007: Mladen, 9A2NA, will activate Korcula Island (EU-016, ACIA IC-767, CIA-19, IOCA CI-041, MIA MC-163, WLOTA LH-1315) from September 1-10th. Activity will be on SSB and the HF bands. Also, he plans to activate two new IOCA islands: Cerin and Prznjak Mali. He will use a FT-897 and vertical/dipole antennas. [OPDX]

01/09/2007: Niko, DD1MAT will be active September 1-15th as 9A/DD1MAT from Dugi Otok (Island) (EU-170, ACIA CI-367, CIA-10, IOCA CI-018, MIA MC-074, WLOTA LH-2375). Look for activity around the usual IOTA and island frequencies. QSL via home call, direct or bureau. [RSGB IOTA]

01/09/2007: Look for Philippe, F5IYJ/p to be QRV September 1st from the Castle of Rouvres en Plaine (DFCF 21-047), Department Cote d'Or (DDFM 21), Province of Burgundy (DPF 05). Activity is planned for 80m then 40m (A1A and F3E). The report will be available on f5iyj.com and the log on line on /hamlogs.net [F5IYJ]

01/09/2007: François/F5JNE and Claude/F5MCC will be QRV September 1st as F5JNE/p from the Castle of Flée (DFCF 21-060), located in the canton of Semur en Auxois (DDCF 21-33) and city of Flée (CP 21140). QSL via home call, direct or bureau. [F5NQL]

01/09/2007: Jacky, F5OGC/p will be QRV September 1st from the Castle of Lassay (DFCF 72-056), on the commune of St Michel de Chavaignes. He will start around 0700z on 80m, then QSY to 40m SSB. QSL via home call, direct or bureau. [Radioamateur.org]

01/09/2007: J-François, F8BMN will be active September 1-7th, mornings and evenings, as F8BMN/p from the Fort of Kernavest (DFCF 56-034), located in the city of Quiberon (CP 56170, DDCF 56-30, WW Loc. IN87GL). Activity will be mainly on 80m, with the possibility of 20 and 40m. QSL via home call, direct or bureau. [F5NQL]

01/09/2007: Bernardo, HB9ASZ, will be active as F/HB9ASZ/p from the Island of Brehat (EU-074, MA-012 for the French Islands Award, WLOTA LH-2010) in Brittany, France, between September 1-22nd. Activity will be CW only with a very modest station (100w and a multiband-dipole). His operation will be mostly in the evenings since it is a family holiday trip and he reports that he favors 30m. [OPDX]

01/09/2007: Giovanni, IZ2DPX and Flavio, IW2NEF will be active as HB0/IZ2DPX and HB0/IW2NEF from Malbun, Liechtenstein, September 1-3rd. They will be QRV on HF as well as 2 metres and possibily 70 MHz. QSL via home calls, direct or bureau. [425 DX News]

01/09/2007: Marco/IK1RAE (10, 12, 15, 17, 20 and 40 metres) and Max/IZ4JMA (80-6 metres SSB, RTTY and PSK31) will be active as IL7/homecall from San Domino (IIA FG-001, MIA MI-085, WLOTA LH-1284), Tremiti Islands (EU-050), between September 1st and 8th or 9th. Depending on local conditions, they might go and operate from other nearby islets. [425 DX News]

Hello Folks,

Several people have asked me in recent weeks, if I have any knowledge of the "RSQ" signal reports, that are being given out during some Digital QSO's. I have heard these reports,

but had no explanation to give.

.....Well I do now!. RSQ (Readability, Strength, Quality) as a replacement for the traditional RST report.

An email received via the RTTY reflector this evening, was answering a query from a list member and pointed him to the following webpage:

http://rsq-info.net/ with the explanation that:

The RSQ format has been approved for digital modes by regions 1 and 3 of the IARU. It started out primarily for PSK but can be used for reporting most digital modes.

Check out the above link for comprehensive details.

5881. T32GW - Christmas Island

US hams to set-up medical emergency comms on Christmas Island

A pair of United States hams are heading off to Christmas Island on a mission to establish medical emergency communications on that remote island.

Making the almost 8000 mile trek are Texas businessman /*Carlton Smith, KE5EUL*/ and 2006 Radio Amateur of the Year /*Gordon West, WB6NOA*/. West says it’s a voyage well worth making:

West: "We found out from those on the island that they needed eyeglasses. They needed medical supplies, and they needed a lot of medical type equipment for their small hospital and their outlying clinics. As a humanitarian effort, another friend and I are going over there to help them to set up their communications, as well as to add to what medical supplies they already have on hand."

West and Smith will depart on Monday, October 2nd and should be on the island by the 3rd in United States time zones. The pair will set up a new non-ham radio, solar powered short range radio communications system to link the atoll's only small hospital to three very remote clinics on the Island. They will also put in a High Frequency SSB system operating from the same hospital to Fanning Atoll and Washington Island. Both are several hundred miles to the North. Smith says that these system will fill a critical communications need:

Smith: "Gordon and I are going to install radios -- SSB Marine radios -- at the very small hospital on Christmas Island and the three outlying medical clinics as well as in a recently donated ambulance so that the nurses on this island at the various clinics can communicate with the doctor at the small hospital."

In addition to the radio gear, Smith and West will also be taking with them close to a thousand pounds of medical supplies and reading glasses that will be distributed to the residents. Providing assistance to the residents of Christmas Island has been an ongoing project for Smith. It began after a cruise he was on made an unscheduled stop at the atoll:

Smith: "About two years ago, my wife and I happened to visit Christmas Island and learned that they were very isolated and quite medically needy. Their central government often does not supply them with any medicines. There are 9000 people living on these three isolated islands of Christmas Island, Fanning Island and Washington Island -- all within a couple hundred miles of one another, but these three islands are collectively isloated from the rest of their country. The capital is

Tarawa which is over 2000 miles away. So these three islands are very isolated and only visited by a government supply ship once every three or four months."

So Smith decided to get his ham radio license as a means of assisting in communications to the island group. In doing so he met West and invited him to join the project. Gordon tells Amateur Radio Newsline that this is work he has done before. In fact, it was a part of his life at a very young age:

West: "Well, I grew up with my parents aboard a boat off Mexico long before Mexico even had phone lines to some of the places we went. I am used to working with those in need of supplies and communications. So this is taking me back probably 50 years from when I was working down in Mexico to now be able to work for this country."

While their primary mission is humanitarian work, West and Smith hope to find time to get on the ham bands and hand out some contacts. They will be there for a week and have been given permission to operate /*T32GW*/ by the Telecommunications Authority of Kiribati. Ham needing a T32 QSL or a contact for the Islands On The Air awards program should keep an ear open for the two operators during evening hours on 14.275. That’s when they will likely be looking for statewide contacts.

West tells Newsline that he will also explore the Pacific tropo ducting VHF/UHF paths that were first observed years ago. He will be on 144.170 MHz , upper sideband , listening for beacon reception of the KH6HME beacon several thousands miles to the North . QSL your contacts with WB6NOA and KE5EUL at their respective callbook address.

Damn, I wish submitters would start putting dates on the
materials. Looks like I will have to research all the stuff
that is sent to me.

This is getting worst than Qsl Manager routes!!!

T32GW should be active now till the first week in Nov.

Bonjour à tous
Communiqué de presse

Bonjour les amis.
Des radioamateurs US vont établir le réseau de communications d’urgence sur l ’île Christmas.

Deux amateurs américains partent pour Christmas . Ils se sont donnés pour mission l’établissement d’un réseau de communications d’urgences médicales, sur cette île éloignée.

Sont de ce périple de plus de 8000 Km, l’homme d’affaires texan *Carlton Smith,
KE5EUL*/ et le radio amateur de l’année 2006, Gordon West, WB6NOA*/.

West dit que c’est le voyage qu’il devait faire.

West: "Outre l’action humanitaire, et l’apport de médicaments et autres aides matérielles au petit hôpital, et à la clinique, un ami et moi-même sommes de l’affaire pour les aider à mettre en place le réseau de communications d’ urgence.»

West et Smith partiront le 2 octobre et devraient arriver sur l’île le 3. Les amateurs installeront une station (hors bandes amateur, alimentée par panneaux solaires, pour relier sur les iles cet hopital et trois petites cliniques dispersées. Ils mettront également en place une station HF/SSB, en liaison avec l’atoll de Fanning et lîle Washington Ces deux îles setrouvent à olusieurs centaines de miles au nord de Christmas. Smith assure que ces isntallations vont combler un vide criard en matière de communications.

Smith: "Avec Gordon nous installons la radio – ce sont des SSB Fréquences marine - ainsi l’hoîtal les cliniques, de même que les infirmières qui se déplacent en ambulance sur le terrain, pourront communiquer avec le médecin, en poste à l’hôpital.

En plus du matériel radio, Smith et West, apporteront des centaines de kilos de médicaments et de paires de lunettes, qui seront distribués aux résidents.
Ce projet était cher à Smith, depuis qu’u bateau sur lequel il se trouvait fit une escale forcée sur l’atoll.

Smith: " il y environ deux ans avec mon épouse , il nous arriva de visiter cet attoll. Nous découvrîmes combien la couverture médicale y était quasiment absente. Le Gouvernement central, ne fournit pas le plus souvent l'assistance médicale dont l'atoll aurait besoin.
Il y a environ 9000 habitants répartis sur ces trois îles isolées que sont Christmas, Fanning et Washington, toutes séparées les unes des autres par environ 200 miles , mais elles sont très isolées du reste du pays. Tarawa , la capitale est à plus de 2000 miles de là. Les envois gouvernementaux se font par bateau, trois ou quatre fois l'an.

A côté , Smith a pris sa licence radio amateur comme moyen de communication en assistance pour les communications inter île.
Gordon, indique qu'il a déjà fait ce job dans sa jeunesse.

West: " J'ai grandi avec mes parents à bord d'un bateau, au large du Mexique, bien avant que le téléphone n'y arrive partout. J'ai donc eu l'habitude des manques de communication et privations ; ceci me ramène 50 ans en arrière, quand je travaillais au Mexique.
Pendant que se déroulera cette première mission humanitaire, West et Smith, espèrent trouver le temps d'apparaître sur les bandes et faire quelques QSO.
Leurs indicatifs seraT32GW*/, indicatif délivré par les Autorités de Kiribati.
Ceux qui ont besoin d'une QSL de T32 pour le IOTA ou autre diplôme écouteront avec attention le soir autour de 14.275.

West indique qu'ils exploreront aussi le Pacific tropo en VHF/UHF , sur 144.170 USB, fonction de la réception de la balise KH6HME située plusieurs centaines de miles au Nord.
QSL via HC de WB6NOA et KE5EUL.

Hi folks,
I have just finish working on adding the LOTW list that I have been keeping since the start of LOTW at ARRL. I have now made it a part of the weekly data file downloads. Now when you enter a call sign in GOWIN or your log book, it will display LOTW, if that call is in the database. This will now make this list a useful tool without any work on your behalf. I have tested it with GoWin and WIN EQF and it is working perfectly in these programs. If you have a problem in your logging software, let me know. A screen shot will be useful. I will try and find a fix for any problem.
If other third party programs have problems with the new data file format, then I will have to remove it from the files. I probably will produce it for WIN EQF only at that point. Hopefully all loggers will display the info correctly.
If no problems are reported after a week or two, then I will discontinue the LOTW LIST in pdf format.
Please send me your feedback.

There will be a special QSL available for stations that work K4AF. The QSL manager for the club, including this special event is Claude Hennessey, KG4TVN-at-K4AF.org. In addition, club members will also operate from the station on Tuesday, September 11th as part of the commemoration. Please QSL direct to the following address: K4AF (9-11 Special Event), P.O. Box 2322, Arlington, VA 22202 U.S.A. [Southgate ARC]

11/09/2007: Robert, W2IK, will again be operating special event station W2IK/WTC911 on September 11th, from 1300-0300z (9:00 AM-11:00 PM EST). He states that activity is "IN HONOR OF THOSE WHO LOST THEIR LIVES DURING THE WORLD TRADE CENTER DISASTER. HE WILL BE USING HIS PERSONAL CALL BECAUSE IT WAS THE FIRST CALL THAT WAS SENT FROM 'GROUND ZERO'." Look for activity on the upper portions of 40, 20 and 15 metre SSB. QSL by sending a 9x12 SASE to the QRZ.com address of W2IK: PO BOX 6731, San Antonio, TX 78209. A special QSL certificate has been printed. Visit the following Web site to see W2IK's entire story: hometown.aol.com/realhamradio/ [OPDX]

14/09/2007: ARI Frascati members will operate as II0ERN from September 14-30th. The special call sign is for the second edition of the European Researchers' Night, that will take place on the 28th. QSL via operators's instructions. [425 DX News]

5898. NEW DATA FILES AND REPORTS UPLOADED TO WEB

The SEPTEMBER ISSUE #709-A files have
been uploaded to the Golist web site.
Starting with Issue 709-A, the weekly GoData
files will include the LOTW information from my
weekly list. In future Issues, I plan to incorporate
the DXCC APPROVED list as well.
Use the DOWNLOAD button in your GOWIN
program or this link in your web browser.

Is anyone having display problems with the latest data file
that now has LOTW information included in the data?

I seems to be working just fine with GOWIN, WIN EQF, DXBASE.
There is a call book issue with DX4WIN, but that must be due
to the way DX4WIN sends the call signs to the call book routine.
Any others?

What do you mean by "latest version"? I have not seen an issue yet this week.

I can try DX4WIN when I get home tonight. I am more than a little behind in
QSLing.

Thank you Don for that info. It seems that only one logging program
is having a problem with the LOTW in the manager field. When the
station entered in the log book call box does NOT have a manager, but
puts their logs on LOTW and I have that info, DX4WIN then trys to look
up LOTW in the call book. It then finds a partial and gives incorrect
info for the managers name call sign and address. LOTW in the manager
field does not prompt a call book lookup or display in WIN EQF and most
other programs that have been reported to me..

5910. VANITY CALL SIGN FEE DECREASE

Yahoo group: GOLIST (2007 — 2010)
Date: 2007-09-08 08:58:29 UTC
From: K1XN
Topic: 5910 Message: 5910

FCC TO LOWER VANITY CALL SIGN FEES SEPTEMBER 17

The FCC will reduce the regulatory fee to obtain or renew an Amateur Radio vanity call sign by more than 40 percent starting September 17. In a Report & Order (R&O) released August 6, "Assessment and Collection of Regulatory Fees for Fiscal Year 2007," in MD Docket 07-81, the Commission will cut the fee from its current $20.80 to $11.70. This marks the lowest fee in the history of the current vanity call sign program. The FCC is authorized by the Communications Act of 1934 (as amended) to collect vanity call sign fees to recover the costs associated with that program. The vanity call sign fee has fluctuated over the 11 years of the current program -- from a low of $12 to a high of $50. The FCC says it anticipates some 14,700 Amateur Radio vanity call sign "payment units" or applications during the next fiscal year, collecting $171,990 in fees from the program.

The vanity call sign regulatory fee is payable not only when applying for a new vanity call sign, but also upon renewing a vanity call sign for a new term. The first vanity call sign licenses issued under the current Amateur Radio vanity call sign program that began in 1996 came up for renewal last year. Call signs issued prior to 1996 are not considered vanity call signs, even if the holder was able to request a specific call sign.

Amateur Radio licensees may file for renewal only within 90 days of their license expiration date. All radio amateurs must have an FCC Registration Number (FRN) before filing any application with the Commission. Applicants can obtain an FRN by going to the ULS <http://wireless.fcc.gov/uls/> and clicking on the "New Users Register" link. You must supply your Social Security Number to obtain an FRN.

The ARRL VEC will process license renewals for vanity call sign holders for a modest fee. The service is available to ARRL members and nonmembers, although League members pay less. Routine, non-vanity renewals continue to be free for ARRL members. Trustees of club stations with vanity call signs may renew either via the ULS or through a Club Station Call Sign Administrator, such as ARRL VEC.
License application and renewal information and links to the required forms are available on the ARRL Amateur Application Filing FAQ Web page <http://www.arrl.org/FandES/field/regulations/application-filing-faq.html>. The FCC's forms page <http://www.fcc.gov/formpage.html> also offers the required forms.

If someone has the GO709.EXE or GO709.ZIP file and can send it to me,
please contact me off-reflector. I can not receive .EXE attachments
unless they are renamed or ZIPped first.

Hi friends

From his F6KOP ARC friends:

We inform you, with sadness of Gilles Simeon, F5PVF's passing on Sept 7th.

Gilles was expecting to be retired soon.
Among his survivors, are his spouse and his son Gaël, F8BJT.

Gilles was for years, the discreet, but so efficient secretary of the Radio
Club de Provins, F6KOP.

When F6KOP was preparing their DXpedition 5V7C, 5H1C, TO7C, XT2C, Gilles
was ever there and always ready to help and give his skills. We miss him a lot.

RIP Gilles

C'est avec beaucoup de regret que nous avons du annuler le voyage à l'île Mohawk sur le lac Erié. Ce n'estque partie remise. Les conditions météo et les vagues très hautes de même que les très forts orages annoncés, nous ont obligés à rester chez nous. Sécurité d'abord!

Hi folks,
In next weeks data file GO709-B, I will have added
DXCC APPROVED dxpeditions. This info comes directly from
the DXCC desk. DXCC will appear in the manager field of
the data for those stations that have been approved and
a notice sent out by the DXCC desk at ARRL.
Note* The DXCC desk does not send out notices for all
DX operations. Therefore many listed DX stations are approved
but not specifically indicated as such. However, most all of the
major DXpeditions will have approval by DXCC acknowledged by
the DXCC desk. These will appear in the Golist database as they
occur.
Hope that this feature is helpful to you.

PRESS RELEASE

September 10, 2007

MARKET REEF, OJ0B CHALLENGING THE ROUGH SEAS ONCE AGAIN

The August 2007 outing to Market Reef, OJ0B was designed to decorate the lighthouse with powerful antennas that can only be hoisted in good weather conditions. The group was successful, and in addition to making more than 13.000 QSOs a SteppIR beam plus an assortment of wire antennas were mounted at the light.

The newly composed group of OH0RJ, OH2BH, OH2MM, OH2PM, OH7EA and OH8NC are at it again and they plan to be operational from September 15 until September 24, including both Scandinavian Activity Contests, with three stations. Now they have more flexibility since they have a resident helicopter at their disposal.

Outside of the contest their frequencies are as follows:

CW: 3523, 7023, 10113, 14033, 18083, 21033, 24903 and 28033 KHz
SSB: 3775, 7075, 14175, 18135, 21275, 24960 and 28475 KHz

Once again, if you are a stamp collector or wish to receive your QSL card with unique Market Reef stamps, you may send an SASE with 7 Euros (10 USD) as your postage/donation to the Finnish Lighthouse Society via QSL manager OH2BH.

If you wish to tour the Reef in the spirit of adventure, you may follow in the footsteps of the August 2007 and November 2005 OJ0B activities:

http://sm0w.com and www.kolumbus.fi/oh2bn/pagemarket.htm

The Finnish Lighthouse Society has been active repairing the lighthouse this summer, and you may wish to follow their activities which include daily reporting and interesting general details.

Hi

From Phil 9Q1TB

This is received thismorning from Phil, 9Q1TB (F5LTB)

Cher Maurice,

Its with a very great sadness I've to inform the Ham community of Osten,
SM5DQC's passing, on September the 6th.

The evening before, we were phoning us about his intention to check his
antennas before winter as he did every year.
For Georges (9Q1EK) and I, he was our so efficient QSL manager.
We are awiting somemore information.

For our hams friends who need them, we are not able to answer the paper QSL
received, until we'll be recovering our logsand cards to transmit them to a
new manager.

Cher Maurice,
C'est avec une grande tristesse que je transmet la disparition, le 6
Septembre dernier de notre ami et qsl manager Osten, SM5DQC, pour Georges (9Q1EK) et
moi-meme.
J'attends plus d'info car la veille j'etais au telephone avec lui ou il
m'informait qu'il avait descendu ses antennes pour verification avant l'hiver
comme il le faisait chaque annee.
Pour le moment nous ne pourrons plus honorer les qsl papiers le temps de
retrouver un autre qsl manager disponible.

Gentlemen
A team of 8 Greek ham radio operators all members of the National Amateur Radio Society (Radio Amateur Association of Greece - R.A.A.G.) are going to activate the Syrian island of Arwad (AS-186) for 10days between November 1 and 15 this year.

The island will be activated for the first time in the IOTA program.
with the call YK9SV.
Special emphasis will be given on the low bands and modes of SSB, CW, RTTY and PSK31. 6M activity is expected if propagation permits.

The team so far consists of: SV1IW, SV1JG, SV1RC, SV1RP, SV1QN, SV1ACK, SV1GYG and SV8CS.

This Dx-Pedition is considered to be very expensive due to the special agreements needed for licensing, transportation, operation costs and support of the local Ham Radio Association.
Therefore we would kindly ask for your help and assistance in order to be able to carry out our goal which is a successful operation. We primarily need amateur gear like radios, amplifiers, antennas, coaxial and / or financial support. In exchange we will put the company's (club or association) logo on our QSL cards. Further promotion will be on our web pages which will cover the event and stay on line for at least 1 year.
There will also be special mention in all articles send to major amateur radio magazines, to mention a few: QST, Radcom, Radio Rivista, CQ DL, Radio REF, 59, Echo Ireland and many others. The story plus many photos will be sent also to major dx associations for presentation to their members and will be also distributed for viewing to major amateur radio events.

Please visit our pages at: http://www.raag.org/arwad. for more information or contact Manos SV1IW.

Thank you in advance for your help
Waiting to hear from you.

Pacific DXpedition to T30/T31 by JA8BMK, Toshi
<http://dx-is.com/news/?p=109>

I just got this from Ken, JA8CDG:

JA8BMK, Toshi , has confirmed his ship passage from T30 to T31.

Toshi will depart from Sapporo Japan 23 Sept. and arrive in Fiji 08:00
24 Sept then arrive in T30 25 Sept.

After 10 days of T30 operating he will depart by ship to T31, a 5 to 6
days voyage.

He will operate in T32 about 2 weeks.

His 2 HONDA 900W generators,foods, equipment and antennas already have
reached T30 Tawara.

In addition to CW and Phone he will try RTTY and psk31. He also has
80/160 antennas.

Equipment:
IC-7000, TS-480HX, 650W output Liner,
4 el HB9CV, Dipole for low band
160m vertical
6m 4el HB9CV (100W)
80,75,40,m Dipole and vertical
20,15,10 m 4el HB9CV
30,17,12 m Rotary Dipole

No on line logs.
QSL to JA8UWT direct only
Donations are welcome.

I am playing catch up on my QSLing. Recently I saw where a VE station, who was a manager had listed the Canada and USA to send SASE and all others send 1 IRC. So my question is does that mean if I send him an SASE with a US stamp on it he can mail it back? If not I assume a green stamp would be enough, correct?

Some guys are close to the US border, or have a way to get mail over the
boarder and dropped into a US post box.

$1 will more than cover return postage from Canada.

Activity will most likely be on 40 and 20m SSB. QSL via home call, direct or bureau. [F8CKS]

15/09/2007: Freddy, F5IRO has received his 4 months assignment to Papeete, Tahiti (OC-046, DIFO FO-002, WLOTA LH-0885, French Polynesia. He will be there until mid January 2008. He will use the call sign FO5RU and will pick up his new license as soon as possible when he arrives, but he could be heard as FO/F5IRO, while waiting for it. The first signals are expected on September 15th or 16th. Freddy will be active in his spare time, on all HF bands, using CW, SSB and RTTY. QSL via Rafik, F5CQ either direct (SASE + Postage) or via the French REF-Union bureau (please only this bureau). Other information and online log on Rafik's page at: www.f5cq.net/dxp/2007-FO5RU/fo5ru-fr.htm [F5NQL]

15/09/2007: The August 2007 outing to Market Reef (EU-053, ARHLS MAR-001, TWLHD WLH 0J0-001, WLOTA LH-0542, WW Loc. JP90NH), OJ0B was designed to decorate the lighthouse with powerful antennas that can only be hoisted in good weather conditions. The group was successful, and in addition to making more than 13,000 QSOs, a SteppIR beam plus an assortment of wire antennas were mounted at the light.
The newly composed group of OH0RJ, OH2BH, OH2MM, OH2PM, OH7EA and OH8NC are at it again and they plan to be operational from September 15 until September 24, including both Scandinavian Activity Contests, with three stations. Now they have more flexibility since they have a resident helicopter at their disposal. Outside of the contest their frequencies are as follows - CW: 3523, 7023, 10113, 14033, 18083, 21033, 24903 and 28033 KHz; SSB: 3775, 7075, 14175, 18135, 21275, 24960 and 28475 KHz. Once again, if you are a stamp collector or wish to receive your QSL card with unique Market Reef stamps, you may send an SASE with 7 Euros (10 USD) as your postage/donation to the Finnish Lighthouse Society via QSL manager OH2BH.
If you wish to tour the Reef in the spirit of adventure, you may follow in the footsteps of the August 2007 and November 2005 OJ0B activities: sm0w.com and www.kolumbus.fi/oh2bn/pagemarket.htm

The Finnish Lighthouse Society has been active repairing the lighthouse this summer, and you may wish to follow their activities which include daily reporting and interesting general details (www.lighthousesociety.fi/eng/).
See the report from Market Reef as of September 4, 2007: www.lighthousesociety.fi/eng/market/market_diary/diary_040907/ . Two photos are attached.

SM5DQC, Osten Magnusson, has become a Silent Key at the age of 67. He passed away Friday September the 6th at his home. Osten was a longtime subscriber to the Daily DX, a major source of DX news for us, a great history reference and a good friend to many, including to W3UR. The ARRL's DXCC Manager, NC1L, Bill, says Osten joined DXCC in 1967 and has been very active ever since. Osten was appointed a DXCC card checker in November, 2000 and has been, says NC1L, one of the more active European checkers. Osten was #1 Honor Roll for both Mixed and Phone, CW Honor Roll, and needed just one, P5. He had DXCC on all bands 160-10M and 5BDXCC. NC1L says, "When an issue stumped the DXCC guy, Osten always came to the rescue!" SM5DJZ, John, will carry on with the DXCC program for Swedish hams. The two had divided this task. But, John notes that Osten was QSL manager for some 9Q stations - he doesn't know who will pick up that task. [The Daily DX]

Bands:
3,5 - 7 - 14 - 21 - 28 MHz bands may be used according to IARU HF Band Plans.
Operating Frequency suggestions Low Band SSB: 7040-7090, 3600-3650 and 3700-3790 kHz.
(Avoid operating on 7090-7100 and 3790-3800 kHz). (NB: 3560-3600, 3650-3700, 14060-14125 and 14300-14350 kHz to be kept free from contest traffic).

Contest Exchange:
The contest exchange consists of RS(T) plus serial number starting with 001 (e.g. 59(9)001).

Scoring:
Two-way QSO with sent and received exchange counts for QSO-points.
EUROPEAN stations credit their logs with one (1) point for every complete Scandinavian QSO on each band.
NON-EUROPEAN stations credit their logs with one (1) point for every Scandinavian QSO on 14, 21 and 28 MHz and with three (3) points for complete QSO on 3.5 and 7 MHz bands.

Multipliers:
Worked call-number areas (Ø-9) in each Scandinavian country are valid as multiplier on each band.
(e.g. SI3, SK3, SL3, SM3, 7S3 and 8S3 are all in ONE district and counts ONE (1) multiplier on each band).

WELCOME!

Actually John, no problems. I think putting the DX station's call first, before the LoTW or DXCC Approved info gets around the DX4WIN issue with the previous GOLIST version. However, I saw this example from my log:

GoWin QSL Manager List, Issue 709, SEPTEMBER-14-2007
VE3CX

I looked up VE3CX in my log, who I have confirmed by LoTW. GOLIST does not say anything about this, just feeds back the callsign as the manager (i.e. VE3CX via VE3CX). Is this not in your LoTW database? I'm having problems finding a call in my log that was confirmed by LoTW but does not have a QSL manager! Unless this is one example, and the LoTW info from GOLIST isn't coming out right. Here are some other calls to check (that do the same thing):

DJ4SO
I3FIY
GM3YOR

3Y0X might be a better example:

Thanks Jim, I will do so checking. There will be some records
of stations that do Not have a manager, but will be on LOTW.

I will look at the other examples.

Jim,
In checking numerous call sign with my database, GOWIN
and WIN EQF, I am seeing these results:

calls without multiple records do not display in the
log book search (WIN EQF shows them as DIRECT)

All calls display all instances when using GOWIN.

Calls with multiple records show all records with the
Qsl Manager display as primary.

Jim, I am not sure why the loggers do not pick up
the single (non qsl manager) record. I am not sure
whether this is a bad or good thing. Whatever is preventing
the loggers from displaying the LOTW/DXCC records for calls
without "real" managers seems to do it with yours and my
logger. GOWIN displays all records each time.
If the dx call is the same as the qsl manager, the lookup
fails in the logger but not in GOWIN.
Not sure what it will take to make a logger to do right?
John K1XN

Work with your logging program author to narrow down the program. I
don't think the DX4WIN guys have any bandwidth right now.

STILL ON HOLD IN ALAND ISLANDS The planned DXpedition for the past
weekend's Scandinavian Activity Contest got stuck due to bad weather and
is still stranded at the westernmost end of Aland Islands. Also, the two

SPECIAL EVENTS: JOTA 2007 - OCTOBER 20 - 21

The 50th anniversary of scoutings Jamboree on the Air or JOTA is coming up in October. The dates this year are October 20th and 21st.

JOTA is the largest official scouting event in the world with an expected 500,000 participants. It is also open to both Boy and Girl Scouts, making it one of the few joint events between the two scout

organizations, and one of the few internationally sponsored events.

Ham Radio has always been an important aspect of JOTA. To find your nearest local council, go to _www.scouting.org_ (http://www.scouting.org) or _www.girlscouts.org/councilfinder_ (http://www.girlscouts.org/councilfinder) to locate your nearest boy or girl
scout council. If they have no ham radio station planned, you might want to think about volunteering your time and gear to bring one on the air.

More about the Jamboree on the Air is on-line at _www.scout.org/jota_ (http://www.scout.org/jota) .
And listen for a special JOTA 2007 preview in coming weeks with Mark Abramovich, NT3V, right he on Amateur Radio Newsline. (RSGB, ARNewsline)

Amateur Radio Newsline Report 1570 - September 14, 2007

HAM RADIO IN SPACE: THE SAGA OF AO-7 CONTINUES

Like a Timex watch, its still ticking. Of coarse we are referring to the AO-7 ham radio satellite which was one of the earliest birds that radio amateurs had to work with. Amateur Radio Newsline's Fred Vobbe, W9HDU, takes a look at this aging but still operational ham radio miracle on orbit:

--
The Amsat OSCAR 7 ham satellite was launched on November 15, 1974 on a Delta rocket from Vandenberg Air Force Base, Lompoc, California. It initially stopped transmitting in 1981 after a battery failure. But it sprang back to life on June 21st 2002. Since its miraculous emergence from the long term battery problem, AO-7 has been an available to use.

SSB in Mode A is the normal with several QSO's able to take place at a time. Mode A uses an uplink from 145.850 to 145.950 MHz and a 10 meter downlink of 29.400 to 29.500 MHz . This transponder is linear, non-inverting.
:
Numerous reports of its switching between mode A and B have been verified. Mode B uses an uplink og 432.125 to 432.175 MHz and downlinks on 145.975 -through 145.925 MHz. But there is aa bit of a problem in using Mode B. Due to changes in Amateur Service and Amateur Satellite Service there are questions as to legality of Amateurs transmitting to AO-7. The uplink frequency predates the WARC '79 allocation of 435 to 438 MHz by the International Telecommunications Union for the Amateur Satellite Service. This puts the uplink in 70cm weak signal segment. Potential users should realize that when they are uplinking Mode B to a satellite, they are no longer operating in the Amateur Service but instead operating in the Amateur Satellite Service. Thus they are subject to Amateur Satellite Service rules. Therefore

uplinking to AO-7 is possibly illegal since the Amateur Satellite
Service is not permitted at 432.1 MHz.

But in Mode A, the AO-7 the satellite has a much larger footprint than
AO-51 and is in view much longer. It also requires some of the
simplest gear of any ham radio bird currently in flight. Equipment
that you will find in almost every hamshack, world-eide.

For the amateur radio Newsline. I'm Fred Vovve, W8HDU.

Bonjour à tous:

MARKET REEF, OJ0B toujours planifié:

L’expédition prévue pour le week end dernier et notamment pour le SAC contest a été annulée à cause de la météo. Il sont toujours en rade aux Aland. Des essais de débarquement ont eu lieu sans succès.

_http://www.lighthousesociety.fi/eng/market/market_diary/diary_140907/_ (http://www.lighthousesociety.fi/eng/market/market_diary/diary_140907/)

La prochaine tentative de débarquement aura lieu le 18/09 vers (05.00 UTC) quand le temps plus calme promis coïncidera en principe avec une mer plus calme.
Le rapports météo de Market Reef peuvent être suivis en temps réel sur :

_http://www.ilmatieteenlaitos.fi/saa/paikalli_4.html_ (http://www.ilmatieteenlaitos.fi/saa/paikalli_4.html)

Si les relevés de vent de la Station 22 (première colonne) sont au Nord ("pohjoinen", dans la troisième colonne) , avec une vitesse supérieure à 22.4 mph ou 19.4 noeuds (quatrième colonne), il n’y aura pas de débarquement.
Ce seront les seules annonces en temps réel qui seront diffusées.

Nous sommes en très mauvaise saison.

Si le débarquement peut avoir lieu, ils trafiqueront en principe jusqu’au 24/09.

Croisons les doigts.

Radiuo amateurs et Espace – La saga d’ AO-7 continue.

Comme une horloge, il esttoujours là
Nous nous référons bien sur au satellite amateur AO-7, qui fut l’un des premiers lancés pour les radioamateurs.
Extrait du Amateur Radio Newsline de Fred Vobbe, W9HDU, prenez quelques minutes et rendez vous compte de ce miracle en orbite.

--
Le satellite de l’Amsat OSCAR 7 a été lancé le15 novembre 1874 par une fusée Delta depuis la base californienne Vandenberg de l’US ir Force, de Lompoc.
Il devait normalement cesser de fonctionner en 1981, après l’épuisement de ses batteries.

Il a pourtant repris vie le 21 juin 2002.
Depuis ce miraculeux retour à la vie, après des problèmes de batterie si longs, AO-7 est toujours actif.

SSB en Mode A est la normale avec plusieurs QSO simultanés possibles.
Le mode A utilise une montée sur 145.850 à 145.950 MHz et une descente sur 10 mètres entre 29.400 to 29.500 MHz . Le transpondeur est linéaire, sans inversion.

De nombreux reports de sa commutation entre mode A et B ont été vérifiés. Le mode B utilise une montée entre 432.125 et 432.175 MHz et redescend entre 145.975 et 145.925 MHz.
Il y a cependant un petit problème en Mode B. A cause des changements de réglementation dans le service Amateur et le service Amateur par satellite, se pose la question de la légalité des transmissions amateur sur AO-7. La fréquence de montée est antérieure au WARC79 et à ses attributions dans la bande 435/438 MHz, par l’ITU, pour le service amateur par satellite.

Ces décisions de 1979 ont rendu illégale l’utilisation du mode B sur 432.1 MHZ, qui est une fréquence non attribuée au service amateur par satellite.

Mais en mode A, la bande est plus large qu’avec le AO-51. Il nécessite un matériel bien plus simple, équipement de base en place dans pratiquement tous les shacks amateur.

For the amateur radio Newsline. I'm Fred Vovve, W8HDU.

News from Democratic Republic of Congo, by Philippe 9Q1TB/F5LTB (some of the info are remainings)

Georges 9Q1EK and myself inform you our qsl manager SM5DQC passed away. Osten became silent key suddenly in the evening of 5th September. Some Hams already proposed to us to take our qsl in charge but we will inform the ham community about the one who will be chosen at the end of the month.
==========

Gus SM5DIC upon his departure from DRC late end of June, let to us his 6m beacon.
As the 2nd yearly period activity is on the way, we' have put the beacon on the 1st September and it will be until end of October. If propagation remains well we'll let it on until end of November.

qrg: 50.020
Call: 9Q1D/B
Pwr: 12.5w
Polar: Vert. (Horiz. en test en ce moment / Horiz. in test actually))
==========

Since the departure of Ghis 9Q1NT/ON5NT and Gus 9Q1D/SM5DIC, except 9Q0AR Kinshasa radio-club, 2 official Hams remain in 9Q-Land and are recognized for DXC - 9Q1EK Georges (VE2EK – ZS1ii – and ex F6EUQ) and myself 9Q1TB Philippe (F5LTB).
All others have no official license under the new rules established by Ministry of PTT late November 2005.
The situation will move-up as some requests are on-the-way and we'll start soon the training of the future trainers in the Ministry of PTT and the twenty or so candidates within the 9Q0AR radio-club.
==========

Many thanks to Patrice F6GCP for updating the good info, as I noticed on the September REF magazine received today, 9Q2DY. It is a callsign for Bas-Congo area but unknown to us. I will investigate at the Ministry and let you informed.
Still doing unofficial qso' is a German guy, "Otto" using 9Q5MO from Bukavu city but for this region following the new plan it is 9Q6. Certainly a license "bought" locally but with no value at all regarding Ministry of PTT thus international Ham community. Bill/NC1L, of DXCC is aware of the situation.

==========

Swiss Castles

Hi Maurice and guys,
DCS members and HB9 friends of the RCL, Radio Club Locarno, will operate on

next Sunday from the ZUG USKA Ham-Fest. Some castles in this area will be aired with Zug references.
On the fest area,will be active a 40 & 20m station, accurate for the DCS-WE2007, , the first Swiss Castles award.
All the contacts will count for the DCS award and even for the USKA H26 award.

stations worked & with Judi & myself being involved there are points available
here.

The GB8 is due to Seething having been a 8th US air force base & the STA is as
we are activating it for Seething Tower Association.

The licence holder is Stuart G7KBF the other operators being Judi 2E0KNE ISWL
G-21159 & myself 2E0LSX ISWL G-21158.

We will be active on HF & VHF & welcome requests for QSL's.

Nouvelles de la RD du Congo par Philippe 9Q1TB/F5LTB (certaines info ont
déjà circulé)

Georges 9Q1EK et moi venons de perdre SM5DQC, notre qsl manager. Osten est
entre subitement dans le monde des Silent Key le 5 Septembre 2007 au soir.
Plusieurs om's se sont déjà proposes pour prendre le relais, nous
transmettrons des la fin du mois de Septembre les infos sur celui qui aura été choisi
pour lui succéder.

==========

Gus SM5DIC upon his departure from DRC late end of June, let to us his 6m
beacon.

As the 2nd yearly period activity is on the way, we’ have put the beacon on the 1st September and it will be until end of October. If propagation remains well we’ll let it on until end of November.

qrg: 50.020
Call: 9Q1D/B
Pwr: 12.5w
Polar. Vert. (Horiz. en test en ce moment /)

==========

Suite au départ de Ghis 9Q1NT/ON5NT et de Gus 9Q1D/SM5DIC, nous ne sommes, hormis le Radio Club de Kinshasa 9Q0AR, plus que deux radioamateurs officiels en 9Q et reconnus pour le dxcc.
9Q1EK Georges (VE2EK-ZS1ii et ex F6EUQ) et moi-même 9Q1TB Philippe (F5LTB).
Tous les autres n'ont pas de licence officielle valide obtenue selon le nouveau règlement de 2005 auprès du Ministère des PTT.
Cette situation devrait évoluer, des demandes sont en cours et nous démarrerons sous peu les cours aux futurs formateurs des PTT ainsi que pour la vingtaine de candidats au sein du radio club 9Q0AR.
Nous vous tiendrons informe de l'évolution la situation

==========

Merci a Patrice F6GCP de continuer a noter les bonnes infos; j'ai noté sur le REF de Septembre reçu ce jour 9Q2DY, indicatif qui devrait correspondre au Bas-Congo selon le nouveau plan; inconnu au bataillon ici mais je me renseigne au Ministère au cas où.
Il y a toujours un dénommé Otto, un Allemand qui officie sous l'indicatif 9Q5MO depuis la ville de Bukavu alors que pour cette région c'est 9Q6.
Certainement une licence "achetée" localement mais qui n'a aucune valeur sur le plan légal auprès du Ministère des PTT et donc sur le plan international.
Bill/NC1L du DXCC est au courant.

==========

D'AUGUSTO, HB9TZA

Hi Maurice et tous les amis,
Des membres du DCS et des OM HB9 du RCL, Radio Club Locarno, seront le Samedi prochain a la Ham-Fest de la USKA, à Zug, et on ira activer des références ZG . A la Ham Fest de Zug on donnera les Diplomes pour le DCS-WE2007, le premier Week-end des Chateaux Suisses.
L'activation (40 et 20m) sera valable pour le DCS et même pour le H26 Uska .

04/10/2007: Operators John/G7HIA and Robert/G8ATE will be using the special callsign GB5OSO starting on October 4th for one month. Activity is to celebrate the 50th anniversary of the launch of the first earth orbiting satellite "SPUTNIK ONE" on October 4, 1957, by the former USSR. It is anticipated that all of the available analogue satellites will be used. A special QSL card will be available after the event, so shake the dust off your satellite gear and join in the fun! [OPDX]

06/10/2007: Members of the Island Hunters Amateur Radio Club will activate K1AN/p from Pomham Rocks Lighthouse (ARLHS USA-643, TWLHD WLH K-126) and Sabin Point Lighthouse (ARLHS USA-715), Rhode Island, on October 6th, between 1500-1900z on 14040-14060 kHz, QRP and CW only. A full-colored QSL is available via W1AL. [OPDX]

13/10/2007: On the 17th of October 1907 Guglielmo Marconi sent his first commercial message from the, then new, station at Clifden, Ireland. This October, in celebration of this historic event, members of the Galway Radio Experimenters Club will be running a special event station from Saturday 13th to Wednesday 17th from Clifden. The club has been issued the call sign EI100MFT for the event, MFT being the last call sign used on the original station. On the Wednesday they will be making a special linkup with the Marconi sister station in Glace Bay, Nova Scotia. Part of this linkup will be an exchange of greetings between President Mary McAleese and Lieutenant Governor of Nova Scotia the Honourable Mayann E. Francis. The group will also be honoured to have Princess Electra Marconi present as she is coming to Clifden for the festival along with an Exhibit from the Marconi Foundation in Bologna. The Galway Radio Experimenters Club will also be presenting a display of vintage equipment. More details on the festival can be found at www.clifden.ie [Southgate ARC]

18/10/2007: Look for Mike, UA1QV to air special event call sign UE1RSP/p on October 18th to celebrate the birthday of Sergei Preminin. The operation will be from the street "Sergej Preminin" in Vologda (RDA district VO-01). QSL via UA1RJ, direct or by the bureau. [F5NQL]

Jamboree On The Air (JOTA) October 20 - 21, 2007 -

The 50th anniversary of scouting's Jamboree on the Air or JOTA is coming up in October. The dates this year are October 20th and 21st.

JOTA is the largest official scouting event in the world with an expected 500,000 participants. It is also open to both Boy and Girl Scouts, making it one of the few joint events between the two scout organizations, and one of the few internationally sponsored events.

Ham Radio has always been an important aspect of JOTA. To find your nearest local council, go to www.scouting.org or www.girlscouts.org/councilfinder to locate your nearest boy or girl scout council.

If they have no ham radio station planned, you might want to think about volunteering your time and gear to bring one on the air.

More about the Jamboree on the Air is on-line at www.scout.org/jota. [Southgate ARC]

...
The good news is that we have some real successes, for example working the US West Coast on 160 at our sunset, and consistent West Coast openings both short- and long-path on 80 and 40. We started RTTY operations last weekend and currently have about 3.5k RTTY QSOs in the log, many stations telling us that 3B7 is new for them on that mode. However, and with some reluctance, we have decided not to work PSK31 as we feel this will very much be a repeat of those stations we have already worked on RTTY (and bearing in mind that the RTTY DXCC does not differentiate between data modes), whereas there is still a huge demand on all the traditional modes. Indeed, this is perhaps the greatest surprise - that with so many QSOs made from 3B7 in recent weeks the pile-ups remain at a very high level when bands are open.

...
We will be very QRV over this coming weekend, trying to work round the SAC SSB contest where possible (e.g. by working RTTY and/or CW on those bands during the 24 hours of the contest). Station break-down will start on Monday 24th, though we will try to keep at least some stations QRV until shortly before our departure for Mauritius at first light on Wednesday 26th (i.e. around 0200 GMT). We have already been making efforts to work US General Class licencees in their limited band segments and will, as promised, be looking for QRS CW stations during the last few days of activity.

Gentlemen,

there is a minor change in our plan to activate Ven Island (EU-137):

It might happen that we can start operating with full power and all antennas
from

the 07th October (Sunday) until 13th October 2007.

On Saturday, the 6th October we will be QRV only with one antenna and maybe
reduced power.

Our desired QTH is available from the 07th only.

We are close to the LH Hakens Fyr - ARLHS SWE-168 (100m distance).

Second change:

DL2RTK will be using SD7T (instead of SE7TK).

Other calls are:

SM7DAY/7 - QSL via SM7DAY

SD7W - QSL via DL2SWW

SD7V - QSL via DL2VFR

All via bureau.

See you on the HF-bands in CW/SSB!

Gentlemen,

Changements mineurs dans nos plans concernant l'île Ven (EU-137):

1er changement :

Il se pourrait qu'on puisse être actifs avec la puissance maximum légale,
avec des antennes en conséquence. Par contre le 6/10, nous aurons une seule
antenne et certainement une puissance réduite.

Dates : 7 au 13 octobre 2007.
Notre QTH disponible le 7.

Situé près du phare de Hakens Fyr, ARLHS SWE-168 (100m)

Modes : HF, SSB/CW.

Deuxième changement:

DL2RTK sera SD7T (au lieu de SE7TK).

OJ0B WRAPS UP OPERATION FROM MARKET REEF

Minutes before the start of SAC SSB 2007 on Saturday, Martti, OH2BH with the crew at OJ0B reported that they will go QRT at 1400 UTC on Sunday, September 23. This will complete the 2007 OJ0B Market Reef operations, bringing the total to 30,000 QSOs.

Once again, if you are a stamp collector or wish to receive your QSL card with unique Market Reef stamps, you may send an SASE with 7 Euros (10 USD) as your postage/donation to the Finnish Lighthouse Society via QSL manager OH2BH.

If you wish to tour the Reef in the spirit of adventure, you may follow in the footsteps of the August 2007 and November 2005 OJ0B activities:

http://sm0w.com and www.kolumbus.fi/oh2bn/pagemarket.htm

The Finnish Lighthouse Society has been active repairing the lighthouse this summer, and you may wish to follow their activities which include daily reporting and interesting general details.

A special QSL will be available via the operators call (bureau and as well direct)! Tks Guy DL8EBW and MMM on VHF News. [F5NQL]

- From Ric, DL2VFR:

There is a minor change in our plan to activate Ven Island (EU-137):

It might happen that we can start operating with full power and all antennas from the 07th October (Sunday) until 13th October 2007.

On Saturday, the 6th October we will be QRV only with one antenna and maybe reduced power.

Our desired QTH is available from the 07th only.

We are close to the LH Hakens Fyr - ARLHS SWE-168 (100m distance).

Second change:
DL2RTK will be using SD7T (instead of SE7TK).

Other calls are:
SM7DAY/7 - QSL via SM7DAY
SD7W - QSL via DL2SWW

SD7V - QSL via DL2VFR
All via bureau. [F5NQL]

Look for JH0IEW/6 to be active from Minami-Daito Island (AS-047, JIIA AS-047-002) September 28th to October 2nd. He will also activate Kita-Daito Island (AS-047, JIIA AS-047-001) October 2-9th. QSL via home all, direct or bureau. 1 January to 31 December 2007 is Japanese IOTA Islands Award "Activity Year" JIIA Award

OJ0B WRAPS UP OPERATION FROM MARKET REEF

Minutes before the start of SAC SSB 2007 on Saturday, Martti, OH2BH with the crew at OJ0B reported that they will go QRT at 1400 UTC on Sunday, September 23. This will complete the 2007 OJ0B Market Reef operations, bringing the total to 30,000 QSOs.

Once again, if you are a stamp collector or wish to receive your QSL card with unique Market Reef stamps, you may send an SASE with 7 Euros (10 USD) as your postage/donation to the Finnish Lighthouse Society via QSL manager OH2BH.

If you wish to tour the Reef in the spirit of adventure, you may follow in the footsteps of the August 2007 and November 2005 OJ0B activities:

http://sm0w.com and www.kolumbus.fi/oh2bn/pagemarket.htm

The Finnish Lighthouse Society has been active repairing the lighthouse this summer, and you may wish to follow their activities which include daily reporting and interesting general details.

5983. ISP PROBLEMS - EMAIL BLOCKING BY BELLSOUTH.NET DSL

GoWin, Qsl Manager Program

Just a quick note to inform you that my new ISP
has put a BLOCK on my incoming emails. I have tried
for a week to resolve this problem with bellsouth.net,
but have found that their internet tech service in
Iran is incapable of fixing or addressing these problems.
Bellsouth.net appears not to have any customer service
that will assist in resolving any internet problem.
Therefore, send all emails to K1XN or GOLIST to
this address, golist@...
I can retrieve emails from that account. This is somewhat
slower, so my response time to you may be a bit longer.
I am now researching ISP's to find a provider that
does not censor emails sent to the customer. Most all seem
to use the 1990's method of blocking domains and is the most
stupid way to do spam filtering. One caveat while using
gmail.com is they will not accept attachments.
I think it is time to write a letter to the FCC to complain
about the inactions of the bellsouth.net policies of not allowing
a customer's mail to come through.
I will make a change next month more than likely.
Sorry for the inconvenience caused by this insane action by
bellsouth.net.

Iran? That alone would be a good enough reason to dump Bellsouth and find a new ISP, John.

GET READY FOR THE SECOND ANNUAL ARRL ON-LINE AUCTION!

The Second Annual ARRL On-Line Auction kicks off October 24, running until November 2 on the ARRL Web site <http://www.arrl.org/auction>. This is your chance to pick up one-of-a-kind Amateur Radio items. To see what the Auction will offer this year, be sure to check out the Auction preview that begins October 17. Last year, the Auction attracted more than 4300 bidders from 36 countries. While the majority of buyers were from the USA, Canada and the UK, there were buyers from Australia, Malaysia, Grenada and Tanzania.

According to ARRL Chief Operating Officer Harold Kramer, WJ1B, "Last year's on-line auction was our first and it was a great success. When the bidding ended, we realized that we had sold 104 items and we had raised just over $37,000." Proceeds from the auction benefit ARRL education programs including activities to license new hams, strengthen Amateur Radio's emergency service training, offer continuing technical and operating education, as well as creating instructional materials.

This year's auction will include many products tested by the ARRL Lab for QST Product Review. These items include an ICOM IC-7800, a Ten-Tec Omni VII, a Palstar Auto Antenna Tuner, an MJF 974H Balanced Antenna Tuner and a Heil Traveler Headset. There will be many vintage items offered, including the antique transmitter featured in John Dilks' "Old Radio" column in the November 2007 issue of QST. Also, returning by popular demand will be five ARRL Lab unique "junque" boxes.

The only person who can answer your question is the VE station
you are making a reference to. Why not send him an email?

Of course U.S. postage stamps cannot be used in Canada. But some
Canadians live close enough to the border that they send QSL's to
American hams using U.S. stamps from U.S. soil. I have sent a
SAE with a USD to a Canadian QSL manager expecting to receive the
card from Canada with Canadian postage stamps attached but
instead with U.S. postage with a U.S. postmark.

The only person who can answer your question is the VE station you are making a reference to. Why not send him an email?

Of course U.S. postage stamps cannot be used in Canada. But some Canadians live close enough to the border that they send QSL's to American hams using U.S. stamps from U.S. soil. I have sent a SAE with a USD to a Canadian QSL manager expecting to receive the card from Canada with Canadian postage stamps attached but instead with U.S. postage with a U.S. postmark.

I don't recall what started this thread, but Canadian stamps to the US for letters mailed in Canada cost 93-cents plus 14% tax (yes, they tax us on a tax!) so that's $0.93 + $0.13 = $1.06 in Canadian funds. As of last Friday our currencies were equal, so that's $1.06 USD. Before the fall of the US dollar/rise of the Canadian dollar/combo of both (take your pick), US currency was worth enough more than Canadian currency for a single $ USD to cover the cost to send a letter from VE to W.

Not a lot of Canadians are likely to cross the border into the US to mail it from a US post office, although a few on the border (especially QSL managers with high volumes to send) might do it. This is a tricky one, because I can't imagine anyone quibbling over 6 cents . . . but if you have 200 letters to mail, then it becomes $12!

The best thing to do is hope for the US dollar to gain a few cents, because if you send $2 USD, the Canadian guy is making $0.94 cents profit . . .

GoWin, Qsl Manager Program

Hi folks,
Just received a note from Tony, FO5RK, he mentioned that the
planned DXpedition to ROTUMA, 3D2AG/P, is on schedule. This operation
is planned for December 2007 to January 2008. Actual dates will be
firmed up later.
Tony will manage the Qsl requests upon his return home. Qsl only
Direct and please include either $2 USD or 1 irc and a SAE for your Qsl
card. The Qsl cards are being produced by UX5UO and the DXpedition
is being sponsored by SPIDERBEAM.
Upon Tony's return home, he will have his log available Online at
http://www.3d2ag.fr.tc/ . Qsl requests should be mailed Direct to
Tony at his QRZ.COM address.
Listen for the on the air instructions from Tony for a good contact
from Rotuma.
Good luck to everyone.

Greetings fellow Fists,

Next weekend is the annual FISTS Coast to Coast contest. It runs from 1700Z Saturday to 1700Z Sunday. Please pop in on the bands on the normal fists frequencies and listen for the clubs calling CQ C2C. The exchange is RST, Name, State (or 2 character prefix if DX), and FISTS number. Invite your non fists friends. Just substitute Power instead of fists number. eg. 100W. Only clubs will call CQ C2C. Fists members will search and pounce only. Clubs will not be working each other this year so all of their efforts will be in maximizing QSO counts. Their scores are computed differently than fist members. Remember, each club worked counts for 3 points so it's a good opportunity to increase your point totals for various awards. We have ZL and VK clubs participating also. I will be operating the Maltby Radio Club callsign W7MRC. (shameless plug)
One other thing, Stan Reas suggested that 160M operation be included in the band plan for the C2C and I wish I had thought of that myself. In any event, since this is a more relaxed contest than most, I am inclined to change the rules to include 160M operation. Now I know some of you will object or maybe raise your eyebrows at this since it's so close to the event itself. But the C2C was never intended to be a "serious" contest like the CQWW or ARRL DX. It's an opportunity for fists members to collect points and have some fun.

Please DO submit your logs to me at fistsc2c@... after the event. Only stations who have submitted logs will be eligible for inclusion in the results. It would be most helpful if you calculate your score also. The rules for the C2C are posted on the FISTS website at http://www.fists.org/c2c.html Logs should be in plain text and attached to the e-mail as a formatted text file and include date, time, band, call worked and exchage received. I will accept Excel spreadsheets also as long as they are in a version I can read. I have Excel 2000.

Hope to work many of you next weekend
73 Paul NG7Z
C2C manager (W7MRC in the C2C, another shameless plug)

Hi friends

Philippe (ex F8EFU) has received his assignment to Martinique (NA-107, DIFO FM-001). He is there for a while, since Sept 29th, 2007.

After the Dean tornado, work is the less needed thing to do in Martinique, so he has no more connection to phone nor Internet.

His station is on; He uses mainly CW on 30M, with a barefoot 50w into a wire, which will be replaced as soon as possible by a new antenna suitable for DX;

Philippe's callsign is : FM5LD

Correct information readable on QRZ.Com and Online REF-Union call book.

Bonjour à tous,

Voici quelques nouvelles de notre ami Philippe (ex F8EFU).

Comme vous vous en doutez, beaucoup de boulot en FM (NA-107, DIFO FM-001),
mais il est maintenant QRV essentiellement en CW sur 30m depuis le 21/09 avec
une cinquantaine de watts et une antenne provisoire type long fil en
attendant l'installation définitive.

Il n'a toujours pas de téléphone, ni de connexion internet car France
Telecom privilégie la remise en état du réseau avant les nouveaux abonnés. Sa
demande de connexion a été effectuée il y a environ 15 jours maintenant.

J'ai mis toutes les infos sur QRZ.com et vous trouverez Phillippe sous le

Brent VY2HF (ex-VE1JH) and Ken VE3HLS, will be expeditioning on Miscou Island, NB, from Friday 28 September to Friday 5 October 2007.
Our primary purpose is MW Broadcast DX listening, but we'll be capable on VHF/UHF also to alleviate boredom. Miscou (IOTA NA-068) is located on the boundary of FN77 and FN78. We will be staying in cabins in FN77, but may (if weather and time permit and the band opens up) take a shot up the road into FN78. We'll be looking SW to the NE USA most of the time, but if Auroral cx are likely we'll look north. Equip will be a modest setup, FT847 into an SM-50 Moxon. We'll either be signing VY2HF/VE9 or VE3HLS/VE9, phone and CW, listening between 50.110 and 50.125 for signs of any openings, then will be 50.130 or higher (phone) or 50.100 or lower (CW) if things open up nicely.

Listing is by calendar date (day/month/year)
==========

27/09/2007: Richard, G3RWL will be active as 8P6DR from Barbados (NA-021, WLOTA LH-0999) between September 27th and October 14th. He plans to operate CW and digital modes on 80-10 metres; he also hopes to take part in the CQ WW DX RTTY Contest (September 29-30th). QSL via G3RWL, direct or bureau (e-mail requests for bureau cards cand be sent to g3rwl at amsat.org). [425 DX News]

27/09/2007: Philippe (ex F8EFU) has received his assignment to Fort de France, Martinique (NA-107, DIFO FM-001, WLOTA LH-1041). He is there for a while and has been active since September 22nd. After tornado Dean, work is the less needed thing to do in Martinique, as he has no connection to phone or internet. He uses mainly CW on 30m, with a barefoot 50w into a wire, which will be replaced as soon as possible by a new antenna suitable for DX. Philippe's call sign is FM5LD. Correct QSL information is available on QRZ.com and the online REF-Union call book. [F5NQL]

27/09/2007: Special call sign HV50VR, VR for "Vatican Radio," has been authorized for IK0FVC, Francesco, the chief operator and QSL manager for HV0A and HV4NAC, to mark the 50th anniversary of the opening of the Vatican's Santa Maria di Galeria broadcasting center. Look for this special call sign starting September 27th, including upcoming contests. QSL direct to IW0GPN. LoTW is also being looked into. Secondly from the Vatican, Francesco has been given approval to set up a new station, HV6SP. QSL direct to IK0FVC for this one. Details will follow on particulars of this station. [K1XN & GOLIST]

27/09/2007: ARI Velletri members IK0ADY, IK0JBF, IK0OXK, IK0UUM, IK0WHN and IZ0ENB will be active as IB0/IQ0VL from Ventotene Island (EU-045, IIA LT-011, MIA MI-118, WLOTA LH-1403) from September 27th to October 1st. They plan to operate SSB, CW, PSK31 and FM on 10-40 metres as well as on the VHF and UHF bands. QSL via IK0WHN (direct) or IQ0VL (bureau). [425 DX News]

27/09/2007: Uli, DJ9XB, flew to Crete (EU-015) on Monday. Main purpose of this trip is the participation in the CQWW RTTY Contest as J49XB (only) on 15m. All other bands (including 160m if he has enough space for an antenna) will be activated before and after the contest. Uli is QRV only in RTTY. [DXNL]

UPDATE -
==========
01/10/2007: N3A will be operated during the entire month of October in honor of the 3rd anniversary of the founding of the NAQCC. Check the web page at www.usatek.net/~yoel/n3a.html often for any updates. The latest updates will be at the top of the NEWS section. The SCHEDULE will be updated as info is received from the operators. The station may be operated at any date/time between Oct 1 0000Z and Oct 31 2400Z by any of our ops. Frequencies will be close to the standard QRP frequencies. The following lists specific dates/times that we have been made aware of by our ops. There will be MANY unannounced dates/times also so just keep an ear open on the bands. Tom, WY3H will take care of the certificates and QSL's for N3A. To get a certificate, send a large SASE with 97 cents postage or a large SAE and $1.00 to: Tom Mitchell, 210 Garretts Run Road, Kittanning, PA 16201. The certificate is 8 1/2 by 11 inches, so if you don't want it folded, make sure the envelope you send is large enough. 9 by 12 inch envelopes would be ideal. A QSL will be sent with each certificate. If only a QSL and no certificate is desired, simply request a QSL via regular mail (above) or email to (yoel at arm-tech dot net). The deadline for certificate and/or QSL requests is November 30th. [NAQCC]

SEDCO IV is called for 27/28 Sept 2008 at the MainStay Conference
Center, Pigeon Forge, TN.

We have ALL (large conference room!) the facility including 85 rooms
blocked for Friday 26th and Sat 27th (at the MainStay Suites!).
The conference will have a full program on DX and Contesting,
nice prizes, raffles (all proceeds to NCDXF, INDEXA,
Uncle DX printing of the suggested rules for pile-ups)and
DXpeditions), a dinner Sat evening and a catered brunch on
Sunday with speaker.

We appreciate all those attending this year, our super speakers, the
prize/raffle donors, sponsors and the MainStay. It will be even better
in 2008. Pass the word and watch www.SEDCO.HomeStead.com for updates and
lots of pictures soon.

We will announce when the tickets/reservations will be ready later..
watch the webpage.

The leaders of SEDCO III 2007 extend our humble thanks for a fellowship
experience about DXing and Contesting flavored with youth in our hobby.

==========

04/10/2007: Ely, IN3VZE will be active October 4-25th as 7Q7CE from the south west shore of Lake Malawi. This will be a holiday style operation. QSL via home call, direct (Ely Camin, C.rso 3 Novembre 136/2, 38100 Trento - Italy) or by the bureau. [NG3K]

05/10/2007: Elmo, EA5BYP reports that a DXpedition to Bioko Island (AF-010, WLOTA LH-2977), Republic of Equatorial Guinea, will take place from October 5-14th. The call that will be used is 3C7Y. Operators include Fred/KH7Y, Vic/EA5YN, Luis/EA5BRE and Elmo/EA5BYP. They will operate with three stations (one for SSB, one for CW and one for RTTY and 6 metres) with two amplifiers, yagis for 10, 15 and 20 metres, a 5-element yagi for 6m, a rotative dipole for 40m and dipoles for the other bands. QSL via EA5BYP. Further information can be found at: personal.telefonica.terra.es/web/ea5yn/3c7y.htm [EA5YN]

05/10/2007: Jacek/SP5EAQ, Wojciech/SP9PT, Marek/SP9BQJ and Jozef/SP9-31029 plan to operate SSB, CW and RTTY as ZL7/SP5EAQ, ZL7/SP9PT and ZL7/SP9BQJ from the Chatham Islands (OC-038), October 5-18th. QSL via home calls. [425 DX News]

06/10/2007: Miki, YT1CS reports that he has received a license and will operate as 5Z4/YT1CS from IOTA AF-067, starting October 6th until the end of the month. He will also participate in the CQWW DX SSB Contest (October 27-28th). Miki will be QRV mainly SSB using a TS450S, vertical antenna for 40-10m and a dipole for 80m. QSL direct to his home call. [NG3K]

06/10/2007: Claude, F6AEW/p will be QRV September 6th from the Castle of Montecler (DFCF 53-136), located in Chatres la Foret (CP 53400), canton of Evron (DDCF 53-11), Department Mayenne/53 and Province of Pays-de-Loire. QSL via home call, direct or bureau. [F5PRR]

06/10/2007: Patrick, F8DYD will be active October 6th as F8DYD/p from the Castle (DFCF 86-037) and Mill of Visais (DMF 86-019), located in the commune of Béruges (CP 86190) and canton [county] of Vouillé (DDCF 86-30), Department Vienne/86 and Province of Poitou-Charentes. Activity will be on 80 metres, starting around 07:45 local time, then QSY to 40 metres. QSL via home call, direct or bureau. [F8DYD]

06/10/2007: Members of the Island Hunters Amateur Radio Club will activate K1AN/p from Pomham Rocks Lighthouse (ARLHS USA-643, TWLHD WLH K-126) and Sabin Point Lighthouse (ARLHS USA-715), Rhode Island, on October 6th, between 1500-1900z on 14040-14060 kHz, QRP and CW only. A full-colored QSL is available via W1AL. [OPDX]

06/10/2007: Several members of the Workington and District Amateur Radio and IT Group, namely Steve/G0MTD, Paul/M1PAF, Mark/M0WCR and Jim/G7GAG will be active as MS0WRC from Crannag, NE Coast Isle of Barra (EU-010, IOSA OH-11, SCOTIA HI-02, WAB NF70, WW Loc. IO67GA), Outer Hebrides, from October 6-12th. They also plan to travel to Vatersay (IOSA OH-07, SCOTIA HI-01) and Eriskay (IOSA OH-09, SCOTIA HI-05) during the trip and activate WAB Squares NF60, NF70, NF71, NF80, NF81, NL69 and NL79. QSL via MX0WRC or G0MTD. Further

information can be found at: members.aol.com/g0mtd/isle_of_barra_expedition_2007.htm [RSGB IOTA]

06/10/2007: The Singapore (AS-019) Amateur Radio Transmitting Society, SARTS, will be operating special event station S61FD on their Field Day on October 6th and 7th. They will be operating from Changi, Singapore. Operation will be on the HF bands 80 to 10m running 500 Watts to vertical antennas. QSL via the info at QRZ.com. [GB2RS]

06/10/2007: A group of Swedish and German operators will be active from Ven Island (EU-137) and Hakens Fyr lighthouse (ARLHS SWE-168, WLOTA LH-0780) from October 6-13th. Activity will be on CW, SSB and RTTY. The team plans on using high power for this operation. At the moment, the team consists of: Fred SM7DAY/7 (QSL via home call); Frank SD7W (QSL via DL2SWW); Tom SD7T (QSL via DL2RTK); and Ric SD7V (QSL via DL2VFR). QSL all via the bureau (preferred) or if really necessary via direct (they can only accept new IRC; be aware please that 2 USDs barely cover the postage to outside EU). [OPDX]

07/10/2007: The September 23-28th multi-operator activity from Swan Island (NA-035, WLOTA LH-0061) was cancelled, but Javier, HR2J is still determined to go and operate from this rare IOTA group. He now hopes to reach the island by a Navy ship, while the return trip will be by an Air Force plane. Javier will be running a one-man expedition from October 7th to November 8th, and he expects to operate barefoot as HQ8R on all bands for at least four hours a day. Further information can be found on qrz.com under HQ8R. QSL direct to HR2J. [425 DX News]

*Subject: Google's New Feature (very scary). Please read and take action!!!!!
*
Google has implemented a new feature which enables you to type a telephone number into the search bar and hit enter and you will be given the person's name and address. If you then hit MapQuest, you will get a map to the person's house. Everyone should be aware of this! It's a nationwide reverse
telephone book.

If a child gives out his/her phone number, someone can now look it up to find out where he/she lives. The safety issues are obvious, and alarming.

Note that you can have your phone number removed or blocked. I tried my number and it came up along with the mapquest and directions straight to our house. I did fill out the removal form for myself, and encourage all of you
to do the same. Quite scary.

Please look up your own number.

In order to test whether your phone number is mapped, go to: google (http://www.google.com <http://www.google.com/>) Type your phone number in the search bar (i.e.
555-555-1212) and hit enter. If you want to BLOCK Google from divulging your
private information, simply click on your telephone number and then click on the Removal Form. Removal takes 48-hours.

Check your own number and although this may not apply to you if you have an unlisted number or cell phone as primary contact, but you may know someone who needs to know this.

awww come on... very scary... hardly...

This has been a feature on many other reverse lookup sites for years.
Just because Google can do it better is no reason to say the sky is
failling... and besides none of the information is private, it is all
a matter of public record.

Belgium and semi rare PFX :

Hello Maurice & Guy -

I have received my call from Belgium as ON9CMV.

I will be active in Belgium as ON9CMV from October 24th - 30th including a fulltime effort in the CQ WW DX Phone Contest. I'll run high power and will have nice antennas. I believe the ON9 prefix is rare so I hope I can give out the prefix to many stations. Please let others know about my trip so many can get a new prefix on all bands. Please QSL direct or via LOTW.

Thanks & 73
Rich N0HJZ/ON9CMV

News from Mustapha, DL1BDF :

Tunisia :
For the 10th anniversary of the Scouts Amateur Radio clubs of Tunisia, Mustapha will be active from the 3V8CB and 3V8ST, between October 19th to 21st. QSL via bureau, Please NO Direct and NO GREEN STAMPS,, which are strictly forbidden .

Egypt :
The local ITU section is organizing a conference in Cairo, which subject will be : « How Amateur Radio can help handicapped persons to live”. During his stay in Cairo, between Nov 10th to 18th, Mustapha will be active at his spare time from the SU0ARA ARC.

USA Special event :

N3A will be operated during the entire month of October in honor of the 3rd anniversary of the founding of the NAQCC. Check the web page at www.usatek.net/~yoel/n3a.html often for any updates. The latest updates will be at the top of the NEWS section. The SCHEDULE will be updated as info is received from the operators. The station may be operated at any date/time between Oct 1 0000Z and Oct 31 2400Z by any of our ops. Frequencies will be close to the standard QRP frequencies. The following lists specific dates/times that we have been made aware of by our ops. There will be MANY unannounced dates/times also so just keep an ear open on the bands. Tom, WY3H will take care of the certificates and QSL's for N3A. To get a certificate, send a large SASE with 97 cents postage or a large SAE and $1.00 to: Tom Mitchell, 210 Garretts Run Road,

Kittanning, PA 16201. The certificate is 8 1/2 by 11 inches, so if you don't want it folded, make sure the envelope you send is large enough. 9 by 12 inch envelopes would be ideal. A QSL will be sent with each certificate. If only a QSL and no certificate is desired, simply request a QSL via regular mail (above) or email to (yoel at arm-tech dot net). The deadline for certificate and/or QSL requests is November 30th. [NAQCC]

SURINAME

The 4M5DX Group is organizing a DXpedition to SURINAME, to take place in the first half of
January 2008.
A multinational team of skilled and experienced operators is being gathered and plans are to have three stations active for 10 days.
They will operate, as PZ5YV, on all bands (160-6 metres) CW, SSB and RTTY.
Team members will be: OH0XX Olli, SV8CS Spiros, HK1X Pedro, YV5SSB Alex, XE1KK Ramon, YV5TX José, LU8ATX Diego, YV5KAJ Pasquale, PZ5RA Ramon.
Financial assistance is requested to offset the costs, for further information please visit: http://pz5yv.4m5dx.org/

Belgium and semi rare PFX :

Hello Maurice & Guy -

I have received my call from Belgium as ON9CMV.

I will be active in Belgium as ON9CMV from October 24th - 30th including a fulltime effort in the CQ WW DX Phone Contest. I'll run high power and will have nice antennas. I believe the ON9 prefix is rare so I hope I can
give out
the prefix to many stations. Please let others know about my trip so many can get a new prefix on all bands. Please QSL direct or via LOTW.

Thanks & 73

USA Special event :

N3A will be operated during the entire month of October in honor of the 3rd anniversary of the founding of the NAQCC. Check the web page at www.usatek.net/~yoel/n3a.html often for any updates. The latest updates will be at the top
of the NEWS section. The SCHEDULE will be updated as info is received from the operators. The station may be operated at any date/time between Oct 1 0000Z and Oct 31 2400Z by any of our ops. Frequencies will be close to the standard QRP frequencies. The following lists specific dates/times that we have
been made aware of by our ops. There will be MANY unannounced dates/times also
so just keep an ear open on the bands. Tom, WY3H will take care of the certificates and QSL's for N3A. To get a certificate, send a large SASE with 97
cents postage or a large SAE and $1.00 to: Tom Mitchell, 210 Garretts Run Road,

Kittanning, PA 16201. The certificate is 8 1/2 by 11 inches, so if you don't
want it folded, make sure the envelope you send is large enough. 9 by 12 inch
envelopes would be ideal. A QSL will be sent with each certificate. If only a
QSL and no certificate is desired, simply request a QSL via regular mail
(above) or email to (yoel at arm-tech dot net). The deadline for certificate
and/or QSL requests is November 30th. [NAQCC]

SURINAME

The 4M5DX Group is organizing a DXpedition to SURINAME, to take place in the
first half of
January 2008.
A multinational team of skilled and experienced operators is being
gathered and plans are to have three stations active for 10 days.
They will operate, as PZ5YV, on all bands (160-6 metres) CW, SSB and RTTY..
Team members will be: OH0XX Olli, SV8CS Spiros, HK1X Pedro, YV5SSB Alex,
XE1KK Ramon, YV5TX José, LU8ATX Diego, YV5KAJ Pasquale, PZ5RA Ramon.
Financial assistance is requested to offset the costs, for further

I just checked LOTW and he never has uploaded anything. He probably
just signed up but uploaded nothing.

Has anyone gotten a LoTW confirmation from EA9EU? I see the GOLIST
notes he confirms by LoTW. I have quite a few Q's with him. One
would think if he uses LoTW there would be some confirms.

Just wondering.

No Ron, my info came from his qsl manager. It is a routine
question in my confirmation/verification messages that I
send to Qsl Managers when inquiring about Qsl routes.

I have contacts going back to 2001 which I have submitted to LoTW w/o
any confirms from EA9EU.

Perhaps they will come thru eventually.

Does anybody know if there are suppose to be some on-line logs for the 3C7Y station? I went to their website,
http://personal.telefonica.terra.es/web/ea5yn/3c7y.htm
but the logs for this trip is not there. So didn't know if they will appear later or someplace else.

Bob,

The logs have not been uploaded yet. They are supposed to be uploaded daily.
